Persons having small articles, suitable for a flea grab bag, are asked to send them to school or give them to a committee member.

On Wednesday evening, Feb. 13, the Charlevoix-Huron City Veterans' basketball game will furnish an excellent opportunity to enjoy thrilling sports, and at the same time contribute to the uniform fund by attending. All proceeds will go to the Band Uniform fund.

The sale of "Dress Up the Band" tags started this week. Everyone will be contacted by band members and asked to contribute a minimum of one dollar to the fund. Then, on Feb. 26, the band will stage a rally and celebration concert to which tag holders are invited.

State Trapper Gives Tips to Club Members

Bad and gun club members and their guests turned out en masse last Thursday evening and were rewarded with a fine lecture on trapping by State Trapper Fisk. Besides the lecture, movies on conservation and game hunting were enjoyed. The program was a regular feature of the organization's meeting night, and was held at the L.A.V.P. hall.

Trapper Fisk, after giving the local hunters many fine tips on how to catch predatory animals, conducted a question and answer period in which he amazed his listeners with the technique and cunning employed in luring the wary animals.

Scout of human beings will tend to inform the animal that something is amiss, he told his listeners. And went on to say that a canvas, used to kneel upon at the site when trapping, must be held in a solution, to keep all human scent from the bait or trap. Of course, he said, gloves, also washed in a solution, are always used.

The committee in charge of arrangements are to be commended for this fine informative and interesting program.

A possible preliminary indication that red fox may have passed their peak in abundance in Michigan is reported by the Conservation department.

Vern Doekum, conservation officer stationed at Mts in Oscoda county, and Ralph Fisk, department trapper-instructor in the Mio-Gaylord district, report that fox populations are 50 per cent under recent high levels in some areas in their territory that were not trapped last fall. In other areas, where trappers operated, many of the fox that were taken were in poor condition.

The committee in charge of arrangements are to be commended for this fine informative and interesting program.

4-H Leaders Meet Here

Discuss County 4-H Camp for Charlevoix County

Twenty-three 4-H club leaders and guests met at the Charlevoix high school Tuesday evening, Feb. 5. The meeting opened with a dinner served by the band members in the Home Economics room, under supervision of Miss Margaret Strehl.

State club leaders, Mr. Lundin and Miss Ada Hough, of Lansing, K. C. Fosterling, district club agent, Ed Rehman, county agricultural agent, Miss Emma Perro, Extension Food Specialist, and Miss Frances Milner, principal of the Charlevoix Elementary school, were among those present.

After dinner group singing was enjoyed, after which Mr. Fosterling gave a demonstration on work with plastics in handicraft. Mr. Lundin instructed the handicraft leaders while Miss Hough gave the sewing leaders highlights in fashion and workmanship.

Among the topics discussed at the meeting was a county 4-H camp for Charlevoix county. The leaders feel that it is possible and that the project is worth consideration.

It was also announced that the Spring Achievement Day will be held in East Jordan this year.

A social hour added to the evening's enjoyment.

Lenore Goldman Myer Memorial Fund Helps Those Less Fortunate

The Lenore Goldman Myer Memorial fund is a charitable organization, carried on locally by a committee, organized to help those less fortunate, by contributing food, clothing and shelter to the needy. Donations alone serve to keep up this fine organization.

The work and purpose of this organization run probably best be summed-up from a recent letter of a beneficiary of the fund, received by Robert Bridge and the committee. It reads in part:

"I have meant to have written before, but with my trouble and worry, I have neglected to write and thank you, Mr. Myer and Mr. Bridge for all you have done for the children. I can't express all that it has meant to me. They have been comfortable with your help. I want to thank you all many times over."

Kindly interesting letters, praising the fund committee, have been received.

"During the past five years this fund has spent over \$4,000 on food, clothing, shoes and other necessities for needy families and for emergency relief, adding more than 150 families in this period," Mr. Bridge stated.

Contributions are received from summer visitors and local residents, and all are gratefully received, regardless of the amount. Birthdays, anniversaries and other occasions are remembered by a contribution to the fund. A card is sent by the local committee to the honored person, giving the names of the donor and a receipt is sent to the contributor. Recently more than 150 persons made contributions.

The Lenore Goldman Myer Memorial fund was instituted in 1940 by Mrs. A. D. Goldman and Jess S. Myer in memory of Mrs. Lenore Goldman Myer. Local committee consists of Mr. and Mrs. Arthur Ranger, Mr. and Mrs. Robert Bridge and Mr. and Mrs. Wm. E. Meyer, who have spared no effort in administering the funds for the aid of the needy.

Few communities are favored by having a charitable organization of this nature. And to have it administered without expense by local people who know and are interested in the welfare of the community is an added benefit.

STATE OF MICHIGAN
In the Circuit Court for the County of Charlevoix, In Chancery.

No. 126-4
In the Matter of the Petition of John D. Morrison, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

To the Circuit Court for the County of Charlevoix, in Chancery:

John D. Morrison, Auditor General of the State of Michigan, respectfully shows unto the Court:

That he is the Auditor General of the State of Michigan and makes and files this petition under, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 125 of the Public Acts of 1935, as amended:

2. That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes, which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent, the description of all lands in said county heretofore bid off in the name of the State and thus held and upon which taxes which were assessed subsequent to the tax for which such lands were sold to the State have remained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county which are delinquent for any installment of taxes under the provisions of the act last above mentioned;

3. That extended separately in said schedule against each description of said lands therein contained are (a) the total amount of delinquent taxes upon said descriptions for the non-payment of which the same may lawfully be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of May, next ensuing, (c) a collection fee of four per cent and (d) \$1.00 for expenses, all in accordance with the provisions of the act first above mentioned;

4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which extended in favor of the people of the State of Michigan, the payment of which this Court may enforce as a preferred or first claim upon such lands by the said thereof.

Wherefore your petitioner prays:

a. That within the time provided by law this Court may determine and decree that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended;

b. That within the time provided by law this Court make a final decree in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained;

c. That said decree provide that in default of the payment so ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount decreed against the same, shall severally be sold as the law provides;

d. That your petitioner may have such other and further relief in the premises as to this Court may seem just and equitable.

And your petitioner will ever pray, etc.
Dated: December 27, 1945.

JOHN D. MORRISON,
Auditor General of the State of Michigan,
for and in behalf of said State.

BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY INTERNATIONAL BIBLE BROADCAST

Question—When do the words of Psalm 2:1 apply: "Why do the heathen rage?" (One version gives "natives" for heathen).
Answer—"The apostles Peter and John applied these words of the second Psalm as a prophecy of the acts of Pilate, Herod, and others against Christ. (See Acts 4:24-30)."

Q—Where in the Bible does it explain planting by the moon?
A—"There is no Bible instruction about planting by the moon, but Psalm 104:19 says: "He appointed the moon for seasons." And in Deuteronomy 33:14 we read of "the precious things put forth by the moon." In the American Revised Version, the margin says "months."

Q—What is the real mission of the Christian church?
A—"Christ's great commission to His people is found in Matthew 28: 19, 20: "Go ye therefore, and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Ghost; teaching them to observe all things whatsoever I have commanded you: and, lo, I am with you always, even unto the end of the world." (See Acts 1:8).

Q—Why does Daniel 4:17 say that God sets up over the kingdom "the basest of men"?
A—"Some of the greatest and some of the meanest of men have sat upon the throne. Pharaoh was one of the wicked kings who was raised to the throne by God's providence for a purpose. Read Exodus 9:16: "And in very deed for this cause have I raised thee up, for to show in thee My power; and that My name may be declared throughout all the earth."

Q—Did Christ refuse to see His mother at one time?
A—"This question may refer to Matthew 12:46-50. It is not said here that the Saviour refused to see his mother and brothers, but He was making use of the opportunity to show that all are members of His spiritual family. "He answered and said . . . Who is My mother? and who are My brethren? And he stretched forth his hand toward his disciples, and said, Behold My mother and My brethren. For whosoever shall do the will of My Father which is in heaven, the same is My brother, and sister, and mother."

Question—What is the object of God's law?
Answer—Romans 3:20: "By the law is the knowledge of sin."

Q—What is faith, anyway?
A—"Bible faith is believing God's Word so that one acts in harmony with His will. "Now faith is the substance of things hoped for, the evidence of things not seen." Hebrews 11:1. Read the entire chapter.

Q—Can backsliders ever return to God?
A—"Yes. Notice the Lord's appeal in Isaiah 44:22: "I have blotted out, as a thick cloud, thy transgressions, and, as a cloud, thy sins; return unto Me; for I have redeemed thee." Those who have wandered away are urged to return. (See also Jeremiah 3:12.)

Q—Is there anything in the Bible against gossip?
A—"Try Psalm 15:2, 3: "He that walketh uprightly, and doeth worthy things, speaketh the truth in his heart. He that backbiteth not with his tongue, nor doeth evil to his neighbor, nor taketh up a reproach against his neighbor." Read also Galatians 5:14, 15; 2 Corinthians 12:20; Proverbs 25: 20.

Q—Was there a prophecy of Christ that called Him a "Star"?
A—"Numbers 24:17: "There shall come a Star out of Israel." And in Revelation 22:16, this emblem is applied to Christ—"I Jesus have sent Mine angel to testify unto you these things in the churches. I am the root and the offspring of David, and the bright and morning star."

Q—How can all the saved people get into the New Jerusalem?
A—"According to Revelation 21: 3: "And the city lieth foursquare, and the length is no larger as the breadth; and he measured the city with the reed, twelve thousand furlongs. The length and the breadth, and the height of it are equal." At eight furlongs to the mile, the city is 1,500 miles in circumference, or 375 miles on each side. Its area is 340,625 square miles, or 90,000,000 acres, or 3,920,400,000,000 square feet. Allowing 100 square feet to each person, the city could contain 39,204,000,000 people—probably more people than have ever lived in the world. The present population of the earth is about two billion.

Forward or Backward?

Never in the history of our city have we had a better opportunity to go forward. Vital issues now confronting officials demand instant attention and immediate ACTION!

The question of where to put the new Court House is of vital importance (even though it may not actually be built before 1950). A modern hospital is planned. A Federal building is slated for our city. The State Police Board is considering Charlevoix as a location for a police post for this area.

Charlevoix well needs these new structures.

There can be no question of the need of a court house. Likewise the new hospital plan should go forward and should be commenced at the earliest possible date.

A modern Federal building CAN be obtained and would be a great asset to our city.

A State Police post will be erected in this area. With thousands of summer visitors coming to our city each year, WE NEED IT!

All of the above proposals are vital and necessary.

And What About The Veteran?

Is the veteran forgotten so soon? Most local veterans, after fighting it out with the Krauts and Japs, have returned to the city of their choice—Charlevoix—the Beautiful! But what does it mean to the veteran, why cannot Charlevoix give these returning Vets a CHANCE to earn a livelihood and make their homes here? Why can't we, as a city, encourage the building of factories which would create work for the veteran?

Are building codes too strict in our city? Are ordinances unjust? City and county officials alone have the answers to the above questions! Action now may save much embarrassment later!

Will these officials wait for other nearby cities and counties to grasp the opportunity that is knocking at OUR DOOR? Or will they act in time!

IT'S TOO BAD!

WE CAN threaten you with dire consequences if you don't carry sufficient insurances on your property, but we can't make you buy it!

Yet it's true that losses occur unexpectedly and unusually when you can least afford to stand them.

East Jordan '51 Bow to Rayders

By DAVID A. HAMILTON
Charlevoix walked East Jordan last Friday night by the lopsided score of 50-17. East Jordan started off like a house afire, but CHS soon put out the flames and easily sent East Jordan down as their ninth straight conference victory.

East Jordan made the first point on free throw which opened the only exciting part of the game. The Jordanites started out fast enough but the pace couldn't be held for long and CHS soon came through in typical style overtaking them. The quarter looked like it might be close when Shulair made the first point and then H. Ward made our first basket. In no time the score was 3-3, then 5-5, but that was as far as East Jordan was able to go in the first quarter, while the Rayders plowed ahead to lead 13-5.

East Jordan just didn't seem to play our kind of ball and the second quarter went on the books as a repetition of the first. The tally proved it, 25-10.

East Jordan started the second half fast but CHS was just a little faster. In a minute and thirty seconds the locals had run up 7 points, 6 of these coming within 20 seconds of each other. Speed, team-work and old-fashioned razzle-dazzle piled up the points in this period to the tune of 39-14.

The last quarter's only exciting moment came when the score was 48-17, and the boys were striving to make it 50 even. F. Martin came down the outside lines, halted, shot and sank a perfect basket 5 seconds before the final whistle.

According to our tables, H. Ward and Capt. Hardy are tied for first place with 11 points; R. Carey, second with 10, Hitchcock, Sienhir and Weisler tied for the Jordanites with 3 points apiece.

These score follows:

MEN'S BROTHERHOOD ENTERTAIN WIVES

The Men's Brotherhood of the Church of God held their February meeting Thursday evening at the Dean home, 223 W. Park avenue, with their wives as dinner guests.

The decorations gave a patriotic accent. The American and Christian flags were placed behind the speakers' table, where red, white and blue tapers burned. Name cards had the black silhouette of Abraham Lincoln above a colored flag.

Songs were sung while the 48 guests were being served. The President, C. J. Fiedler, was chairman for the occasion.

Dr. F. F. McMillan gave an informative and entertaining speech on Abraham Lincoln.

Kiwanis Notes

Our immediate past president, Dr. F. F. McMillan, addressed the club on "The Lessons to be Learned from the Lives of Washington and Lincoln" at our Feb. 11 meeting. Stressing the danger of interference by the legislative, executive or judicial branches of the government with the prerogatives of men under the law, and not a government of men, he was ably assisted by Mrs. Harry Stewart and Mrs. Ron Abfalter in their portrayal of the spirit of Washington and Lincoln respectively. Their costumes were designed by Mrs. Rosa Nettleton for the occasion.

Roy Bennett, superintendent of schools, has been admitted to membership. Installation by Howard Brumm.

We voted unanimously to support the campaign to "Dress Up the Band." Our committee is Robert Bridge, Dr. D. C. Nettleton and Harry Bingham.

The Michigan District honored us by appointing two of our members to state committees, Robert Bridge was appointed to Public Affairs and Fred Bancroft to the Support of Churches.

The quartette, composed of "Cun" Rose, Dr. D. C. Nettleton, Robert Miles and Charles Hamlin, entertained. Their rendition of an imitation of a girl chorus was superb.

We extend greetings to the Boy Scouts on this "Boy Scout Week" and thank "Mike" Hamlin and George LaBlance, Jr., for their fine work as scoutmaster and cubmaster respectively.

Meyer Levinson is an authority on eating and sleeping accommodations in the Southland. Before taking a trip, better consult him. "Boh" Sloan has the good wishes of the club for a pleasant journey and a safe return from his trip through the South and Old Mexico. He plans to leave Feb. 12.

Guests were: Max Smith of Petoskey, Pfc. Elmer Gibson, Robert C. Miles and "Cam" Rose.

Nachazel's Entertain Junior Farm Bureau Members.

The Junior Farm Bureau members met at the home of Margie and Bob Nachazel, Feb. 5. Discussion was held on the future joint meeting with Antrim county members.

A new president was elected, and refreshments were served.

Measles Epidemic Rises In State

Hope that Michigan's death toll from measles during the 1946 epidemic may be the lowest of any epidemic year was expressed by state health commissioner, Dr. William DeKleine, as physicians' requests mounted for gamma globulin, which makes measles milder and lessens chances for complications.

During January the health department distributed 2,639 vials of the blood derivative, gamma globulin. Only 1,347 vials were requested during the entire previous six months.

This is Michigan's first measles epidemic since gamma globulin was added to the health department's list of free laboratory products. Dr. DeKleine stated that "if every child under five years of age were given gamma globulin soon after exposure, most measles deaths would be prevented; measles is most dangerous to this age group."

Dr. DeKleine warned parents that the effectiveness of gamma globulin depends upon taking the child to a physician for this injection five days after exposure. When the rash appears it is too late to modify measles.

Michigan's predicted measles epidemic is gaining momentum; 3,256 cases were reported between January 1 and February 8, against 106 for the same period last year.

Sam Hackney has a trade mark

Before Sam Hackney got successful, his wife used to make his bow ties for him. They came out an inch longer than average—and Sam came in for a lot of ribbing. But he only smiled and took it.

Of course, Sam doesn't need to economize now; he's one of the best real estate men in the country. But he still wears those long bow ties. Prospective customers may not remember his name or his face, but the minute they see Sam, they say, "That's the feller!"

The bow ties work like a trade mark—something to remember and identify.

And Sam has another trade mark, too: the glass of beer he buys his client after every deal is settled. Sure, it's a friendly gesture... but more than that, it reminds Sam's clients that he's a man of moderation and good taste—dependable and temperate. Sam's no fool!

Farm Topics

By Ed. Reberman
Convenience should be a byword around the cattle barn and swine houses. A step saved here, a motion saved there adds up to many hours of work saved during a year's time.

The beef cattle raiser will be interested in at least three of the displays to be shown at Petokey on March 13th. One is the squeeze chute that makes it easy to handle and restrain, with complete safety, cattle that are to be given Bang's or T. B. tests, dehorned or other treatment.

The feed bunk is another convenience item that prevents any waste of feed. Still a third is a movable loading chute that saves labor when livestock are to be shipped. If properly constructed the chute banishes risk of injury to the animal and the attendant.

For swine raisers the displays will include a self feeder that eliminates waste; a hog waterer that provides an ample supply of water and saves feed; and a pig brooder that will save more pigs in each litter and reduce time during the farrowing season.

Tests prove that liming materials should be applied according to soil test and the need of the crop. Some crops prefer soils that are neutral or only slightly acid, while other crops thrive on more acid soils. An example is the potato which doesn't seem to care if the soil is strongly acid.

Over liming has resulted in a lack of boron which reduces yields of beets on some fields and made manganese so unavailable

in some soils that oats, beans, peach trees and other crops have suffered. On the other hand, many of the failures of alfalfa, sweet clover and red clover are caused by lack of lime. Fields that were limed some years ago have lost that lime and the soil is acid again.

To make sure whether you should lime, take a sample of soil to the office of the county agent. A report will be returned telling the soil reaction. Whether lime is needed, and if so, how much.

Founder's Week Observed Here by Food Chain

The originator of the modern chain store will be honored here next week, February 10 to 16, by the A & P Food Stores.

Local observance of Founder's Week, announced by C. Wall, vice president in charge of the company's operations in this area, will pay tribute to George Huntington Hartford, who, in 1859, opened the first red-fronted store in what is now the world's most extensive system of food distribution.

"Mr. Hartford founded more than a grocery business," Wall said. "He fathered a principle of mass distribution which in its 86-year history has not only helped establish a high standard of living for American wage-earners but has also provided industry as a whole with a blueprint for public service."

"All of the company's facilities are now being directed toward improving the quality and variety of foods. During the war, consumers were tolerant of substitutes for scarce items but, with the return of peace, they have become highly selective in their purchases, and their demands must be met."

"Speedier transportation, direct farm-to-store deliveries, modern packaging and better refrigeration will enable distributors to bring foods to market in better condition," he pointed out. "War-time scientific developments also have been enlisted in an effort to improve food processing and to help eliminate waste and spillage as factors in food cost."

By The Editor

Policeman Glenn Rosa has been on the sick list lately. Can't be that those brooms and mops from the Kroger store you carried back last week had anything to do with depleting your reserve, did it Glenn?

Ralph Shetterly, new owner of the former See building, was a pleasant visitor at our office. Mr. Shetterly is endowed with a fine personality and otherwise has great business ambitions for a future Charlevoix.

While inspecting the kitchen of the Sugar Bowl Cafe one day last week, we came upon a very unique picture, which hung on the wall. Inscribed below it was—Lowell and Julia. The pair of Angora kittens bear the identical names of the popular restaurant owners.

Come to our desk this morning a check for the fund, in the amount of \$25.00. Alvin D. Goldman of 721 Olive street, St. Louis, Mo., who signed the welcome gift, writes: "I read with special interest an article about the Charlevoix band, and because of its appeal, and my interest in everything connected with Charlevoix, please put the enclosed check for \$25.00 to the fund for the band. You don't need to publish my name on this, as I just want to help a good cause along."

Years is a fine spirit, Mr. Goldman. I'm sure band members will remember your kindness!

From Master David Lynn Fischer of 11680 Yosemite street, Detroit, young son of Mrs. Frances L. Fischer, comes a crisp new dollar bill for band benefit. Thank you David Lynn.

Mrs. Ray H. Goodwin of 107 Mitchell st., Petoskey writes: "I'm interested in the band, because I went to school in Charlevoix. Here's two dollars. Hope the fund is growing fast!"

A guy who believes in giving speedy service is dynamic Guy L. Smith, local carpenter and handyman. The Missus puts in a call for his services in building a cupboard. Presto! It's hand-made, assembled and up the walls of our kitchen next day.

Steve Dubell handed us a second ten dollar bill for band uniforms. Your generosity, Steve, is exceeded only by your fondness for band music, and love of Charlevoix students.

Mrs. Louis Wallace hurried over with another dollar check to help the fund along, and also to help save our nose. She wouldn't like to see ye editor wearing off the tip of our nose, pushing a pennant down Main street just because we failed in our attempt to raise \$500 through this column.

This is the only country in the world that is able to assist these unfortunate orphans and everyone, especially those of Czechoslovakian descent, are asked to aid their countrymen.

Many local people have already contributed money to the fund, and anyone else desiring to do so, may leave it with Olga Jancha, Charlevoix hospital; Frances Martin, 206 Nichols street, or mail to Mrs. Stanley Jancha, R.R. 1, or send direct to American Relief for Czechoslovakia, Inc., 3917 West 26th street, Chicago 23, Ill.

Mrs. Abfalter Club Hostess

Mrs. Jeanette Abfalter was hostess last Tuesday to members of the Tuesday Study Club. As planned, the members came attired in colonial costume, each to represent some particular personage or some special colonial period.

In keeping with the occasion, a sumptuous dinner had been planned by a special committee and prepared by the various club members. The tables were beautifully decorated with a centerpiece of red and white snapdragons. The soft glow of the tall red tapers completed the perfect colonial setting for the dinner.

The program committee had asked each member to prepare a short description of the person or period she represented. These, in the form of prose or poetry, were most interesting. Following this was a short historical comedy, depicting the life of the Indians and some of the early settlers.

Because of the unique manner in which the program was presented, it proved highly entertaining.

Kiwanis Club Solicits \$547 For Fund

Other Clubs, Organizations Sponsor Benefit Parties In Effort to Attain Goal

Contributions received for the band uniform fund indicate that the drive will be successful and that the needed amount will be forthcoming before the deadline, Feb. 28.

Not all organizations have been heard from at press time, but contributions are still coming in for the uniform fund. A total of \$959.90 is listed for the drive, at press time. This does not include the Avenue column fund, which now stands at \$285.00.

The Kiwanis club was asked to raise \$500 for the band uniform fund and a committee consisting of Harry Bingham, Robert Bridge and Wm. F. Meyer, contacted businessmen and other citizens, many of whom had already made contributions to other organizations, but were very generous and favorable to the committee.

The Kiwanis club is deeply appreciative of the assistance and generosity shown by local citizens, for their contributions totaling \$547 for this worthy cause.

A complete list of contributors will appear in next week's Courier, when the drive is scheduled to terminate.

Price Control Board Located In Petoskey

Residents of Charlevoix county are advised that the Price Control Board serving them is now located in Petoskey, according to Asmus Petersen, chairman of Board No. 33-241, which serves the newly consolidated Emmet, AuTrain and Charlevoix area.

"When the former Charlevoix County War Price and Rationing Board, as it was known, was consolidated with the Emmet County Price Control Board, many persons got the impression the price control was over in their community," said Mr. Petersen. "Of course, this is not true. The elimination of all rationing at the boards, and the necessity for effecting economy of operation, made it necessary to consolidate throughout the entire state. Where there were once 148 War Price and Rationing Boards in Michigan, there are now 66 Price Control Boards. Even the two District offices, Grand Rapids and Saginaw, were combined with the Detroit office to form a state office of price administration."

Mr. Petersen urged all residents to continue to observe price control regulations and to report all over-ricing prices in person, by phone or by mail. He added that the Board personnel would be ready to answer all questions and complaints regarding local price control activities.

USS Charlevoix Does Her Part In World War II

When historians record the Naval feats of World War II, ships named for Western Michigan landmarks will be found to have played prominent roles.

Among 10 cargo ships supplying ships and bases in the Pacific with food and equipment was the USS Charlevoix. Routing orders have taken her to such ports as Balboa, Manus, Hollandia, Subic, New Britain, Jacquot Bay, Pines, Guam, Pearl Harbor. Her ship's company was one of the youngest at sea, averaging 23 years.

The USS Charlevoix was built by the Froemming Bros. Inc. of Milwaukee for the Navy and was launched in the Kluickinnie river on May 12, 1944. She was the second coastal carrier of that class built at Milwaukee and was 388 feet long, 5,000 dead weight tons, had a beam of 50 feet, single screw and diesel-powered. She had a speed comparable to a Victory ship.

The ship, too large to be taken through the St. Lawrence waterway to the ocean, was taken there via Lockport, Ill., where the stern was floated on pontoons. She was towed down the Illinois and Mississippi rivers through New Orleans, La., to the Gulf of Mexico.

"Dress Up The Band" drive ends February 28.

Twelve Victories For Rayders

Kipkemen Win Two More Games Last Week

By DAVID HAMILTON

Charlevoix Red Rayders kept their record clean by eking out another victory over the Boyne City Ramblers last Tuesday evening, by the score of 29-25.

From the opening whistle the Ramblers went for wide open attack and had the CHS ends swimming before long. It wasn't until the last minutes of the quarter, with Bobby Carey's free throw, that Charlevoix pulled ahead and set the score at 10-9 in our favor.

Holding Boyne down to four points took expert ball handling by our lads. The Ramblers tried fouling and, out of five attempts at free throws, four were completed, but the locals were still in the lead, 16-13.

Steady plugging got CHS into the twenties in the third quarter, while still stemming the Black and Red attack. Ward and Hardy

made two beautiful shots which slowed the Ramblers to a crawl.

In the final quarter, everyone expected an overtime period to be played as Boyne caught up with us, but "good sportsmanship" will always prevail and Charlevoix moved them out. All in all the game was a very close one. Bernie Ward and R. Carey were high point men for the Rayders with 12 and 9 points respectively, while Miller and Tooley each had 6 and Delaney 5 for the Ramblers.

CHARLEVOIX vs. GAYLORD

Gaylord almost upset the "Apple-Cart" last Friday but were defeated, in the most exciting game of the season. From the beginning it looked as though Gaylord was the team to defeat Charlevoix, with fast plays and maneuvers.

The first half saw CHS behind. But the third quarter, the locals broke through and pinned the Gaylordites down solid.

It took the meager crowd only a few minutes to get in the mood but after that, the game was very exciting with Gaylord taking the lead very easily. CHS came through in the dying seconds of the first quarter and "ups" the points to 7, which sets it at 8-7, favoring Gaylord.

In the second quarter, the locals fell behind again and Gaylord played fancy and free ball, literally walking all over the Rayders. Capt. Hardy palls his boys together and as one man they climb right up to the top. The horn sounded as the crowd stood up and cheered the boys again.

Tally stood: Gaylord 14, CHS 12. The third period saw an old time first string in the fight. They made good their name as Northern Michigan champs. Zietler, midway in the period, started the ball rolling by tying Gaylord with a long field goal. After a grueling struggle under the basket, CHS comes out with 4 more points and then more and more, while holding Gaylord down, they ran it up to 22. Tally was: Charlevoix, 22; Gaylord, 14.

The fourth quarter saw "buck-etball" in evidence throughout. Game ended with another win for the locals, 30-20.

Farm Topics

By Ed. Reisman

As part of the Michigan State college Rural Caravan, which will be shown at the County Garage at Petoskey, March 13, local persons will display original labor-saving ideas and devices.

Any farmers with ideas for reducing labor on the farm are asked to contact Ed Reisman at Boyne City before March 1.

When the caravan arrives in Petoskey, it will include models, displays and equipment, which were the products of Michigan farms and research laboratories of Michigan State college during the war.

One of the great labor-saving agents developed during the war is the wetting agent that takes the drudgery out of cleaning dairy utensils.

Wetting agent compounds are now being prepared commercially and are available in larger volume at dairy supply houses. Their use is resulting in much cleaner milking machines, separators, milk pails and other equipment. These utensils can be kept shiny and sanitary, completely free of milk stone, by using the wetting agents.

Among the serious accident hazards on the farm is the bull. An angry bull can kill in a matter of seconds.

One of the best precautions is a strongly-built, well-planned bull pen. A model of an ideal pen will be on display. A gate and breeding chute are desirable accessories, and plans will be available at the caravan exhibit.

Calves that have been removed from their mothers can be raised the easy way; or, they can be raised the hard way. Any farmer can choose the easy way by using a newly-developed nipple pail.

Just fill the bucket, hang it on a peg and the calf does the rest. A calf nursing by this method doesn't gulp its milk. The pail at proper height causes the milk to travel into the proper digestive canal, thus preventing the frequent digestive upsets that plague many calves.

ILKA CHASE, star of MBS' Sunday "Ilka Chase Obscures" program, has just dotted the last "t" and crossed the last "t" of her new novel, "I Love Misa Tillie Bean," which will be placed on sale in the spring.

Jess (Mr. Frank) Kirkpatrick, who plays the egg man on Marlin Hurt's "Beulah" Show, over CBS, has attracted the attention of film executives who heard his voice imitations on the air. He has just been voice-tested for a cartoon narration by 20th Century-Fox. Phil Baker was so impressed by the appearance and speaking voice of Sgt. By the time the CBS quiz ended, the GI had received two bids for screen tests.

Bell Telephone Almanac Printed

After a lapse of a year, the Bell System's Almanac is off the press and copies may be obtained at the Michigan Bell Telephone Company office.

The Almanac, in addition to other information, lists major dates in American history and provides a brief history of telephone development in the United States. It, likewise, provides an insight into future developments, including the installation of telephones in motor vehicles and the transmission of television by the Bell System.

For the first time, Almanac readers are provided with a "capsule" history of World War II. Twenty-eight historic events of the war are listed, starting with Germany's invasion of Poland Sept. 1, 1939, and ranging from General MacArthur's famous answer, "Nuts," to German surrender demands at Bastogne Dec. 28, 1944, to the dropping of the first atomic bomb on Hiroshima Aug. 9, 1945.

A special section outlines the Bell System's plans for rural telephone development and which the Michigan Bell will spend \$13,596,000 within the next five postwar years. The plans call for new economies in construction of lines and new developments for providing, improving, and extending the service.

From where I sit... by Joe Marsh

Bird's-Eye View of America

A fellow took an aerial photograph of our town, and it makes the place look like Utopia.

Folks argued that the new firehouse would never look well beside the old Town Hall. But they harmonize perfectly from the air. One side of the railroad tracks looks as good as the other. All the different landmarks blend in nicely with surroundings.

From where I sit, there's a lesson in that photograph. A community's made up of different elements—people as well as landmarks. Some

vote one way, some another; some enjoy a glass of beer and others don't. You might think there was a lot of reason for friction.

But it's all in your point of view. Get up high enough—see the community as a whole—and those little discords blend together into what we call America—a free, harmonious land. The differences only look big to people who see them from too close!

Famous Thrills!

1930, Sept. 27, Ardmore, Pa.: History was made here today as BOBBY JONES overwhelmed his opponent to win the United States Amateur Golf Championship. By his victory, the young Atlanta barrier achieved a goal no other golfer has been able to reach—in a single year to win all four of the major golf titles: the British Open, the British Amateur, the U. S. Open, and the U. S. Amateur. Jones' "grand slam" of golf climaxed eight consecutive years of competition in which he had always annexed one of these titles, and twice had taken two of them.

1946, anywhere in the Midwest, another great thrill! Split-second starting with Standard Red Crown or Standard White Crown Gasoline, now stepped-up with aviation fuel ingredients. Yes, there's a thrill you'll appreciate these cold days. Quick starts... flashing pick-up... full, smooth power... thrifty mileage. Find out, today, how well your car can perform. Let's get down to fundamentals

$2\frac{2}{4}$

OUR AIM is to provide the kind of telephone service you want.

We have no choice but to grow as the demand for our service grows. That's our public responsibility—and we like it that way.

Right now, the demand for telephone service is at an all-time high. To meet it and prepare for future growth, we have a 5-year post-war program under way that will cost \$120,000,000.

Money to finance that program must come from thrifty people who are willing to invest in Bell System securities. If our prospects for future

earnings are less attractive than those of other companies, folks will invest their money elsewhere.

In recent years, the rate of Telephone Company earnings has been declining until at the end of the war it was far below the average of other industries.

So it boils down to this:

Too long a continuation of a rate of earnings substantially below that of other industries would weaken our ability to raise the money required to meet expected telephone needs.

The future quality of your telephone

service depends on telephone rates that will produce earnings attractive to investors.

We believe our customers want good telephone service, even if it costs a trifle more than inferior service.

Technical improvements in the past brought rates for good service down and have kept them down in the face of rising costs. As rapidly as future improvements will permit, we expect and want our rates to come down still further. For Michigan Bell wants rates no higher—and no lower—than necessary to insure good telephone service.

per was one to be remembered for many a day. The program, with Mrs. Nordrum as chairman, was a fitting conclusion to a successful event. An offering, which netted \$26.00 for the improvement of the church plant, after the expenses of the supper were deducted, was cheerfully and generously given, the green-backs being quite in evidence.

Kiwanis Notes

Charles B. Hurd, area representative of the Michigan Department of Social Welfare, discussed work of his department generally and in Charlevoix County in particular, at our meeting last Monday evening. "Last year," he said, "the department paid out \$254,292.48 for old-age benefits, and now has 224 cases in our county; \$70,657.92 in aid to dependent children, of which there are now 94 cases; and \$3,471.60 in aid to the blind, making a total expenditure in Charlevoix County in the past year, \$328,422.00. This money, in addition to circulating throughout the county, gives some measure of physical and mental comfort to the aged; to children who might not otherwise have the chance to which they are entitled, and helps the blind to become self-supporting, thus doing away with the familiar tin cup and guitar of earlier days."

Guests of the meeting were Lawrence Foley of Ionia City, and Fred Franks, school band director.

Along the Avenue

News Bits Gathered in the Lighter Vein
By THE EDITOR

Over in Europe a few years back, they decided to "let George do it." They have now discovered his name wasn't George at all—it was Adolf.

"New Cars Are Not Rationed—See Your Dealer," says an advertisement. Cripes, we've seen him so much that we are beginning to look like him. His face is as long as an ironing board, too.

We note an article in "Sunnyland," a Miami, Fla. Trailer Park periodical, which states: "Pete MacFarland, the well known Charlevoix, Michigan restaurateur, is just getting a reputation as the laziest man in the whole park. Pete goes golfing four days a week, goes to church on Sunday, and tests up the other two days for his next week's golfing. One might think that Pete is just loafing when he is seen reclining in his hammock occasionally, but we have it on good authority that this is not so. A reliable source tells us that while Pete is stretched out on that hammock he's not idle at all. In fact, he's busy as a hen trying to convert some method of getting a little of beer without getting up. Sincerely, though, we all know Pete slugs it out at his restaurant nine months a year and certainly earns his vacation."

At exactly 7:54 o'clock last Friday morning when we passed his store, Mr. Smith of the Smith Housefurnishing store, was busy removing snow from the walk, and had already placed the American flag in its customary place. His was the only flag on the street at that early hour on Washington's birthday.

As the head uniform drive comes to a close, more loyal contributors come to the aid of the Avenue fund with donations for this most worthy cause. Here are the latest donors:

"Dear Editor of the Courier: We are, and always have been very much interested in the Charlevoix fund. Here's our bit (\$2) to help swell the fund and we take off our hats to you for the fine spirit you have shown and also for the "Along the Avenue" column which we read with interest each week. Very respectfully yours, Mr. and Mrs. Ernest Staley, 1018 West 5th Ave., Flint, Mich."

Sam Straw turned in a \$5 bill to be credited to his two sons (former head members); Dick, now at Pearl Harbor; and Bob, at Aberdeen Proving Grounds, Maryland.

Talked in a fellow last week who spent \$500 to have his family tree looked up to find out just who and what he was. He was a sap. And besides, we could use that three foot snacker for the Avenue fund to save more.

Light Docket For March Term Court

Court convenes Monday, March 4; Hon. Archie D. McDonald Will Preside

The spring term of Circuit Court will convene Monday, Mar. 4, with Hon. Archie D. McDonald, of Hastings, presiding.

Four criminal cases are listed, while only one issue of fact and law, two chancery and three divorce cases are pending.

Following is the list of jurors drawn, subject to call if and when needed:

Ralph Ford, Bay View; Clyde Deloy, Boyne Valley; Erma Townsend, Chander; Stella O'Brien, Charlevoix; Clyde Cadwell, Evangeline; William Vander Wall, Eveline; Ralph Barnett, Hayes; Melvin Glazier, Hudson; N. A. Harper, Marion; Phillip Hufford, Melrose; Sam Pavlik, Norwood; Wm. Rickgers, Peaine; Charles Martin, St. James; Paul Prebble, South Arm; Charles Hiedel, Wilson twp.

Lacy Hawkes, Boyne City 1st ward; Burley Mates, Boyne City 2nd ward; O. W. Wiles, Boyne City 3rd ward; Albert Townes, Boyne City 4th ward; Earl A. Young, Charlevoix 2nd ward; William Higman, Charlevoix 3rd ward; Hugh Whiteford, East Jordan 1st ward; Ed Strehl, East Jordan 2nd ward; and Ernest Wade, East Jordan 3rd ward.

Mrs. Marguerite R. Meyer writes us a note to say: "Since you took over publishing the Courier, it has improved one hundred per cent. Please renew my subscription for which I am enclosing my check." The Meyers live in Flint, Michigan. (Ed's note: "It's subscribers like you folks who spur us on to greater efforts in our desire to ever go forward with Charlevoix and its fine citizens.")

And from far off Washington, D. C., comes a contribution from a well known former citizen here. He says: "Enclosed is my personal check in the amount of \$5.00 which I wish to contribute to the fund. Although as I need to be a member of the Charlevoix fund, it gives me great pleasure to be of some help even in this small way. This check came from E. J. Madill, assistant director at the office of Contract Settlement."

Joe McPhillips, genial mgr. of the local airport, came in with his contribution to the "Avenue" fund. He says: "I will help to keep the editor from pushing the proverbial peanut down Main street with his nose. That's the spirit, Joe, ole boy."

Other contributors to the Avenue fund the past week include:

Mr. and Mrs. Richard Lemus, \$5.00
R. P. Shetterly, \$2.00

We certainly don't want to forget Mr. and Mrs. John Fredrick, who were left out of last week's list of contributors. The Fredrick's donation of \$1.00 is duly recorded.

And right now me Lois and Lassie, we must admit that our nose is a bit "itchy". We still have until midnight, Feb. 28. (The tabs above are listed as of noon Tuesday, so there is still a spark of hope for this column.)

We hereby inform all interested that any other contributions brought in up to including 12 o'clock midnight, Feb. 28, will be accepted, and how! Also, by the same plan of reasoning, we will list any contributions postmarked up to the above hour and minute. Thats all we got to say, Period.

INCOME TAX REFUNDS SPEEDED UP ON RETURNS

The Collector of Internal Revenue announces that payment of refunds on 1945 returns of individuals has been speeded up. Refunds are paid out almost as rapidly as returns come into the office of the local collector, under this new accelerated system.

More than 600,000 taxpayers received some 27 million dollars in refunds in January. Those who have refunds coming and who file now instead of waiting for the March 15 deadline, when collectors' offices are swamped, can expect correspondingly rapid service, the Collector stated.

Red Cross Drive begins Friday, March 1.

KEEP BOOK NO. 4

Housewives should be advised by Local Boards to obtain in their possession War Ration Book No. 4, now used only to obtain sugar.

Although the currently valid Sugar Stamp 39 is the hot stamp in War Ration Book 4 that is specifically labeled for purchases of sugar, spare stamps in that book will be designated as sugar stamps from time to time. For this reason, War Ration Book 4 should be retained after Sugar Stamp 39 has been used.

HARRY F. BENSON

Illustrous Potentate Harry F. Benson, of Muskegon, is the newly elected head of Saladen Temple Shrine, of Grand Rapids, which covers the western half of the lower peninsula of Michigan.

A great many members of the Shrine are located in Charlevoix and surrounding towns and Charlevoix is usually honored each year with the Shrine Cruise which charts the S. S. South American and makes our town the principal port of call, with its happy, jovial crowd of Shriners and their wives.

Laymen's Sunday Observed Here

Evangelism Was Theme at Methodist Church

The special theme of Laymen's Sunday evolved around the need of Evangelism, since this is the year of Evangelism in the Methodist church throughout the world. A total of 41,068 churches in America observed this special day, having gathered three laymen to speak from each church pulpit during the worship service.

The overall topic was "Our Finest Mandate—To Serve, To Seek, To Save," which was ably presented by the following lay persons: Clarence McGowan, Mrs. Frank Bird, Roy Bennett, and Ed Heise, charged by leader.

The year of 1945 was set aside to raise 25 million dollars for reconstruction and rehabilitation throughout the world, which was oversubscribed. The year 1946 is set aside for the acquiring or re-instituting of at least one million members to the Methodist church. The ministers and laymen of the church are working as a single unit to preach the good news about God as it is in Jesus Christ. It is imperative in a post-war period that all denominations of the Christian church work at a Christian reconversion of the whole world.

What's In the Future for Charlevoix?

With the summer rush only a few months away, the question arises, "Will local residents again suffer for the need of service and materials?"

Last year many of our local home-owners were left "holding the bag" when summer residents filtered in. Many and varied were the complaints received by this newspaper during the 1945 summer season. It was charged that local business service "entered" to outsiders and consequently left our citizens "hanglag."

Does the summer resident pay more for those services? Does he contribute more to local government than our own citizens?

A personal spot-check proved to us that at least five separate and distinct business services had failed to give proper service to our own people, who live here the year around.

Winter time is little different. That "don

among patients in military hospitals, both in this country and abroad.

Reviewing the record of accomplishments during the war, Mrs. Robertson emphasized that Red Cross personnel and activities were subjected at all times to the military regulations laid down by ranking army and navy officers in the various areas in which they were operating, and that differences on such regulations from area to area were accountable for the fact that the Red Cross was unable to offer certain services or privileges to servicemen in certain areas although they were freely permitted in others. She pointed out that the extent to which these varying military directives limited Red Cross activities to military zones was often not appreciated by the average G. I., resulting in misunderstandings and much unjustified criticism of the organization.

Mrs. Helen Kreighoff, Home Service Director for Charlevoix county, spoke briefly on the manner in which the nation-wide fund drive is organized, and announced that a considerable portion of the total amount raised will be retained in the county for local emergency needs. She also thanked the AAA whose county members have assumed the responsibility of soliciting Red Cross donations in rural areas.

Mr. Watkins then introduced Miss Eudice Mathison, representative headquarters in St. Louis, Mo., who told of her work as a recreational director at military hospitals in England and France. She told of many activities improvised by Red Cross personnel and the G. I.'s themselves to help while away dreary hours.

The showing of sound pictures, "The Job Ahead", and a Red Cross newsreel and March of Time feature, concluded the program. Chairmen and workers from all over the county were present. Representatives from Charlevoix included Charles A. Duerr, Mrs. J. C. Marshall, Mrs. Harry Ladd, Joseph P. Howard, Arthur Ranger, and Ralph Hamilton.

Sam Vaccarella, No. MM 2/c, and William Miller, CBM, of the Charlevoix lifeboat station, presented the movies at the meeting.

Receive Note of Thanks

About two years ago, when Red Cross production was at its height, Mrs. Roy Meyer, of Ironton, enclosed a note in a garment which she had made. Not too long ago she received this acknowledgment from a French lady:

"Madame: I send an answer in response to the small note that I have found in a small garment which has been given to me through the American Relief. It has meant very much to me because I am the mother of 13 children, 10 girls and three boys, of which the eldest is 21 years and the youngest, six months."

"Receive, Madame, my most sincere thanks and salutations. Madame Parent, 13 Rue Henri, Conner, Chateauroux, FRANCE"

SPORTS AFIELD

By Ted Kesting

There is quite a surprising interest in making money by raising wild creatures under contract for a company.

The important thing to be remembered by the beginner is this: Anything that lives can die. Any amount of money spent for any sort of bird or animal can be a total loss before rigor mortis sets in.

Just slightly beneath that in importance is the honesty and ability of those in charge of the management of the company. Don't depend too much on reports from individuals who have tried the proposition. Find out all you can about the company and the people in control of it. In almost every large city there is a Better Business Bureau. They are right on their toes to help you from getting gyped.

On the same level is your banker. Everyone needs a dependable banker. Not necessarily to deposit money with, or to borrow it from, but for very sensible, very sound advice.

The next thing is to see how that particular critter and his quarters will fit into your particular place. That item is strictly up to you. Does the "beezook" need water far swimming?

Also, how about that water itself? Is it too alkaline? Too full of sulphur?

How about climate? Your state may be one where the propagation of "beezooks" is strongly recommended. But that encouragement might be based on the fact that most of your state is, say, high and dry, while you live in a small portion that is low and damp.

Cheek with your state agricultural college or experiment station. Write 'em. See your county agent.

How about supplies of lumber, pipe, labor, and everything else you will need to get started? And don't forget to consider your closeness to transportation if you have to ship.

Then, if everything seems satisfactory, start small. And the best of luck to you!

AAA NEWS

The application of Agricultural Limestone is the major practice selected by community committees for the 1946 AAA Farm Program, throughout the state of Michigan. In view of this fact, the farmer should know as much as possible about the function of limestone in the soil and the benefits derived therefrom.

One of the nation's leading authorities on limestone, Dr. William A. Albrecht, after years of research and experimentation, has found that limestone is a plant food and not merely a soil acidity remover.

The service of limestone in making better crops, both legume and non-legume, is no longer so much one of only reducing soil acidity, it is rather one of supplying the plant with calcium. It is a provider of this essential for plant growth which is at the head of the list of required elements coming from the soil for plants, animals and human bodies. It is, in addition, a carrier of magnesium in the dolomitic stones.

YOU MUST BE 21 And Prove It! To Obtain Alcoholic Beverages

THE STATE LAW DECLARES
"No Alcoholic Liquor Shall Be Sold to Any Person Unless He Shall Have Attained the Age of 21"

The Michigan State Liquor Control Commission has placed the responsibility for enforcement of this provision on those who hold licenses to sell alcoholic beverages.

To protect himself, the licensee must require unquestionable proof of age from any customer 21 to 26 years of age, whose legal right to purchase or consume alcoholic beverages is doubtful. His investment, his good will, his future, his liberty depend on his diligence in observing the state law regarding sales to minors.

To provide convenient means of identification and proof of age, provisions have been made for the issuance of a "Liquor Identification Card" by county clerks. These cards are easily obtained by anyone 21 years of age. Licensees will accept only these identification cards as proof of the customer's legal right to make purchases. Any person attempting to make purchases by falsifying his age, or transferring a liquor card, shall be prosecuted.

On and after February 15, 1946, all taverns in Charlevoix County shall be posted with the following sign: "No one under 21 years of age permitted in this establishment. All persons between 21 and 26 must have a liquor identification card."

We, the undersigned, believe that this is the simplest and fairest approach to the problem of minors attempting to obtain alcoholic beverages illegally.

An inexpensive home-made spray tank refiller which speeds the operation of filling the spray tank from streams, ponds or open wells will be of interest. This device can also be used for cleaning out stock tanks, cisterns or basements flooded with water.

Carrying the theme, "Let the Wheels do the Lugging," the individual display of the department will center around an automatic gutter cleaner which will be in operation. Although not an original product of Michigan, the gutter cleaner incorporates improvements which were developed in the state.

"YOU'LL BE ABLE
TO CALL MORE PEOPLE"

YOUR own telephone becomes more valuable to you as more folks you know have telephones installed. And that's just what's happening today. Michigan Bell's \$13,500,000 5-year rural expansion and improvement program is now under way.

We had started a rural program long before the war. At the suggestion of the Michigan Rural Communications Committee, a group of agricultural leaders, we included in that program in 1940 a plan providing a liberal amount of free line-construction, with small monthly payments where construction charges are involved. But during the war, the entire program had to be curtailed

because telephone manufacturers were busy supplying our armed forces.

Now we are beginning to get the materials to resume the job. Even so, the job will take time, because there is a tremendous amount of new construction to be done, and a lot of that construction is slow, painstaking hand work.

The goal of our program is not only to provide more folks with telephones. We will build more rural lines, so that there will be fewer parties per line. We will provide more of our rural customers with dial service. In short, we will make rural telephone service more valuable to more people.

Rayders Trounce Pellston Hornets By 47-17 Score

The Charlevoix, Red Rayders kept in style last Friday by trouncing the Pellston Hornets, 47-17. Pellston being the bottom of the Class C Conference list and Charlevoix on top of the game, was a walk-away. Pellston did start off fast but was soon put out of the running by superb ball handling by the Rayders.

The first quarter showed the Hornets with a very good defense that took all of the Charlevoix progress to break up, but between B. Ward and R. Carey the score piled up to set the tally at 11-3.

The second quarter was very slow with CHS outplaying, outsmarting and out-witting the Hornets at every turn to pile up the first half score at 23-8.

The third period held no excitement whatsoever. And in the final stanza, CHS went all-out for points and rang up 17, stopping Pellston at 7. Billy Carey was high-point man in this period with 9 points. R. Carey was high point man for the game with 22 to his credit. Capt. Hardy came in second best with 10. Tanner of the opposition was high with 6, while Coffin and Dinneen each had 4.

Proceeds from the party totaled \$117.50.

Mrs. Carl Kohler was general chairman of the event and was assisted by Mrs. Walter Bergeon.

THE OLD JUDGE SAYS...

HENRY: "I've heard that same thing several times lately... that alcoholics are really sick people. It was news to me. Do you agree with that statement, Judge?"

OLD JUDGE: "Yes, it's true, Henry. It's no notion of mine... it's a statement made by scientists who have studied the subject."

HENRY: "What did they find out, Judge?"

OLD JUDGE: "Well, as a result of their medical research, they found out that approximately 95% of the people who drink, drink sensibly. 5% do so unwisely, at times.

Included in that 5% is the small percentage known as alcoholics."

HENRY: "But why are they called sick people?"

OLD JUDGE: "Because it has been discovered that, in many cases, excessive drinking is a symptom of some physical or emotional maladjustment... not the cause of it."

HENRY: "Now I understand it, Judge. I am glad to hear of the modern approach to this problem and that so much is really being done to help these folks."

CHARLEVOIX COURIER

Volume 51 Number 10

Charlevoix, Michigan, Wednesday, March 6, 1946

5c Per Copy In County \$2.00 Per Year

Along the Avenue

By The Editor

The Avenue Fund went over the top at 4:45 o'clock Thursday afternoon, Feb. 28, as the Courier force witnessed the final returns.

Yes, we were instantly relieved! Our nose quit itching and we haven't even sneezed since!

It's just a plain case of "sticking out your neck to get your nose rubbed," said one onlooker as the money was counted preparatory to delivering it to the band uniform chairman.

Mrs. James McNeal turned in \$5.00 for her two grandsons, Joe and Don Bellinger, former band members. Joe is in Manila with the U. S. Army and Don is with the Navy aboard the USS Birmingham, now stationed at Australia.

From Hollywood, Fla., a valued subscriber writes:

"Dear Editor: I just received another nice issue of the Courier and am sending at once money for the subscription. I believe you are elated with the doctor as being one who does much good for folks but the last to be paid. Your "little ole Courier" does something for us all that the sunshine in Florida can't do, so keep sending it. Since the young people of Charlevoix have been so kind and thoughtful during the illness of one of my sons and the death of the other, I wish to give \$5.00 to help with those band uniforms. It's Mr. Butler's (Bill's) wish that you mention, for the benefit of his Legion buddies, (you included) who have in the past needed him of being able to play poker all night because he did not work, that last week he was arrested for working too early in the morning. Law here says 8 a. m. and in this case it was enforced. Sentence was suspended, but Bill says if you don't believe he works, he has a warrant to prove it. We see many PW license plates around here, but so far no one we know. The Harry Palmers are here and we spend much time together. We expect Bill Flynn to stop in soon as he is in Miami. I am also sending this snow suit for your clothing drive. Please see that the right child gets it. Thank you so much. Sincerely, Mrs. W. Butters, 1934 Garfield street, Hollywood, Fla."

Mr. and Mrs. John F. Sherrow, 22631 Piper Blvd., Van Dyke, Mich., writes:

"Please find enclosed a dollar for the band fund. We hope this reaches you before your deadline. We're graduates of C.H.S. and still interested, so hope you get your \$500."

And another writes:

"Dear Editor: Enclosed please find a small contribution to the band uniform fund in the name of my son, Jack Laupheimer. He was a former member of the band and always remembers it kindly. He is now stationed in Pearl Harbor and expects to be there quite some time. No doubt there are other Charlevoix boys in that vicinity. He's been overseas since last August and in all that time hasn't seen a soul he knows. Possibly the Courier will be a means of helping him find some of his old friends, or their finding him. His address is: John Laupheimer, P.O. 24, U.S.G., P.O. 574, Fleet Postoffice, San Francisco, Calif. I hope this arrives in time for the final count."

Signed: Mrs. Charles Laupheimer, 185 E. Buena Vista, Highland Park 3, Mich."

From Mr. and Mrs. Jerry Conley of Ormond, Fla., comes another contribution:

"My dear Mr. Steinhardt: Jerry and I wish to add our mite to the fund for the Charlevoix band uniforms. Enclosed find check for \$2.00. Hope we are not too late. We are enjoying the sunshine and oranges of the south this winter. Quite a contrast to Charlevoix's temperatures. Best wishes for the fund."

Good ole' Bill Flynn hasn't forgotten us. He sends along a "fiver" from the Highland Pines in North Carolina.

Postmaster Joseph F. Roberts, of Elkton, Michigan, appends a note to a piece of first class mail, pleading, "Hope you don't have to roll that peanut down Main street. (Ed's note: Si vous avez un grand "peanut" donnez-le-nous s'il vous plait!)"

And from Milwaukee comes a note from Mrs. Vernon Snyder, SEE AVENUE, Page Four

However, all United States bonds, including war bonds, are exempt from the tax, and the tax on deposits in Michigan banks and building and loan associations.

Under the present law as amended by the Legislature in 1945, all Corporate Stocks are 100 per cent taxable including Michigan Corporations.

The department has issued a warning to all owners of property, such as is outlined above, to file necessary return forms prior to March 31. The Revenue Dept. is constantly engaged in checking stockholders' lists, mortgage records, income tax returns and other data for the purpose of discovering evasions of the Intangibles Tax Act. Failure to file a return when a tax is due subjects the taxpayer to severe penalties.

In addition to assisting taxpayers in the preparation of their returns, Mr. Harbaugh will also be glad to advise any person concerning his liability, if any, under the Intangibles Tax Act.

Those desiring this advice or assistance are requested to bring with them full information concerning their holdings, including the face or par value, and income received therefrom during 1945 and 1946 and copy of their 1944 return filed with the Department.

New Bus Service Would Bring Greyhound to Charlevoix

The state public service commission will consider the application of the Great Lakes Greyhound line to inaugurate bus service between Ionia and Charlevoix at a hearing held at Lansing on Monday.

Sophus A. Lund, commission secretary, said the bus company was seeking extension of its present authority to include a route along M-66 station, at the junction with US-16 at Ionia.

Lund said he expected operators of local bus lines in the area to oppose the extension. The Greyhound application stated that there was a "public demand" to give direct service to points now without bus service, and that existing transportation in the area was "inadequate."

E. J. Edwards, Earl A. Young and Harley Ochis are representing Charlevoix at the hearing.

Drive For Great Cause Ends Highly Successful

Seek to Establish Amvets Post Here

World War II Vets Urged to Attend First Meeting

Establishment of a post of American veterans of World War II is being sought in every county in Michigan, and already great success has crowned their efforts, according to Monte M. Korn, Commander of Michigan Post, No. 1.

Governor Kelly has placed the Amvets on the fifty-one million dollar trust fund, and the legislature has provided that the Amvets shall have one member on every county board where they have a post.

For this reason it is imperative that a post be formed in Charlevoix county.

Amvets is the largest organization in America whose membership is derived exclusively from World War II veterans. Amvets have over 500 posts throughout the United States with 75,000 members. National headquarters are in Washington, D. C.

In ten weeks the Michigan Amvets have grown from a single post to 6 posts with 6,500 members throughout the state. The first meeting is called for Charlevoix County Friday night, Mar. 8, at 8 p. m. at the Community room of the city hall here.

All world war II vets are urged to attend, so that Charlevoix county will have a representative on this trust fund that the state has set up for the veterans.

MISS MARY GENGLE TO TRAIN AT JOHNS HOPKINS HOSPITAL, BALTIMORE, MD.

Eleven senior cadet nurses of the Mercy School of Nursing, St. Mary's Hospital, Grand Rapids, have gone to Baltimore, Md., to receive their final six months of training at the Johns Hopkins Hospital.

"The Comedy of Errors," by Shakespeare, was one of his first plays, and was first produced December 26, 1591, at Swan's Inn Hall.

BULLETIN

The National Federation of telephone workers will go on strike at 6 o'clock tomorrow morning, March 7, unless the union's demand for a \$2.00 a day pay raise increase for its members is met, according to a statement released today by a representative of the union. The strike would halt long distance service through virtually the entire nation and stop local service in most communities.

ANNUAL DAY OF PRAYER

The Annual Day of Prayer, under auspices of the United Council of Church Women, sponsored locally by the women of the several Charlevoix churches, will meet at the Church of God at 3 p. m. on Friday, March 8. The offering will apply on the work of this noble group of church women. All are welcome!

Triumphantly the band uniform drive ended. When the deadline passed, \$1,500.99 was contributed by individuals and organizations from far and near.

The generous response to the appeal for contributions was enthusiastically received by the entire school board and the many band members. No little praise is due local organizations and individuals for their untiring efforts in this great cause.

The Courier joins with band members and school officials in extending sincere thanks and appreciation to all who in any way helped make this drive successful. The money received means much but the spirit behind it means even more.

Very little snow can be seen in this area. Streets are bare of snow, and fishing shanties have disappeared from Round Lake. Sun has been shining and Charlevoix is, this month, enjoying the "blessings of the lamb."

WHERE DO WE GO FROM HERE?

The Answer to the Question above lies with Charlevoix County Officials, City Officials and Businessmen who should be interested in G. I. Joes -- recently returned from the battlefronts of the world!

MR. PUBLIC OFFICIAL: (and Charlevoix City Businessmen)

What have you done to help the Veteran who has fought this war on bloody battlefields to protect your job and business?

Public-spirited officials and businessmen all over the nation have made or are making plans for the returned Veteran of World War II. Many Vets have already been put to work so that they might live in the city they went away to protect.

More than 200 Veterans of this bloody conflict have returned to Charlevoix, where most of them want to make their home. BUT what will they do for a living? Where can they find suitable work? Must they now seek employment in far-away cities and leave the place of their choice?

Is it asking too much to be given an opportunity for livelihood? Is it too much trouble for officials in this city and county to create work for the Veteran?

No cost is too great for the Veteran! He sacrificed ALL in World War II to protect those left behind to carry on!

To leave family, home and loved ones was no easy task for GI Joe, but he gave, unstintingly, all that he had--to save you and others from destruction! Bloody battlefields with death lurking everywhere was their home until the job was done. Dreams of a job "back home" are now only nightmares. THE JOB IS DONE! Our country again is at peace with the world--and GI JOE IS FORGOTTEN!

We Want Action---Not Promises

DO THE JOB OF REHABILITATION NOW... OR STEP DOWN AND LET THOSE MEN HOLD THE REINS WHO KNOW THE COURSE!

What Is Your Answer... ?

THE OLD JUDGE SAYS...

OLD JUDGE: "Hank, you're a big grain producer...let me ask you a question or two?"
HANK: "Glad to have you, Judge."
OLD JUDGE: "Do you think the grain used by distillers is wasted as some folks are saying?"
HANK: "I certainly do Not! As a matter of fact, it is just the opposite."
OLD JUDGE: "How do you figure that, Hank?"
HANK: "From my own experience and from reports I've read. For the year ending

last June, the distillers produced over 1,200,000,000 pounds of distillers' dried grains...the best feed supplements we can lay our hands on. They are rich in nutrients. Why...I've never had such fat dairy cows, livestock and poultry as I have since I've been using these dried grains."
OLD JUDGE: "How do you use them, Hank?"
HANK: "I blend them in with original grain. This balanced ration has far greater feed value than the original grain itself. I can cut down on my whole grain feeding about 20% and still get better results."

Millions for Defense - - - But Not One Cent for Tribute

This was a widely known battle cry of the 18th century. It can be revived today.

The Government's decision to issue War Food Order 144, effective March 1, prohibits any flour mill from milling flour other than that of 80% extraction. It means dark flour. It means dark bread. It means dislocation of the milling industry of America that has served its country true and faithfully in time of war. Government says it is necessary to conserve short wheat supplies and feed peoples of devastated countries abroad.

With this uncalled for monstrosity thrust upon us, it's time to do a little thinking. Government says the reason for it is because of short wheat supplies and the dire need of foreign peoples. We cannot restrain ourselves from looking back only a few years when Mr. Wallace was ploughing under pigs and corn and wheat and milk. We were to have "an ever normal granary". Where is our ever normal granary? What commitments has our state department made that the public has not been told? Is there a shortage of wheat or is wheat being held on the farm in expectation of a "30% raise"?

It would seem that the time has come when Americanism and the protection of all the rights that America stands for transcends all political parties. It is no longer important whether one is a Democrat or a Republican. Are we Americans?

If we are and have only a small part of the fiery patriotism of America's founders, it's time we put an end to government by men and reconstituted the rights of our Constitution and government by laws.

By the People---For the People

By telephone, letters and personal interviews, this department was deluged with reaction to our editorial of last week, titled: "What's In the Future for Charlevoix?"

As we take our pen in hand today, consensus of the people seems to run high favoring an investigation. Not one unfavorable report has been received at this time. Naturally we expected some, for where a violation exists, some one individual is bound to be hurt.

Through the many comments received, we are led to believe that even a more widespread violation of business principles exists than we had anticipated.

Personal experiences were freely related by all types of people, representing, among others—Farmers, former city officials, lawyers, businessmen themselves and just plain John Q. Citizen.

Many talked to us from a period of only a few minutes to as long as 20 minutes, telling us of their own personal experiences. We, previously, had conducted a spot-check from citizens at random, before we attempted to divulge conditions as they are today, and have been for some time.

Mrs. S. said of the editorial: "We have taken the Courier since it was established and no one has dared tell the truth about Charlevoix business principles. Congratulations to you. Keep it up!"

Mrs. B. said in part: "I must congratulate you on your stand regarding Charlevoix businessmen. It is a very true picture of affairs as they now exist and have existed in the past." Mrs. B. specifically mentioned names and places in each incident to substantiate her claim.

We have refrained from dwelling upon personalities. We believe the situation can and will be corrected without resorting to individuals. BUT we have gilt-edge proof that certain businessmen (by their unethical methods) have caused our citizens and others much loss of revenue and time in the so-called "catering" game.

When we say that thousands upon thousands of dollars are finding their way into "outside-of-town" interests, we mean just that.

But money isn't everything—OR IS IT?

Certain merchants DO cater to the money man!

If necessary a boycott will be launched against known merchants who wilfully violate the trust placed in them by local citizens. Their names will be published if complaints continue to come in, thereby justifying such an act!

This newspaper is pledged to support any movement or project for the welfare of Charlevoix and its citizens. We cannot condone unfair practices. Neither will we allow violations to go unchallenged.

The Courier welcomes views on any matter. We also welcome and have received constructive criticism in the publishing of your newspaper.

All letters received will be held in strict confidence. Names will not be exposed unless author directs us to do so. Comments must bear signature of the writer, however.

★ LET'S TAKE STOCK NOW

Everybody wants goods:

Manufacturers want to make them for you.

Yet months after the war's end, you still find it difficult to get many of the things you want and should have.

So, isn't this the time for all of us to take stock...to learn a lesson...to find out, if we can, what will cure the troubles we are having and prevent their recurrence?

Let's look ahead and agree on a program that will insure the full production everybody agrees is the real answer to most of our problems.

Suppose we begin by taking a good look at three roadblocks to prosperity...

STRIKES

Whatever their justice or injustice, strikes paralyze production, force people to use up their savings, and result in losses that can never be made up.

PRICE CEILINGS

Full production isn't possible when industry suffers losses because of rising costs and frozen prices. Price

ceilings limit production — goods just don't get made.

GOVERNMENT SPENDING

Continued huge government spending means continued high taxes. High taxes discourage production, hinder the creation of jobs, and leave you less to spend.

ISN'T THIS THE WAY?

The people, through Congress, can remove these roadblocks in the long-range interests of all...

By establishing a labor policy that will treat labor and management exactly alike, and above all be fair to the public;

By removing the shackles of price control on manufactured goods;

By cutting down on government spending now and balancing the Federal budget by the 1947 fiscal year at a level of income and outgo that taxpayers can stand.

Do you believe this program is in the public interest?

Your Representatives in Congress are the only ones that can put it into effect. Tell them how you feel about it.

VOICE
of the People

Dear Mr. Editor:

Thanks for your timely and well thought out and worded editorial on the past, present and future of Charlevoix-the Beautiful. All citizens of our fair city should give it due and careful consideration.

No city can expect to grow and prosper which has to depend upon ten weeks of the year for its source of living. To keep people happy and out of mischief, they should be busy for at least ten or eleven months of each year.

If Charlevoix is to have a future, it must shake itself and awake to the necessity of establishing industries which will give employment to its citizens all the year around. What happens now?

Our youth finish high school and marry (most of them do) and then, since Charlevoix does not afford them a means of livelihood, they go off to another city where they can find it. Hence, we are losing the very bone and sinew of our city in the coming generations. When the old folk die off, we will, as you quite truly say, have our ghost city.

I would suggest and urge that our city officials, or others who can and will do it, call meetings or discussion of this all important question. From such meetings will emerge ways and means of putting it across. We have the locations, resources and money for such advancement. LET'S GO!

RURAL CARAVAN

A simple box, known as the Michigan Community Nest, is actually an egg factory provided you have the laying hens to go with it. It is the modern nest, community style, that saves the work and expense of constructing an elaborate battery of individual nests. With the lid down, the nest is dark and prevents birds from fighting. It produces cleaner eggs and saves work in cleaning and nest cure. This size nest will accommodate 75 hens. It will be a part of the Michigan State college poultry department display in the Rural Progress Caravan which will be in Petoskey for a one-day showing, next Wednesday, March 13.

The emergency farm labor exhibit shows the right and wrong ways of doing several hard jobs

of harvesting. One panel shows faster methods, one shows easier methods, and one shows ways of saving labor.

The entomology department exhibit will include four panels illustrating the right and wrong ways of using the new DDT insecticide. The various DDT mixtures and the particular uses for which each is adapted are pointed out. Included are a half-dozen "DDT Don'ts" that will prevent misuse of the chemical.

But the caravan exhibits won't be entirely devoted to the hard facts of farm and home work life. Color photos and models will show how a well landscaped farm home should look for greatest eye appeal. The display suggests that good landscaping leaves urens open for play and recreation and arrangements reduce work of caring for the lawn and shrubbery.

Bangs Committee
Dr. George Weaver and Everett

Benton of Michigan State college, met with an interested group of men representing the agricultural interests of Charlevoix county. Topic of discussion was the present Bangs law which requires before a dairy animal is sold for dairy purposes that she must have been tested for Bangs disease within 30 days prior to the date of the sale and found clean or else originate from a herd that was tested and found clean within 90 days. Because of the low infestation of Bangs disease in Charlevoix county and because of the slowness of having blood samples tested at the laboratories at Lansing and because Dr. Benton, the local veterinarian, has more than he can do, a bangs committee was set up to discuss these items. The committee is composed of the following men: Joseph Stutzman, Master Charlevoix Grange; Elmer G. Lyon, President Farmers Union; George Kloster, dairy farmer; A. J. Bohus, chairman Agricultural committee of Board of Supervisors; Kenneth Leckrone, vocational agricultural instructor, and Ed Rehman, county agricultural agent, chairman.

This committee has already drawn up a resolution requesting Charles Ezy, director of agriculture of the State Department of Agriculture that a regional laboratory be established in the northern part of the lower peninsula to expedite the testing of these blood samples and returning the reports. The other two items will be discussed in the near future at the local meetings of the Granges, the Farm Bureau and the Farmers Union.

Soil Testing

We now have a soil testing outfit in the County agent's office. This is furnished by the Soils Dept. at Michigan State college and the tests will be free of charge to anyone who would like them. It would be a very good idea to have your soil tested if you are considering putting on lime this spring, in order to see if you have a deficiency of calcium or not.

To obtain a soil test, drop a card to the County Agricultural agent at Boyne City, Mich., and arrangements will be made to collect your soil samples and bring them in for testing.

SPORTS AFIELD

By Ted Kesting

What happened to the pheasants? That seemed to be the hunters' cry in all pheasant sections of the country.

Sportsmen and game officials joined in search of the reason for the scarcity. Blame has been placed on foxes, house cats, hawks, crows and meat-hungry poachers. In some areas poisoning and trapping have been charged. The one factor that has received the most blame is the weather.

Undoubtedly there were fewer pheasants during the past season, and the answer probably lies in a balance combining the three factors: weather, predators and over-shooting.

Assuming that combination is the "cause", of greatest importance is our "cure." South Dakota has curbed the length of season and bag limit. Indiana will change their propagation program and thousands of birds raised at their two game farms will be released when they reach maturity, rather than when they are eight weeks old. Michigan will re-establish their game farm which was non-existent during the war. This state is also planning to pay farmers for rearing pheasants and will encourage 4-H boys in hatching eggs. They are also arranging for food plantings, and for corn

patches to be left for winter feeding. In addition, they will stimulate predator control.

All of this activity, the concern over the scarcity and the ham-handed attempts to overcome the causes, seem to indicate a healthy spirit of conservation at work. It would be unfair and certainly unwise to suggest that these attempts are over-enthusiastic. However, in an effort to get a true picture of the seriousness of the problem, Jack Van Coevering has made a comparison of records for the last decade and figures for number of birds seen and number of birds killed each year shows that our past season was closer to average than most hunters believe. We cannot expect top-notch conditions every year.

Bell Telephone Plan Aids More Farm Families

Because of a new plan, 85 per cent of the farm families in Michigan Bell Telephone company territory may obtain telephone service without special construction charges.

This was made possible by the Michigan Public Service Commission's approval of a plan by the telephone company to increase from three-tenths to one-half mile the amount of construction to be furnished free of charge. The commission set March 1 as the effective date of the plan.

The plan resulted from a study of the rural communications problem by the Michigan Rural Communications Committee. The group is headed by Clark L. Brody of the Michigan State Farm Bureau, East Lansing.

Other members are Stanley M. Powell and E. E. Ungren, both of the Farm Bureau; Milton Grinnell, editor of the "Michigan Farmer"; Robert J. Baldwin, Director of Extension, and Professor D. E. Wiant, of the agricultural engineering department, both of Michigan State College; and W. G. Armstrong, master of the State Board of Agriculture.

Under the proposed plan, Theodore H. Dawson, head of the company's rural program, said that no construction charge will be made for rural installations if the number of applicants per extension averages one per half-mile.

Dawson said that the new plan would play an important part in the company's \$13,500,000 five-year rural program to improve and extend service.

The new plan is a modification of a liberalized rural construction program adopted by Michigan Bell in 1940 which set up an installment plan whereby construction charges could be paid monthly over a five-year period. Free line extensions were then made only if they averaged one customer per three-tenths mile.

This new construction program will aid Charlevoix farmers who qualify for the new plan.

NOW!
1/2 MILE FREE LINE-CONSTRUCTION

for new rural telephone subscribers

Effective March 1, the Michigan Rural Telephone Construction Plan was further liberalized.

Now we will extend our rural lines an average of one-half mile* for each new subscriber with no construction charge! Under the revised plan, a large majority of the farm homes in Michigan Bell territory can get service without any charge for construction.

This liberalization was recommended by the Michigan Rural Communications Committee, a group of agricultural leaders who helped us design the present construction plan.

As rapidly as more materials become

available, such additional free line-construction, together with small monthly payments for construction beyond the half-mile allowance, will mean more farm families with telephones... more people you can reach from your telephone.

And that's only part of Michigan Bell's vast 5-year \$13,500,000 rural expansion and improvement program. Construction of more lines will mean fewer parties per line for many customers. And dial systems will be installed in many more rural sections. All of which will add up to better, faster and more satisfactory service for more Michigan rural folks.

*Formerly the allowance was 3/10 of a mile

Kiwanis Notes

Don Meggison, former staff sergeant in the U. S. army, told the club of his experiences and travels in the Pacific outposts, the Philippines and Japan, during his more than three years of military service. He said that, except for a few fanatics, the Japanese people were happy that the war is over, and were especially nice to the Yanks after they discovered that the Americans were not so terrible as they had been taught to believe them to be. He highlighted his talk with a fine set of pictures and trophies, many of them won by his patrols by jeep and train over the Japanese home island of Honshu.

Judge Archie D. McDonald, of Hastings, who is holding the March term of the Charlevoix circuit court, expressed his pleasure in visiting Charlevoix and becoming acquainted with some of its people.

Other guests were Waldo M. Spruit, district probation officer of the Michigan Dept. of Corrections; Claude Curtis, reporter of the 13th judicial circuit; Kenneth Bird and Archie L. Livingston.

At a previous meeting, Arlo Wickersham described part of his trip to California, and especially interested the club members in his description of the home of Amos Nasson, who recently left Charlevoix county to make his home in the irrigated lands of the West. We gathered that Arlo much prefers Charlevoix to all, or any part, of the so-called great "open spaces." He said that the reflection of the setting sun on a cloud over Charlevoix will, in his opinion, out-glow all of the snow-capped mountains he saw.

Lou Comfort has resumed active membership. Secretary Dear Davenport is on the sick list.

We are glad to see Frolotte Judge Kellie L. Lewis back at his accustomed place at the end of the table, following his California trip.

The club voted \$25.00 to the Red Cross fund raising campaign.

By The Editor

World Day of Prayer should come more often. People the world over need divine blessings today if ever there was a need for it!

The power of prayer manifests itself to all individuals and groups. Some 15 years ago, the writer had occasion to see benefits of united prayer, when, as we were lying critically ill with pneumonia, it was prayer alone, by our faithful pastor and friends, which "pulled us through," after doctors shook their heads. In the city of Detroit, far from home, where sickness struck, we were too ill to be moved to a hospital. Being delirious most of the period while doctors waited for the crisis, we did not realize that our husband, a kindly soul and godmother, to Mrs. S., had already made arrangements for a burial place in the family lot there.

It just isn't proper to bribe children," said a friend to us one day, long ago, when we related how we had offered our then four-year-old son, Gene, pennies and gifts if he would learn a prayer. For the first few days, at each mealtime, it was a trial for us to have the youngster complete the short prayer, but he did, and later, as he grew older, he learned more lengthy prayers. Today, at the age of 14, and away in the academy, he has not forgotten!

Merrill, our second son, who is four now, has learned a prayer, too, that he says at mealtime, and bedtime, some as Gene did. This is what he learned to say:

"Thank you, God, for the world so sweet,
Thank you for the food we eat;
Thank you for the birds that sing,
Thank you, God, for everything.
Amen."

We have noted in both boys, that "bribery" was soon forgotten. But the prayer will never be forgotten.

It's never too late to make a donation for food uniforms, and here are a few fairly ones, but nevertheless just as welcome:

"Dear Mr. Editor:
Would like to make a small contribution to the fund. My two sons grew up with the Charlevoix high school and city bands and derived much pleasure and benefit from them.
"I enjoy the Courier so much, and feel that it keeps me in touch with the home folks. And—it is getting better all the time!
"Success to the Charlevoix band! Sybil M. Block."

"Dear Sir:
"I hope I am not too late for the fund. You see, we miss a few copies of the paper here. I know that the band really needs them. I always got a kick out of the band when I played basketball there. They all seemed to be pulling for us whether we lost or won. And, by the way you're doing a great job on the fund for uniforms. Yours, Bill Graves."

Karl Kuebler\$1.00
Sybil M. Block, Ann Arbor.....1.00
Mrs. Clayton Trimble in behalf of the W. S. C. S. of the Methodist Church.....12.50

The team-work of George Glados and the Sugar Bowl owners, in sponsoring a supper for our basketball champs, brands them as public-spirited citizens deluxe. Yours is a mighty fine gesture, folks!

Note to A.R.—Even though we have been here only a year, we have been able to view, first hand, conditions you overlooked living here a lifetime!

The human race owes much of its progress to obscure men and women, such as the ordinary folks of Charlevoix.

We'll have to admit that prices on many items are higher than they were before the war, but you can still get a year's subscription to the Charlevoix Courier for only \$2.50.

Hope the band uniform order is placed locally, it would serve to please a lot of donors if it were placed with a LOCAL merchant.

Fish Tug, Liberty, Safe In Harbor

The fish tug, Liberty, is now safe at Frankfort after being nuzzled in the ice off the North Manitou Island from late Wednesday afternoon until early Friday morning when it was released by the ice crusher Muckinaw, of Charlevoix. The tug, which operates out of Frankfort during the winter months, was caught in the ice when she developed engine trouble and was unable to return to port at once. In the meantime the tug shifted, bringing in a large field of drift ice, which caught the tug about 400 feet off shore.

The power boats from Frankfort and South Manitou lifeboat stations, were also caught in the ice field when they attempted to aid the tug. They also were released Friday morning and assisted the disabled tug to Frankfort.

The Liberty, owned by Willis Cross, Jr., of this city, suffered moderate damage to the hull which is now being repaired.

The crew of the boat, when nuzzled, included Gordon Bennett, David and Robert Miller and William Baumgardner, all of Charlevoix. They suffered no ill effects from their experience.

Blue Star Mothers Meet at City Hall

The Charlevoix chapter of the Blue Star Mothers met at the city hall on Monday evening for their regular monthly meeting. Mrs. Leo Turney presided at the short business meeting at which a donation was voted to the Red Cross fund. Mrs. Angus Phillips, of the Soo, was accepted as a member.

At the social hour which followed \$24 was collected. St. Patrick's games were played with Mrs. Grace Genett and Mrs. Phillips winning the prizes.

A class of the meeting refreshments were served to the 21 members present.

Mrs. William Fisher and Mrs. Will Heise were in charge of the entertainment. Mrs. Carl Kohler, Mrs. Earl A. Young and Mrs. Arthur Westfall were in charge of refreshments.

ATTENDS CONFERENCE

The Michigan Department of Elementary School Principals' regional conference was held at the Mottson hotel, Grand Rapids, Friday, Mar. 8. Theme of the meeting was "Education for Democratic Living" and dealt with the racial problem. Miss Frances Miller, principal of the Charlevoix elementary school, attended the meeting.

Amid the flash of photographers' cameras, and lusty cheering by teammates and Charlevoix high school students, Capt. Richard "Jennie" Hardy accepted, in behalf of the Rayders, a trophy which stands as a symbol of the team's accomplishments in this season's basketball play-off.

The Charlevoix high school Red Rayders were awarded the trophy and title last week after they had out-played two of Northern Michigan's best teams. The Boyne City lads, who had trounced the East Jordanites Thursday evening, were royally squelched Friday when the Rayders came from behind to win 33-23. CHS then met the Harbor Springs Rams, who had downed the Pellston Yellow-jackets, who in turn had run all over the boys from Onaway. (Complicated, isn't it?) But teamwork and smart ball handling put the local on top where few, if any, ever doubted they should be.

The first quarter began, Friday evening, with both Boyne and Charlevoix playing fast ball. CHS piled up a lead early in the first stanza, but soon Boyne started their great drive which was designed to stop the Rayders cold. The score at the end of a typical Boyne-Rayder first period, stood, CHS 9, Boyne City 4.

Second period almost drove the Charlevoix fans into a frenzy, as Boyne stacked up 12 points and held the Rayders to 5. The locals deserve a lot of credit for not giving up entirely or falling into a fatal panic as the Ramblers walked around them. Everyone was speaking of an upset as the Ramblers continued to play fancy ball. Boyne's star, Miller, made 5 points in the final stages of the first half to help bring Boyne ahead, 16 to 14, at the signal.

The third period started out with Boyne hanging away at the

SPORTS AFIELD

By Ted Kesting

Don't make my duck pond a refuge! Why hoard ducks on refuges where we are not allowed to shoot?

Statements like that, coming from a green many duck hunters, prompted Albert M. Day of the Fish and Wildlife Service to publicly defend their program. Their goal is to avoid the situation of ten short years ago when it looked as though the sport of waterfowl shooting would be lost to our south.

The take by hunters is still important. Annual regulations provide the one device that can quickly keep the kill below the annual increase, and send more birds back to the breeding marshes each spring. But in addition to regulating the take, they now think also in terms of restoring and improving the environment.

Since 1935, about 3½ million acres in the U. S. have been restored, improved and set aside for waterfowl. The 1 to 1½ million dollars annual income from the sale of Duck Stamps, together with Congressional appropriations make this possible. In Canada the provincial government, aided

by American sportsmen through Ducks Unlimited, brought back many thousands of acres and converted them into productive marshes.

Refugees are not enough. They are highly important, but the birds must have a place to go after surviving the hazards of nesting, predators, botulism and accidents until they are developed enough to take wing. Then they must run the gauntlet of 1½ million hunters scattered across the lines of flight like a defending army, all the way from Maine to Washington and from Florida to California.

Sanctuaries spotted strategically along the flight paths are highly important. They are an advantage to the hunters and the birds at the same time. The feed provided is necessary to the very existence of the ducks, while the attraction of something to eat and a place to rest in safety holds the flocks in the vicinity of the shooting in adjacent fields and marshes.

Refuges are only a part—but a very necessary part—of the balanced management plan that will keep ducks and geese and shorebirds forever on the wing.

My dear Editor:

You're wrong!

The merchants aren't trying to drive us out of town! THEY ARE LEADING US OUT! Watch how some of them will buy anything from a sick salesman, even tho' they could get it locally, and you will see what I mean.

Who will it benefit? Our present zoning ordinance appeared to be all right as it when it was used to keep the Min-Eva down, lose for Charlevoix a nice restaurant and put a fine young man out of business. Don't tell us defects have finally appeared in such a wonderful instrument!!

We plan to find out who will benefit, and why, by changing it now, and to let John Public know all the facts!

Who changed the Ordinance, passed to control canine population? It wasn't? Then why do dogs roam the city in droves without any interference? If our present officials can't or won't do something about this, then I say let's have a change and get someone in there, who will.

Is there an Ordinance that gives any of the city employees time off during the working day to waste in taverns and other places for the sole purpose of political gain? Is that part of their duties?

Just wondered is all—Can't a person ask?

THE OLD JUDGE SAYS...

TED: "Clem and I were wonderin' what you thought of that new movie about the chronic alcoholic, Judge. Understand you saw it before we did."

OLD JUDGE: "Well... it's true most of us never see a case as extreme as that in real life because they are so few and far between. But it does point out one thing... chronic alcoholics are abnormal people and we've got to change our ideas about how to help them."

CLEM: "In what way, Judge?"

OLD JUDGE: "We've got to realize that excessive drinkers are suffering from more than a craving for alcohol. According to

psychiatrists and medical men at one of our great universities, the alcoholic is a sick person. The study of hundreds of cases shows he is suffering from some physical, social or emotional condition... just as in the case of that poor chap in the picture. Fortunately, they represent only a very small percentage of those who drink."

TED: "Is anything being done to really help these folks, Judge?"

OLD JUDGE: "Yes... a great deal in clinics throughout the country. And with the cooperation of the beverage distillers who sincerely want their product used only in moderation."

C. S. (Bud) Webster, QM 1/c, who served in the Pacific, aboard the LSM 8-2, writes the following from Charleston, S. C.: "Just a little note to let you know that I wish to have my name removed from the Courier mailing list."

"I have received the local news from it for the past two years and enjoyed it very much. I wish to thank all those people who made it possible for me to receive it. It was that certain link with home that just couldn't be beat."

"Our ship is now in a decommissioning status and in a week or so we will be ready for the scrap heap. At that time all the fellows who have been on here any length of time, will get 30 days' leave. I will have only a few weeks' duty after that leave, so the Courier would only be chasing me around. Thought it best to stop it now."

Haven't been home for over two years and it's really going to be a treat, indeed.

"Thanks again for sending the paper."

WHAT MAKES A CHAMBER OF COMMERCE 'CLICK'?

A chamber of commerce to "click" and be effective must, first of all, have a membership which is educated by its management as to the legitimate and proper activities which a modern chamber of commerce should carry on in order to keep pace with other communities which they are always in competition with. It must be a WORKING membership.

It must have a board of directors whose members are willing to devote time and energy to the direction of its affairs. It must have officers who are unselfish and who have vision as to the possibilities and needs of the community, and who are leaders in community thinking. It must have a program of 'Work' which shows a grasp at directing proper merchandising and service methods as well as of other community needs. It must keep its members informed as to its activities by means of meetings, (with all members attending) bulletins, publicity, etc.

It must be equipped to furnish its members and citizens generally with accurate information on business and a thousand and one kinds of information for which people invariably turn to their Chamber of Commerce.

If a Chamber of Commerce has and does all these things, it will CLICK and become an indispensable institution.

VETERANS—INFLATED OR DEFLATED?

After interviewing several veterans, I want to talk with more of you. The home picture falls far short of what you anticipated from the build-up you received through letters, radio and the final inflation at the separation centers. Our frank observation is that you are going to have a part in changing our social, economic, and political structure. These changes will be hastened by your disappointments upon returning from service.

Let's Tackle Inflation While We Can

You don't want your dollars to buy less and less and less!

You don't want your savings to melt away! Or the value of your life insurance to dwindle!

Yet that is what inflation can do to all of us. Therefore, thoughtful people everywhere are concerned with ways to smother it before it gets out of hand.

One major cause of inflation is a shortage of goods when people have money to spend for things they want.

That cause can be eliminated by the production of goods — fast — in quantity.

BUT THERE'S A BOTTLENECK

During the war there wasn't enough labor and materials to meet the needs of war and still produce all the civilian goods people wanted and could buy.

Therefore price controls on civilian goods were substituted for competition to keep prices down.

Today this country has all the labor and materials necessary to turn out the things people want.

Yet goods are still scarce. Store shelves are still bare. The national pocketbook continues to bulge. Inflation grows.

Why? Because price controls in peacetime hinder the production of goods. Business cannot live by producing at a loss. And so, goods that can't be made to sell at the prices fixed by the government just don't get made.

Nor will the raising of price ceilings solve the problem. When costs and selling prices are subject to change at any moment by government action, production has to be on a day-to-day basis.

That means uncertainty... reduced output... more inflation.

ISN'T THIS THE ANSWER?

Remove price controls on manufactured goods and production will step up fast.

Goods will then pour into the market and, within a reasonable time, prices will adjust themselves naturally — as they always have — in line with the real worth of things.

Competition has never failed to produce this result.

This is the way you can get the goods you want at prices you can afford to pay.

Please think this over. Then tell your representatives in Congress what you believe should be done. You owe it to yourself... and to your country's welfare.

LET'S SMOTHER INFLATION... A postcard addressed to the National Association of Manufacturers, 14 West 49th Street, New York 20, N. Y., will bring you a copy of a booklet explaining in detail why price controls cause inflation.

FAIR PLAY OUR POLICY ON NEW CAR DELIVERIES!

IN COOPERATION with the Ford Motor Company, we are making every effort to give earliest possible delivery of new cars to our patrons, according to the fairest method we have been able to devise. • • During the current shortage, when there are not enough new cars for all who want them, we are filling orders for new cars on the basis of first come first served. There are two important exceptions to this rule:

1. We are definitely reserving a substantial percentage of our cars to supply those who have served in the armed forces. 31.2 percent of all Ford cars delivered to date in this area have gone to veterans. This we feel is simple justice and conforms with public interest and fair play.

2. If emergency need for a new car is a factor, we will, in the public interest determine priority according to the now abolished but publicly accepted OPA priority lists.

• • We believe these delivery policies are in your interest. We will use every care to see that the procedure works fairly and that exceptions to the rule of first orders delivered first are made only in genuinely deserving cases.

• • Both in the matter of increasing production and speeding delivery, the Ford Motor Company and we ourselves are making every effort to get your new car in your hands promptly and fairly. We want to assure you that the '46 Ford is out in front in everything and is well worth waiting for.

Weed Control

A new chemical 2-4-D and the weeds it will control is explained in a new folder entitled "Death to Weeds with 2-4-D". This chemical is not a quick killer but causes slow death of the plants by complete destruction of all living parts. The time required for full action depends upon a number of factors, but generally a period of 8 to 20 days is required for satisfactory weed control.

The best time for application is during the warm sunny weather. Temperatures above 60 degrees are essential for full effect of the chemical. Weed plants should be in an active growing condition and not have reached the flower stage of development. 2-4-D should be applied as a coarse spray. The chemical is

mixed with water, one part 2-4-D in 1000 parts of water and applied at the rate of 2 1/2—4 gallons per 1000 square feet of surface or between 100 to 160 gallons per acre. The weeds that can be controlled with 2-4-D are as follows: Bindweed, Burdock, Canada thistle, Chicory, Curled dock, Cinquefoil, Dandelion, Pigweed, Pennywort, Ground ivy, Smart weed, Ragweed, Stinging nettle, Horse nettle, Plantain, Poison ivy, Honeysuckle, Sweet clover, Wild carrot, and Yellow rocket. Plants not usually killed by 2-4-D are Oxalis (Wood Sorrel), Purslane, Mallow, Bittersweet, nightshade, Yarrow, White clover, Quack grass, Crab grass, Blue grass, Bromine grass, Golden rod and Milkweed.

Anyone may have a copy of this folder by calling at the County Extension office.

Soil Conservation

Last April, plans for a soil conservation district in Charlevoix

county was defeated at a public hearing. However, of late, there has been many requests for soil conservation practices on farms in Charlevoix county. For 1946 two farms will be set up as demonstration farms for contour farming. One is the Robert Wilson farm at Ironton and the other is Vernon Cook in Hayes township. The contour lines have been staked out on the Wilson farm, soil samples have been taken and are now being tested and the livestock program and crop program has been planned for 1946. Guy Springer of the Soil Conservation Service at Traverse City is cooperating in this project on these two farms. Sometime in the spring, a tour will be arranged of all interested folk to go to Antrim county to visit farms that have been actually laid out for a number of years. If anyone is interested in this tour, please let us know.

Rainbow Trout Being Produced at Cadillac

Hatchery-reared rainbow trout that are firmer-fleshier, gamier and more highly colored than their wild cousins are being produced for Michigan anglers.

The conservation department's Harrietta hatchery west of Cadillac is handling a million rainbow trout eggs this winter and spring. The eggs are taken from fish that have been produced by selective breeding over a period of years and that possess superior resistance to disease, faster growth rate, and are larger producers of eggs.

Rainbow fingerlings hatched from eggs taken from selected brood stock at Harrietta are demonstrating remarkable ability to survive, and furnish good fishing when planted in northern trout lakes. The department's institute for fisheries research has recommended additional plantings in coming months that will tax the hatchery's capacity.

Bulk of the eggs produced at the Harrietta hatchery are distributed among other hatcheries, principally those at Watersmeet and Thompson above the Straits; Wolf Lake and Oden in the southern peninsula. Fingerlings are produced at Harrietta for hatcheries at Harrisville, Paris and Grayling.

In earlier years the department secured most of the rainbow trout eggs it required by stripping wild fish taken during spring spawning runs up some of the state's principal streams.

Skunks are edible and have light-colored and usually tender flesh. They do not have the strong flavor of the raccoon and the muskrat.

From where I sit ... by Joe Marsh

Our town has a Housing Shortage

Yes, sir, there's a real housing shortage in our town, as I guess there is in yours, too.

Keefer Cole, for instance, is sharing his home with a brother-in-law from Connecticut. Six children and a dog in one family; four children and three cats in the other.

I asked Keefer how they got along together—especially the grown-ups. Didn't they get a little edgy from the noise and crowding?

Keefer looks at me with a twinkle. "Sure," he says. "And when

that happens, Sara and I just pass around four sparkling glasses of good beer... and that reminds everybody that there are still a lot of friendly, gracious pleasures that can help us make the best of things."

From where I sit, it's great to be able to relax during this strain of postwar living with a beverage that's truly moderate and wholesome, truly friendly.

**MICHIGAN BELL'S \$120,000,000 PROGRAM
HAS MADE WORK FOR THOUSANDS**

To supply service again when and where it is wanted, and to give you the quality of service you want in the future, Michigan Bell has under way a 3-year \$120,000,000 expansion and improvement program.

Thousands of workers are engaged in completing this huge project. They include not only our returning veterans, but hundreds of additional employees as well—bringing the total to the largest number in Michigan Bell's history. And the program means work for scores of other folks supplying materials and equipment, and doing skilled construction.

Money to finance this \$120,000,000 program must come from the savings of thrifty people who are willing to invest in Bell System securities. But if prospects for Telephone Company earnings are unattractive compared with those of other companies, those people will place their savings elsewhere.

The rate of Telephone Company earnings has been declining in recent years to a point where it is now substantially below the average of other industries. If this condition should continue for too long a time, our ability to raise the money required to meet expected telephone needs would be weakened.

The future quality of your telephone service depends on rates that will produce earnings attractive to investors. We believe our customers want good service, even if it costs a trifle more than inferior service.

Technical improvements in the past brought rates for good service down and have kept them down in the face of rising costs. As rapidly as future improvements will permit, we expect and want our rates to come down still further. For, Michigan Bell wants rates no higher—and no lower—than necessary to insure good telephone service.

title with some success but suddenly Boyne fell apart and the local lads climbed to the throne with ease, as Billy Carey sank the last shot of the quarter to set CHS ahead, 23-22.

The fourth quarter is history as Bernie Ward, Bobby Carey and Captain Hardy piled up some beautiful "Buckets" with the aid of B. Zeidler and W. Carey to the tune of 12 points to the Ramblers' single free throw by Delaney. A bewildered Boyne team was thoroughly whipped as the horn sounded defeat in their ears. Score was 33-23.

Harbor Springs Team Falls Before Rayder Onslaught

The Harbor Springs Rams, after defeating the much favored Peliston Yellow Jackets, had little hope of stopping the Rayders. Though, as usual, they made a good showing for themselves in the final period.

The game started in typical Ram-Rayder fashion—very slow. The final minutes of both second and fourth stanzas, however, held some excitement. CHS piled one point after another until they had doubled the Harbor score at the quarter, 10-5.

Neither team accomplished much in the second period, as the fouls sent Smith, new man in the

Ram lineup, to the locker with 5 to his credit. J. Mol and E. Howe came into the light about this time and added about the only excitement in the period as they played ball as no one thought these subs could. "John" was in on almost every play and Em stands a good chance of first string appearance soon. Score at end of half was 16-8.

In the third period, with D. Brown in as a starter, the team scrambled into the late twenties and profited by the fouls given them by the Rams. Score now 27-19.

The final quarter saw the Rams putting on a splurge which was short-lived. They appeared completely exhausted and were put to rout by CHS.

As the final game of the 1946 Class C District tournament came to a close, Swartzfeger, a Harbor star, and Zeidler were seen walking around the middle of the court unable to settle down with the ball.

Score was recorded as 31-25.

Rayders Lose In Regional Play-Off

Manton Emerges Winner of Class C Title by 36-32 Score

In the toughest game of the 45-46 basketball season, Charlevoix Red Rayders went down to defeat at the hands of a wily Manton team. The first Class C loss to be charged to this year's team. Earlier in the week the local five had trounced the Mancelona lads, winners of the Grayling District, by a score of 30-14, but Manton high, winners of the Cadillac District, proved overpowering and Charlevoix became runners-up in the Regional meet.

Mancelona drove hard to win, but CHS took the lead early in the period and kept it that way for the balance of the game. Mancy started frisky but soon folded up under an all-out attack. The first quarter score proves where CHS, under the able leadership of Captain "Jennie" Hardy, made 8 points to hold their opponents to 3.

In the second period, both teams settled down to defensive ball playing. The half ended by a 13-4 score in our favor.

Neither team gained much advantage in the third stanza, each scoring 4 points.

In the final period, both teams tried hard, but loosened their defense. Score at game's end was 36-14.

In the final game of the Class C Regional meet, Manton proved See WINNER, Page Eight

Memorial Service for Mrs. B. Saltonstall Held Here Sunday

Favorite Hymns of Deceased Were Sung by Sunday School Class of Congregational Church

A special memorial service for the late Mrs. Brayton Saltonstall was held by the Sunday school classes of the Congregational church in the program, in which all the children participated. Mrs. Saltonstall's favorite hymns were sung and her favorite psalm, the Twenty-third Psalm, was recited by the group. A beautiful basket of lovely spring flowers were chosen by the classes and were beautiful on the platform. Appropriate remarks were made by Mrs. Allen Campbell, present superintendent of the Sunday school about Mrs. Saltonstall, who served in the same capacity for many years.

The occasion was also the finals in the W.C.T.U. oratorical contest for the silver pin award with representatives of the Protestant churches here taking part. Marilyn Ikens won first place and was awarded the pin. All contestants did remarkably well and the judges, Mrs. Frank Novotny, Mrs. Jeff Novotny and Mrs. Harrison Trimble, found the markings close. Each recitation had been carefully chosen and each girl rendered her piece admirably. The girls were Marion Carol Seymour and Marilyn Ikens, of the Congregational church; Donna Everts and Beverly Trimble, of the Methodist church; Nora Elzinga and Elaine Russell, of the Baptist church; and LuAnn Bauw-hach and June Guild of the Church of God.

The Gold Medal award will be held in the near future with Marilyn Ikens and four other silver medal winners participating.

Scouters Hold Annual Meeting at Petoskey

Plans for Boy Scout activities for the coming year were mapped out at the annual meeting of the Northern District of the Scouting Trails Council, held at Elk Temple in Petoskey, Monday night, March 11. Joseph W. Scoggin was elected to the chairmanship of the district for the next year, succeeding Arnold E. Wolgast. Carroll A. Betts of Gaylord was elected to succeed himself as vice-chairman. The Field Executive, Roy Willard, serves the district as secretary.

Other officers of the district include Robert Bridge, Charlevoix, treasurer of the Scouting Trails Council, and the Council Executive, S. D. Warner. Vernon Walker is the District Commissioner and Russell Brumbaugh and Vincent Wessels are the neighborhood commissioners.

Mr. Scoggin said in his talk that in the six years of operation as a district of the council, units here had increased from two to 15 troops, five cub packs and three senior scout units. He said that before the scout work became effective, the merchants used to have a great deal of trouble with shoplifting and petty offenses by boys. Since the number of boys served by the Scout program has been increased, juvenile problems have decreased.

Representatives from Charlevoix include Earl Johnson, Harley Ochs, Uno Suomela, L. C. Hamlin, Elmer Barber, Emerald LaBlance, Arthur Ranger, Howard Brumm and George LeBlance. William M. Heering, Charlevoix, was appointed as a member of the health and safety committee.

His talk on housing, what the Amvets are doing about the surplus commodities, and the reason for having an organization for World War II vets only, was well received.

The next regular meeting will be Friday night, March 29, at 8 p. m., at the city hall. All World War II Vets are asked to turn out.

Cribbage Tourney Culminates With Banquet For Winners

At the expense of the Masons, who were defeated in the 1945-46 Cribbage Tourney, the L.O.O.F. enjoyed a sumptuous banquet at the Masonic Temple last Monday evening.

Fifty members of both organizations attended the grand affair. The tournament, which has just completed its 16th year, creates much interest among cribbage players of Charlevoix. The Masons, who have been winners for the past five years, have finally relinquished their right to hold the silver cup, awarded the winner each year.

Arthur Fitch, speaker for the occasion, gave enlightening points on the art of playing cribbage, and related personal experiences in encountering the cribbage champ of the state of Ohio.

Boyne City Pastor Declines Nomination After 22 Years of Public Service

The Rev. Gale Hettrick, minister of the Church of God at Boyne City, was guest speaker at the W. C. T. U. meeting held at the Baptist church on Friday afternoon. The Rev. Ansley B. Claypool was chairman of the meeting which was in charge of the ministers of this city. The Rev. Gaylord Howell lead the devotions and The Rev. W. D. Wood sang a solo.

In his speech to the 40 members present, Rev. Hettrick told of the success of the ministerial board and the W. C. T. U. of Boyne City in combating the liquor menace in their city. The campaign was won by advertising through ads in the local paper, posters and letters to voters of the city. The W. C. T. U. also sponsored window displays. The organizations felt that in this way people who ordinarily would not have voted became interested and did vote in the election.

Announcement was made of a public meeting to be held in Petoskey at which Judge Healy, of Detroit, will be the speaker. The meeting, sponsored by the ministerial association of Petoskey, will be held at the Petoskey high school auditorium on April 2. Details will be announced later.

Restraint Is Urged On Rent Raising

Restraint in raising rents was urged today by A. Petersen, Chairman Charlevoix, Antrim and Emmet Price Control Board, who pointed out that the local OPA office had received numerous phone calls and letters from tenants complaining about recent increases in their monthly rents.

"Most of these callers want to know if there isn't any rent control in Charlevoix, Antrim and Emmet counties," said Mr. Petersen, "and when they are told that there is none, they say there should be. Apparently sentiment in this direction is becoming stronger."

Mr. Petersen pointed out that both the Office of Price Administration and he personally were opposed to increased controls. He added, however, that complaints regarding rent controls must be forwarded to the District Office in Detroit which in turn sends them to the Regional Office in Cleveland, according to Mr. Petersen, the Regional Office requests the Bureau of Labor Statistics to make a survey of the area when the complaints from it reach a certain point. If the survey reveals that rents in the community are high and going up, then the area will be considered for rent control.

"Landlords in the non-controlled rent area can continue to be their own controller and avoid Federal regulation if they will continue to exercise restraint and refrain insofar as possible from giving tenants reasons for complaining to us about overly-high rents," concluded Mr. Petersen.

Declines Nomination After 22 Years of Public Service

Frank F. Bird, for 11 consecutive two-year terms as Register of Deeds for Charlevoix County, today announces that he will decline the nomination for another term.

"I have been honored with the Register of Deeds office for 22 years," said Mr. Bird, "and I feel that I have done my duty as a public servant. My very best wishes to my successor, whoever he may be, when he or she assumes duties Jan. 1, 1947."

In an announcement elsewhere in the Courier, Mr. Bird thanks the voters of the county for their loyalty to him over the years. He makes the announcement early, he explains, because of the early primaries.

Mr. Bird has been a resident of Charlevoix county for 50 years. Together with Mrs. Bird, he will continue with private business at the Bird's Nest and supervise work on his farm in Hayes township.

VFW Names Committee On Industry

Other Organizations Scheduled to Appear With Delegations Also

The Veterans of Foreign Wars at a recent meeting, have appointed a committee to act on "Industry," it was revealed today by a spokesman for the organization.

Along with the announcement, also, comes word that Amvets, a newly-formed organization, not connected with the V.F.W., but aiming for a solution to the industrial, business and housing problems here in Charlevoix, will contribute much time and effort to the critical situation.

Lewis Brandt, Edward Golden and Robert Maxfield have been appointed by the V.F.W. to attend all meetings of the city council and board of commerce, "to find out what progress, if any, is being made."

The Amvets were represented at the last Board of Commerce meeting by Clifford Turner, Kenneth Forbes, Norman Houck and Charles Greeley.

The Board of Commerce, itself, has appointed a committee to work out details of industry, etc., which is expected to report their findings at the next board meeting, at the city hall Wednesday evening, March 20, at 8 o'clock.

Further developments along this line may include a Citizens' committee, not yet organized, which would throw their strength behind a movement for industry, housing and business sites in an effort to alleviate the situation.

Girl Scout Notes

Fifty six Girl Scouts celebrated the 34th birthday of the Girl Scout movement March 12, at the city hall. This movement was established in the United States by Juliette Lowe at her home in Savannah, Ga., March 12, 1912, with eight girls present. There are now more than a million Girl Scouts in the United States.

A short history of the early beginning of the Scout movement was given by Marion Seymour, Colleen Reed and Donna Everts. The laws were repeated and explained by Elva Brumba, Barbara Alice, Leona Scott, Virginia Smith, Viola Anderson, Caroline Smith and Freda Taylor. Barbara Koff and Dorothy Albers. The promise was explained by Glendon Pemberton, Velma May, Sara Coleman and Nancy Swanson. Mrs. Harry Ladd was Mistress of Ceremonies.

Because of the increased activities in Girl Scouting, it has become necessary to establish a local council for the purpose of directing and co-ordinating the Girl Scout movement in Charlevoix. Plans have been made to hold a public meeting of men and women interested in young people and in social progress of the community Thursday, Mar. 28, at 8 o. m., in the city hall. Plans will be presented for forming a council to be made of adults interested in the movement. The activities aim through comradeship to develop initiative, self-control, self-reliance and unselfish service to others. The movement is non-sectarian, non-political and non-profit-making. VOICE of the People

Dear Mr. Steinhurst:

On behalf of the members of the Barnard Grange, I wish to state that we are behind you 100 per cent in your campaign to bring more industry to our town of Charlevoix, and that our merchants enter a little more in the year-around resident instead of the summer people.

It does seem a shame that our returning servicemen and young people are being forced to make their homes elsewhere simply because there isn't work for a man to earn a decent livelihood for his family. And almost everyone of us can recall an instance where some merchant turned us down in favor of the man who possibly had more money than we.

So here's hoping you succeed in your campaign. And may it bring about better conditions for those who wish to call Charlevoix their home.

Sincerely,
Mrs. Joseph Stutzman,
Secretary Barnard Grange

To the Editor:
Because one of the aims of the W.C.T.U. is the betterment of children, and of young people, the Charlevoix W.C.T.U. wishes to express its gratitude for the enforcement of the law, barring minors from taverns of this city.

Dear Editor:

We admire the stand you and the former GI's are taking in regard to really getting Charlevoix on the map, in a business way.

We have a home in Charlevoix county and would like to be there to enjoy it, but since there is nothing to do to make a living, we are forced to seek employment elsewhere. There are dozens of former Charlevoix residents here in Detroit who are in the same boat. We sincerely hope

The Nagato is going on a shake-down cruise in a couple days and then she will go on her one-way trip to the Marshall Islands where she will meet her match, even if she didn't meet it during the war. And if you ask me, that couldn't be a better place for her.

DOES CHARLEVOIX REALLY WANT NEW BUSINESS AND NEW INDUSTRY?

Many times in the past weeks has the above question been asked! Who has the answer?

Can we look to builders, lumber dealers, real estate operators and investment men for the answer?

Or shall we turn to the council, City officials and the Board of Commerce?

In the past few weeks, also, we have had definite figures to prove that real estate interests in Charlevoix have had from two to four enquiries per week, for business locations, buildings, etc. Where can we put new business that wants to locate here? We are forced to turn them down, or worse than that, force the business man, who is already established here, to go out of business because the building he leased or rented has been sold out "from under him".

Some time ago we proposed a planning commission for Charlevoix. Don't we need it, either?

A planning commission could help to alleviate much of the present discontent in the building of homes—of which there is a definite shortage—along with many other services, including parking problems for shoppers.

Our sister city to the east, within the past few weeks, has stepped to the forefront AND WILL HAVE A NINE-MAN PLANNING COMMISSION. They are not waiting for George to do something about it.

It is the duty of the City Council and Board of Commerce, in the absence of such a commission, to study the needs and requirements of this city.

The main cry has been that material shortages won't allow us to build! But even at that, nearly every small city is doing some building. East Jordan is doing a lot of it for they are advertising new homes for sale for the veteran. A new factory has just been completed at Elkton, Mich., which will employ 75 workers; Owendale, Mich., has a new Automotive Industrial company plant, which is expected to start production in about a month. It will employ about 100 people. Over at East Tawas, Mich., a new home permit was approved and an addition to a second was approved; requests are made of the city council to open streets to provide access to lots so that more homes can be commenced.

ADRIAN—Employment going up; 225 male workers needed in industrial plants.

BATTLE CREEK—Major plants hired 800 during month, but only 60 women. Larger plants to add more workers.

BENTON HARBOR—Funds being raised for new community hospital; plans being formulated for new million dollar bridge.

BAY CITY-MIDLAND—Employment prospects excellent in chemical industry. Current job openings for semi-skilled, clerical, sales.

GRAND RAPIDS—Shortage of skilled workers.

JACKSON—Employment rising steadily; settlement of automobile industry dispute may result in deficit of male labor within four months.

CHARLEVOIX—No housing available; No jobs available; No business buildings available; No business building sites provided for!

LET'S WORK FOR INDUSTRIAL PEACE

Men want to work.

Management wants to produce.

The public wants to buy.

The country wants prosperity.

Yet good times have been held up by an agony of strikes.

Strikes breed bitterness... hunger... and economic stagnation.

For the sake of our country, let's change this! Change it fast. Time is running out!

Let's work out a way to get — and keep — industrial peace and prosperity.

THE FIRST STEP

Isn't a sound national labor policy... one that treats workers and management exactly alike and above all one that is fair to the public... the first step toward that peace?

Sincerely believing this to be so, we offer this program for peace and production and prosperity:

1. Make employers and unions equal in responsibility under the law.

2. Let Congress set the rules for genuine collective bargaining, free from coercion and violence, and then let government enforce these rules with strict impartiality.

3. Provide safeguards for the public against strikes or boycotts arising from disputes between unions.

4. Insure against strikes until all orderly procedures for settling disputes have been exhausted.

Your representatives in Congress have the power to establish this pattern for an enduring and a fair labor peace. Let them know how you feel about it. Urge them to act promptly on legislation to include these four points.

Time alone won't bring industrial peace. Doing nothing won't bring it. Positive action is the only way. For your own sake and for the future of our country, let your voice be heard!

FREE! A timely, authoritative booklet entitled "The Public and Industrial Peace," gives full details of this program, including specific suggestions for legislation. It is a useful handbook for every citizen, program chairman, or group leader. A postcard brings it. Address: National Association of Manufacturers, 14 West 49th Street, New York 20, N. Y.

15-STORY "TEST TUBE" DESIGNED BY FRANK LLOYD WRIGHT

A fifteen-story glass tower, designed by the famous architect, Frank Lloyd Wright, is the feature of a modern wax research laboratory to be built this year in Racine, Wisconsin. It was announced today by Herbert F. Johnson, Jr., president of S. C. Johnson & Son, Inc., of Racine, Johnson said:

"Our new building, which will mark the 60th anniversary of the founding of our business, will be a companion to the Johnson Administration Building which was also designed by Wright and completed in 1939. It will give us unobstructed facilities for the development of better wax products for home and industry, and at the same time represent, I believe, as great a contribution to

business architecture as did our first Wright building."

The new Johnson's Wax laboratory is a compact, tall stack, rising 156 feet in the air, serviced directly from a circular masonry stem connected to floors at the center of each of the fifteen levels that make up the building. Each level is to be brilliant with sunlight in every part and air conditioned, heated, serviced complete from the central shaft.

Wright believes that the new Johnson Research Building will prove an inspiring example for American business—"inspiring business to make itself more effective by making itself more pre-ventable."

Wins Navy Unit Commendation

Robert O. Bergmann, who was discharged from the Navy in January, 1946, "has been awarded the Navy Unit Commendation for service during the period of May 4, 1943, to Feb. 10, 1945, while serving aboard the battleship, USS Pennsylvania, in the Pacific."

Mr. Bergmann, who was a fire controlman, second class, at the time of discharge, enlisted in the Navy in July, 1942. He served aboard the repair ship, Belle Isle, after leaving the Pennsylvania. He is the son of Mr. and Mrs. Fred Bergmann, of this city. He is now employed by the Western Electric company at Flint.

Farmers' Union Hold Meeting at Deer Lake

The Farmers' Educational and Co-operative Union of Charlevoix County, held its monthly meeting on March 12, at the Deer Lake Grange hall with the Wilson local. There were 85 members and visitors present.

County agent Rebmman attended and explained the Bonine law, which affects Baags disease among dairy cattle.

George Schintelles, temporary manager of the Samsat Co-operative Store at Boyne City, gave an interesting talk on the cooperative movement and its advantages to the people concerned.

A great deal of interest is being shown among the people of Charlevoix in the Farmers' Union, as more and more are coming to realize that this is an organization of working farm families, cooperating to build a program for themselves, for agriculture, and for the common welfare of all working farm families.

The strength of the Farmers' Union is not measured by the number of members it has. The real strength is the number of farm families, times the understanding each family has of the aims, functions and effectiveness of the Farmers' Union. Multiply this by what you do to put into practice the things you say you stand for. That is the strength of the Farmers' Union, according to officers and members of the organization.

Kiwanis Notes

Lieut. Edwin K. Reuling, East Jordan attorney, formerly an intelligence officer of the air combat division of the Seventh Fleet, U.S.N., talked on communications in war and his experiences in the Pacific, at the March 18 meeting. The speaker described the intensive training necessary to enable a former civilian to decide messages between various units of the fleet as well as shore stations. Particularly vivid was the description of his parachuting into a rice paddy during early morning darkness, behind the Japanese lines, to assist guerrilla leaders in rendering the radio messages sent to them by the Americans.

The immediate repeal of all price regulations was the subject of a round table discussion at the meeting, last week. Following a spirited expression of opinions, a ballot vote stood 16 for elimination of all price controls now, to nine for retaining them.

At last reports Fred Willis and "Bob" Sloan were in Texas. Dr. McMillan is recovering nicely from his recent injuries, sustained when he fell on the slippery ice.

Fred Bancroft (all tanned up) is back from his winter vacation in Florida and Cuba. He thinks Charlevoix will be just as crowded this summer as Florida was last winter, or is it still this winter.

"Bill" Meyer and "Pete" Bulow were elected delegates to the Kiwanis International convention, to be held in June at Atlantic City. Charles A. Humlin and Floyd A. Supp were chosen alternates.

Along the Avenue

By The Editor

Rumor flashes through the grapevine that Policeman Glenn Rose will be a candidate for Sheriff at the June primaries.

First fish story material of the ice fishing season, is furnished by Postmaster "Joe" Foster.

While fishing through the ice on Lake Charlevoix one day last week, he "spudded" a small hole in the ice and, after tactfully baiting the hook, dropped his line through the hole. Sudden jerking of the line told Joe that he had encountered a fish. Pulling up line, he discovered, to his amazement, that the fish was larger than the hole. Tying a stick of wood to the line, he left for home where he secured an axe. Cutting a larger hole, the Lake Trout was soon landed on the ice. It weighed 5½ pounds. "Doc" Kerns, who was sent, can testify to the authenticity of the "fish story" just in case!

Mrs. Sutton phoned to say that she saw robins in her yard last Thursday morning, which makes her a charter member of the "First Robin" club.

There are now ten women in congress, but no woman as yet has ever tried for the presidency. One reason, of course, is that the President has to be over 35.

One old Ford that keeps on running smoothly in spite of everything, is Henry, who will be 83 come August.

Whose conscience will be your guide in the coming election?

Cost of living is high and is going higher, but we have yet to find anyone who wants to quit.

One big fault with a bottle baby is that so many of them grow up with the habit.

Congress has become alarmed at the increase of rats in the nation's capital building. What we don't understand is how the rodents survive with so much gas floating around!

Shaking Heads and Human Liberties

It's a funny thing. Now that the war's over, there's a lot of head shaking in our town. People saying: "What's the younger generation coming to?" "How can we count these strikes?" "The country's going to the dogs!" "There ought to be a law!" etc.

But when the younger generation was walloping the Axis "supermen"—and labor was doing the most colossal job in history—you never heard a murmur. But now that we're back to our traditional life of personal liberty, just see

how the heads begin to shake again. I guess there'll always be head-shakers—folks who feel "there ought to be a law"—who believe that the best form of regulation is suppression, whether it's applied to beer or baseball.

But from where I sit, America's done pretty well with the idea of personal choice and individual liberty. I guess that's just the way Americans are made.

Be Careful of Grass Fires

Your local conservation officer is again requesting your cooperation in the cure of grass and woods fires.

Every spring a number of families are left homeless by some one being careless. Last spring several homes were destroyed. This year as in the past few years we have to be doubly careful because of the lack of homes and building material. Last spring, fires in Charlevoix county alone caused, through carelessness, the burning of two houses, three barns and one tool shed, at an estimated cost of damage set at \$3,000.

Parents should also caution the children on burning grass. Every one likes to clean up and burn rubbish and grass in the spring, especially children. They do not see the danger of this or the proper way to burn grass.

Many calls and runs to these fires by officers and fire dept. can be avoided; also the officer may be called from his post when he is needed badly at another point.

Your local conservation officer will strictly enforce the laws this year, which is herewith given:

"It shall be unlawful when the ground is not covered with snow, to start or have an open fire, except for domestic purposes, and

to protect persons or property in case of fire, without the written permission of the Director of Conservation or other authorized conservation officers, unless a fire break sufficient to check the spread of such fire shall have been freshly made or plowed around the area wherein said fire is set."

Please be careful!

Eleven Faithful Members of Selective Service Given Medal for Their Labors

Veteran members of the Selective Service System in this area were honored at Traverse City on Tuesday when they were awarded the Selective Service medal authorized by Congress for the uncompensated service in the local administration of the draft law.

Eleven Charlevoix county men were among the 195 local and appeal board members, government appeal agents, medical examiners and redeployment committee members honored at ceremonies held in the ballroom of the Park Place Hotel at 1:45 p. m. The medals were awarded in the name of Congress by Brig. General Leroy Pearson, state director of Selective Service.

The Charlevoix county honored were three members of Local Board No. 1, J. M. Foster, of Charlevoix; James R. Dean, of Boyne City; and Dr. Bernard J. Beuker, of East Jordan; government appeal agent, Hollie L. Lewis, of Charlevoix; redeployment committeeman, John Porter, of

East Jordan. Six were honored for their services as examining physicians. They were Dr. P. E. McMillan and Dr. G. B. Saltonstall, of Charlevoix; Dr. Jerrian VanDellen, of East Jordan; Dr. Guy C. Conkle and Dr. A. F. Litzenger, of Boyne City; and Dr. Russell E. Palmer, of St. James.

The Traverse City meeting marked the fifth in a series of district meetings being held throughout the state to honor the uncompensated personnel of the Selective Service System who have been carrying out their duties under the draft law since September of 1940. The medal awarded was authorized by Congress as a public acknowledgment of the gratitude of the people of the United States for voluntary service performed "in a manner which is an example of patriotism."

Eligibility for the award is based upon a minimum of two years of uncompensated and faithful service. The medal is inscribed: "Awarded in the Name of Congress of the United States for Faithful and Loyal Service."

Personnel who received their awards at the Traverse City meeting represented draft boards from Northern Michigan counties comprising Alcona, Alpena, Antrim, Benzie, Charlevoix, Cheboygan, Crawford, Emmet, Grand Traverse, Kalkaska, Lake Leelanau, Manistee, Muskegon, Montmorency, Missaukee, Oshtemo, Oscoda, Otsego, Presque Isle and Wexford.

All Display Advertising On Contract Basis Beginning April 1

Because foreign advertisers (anyone outside of Charlevoix proper) have signed contracts for space for the ensuing year, the Courier may not be able to handle all local advertising, unless it is on a contract basis.

If contract, we mean the advertiser must determine how much, if any, advertising he will use in the year ahead. We will not contract for more space than we are able to give. At present we are limited to eight pages and until the labor and paper situation clears up, we cannot publish more than eight pages weekly.

If you will be in need of advertising, within the next year, it will be to your advantage to ask us for a contract now.

Why checks
are
"Protested"

When you endorse a check, you guarantee that it will be paid; and that if it isn't (and you are notified of that fact) you will be liable for payment yourself. If that check is protested for non-payment, a notary public will notify you and all other endorsers, and affix a certificate of protest to the check. This procedure enables you to look to your prior endorsers for settlement, even if the check is payable in another state. Always deposit promptly all checks you receive, to avoid delay in presenting them for payment. An account with us will assure you of fast collection service.

ROCK ELM
MRS. A. B. LAWTON
Killed, robins and bluebirds arrived here last week. Hope the weather will be kind to them.

Frank Lawton enclosed the front porch of the LeCroix farm home with glass last week.

Road conditions are unusually good through here for this time of the year. As a rule when the snow melts, it leaves the road so muddy as to be nearly impassable in places.

Earl Bradley and Jesse Lawton made a business trip to East Jordan and Charlevoix Saturday afternoon.

Tom Party called at the Lawton home Sunday afternoon.

Last week Jesse Lawton continued the electric wiring job begun several weeks ago, at the LeCroix farm, but is still unable to finish the work because it is impossible to obtain needed materials.

Announcement

TO THE VOTERS of Charlevoix County

For twenty-two years, I have been honored by the voters of Charlevoix County who have elected me to the office of Register of Deeds for eleven consecutive two-year terms. Having decided not to be a candidate for nomination to that office at the coming primary election, I take this opportunity to thank the people of Charlevoix County for the trust and confidence they have so generously expressed in my administration.

Surely, it is needless for me to say that I treasure the friendships I have made while in the office. My successor, whoever he may be, will take office January 1, 1947. To him, I extend my very best wishes and assurance of any help I may be able to give him. This announcement is made at this time because of the early primaries.

that they are the top team in the state by whipping Charlevoix by a 36-32 count. The game started off with both teams neck and neck but the locals fell behind in the third only to stride forward late in the final period. Aten, star Manton ball handler, said, "It's a darn good thing that game didn't last two minutes longer. WOW. Durn good." Unquote.

Manton took the tip-off and tried to score but B. Ward snatched the ball back and CHS tried to score, misses and Manton takes the ball. More misses show how a few typical seconds in the first quarter could be fatal. Capt. Hardy scored first for the Rayders, but Manton sank a free throw to give them the lead in what was thought to be a Rayder victory. At the end of the first quarter, however, Manton led, score 7-6.

The second quarter began with a beautiful overhead shot by Bob Carey. Manton came back to climb high in scoring. Soon the local lads found their way to the bucket, but MHS came on ahead. A tying period, Manton makes one or two in a row, and CHS comes back to score one or two more. Then Manton began to stack them up fast and had a 7-point lead in the first half. Manton 19, Charlevoix 12.

The third quarter opened with the Red Rayders fighting an un-

accounted for odds and they lost their progress that has been so evident during all their games. In this period the locals fell behind considerably and Manton took a larger lead as a result.

In the fourth quarter, with everyone on its feet, yelling lustily, the Rayders tried but in vain to drive in a final attempt to slam Manton hard against the wall. Floor length tosses to Bob Carey, under the bucket, gave CHS 6 points before Manton squelched this attempt. With Bobby bottled up by 3 giant Manton men, the Rayders' last drive failed but not without giving the game the old one-two that spiced the evening. As the stanza came to its dying close, the locals dived for the crown once more, but MHS snatched it from their reach in an awe-inspiring last second play.

Charlevoix fans left the gym in a huff, with yours truly in the lead, but CHS lost to a team that had to drive hard to take the trophy and they won it.

In only the first and third quarters did East Jordan threaten and at no time did they outscore the veterans. Earlier in the tournament, on Thursday evening, Petoskey Vets were eliminated by Indian River, 31-30. Charlevoix defeated Mackinaw City 52-12. Boyne City won over Vanderbilt, 41-33 and East Jordan were victors over Central Lake, 54-35.

Friday evening, East Jordan defeated Boyne 48-23 to go into the finals against Charlevoix.

The Sayings from the Cross will furnish the subjects for the messages this year. The program has been set aside in five parts, each church having charge of one of them, furnishing the music and the message. The parts or divisions will occupy 24 minutes each.

Burned Reformed, Church of God, Congregational, Methodist and Baptist churches are cooperating and participating in the Good Friday service.

The offering will apply on Chinese Relief.

Other matters of interest to the churches and the community were discussed and suitable action taken where necessary.

Curtis Market Changes Hands

Campbell & Supernaw Are New Proprietors

Herbert Campbell and Henry (Junior) Supernaw have purchased the Curtis Market located at 802 South Bridge street from Russell (Pat) Curtis and will assume operation of the business Tuesday, April 2. A grocery department and meat market are included in the store.

Mr. Campbell and Mr. Supernaw are both Charlevoix boys. Until recently Mr. Campbell was a commercial fisherman and Mr. Supernaw has been employed at the Dutcher & Johnson Super Market.

Mr. Curtis was in business 11 years on March 23. He first operated a small market at 808 Bridge street, and has been in the present building for seven years. He plans to continue in a string and custom butchery business.

Up the hill, off Dixon and Bridge, a grass fire would beautify that spot no end.

Clair Webster, Owner, and Son Escape Injury

The "Hawk", 40-foot boat, owned by Clair Webster, was severely damaged and Mr. Webster and son, Bud, narrowly escaped serious injury when the boat was caught in the ice in Lake Charlevoix, off the Belvedere club about noon Saturday. Mr. Webster was taking the boat from its winter mooring in Old River, in the Foster Boat dock through a large opening in the ice when the wind came up suddenly out of the east, crowding the ice fields together and pinning the boat in the crevice about 600 feet off shore.

Mr. Webster and Bud left the boat after it had been pushed toward shore and crawled in safety over 300 feet of porous ice. The ice field sheared the pilot house off the boat and covered it completely. The Coast Guard crew, which had been called to the scene, circled the boat, breaking up the ice and allowing the boat, made buoyant by a 165-gallon gas tank, only partially filled with gas, to come to the surface. It was then towed to the Foster Boat company Marine dock. The hull of the boat, made of Orford cedar, suffered little damage.

Not just any spring! This is a particular spring which comes to the Hartman family. And the Hartman family might be any 20th Century American family. A three-act play and musical numbers by the high school band are on the program. Starting time is 8:15 o'clock.

In the cast are Camille Gencit as Midge; Sally Miller as Christine; Bonnie Bayler as Gabby; Jane Mosier as Virginia; Evaline Sippel as Mrs. Hartman; Betty Potter as Mrs. Eldest Nancy; Irving as Carolyn; Joyce Butler as Edna; Irving Manville as Freddy; Jeanne Hardy as Buzz; Frank Martin as Alton; Clarke Bergson as Elliot; Vernard Hamlin as Mr. Fields; Bill Poole as Mr. Hartman; Jerry Ypma as Clancy and Jim Roberts as Keith.

LET'S STOP FEEDING INFLATION

You know what happens...

When you continue to spend more than you make and...

Keep on borrowing to make up the difference!

You know too, that a big chunk of every dollar you earn and every dollar you spend goes to pay the cost of government.

That's why it's important for you to take a good look at the way the government spends your dollars.

Government should begin now to live within its means.

During the war government necessarily spent huge sums of money. Yet, with the war over, the government plans to spend four times as much in the coming year as it spent in the highest pre-war year.

Most thoughtful people believe that government expenditures are now far greater than they need be.

They believe that government, like a family, should live within its means... that it should not spend more than it takes in... that it should not keep on going deeper into debt.

Yet that is exactly what's happening today. Our government is spending billions more than it takes in. And it continues to borrow to make up the difference.

This is the kind of money-handling that causes inflation.

Economy in government means money in your pocket

If the American people—through Congress—will reduce government spending and take steps to encourage production, inflation will be stopped... and this is the only way it can be stopped.

Write your representatives in Congress today.

Urge them to cut the cost of government, eliminating all waste... all unnecessary services... and postponing all expenditures that can be put off until our war bills have been paid.

Urge them to make the government start living within its means... at a level that you and your neighbors can afford to pay.

You'll see the results soon in the cost of everything that you buy... food, clothing and everything else. And you'll be doing your country a real service.

YOUR DOLLARS... a postcard to the National Association of Manufacturers, 14 West 49th Street, New York 20, N. Y., will bring your copy of this informative booklet on government spending—a subject which is all-important to you.

THE OLD JUDGE SAYS...

GEORGE: "Yes, I certainly would like to hear why you call that an old fashioned idea, Judge."

OLD JUDGE: "Glad to tell you, George. Until recently, a person known as an alcoholic was generally treated as a social outcast. Little if anything was done to understand him or help him. But, during the past few years, medical research and study has developed that alcoholics are really sick people... that there is usually a deep-rooted physical, social or emotional reason behind their behavior. That's why today so

much is being done to help them by finding out and correcting the condition that leads them to excess."

GEORGE: "How many folks are there like that, Judge?"

OLD JUDGE: "Well, according to scientific research, 95% of the people who drink, drink sensibly. 5% do so unwisely, at times. Included in that 5% is the small percentage of the sick people I'm talking about."

GEORGE: "That certainly gives me a clearer picture. It's the most sensible approach I've ever heard of on the subject."

Campaigners Are Loose IN BOARD OF COMMERCE — CITY ELECTION

They're Off — The first convulsions from the nursery of the Board of Commerce and City Election Campaigners are recorded on the fever chart.

Here and there about our fair city, under guise of other business, can be seen the figures of would-be "dictators" as they stop in to warn of dangers from this candidate or that one.

We are reminded of the circus hands who were so intent on re-modeling the lion's cage that they did not notice they had let the lions loose.

In serious vein, though, we, as newspaper publishers, have a job to do! Citizens and former residents of Charlevoix have a right to expect the press to present both sides of all questions fairly. We are accused of presenting only one. First of all, we have a condition which needs correcting. And the place to begin is at the polls. If Charlevoix business is not allowed to expand, because of a certain minor group, there is only one answer—ELIMINATION! There is no choice of another side, lest the city remain in its present state—DORMANT to more business, more housing, more parking, etc., etc.

For the most part we have had a good city government and Board of Commerce. But dictators to either group, who would ride on the "bandwagon" when the summer business is here, and jump off to rest until another season arrives, should be expelled from either governing bodies.

To a few businessmen, who would persist in sordid repetitions of carping epithets, we say "put on your long pants and take a look at the situation from the standpoint of the average citizen—the man who works for a living and who spends the money in our city."

We discovered long ago—less than a year—that a small group of businessmen were so completely lost in sanguinary operations for "summer business" that the welfare of the city and its citizens were forgotten.

When the doctor (voters) arrive at the nursery to check the fever, and do a bit of surgery, it would be a good idea to sew up the body and leave the healthiest organs outside.

Election—both city and board of commerce—is Monday, April 1. As a good citizen you should vote!

Kiwanis Notes

Carl Spiller, superintendent of Petoskey schools, was guest speaker at our eleventh anniversary charter night, held at the I.O.O.F. temple last Monday evening. He discussed the excellent record of Charlevoix Kiwanis in having so many of the original members still active in the club; the characteristics of a good Kiwanian and the place of Kiwanis in the community. He was introduced by Alfred J. Daa, lieutenant governor of the 9th division of Michigan Kiwanis. Eleven years ago twenty-six Charlevoixians started the Charlevoix club. Of them, 12 are still active; six have moved away, and three have become non-active.

Oscar P. North, our first president and past lieutenant governor, was unable to be present as master of ceremonies, due to his duties at Newaygo schools. He was very much missed.

"Bill" Meyer was given highly deserved recognition for 10 years as secretary of the club, during which, of major importance, was the entertainment of the Michigan district convention here. We are the only club in the northern part of the lower peninsula that has acted as host to a state convention.

Meyer Levinson is the only member with a perfect attendance record for the life of the club.

We have much talent in singing. Evidence, Charles and "Mike" Hamlin in the "Irish Jubilee." We are glad to have Lawrence Pennington at the Charlevoix hospital following his operation.

Capt. Frederick W. Young, Jr., soon discovered that his host of friends had not forgotten him, notwithstanding his more than three years of absence in Italy, the South Pacific and the Japanese islands. He hopes that the army will soon relieve him of his military duties.

A lovely chicken dinner (chicken was pressure cooked we are told) was served by the ladies of the I.O.O.F. and it was really wonderful. Thanks from all of us.

Attending the meeting were: Mr. and Mrs. Alfred Daa and Mr. and Mrs. Carl Spiller of Petoskey; Mr. and Mrs. Alfred E. Torrey of Keego Harbor, and John Gibson of Long Beach, Calif. Those from Charlevoix were: Mr. and Mrs. Fred Bancroft, Mr. and Mrs. Roy Bennett, Mr. and Mrs. Archie Belding, Mr. and Mrs. C. M. Rice, Mr. and Mrs. Howard Bramm, Mr. and Mrs. Frank F. Bird, Mr. and Mrs. Kit Carson, Mr. and Mrs. Dean Davenport, Mr. and Mrs. Charles Duerr, Mr. and Mrs. Lawrence Feindt, Mr. and Mrs. Charles Hamlin, "Mike" Hamlin and Miss Patsy Hamlin, Mr. and Mrs. William Heering, Mr. and Mrs. George LaBlance, Jr., Judge and Mrs. Rollie L. Lewis, Mr. and Mrs. Angus Leitch, Dr. and Mrs. E. P. McMillan, Mr. and Mrs. Clarence B. Meggison, Mr. and Mrs. W. F. Meyer, Dr. and Mrs. D. C. Nettleton, Mr. and Mrs. Harley L. Ochs, Mr. and Mrs. Floyd A. Supp, Mr. and Mrs. Arlo Wickersham, Rev. and Mrs. Wilford Wood, Mr. and Mrs. Fred Willis, Capt. and Mrs. Frederick W. Young, Jr., Fenton Bolow and daughter, Marilyn Ann Bolow, Harry Bingham, Lou Comfort, Rev. Gaylord Howell, Otto Kraeger, Meyer Levinson and Wayne Wilbur.

Ben Ryder and the Wanderlust

During the war, Ben Ryder talked about the trips he'd take when gasoline rationing was ended. Used to pore over roadmaps—checking mileages and charting routes.

Now Ben's taking quite a lot of ribbing. Soon as rationing was lifted, he decided he liked strolling home, putting in the garden, playing chess, sharing a pleasant glass of beer with friends.

"Shucks," admits Ben sheepishly, "as soon as you can go, then it's just as good as having gone!"

You might as well stay home... enjoy your friends and family."

From where I sit, that's a pretty common trait in human nature.

Take that glass of beer, for instance. During Prohibition, Ben was nursing an insatiable thirst. But come repeal, Ben suddenly finds he's happy with a friendly, moderate glass of beer—and nothing more.

Yep—just tell folks the sky's the limit, and they'll settle for a piece of friendly earth.

1945. A BUSY YEAR AT MICHIGAN BELL

TRANSITION War gave way to peace, but unfilled orders for new telephones continued to soar, reaching 127,500 in November. As Michigan Bell's Postwar Expansion and Improvement Program gained momentum, the number of applicants waiting for service was reduced to 113,200 by year's end.

WELCOME 1,295 of Michigan Bell's 3,056 war veterans had returned by Dec. 31. Mourned were 67 who had died in service. During the year, total employees had climbed 3,400 to an all-time high of 16,500. The prewar ratio of about 50-50 between men and women had shifted so that 2 of every 3 employees were women.

MORE CALLS Calls in 1945—159,700 toll and 6,001,000 local per day—were about double the prewar average. Service, although not up to prewar quality in some respects, was generally good.

MORE TELEPHONES By Dec. 31, telephones in service totaled 1,174,513 compared with 742,118 in 1939. In the last 3 months of 1945, the increase was 37,000 telephones, largest 3-month gain in Michigan Bell history.

PROGRAM BOOSTED The figure for Michigan Bell's 5-year Postwar Expansion and Improvement Program was boosted from \$120,000,000 to \$150,000,000 after experience gave a clearer picture of increasing public needs, rising costs of materials and labor. Money for the program must come largely from the sale of Bell System securities to investors.

RATE-CUT RESISTED

To attract the investor's dollar, the rate of Telephone Company earnings must compare favorably with the average of other industries—not substantially less, as has been the case in recent years. The future quality of telephone service, then, depends on earnings attractive to investors. So Michigan Bell in January, 1946, appealed to the courts for relief from a Michigan Public Service Commission order calling for retroactive reductions of \$3,500,000 a year for 1944 and 1945, and lower rates for local service in 1946.

GOAL To return as quickly as possible to the kind of service wanted, when and where it is wanted, is Michigan Bell's aim. By year's end, work was being rushed on nearly 100 major projects which will boost central office capacity by 85,000 lines and add about 850,000 miles of subscriber lines. 2,600 miles of open wire were built in 1945.

FUTURE Unlike most industries, we have no alternative but to expand our plant when necessary to meet service demands. With earnings attractive to investors, we can continue to improve the quality of service and use future, technical research developments to help keep rates down in the face of rising costs. It is to everybody's interest that we give the best service at the lowest cost which will protect the future of the business.

ANNUAL REPORT The full story of Michigan Bell's operations for 1945, complete with all the facts and figures, is contained in an interesting, illustrated booklet, entitled "War to Peace." Copies may be obtained at any Michigan Bell business office.

Along the Avenue

By The Editor

Just a suggestion comes from an Avenue reader, signed "ISH". Here it is—"How about 'Campbell Soup' (pronounced 'soup') for the firm of 'Herb' Campbell and 'Junior' Supernaw, huh?"

We are glad to hear that Mrs. Robert Mitchell is convalescing satisfactorily at her home after her recent operation at the Charlevoix hospital.

Some automobile manufacturers, they say, aren't going to build a car this year. Instead they will start on the 1947 models. The 1946 cars had two strikes on them before they got up to bat.

This country must appear strange to foreign war brides. With women begging for nylon hose from merchants everywhere, while radio programs give them away by the 100's.

The new Roosevelt dime is in circulation. We saw our first one last week. Wish we could have kept it.

J.S.A., Whittier, Calif., sends us this one—Washington's treasury dept., income tax division, received the following letter, "Dear Sir: I have received your application blank, but as I already belong to more organizations than I really should, I must decline at this time to join your income tax."

Calvin J. Bennett, chairman of the Board of Supervisors, and genial prop. of Cal's eatery near East Jordan, has tossed his hat into the ring for the office of Charlevoix County Commissioner. He will oppose Sam Rogers.

From our mailing's mail we find a card, which simply states: "Dear Sir: More power on the looks of your paper. You are hitting Big Time." Signed Buzz. It is evident the writer is alluding to our NEW Courier head. Space did not permit us to mention details of it. Suffice to say it is the work of an artist friend by name of Gene Erlanson.

Charles E. See, well known former local resident and father of Glenn See, who now resides in The Delta, Oregon, says: "You erred in describing the See building as being built by S. M. See. It was I who built the structure and took over management of the store after father's death."

Better late than never, believes Mrs. Ida Sterritt of Lake Worth, Fla., as she sends us \$2 for the band benefit. Fine spirit, Mrs. Sterritt!

Argonne Sold to Detroit Men

New Owner Took Over as of March 21

The Argonne, popular dining and dancing club, located north of Charlevoix, on US-31, has been sold to Frank Ostrum and Kenneth O. Seibert, of Detroit. It was announced this week by Willis J. (Doc) Kerns, who has owned and operated the business for the past ten years. The new owners took possession March 21.

Mr. Ostrum assisted with the operation of the establishment for several months prior to the sale. He was joined last week end by Mr. Seibert.

Mr. and Mrs. Kerns have owned and operated the Argonne since November, 1935. Prior to that time, the club, constructed in 1921, had been known as Thorpe Country Club and Julliet's.

Mr. Kerns stated that he and Mrs. Kerns would take a long rest before making any future plans. They now reside at 204 Lewis street.

Mary Margaret at Shipyard

Will Be Overhauled For Summer Service

Capt. Leroy Allers, of the Beaver Island Transit company, left Sunday with the motorship, Mary Margaret, for the shipyard at Two Rivers and Sturgeon Bay, Wis., where the boat will be given a general overhauling before starting the Charlevoix to Beaver Island mail run.

The North Shore, which will operate from Beaver Island to Charlevoix during the summer season, will be taken to Wisconsin later in the month for extensive remodeling and repairs. An upper cabin will be constructed and the lower deck enclosed.

The crew accompanying Capt. Allers included Lawrence Fiendt, Chester Belfy and Ralph Nutter. Joe Gallagher, of Beaver Island, will carry the mail and passengers aboard his tug, Bonnie, until the Mary Margaret returns.

The air mail contract with the Cadillac company expired March 31.

April Fool on Teachers' Club

A teachers' meeting was called for Monday, April 1, at 4 p. m., in the music room of the high school, by Supt. Bennett. All of the teachers gathered with an air of expectancy; the atmosphere was heavy with a feeling that something of great interest and importance to the teachers was going to be discussed; even the school secretary had been asked to take minutes.

Mr. Bennett opened the meeting by saying that because of the nature of the day, he thought enough time had been given to his business and that the teachers would immediately adjourn to the kindergarten room where the real "business of the day" would be presented.

There they found delicious refreshments of ice cream, cake, cookies and coffee awaiting them. As they ate, each person was called upon to do a stunt, suggestive of which was written on a slip of paper, pasted to the bottom of his cup. A short business meeting followed, during which Mrs. Dorothy McRae was elected as secretary of the Teachers' club, to fill the unexpired term of Miss Lenagene Rossman, who left Charlevoix March 1 to resume studies at Western Michigan college of Education.

The committee responsible for the pleasant surprise party, was composed of Mrs. Hattie Coleman, Mrs. Elizabeth Trimble, Mrs. Ethel Courier, Mrs. Anna Warner, assisted by Mrs. Dorothy McRae.

Charlevoix - Detroit Old Times Party Set For April 27

The 15th annual "get-together party" of Charlevoix Old-Timers is scheduled for Saturday night, April 27, from 7 to 11 p. m., at the Downtown YWCA Bldg., 2330 Withersell avenue. The purpose of advance notice is to give several hundred old-timers plenty of time to make their plans now to attend this first post-war party, which really ought to be the best one we have ever had.

Over 200 invitations will be mailed out to all who have received them before, but this notice is to serve as an invitation to hundreds of others living within 150 miles of Detroit, according to Wm. Archie Carey, sec.-treas. Thus far the Duttons of West Branch have the honor of holding the long-distance pennant. Who can top this?

Further details will be given at a later date, so keep your eyes peeled, said Mr. Carey, who urges all to come and join in a real frolic and fun and fellowship. There will also be a sing-fest and eats.

Capt. B.F. Arlen Off to Sweden

Called to Native Land by Illness of Mother

Capt. B. F. Arlen, a native of Sweden, was called to his former home in Stockholm by the serious illness of his mother, Mrs. J. P. Arlen, and sailed Saturday from New York aboard the Swedish-American liner, Gripsholm, for her home port of Gothenburg. Capt. Arlen left Charlevoix Thursday for the east coast. He has not been to his homeland since 1934. He plans to remain abroad about three months.

Mrs. Arlen, who is also a native of Sweden, was unable to accompany her husband only to those who have a very good reason, such as the serious illness of a member of the immediate family, for returning to Europe. She will remain at their home at 401 Prospect ave. in his absence.

The Gripsholm was used during the war as a diplomatic exchange ship by the State Department. The vessel, which traveled the equivalent of more than six times around the globe in returning thousands of repatriated Americans from war-torn Europe and the Pacific, carried 980 passengers on her homeward voyage. She will stop at Lallave, France, and Oslo, Norway, on her way home, then will be re-conditioned and re-enter service as a commercial passenger liner.

Businessmen May Employ Vets Now

On-the-Job Training Provisions Made For Homecoming Soldier

Veterans in business are being trained today under the G. I. Bill of Rights. The On-the-Job training provisions of the Servicemen's Readjustment Act are providing a real aid to the homecoming soldier and sailor. Any businessman in this community can assist by applying to Dr. Eugene B. Elliott, State Supt. of Public Instruction, for approval to train veterans. The size of the business does not matter just as long as there is reasonable assurance of employment upon completion of the training period and competency to train.

Veterans qualify for On-the-Job training by submitting application form 1950 to the Veterans Administration to determine eligibility for receiving benefits.

An employer can be approved to train veterans by first writing to Supt. Elliott, indicating his desire to become a training center, what job he plans to train veterans for and in what type of business he is engaged.

Help in preparing a training plan may be secured from the State Dept. of Public Instruction.

Death Claims Robert Bonthron

Passed Away At Home Of Brother In Chicago

Robert R. Bonthron, 68, retired businessman, died unexpectedly early Sunday morning at the home of his brother, Frank, in Chicago.

Mr. Bonthron, who had been visiting with relatives in Detroit and Chicago for the winter, passed away while sleeping. He had planned to return to Charlevoix in the near future.

Born in Scotland September 18, 1877, Mr. Bonthron came to this country as a boy and settled with his family in Chicago. He returned to Scotland as a young man and remained there for several years.

Upon his return to this country, he resided in Chicago before going to Baldwin where he operated a cattle farm. About 1904 he came to Charlevoix and was employed as a plumber by the Robert M. A. Johnson company. In 1909 he opened his own heating and plumbing business which he operated until his retirement in January last year.

In 1908 he married Minnie Nowland, who preceded him in death on August 25, 1941.

He was a member of the Charlevoix lodge No. 282, F. & A. M. and the Kiwanis.

Surviving are two brothers, John and Frank and three sisters, Mrs. Mary Hase, Mrs. Ann Krug and Mrs. Helen Lydard, all of Chicago.

Funeral services were held in Chicago Monday afternoon at the Chapel, Fullerton and Sacramento avenues. Masonic rites were conducted at the See Funeral home in Charlevoix at 1 o'clock Wednesday afternoon. Interment was in the Brookside cemetery.

Karl J. Erber, former member of the city council, was elected mayor at the general election on Monday. He succeeds Robert Bridge, who is retiring after serving 8 years as civic head. Ray S. Hamilton was re-elected clerk to begin his 19th year in that office, and Nelle A. Hammond was re-named treasurer to start her fifth term.

In the only contest in the election, Kenneth McFadden, who won the nomination for alderman in the first ward at the primary election, defeated Clarence F. Wood, who ran on slips, by a 90-80 vote. Totals in the election are as follows:

For Mayor
Karl J. Erber.....143 111 94

For Clerk
Ray S. Hamilton—337.
For Treasurer
Nelle A. Hammond—143.

For Alderman
First ward, Kenneth McFadden, 90; Clarence F. Wood, 80.

Second ward, Harold Dutcher, 108.

Third ward, W. E. Goss, 87.

For constable, first ward, Joseph Howard received five votes; in the second ward, Charles Reinhardt received one vote for that office, and in the third ward, Jos. Hyland received two votes for constable.

Family Gardens Urgently Needed

The urgent need for family gardens is sharply pointed up by surveys of foods eaten by rural school children in two Michigan counties. Serious deficiencies were found in consumption of the protective foods, tomatoes, green leafy and yellow vegetables, fruit and milk.

Kent and Ogemaw were the two counties studied. The report is published in the current issue of the Michigan Dept. of Health's monthly bulletin under the heading, "Needed: A 'Yay' and a Few Tomato Plants."

In 144 rural schools each pupil kept a record of every food he ate. The food records were judged against the National Research Council's recommended dietary allowance for a child 10 to 12 years of age. This calls for the following foods each day: 1 quart of whole milk; 2 ounces of lean meat, fish or poultry; 2 servings of vegetables (1 green or yellow); 2 tablespoons of butter or Vitamin A margarine. Five eggs a week are recommended.

In Kent county, which health workers consider to be well above the state average in healthful living conditions, school children were getting only 66 per cent of the needed fruit and vegetables and only 75 per cent of the needed milk.

In Ogemaw county the majority of the children did not have sufficient milk, or vegetables. In only three of the 21 schools studied were the pupils averaging one serving a day of citrus fruit or tomatoes which supply the necessary Vitamin C.

Stressing the advantages of home-grown fruits and vegetables the State Health dept. devoted the entire March issue of its bulletin to gardening. Copies are available on request from the Michigan Department of Health, Lansing 4.

Clean Up
Don't wait until the chicks arrive—clean up now. A thorough cleaning and disinfecting of the brooder house and all equipment is a must. In preparing the brooder house for your chicks, the roosts, feeders and movable equipment should be taken out. Then sweep down the ceiling and walls and thoroughly scrape all dirt from the floor. Your next step is to scrub the floor and the lower part of the walls with boiling lye water. One pound of commercial lye to five and one-half gallons of water is a good strength mixture. Be sure the water is boiling.

The disinfectant alone will not do the job—it is up to you how thoroughly you kill disease germs. Scrub hard with brush or broom to be sure the disinfectant comes in contact with the organisms.

Scrub the roosts, feeders and other equipment the same way. Then the final step in getting ready for those new chicks is to spray the brooder house completely. A five percent solution of disinfectant such as crude carbolic acid or creolin is best. And be sure you thoroughly wet the inside walls and ceiling with it.

Now you can be sure those new chicks are not going into an infected brooder house. Your time which might be spent treating disease can be spent on other things. And you will actually save money by raising more chicks.

With northern-grown alfalfa seed still scarce, Michigan farmers are somewhat concerned about seeding the crop. B. R. Churchill of the farm crops department at Michigan State college points out that from one-half to two-thirds of the one million, two-hundred thousand acres of alfalfa in Michigan is in mixture with brome grass.

There are arguments for and against the mixture, but Churchill believes the farmer is particularly justified to mix the planting this year, with alfalfa seed so scarce. He does offer these facts, however:

1. A small amount of brome grass added to the legume will produce more tonnage than straight legumes, but will not give more protein per acre.
 2. The additional total yield will justify the use of brome grass seeded in mixture with alfalfa.
 3. The best method of keeping the percentage of brome grass down where it belongs is to seed not more than two or three pounds per acre along with the regular rate of seeding of the legume.
 4. Do everything possible to favor the alfalfa, such as fertilizing, liming, inoculating the seed, shallow planting on a clean firm seedbed and proper management after the seeding is established.
 5. On low fields, slightly too wet for alfalfa, try alsike clover in combination with brome grass.
- If the alfalfa seed problem is one that causes you to consider planting an alfalfa seed that is not adapted to Michigan, don't do it. The use of June clover and brome grass for a year or two is better than planting an alfalfa that cannot survive Michigan winters.

VOICE of the People

Ohio Town Elects Youthful Mayor Who Believes in Getting Results

At the age of 29, George F. Rabe is a young city father who is doing a job that satisfies old-timers in Newtown, O.

The youthful mayor of Newtown likes to hang on a fire truck to get to the scene of a blaze. He works quickly too. He will ring door bells in a house-to-house clothing drive or ride to a basketball game in a school bus filled with children.

Besides his duties as mayor, Rabe works 50 hours a week at a turret lathe in a Cincinnati plant. Somehow he finds time to enjoy home life with his wife and their two children.

Mayor Rabe got his office without having his name on the ballot. He was a write-in candidate. His margin was two to one over his rival.

Since election day, residents of Newtown granted their mayor permission to make a zoning change to expand the business district of the town. The mayor did not want to lose an industry employing 150 persons.

Another of the young mayor's particular qualities is his zeal to get things done. Instead of waiting until the next regular meeting of the village council, he calls a special session when something important comes up for consideration.

"Dear Mr. Editor: We do appreciate so very much having an editor of our local paper. A real live wire, helping us out of the rut we have been in so long! Here's hoping your efforts will be blessed with good results, and I'm sure there will soon be a change for the better. Thanks very much!

Soak in Cool Buds
Soak clothes in cool or lukewarm water, not cold, for the cold water causes the fabric mesh to close and hold the dirt. For this reason overnight soaking during the winter defeats its purpose.

35% more meat wanted! This means thousands of new jobs!

Jobs on the hoof! Raising more meat means more jobs!

Jobs in packing plants!—As demand for meat zooms!

Jobs in stores! More demand means more workers needed.

Making Postwar Jobs—Out of Meat!

HOW many jobs will there be as this country returns to peacetime production? Will there be enough jobs for veterans, for former war workers?

No one can say, exactly. But this much we know: Many industries along our routes offer amazing possibilities for jobs in the immediate future—thousands of new jobs that have never existed before! These jobs are going to grow out of the gigantic demand for goods and services that exists in this country—and from production that will satisfy that demand.

Consider the meat-packing industry. Meat suffered the greatest shortage and was missed more than any other food during the war. Moreover, meat has become a greater item in our diets—both

military and civilian. And new knowledge of the health-giving qualities of meat has made meat more in demand than ever.

Right now, leaders in the meat-packing industry are readying production facilities to take care of a tremendous increase in domestic consumption. They confidently expect a rise in demand of as much as 35%! This will make meat a 4-billion-dollar enterprise, ranking with steel and automobiles in the number of people employed.

It will mean myriads of new jobs on the country's 3,000,000 ranches and farms growing meat; in the 4,000 packing plants, and on the sales staffs serving these plants. It will mean more jobs in the country's 400,000 retail outlets selling meat—and it will mean new jobs in the factories and

the service trades that supply or serve people connected with raising, packing and distributing meat!

Meat-packing is only one of many industries along the Chesapeake and Ohio, the Nickel Plate, and the Pere Marquette, that are going ahead with all possible speed, now that Victory has been won.

Spring Time Is Clean-Up Time

With the sun shining on both sides of the fence, Clean-Up time is paramount in the minds of local merchants and residents. And justly so.

But cleaning up yards, lawns, etc., cluttered up with flying papers is poor fun for the already overburdened housewife, husband or son.

Each year, beginning early in the spring, our residential districts are systematically covered with advertising posters, flyers and even large two and four-page folders, from out-of-town concerns, which causes the home-owner extra work in chasing the papers all over the lot.

An ordinance prohibiting the distribution of handbills, doggers, flyers, etc., should be drawn up by the council and rigidly enforced.

Nothing is quite so obnoxious and nauseating to visitors as a city "strewn with papers."

Charlevoix-the Beautiful is not just a "catchy advertising slogan." It is a city with natural beauty. Let's keep it that way!

Losses Are Not Inevitable In New Home Construction

Despite present high costs of buying or building a home, there are ways in which the cautious buyer can protect himself to some extent, in the opinion of Miles Colean, former Federal housing expert.

Asserting this is a time for caution, not dismay, on the part of the person who is forced to acquire a dwelling, Colean sets forth two important rules to follow:

"Don't buy or build a larger or more elaborate house than you absolutely need, and do not borrow any more than you absolutely have to," he urges in an article in the March issue of House Beautiful magazine.

"This is frankly no time to get into the house market just for the fun of it," he states. "What, though, if you have no other choice than to buy or build? Under present costs is a loss inevitable?"

"A loss may be possible but not inevitable. Prices are much higher than before the war and the future trend of prices is hardly clear. They may be lower in six months or a year from now. It is certainly a time for caution.

There are, however, ways that

the cautious buyer can, to some degree, protect himself. And there are still some compensations in owning that are not available to people who rent."

As between buying a dwelling and building a new one, Mr. Colean feels that, if you build, you will at least have the advantage of the newer articles at an expenditure that is likely to be no greater, and perhaps somewhat less, than you would be charged for an older house.

He also points out that if you build, it may be possible to save a large part of the 30 to 35 per cent of the total cost which goes into actual construction by doing much of the work yourself.

Fire Destroys Farm Home On Monday

The farm home of Mr. and Mrs. Eldred Ostrum on U.S. 31, north of Charlevoix, near Burgess, was completely destroyed by fire on Monday. The fire, caused by an overhauled chimney, was not discovered until the second floor was ablaze. Fanned by high winds the house burned in a short time. Furnishings on the first floor were saved by voters who were at the nearby Hayes township hall at the time.

BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY INTERNATIONAL BIBLE BROADCASTERS

Question—Where do we find the instruction for the proper observance of Lent?

Answer—It is not found in the Scriptures.

Q.—Please tell me, Do ghosts return to their former homes?

A.—Concerning the dead, we read in Job 7:10: "He shall return no more to his house, neither shall his place know him any more."

Q.—Did Martin Luther translate all the Bible or just a part of it?

A.—All of it—the New Testament in the Wartburg castle in 1522, and the Old Testament in 1534. Luther lived to see ten editions of his translation of the Bible printed.

Q.—What is the "pearl of great price"?

A.—It is the kingdom of heaven. In Matthew 13:45, 46 we read: "Again, the kingdom of heaven is like unto a merchant man, seeking goodly pearls; who, when he had found one pearl of great price, went and sold all that he had, and bought it." Salvation is worth everything.

Q.—Is it right to preach anywhere except in a church?

A.—Jesus preached on a mountain (Matthew 5:1), from a boat (Luke 5:3), in a house (Mark 2:1, 2), in synagogues (Luke 4:16-21), in desert places (Matthew 14:15). Wherever people would listen, Jesus and the apostles preached. Why should we not follow this example?

Q.—Does the Bible uphold the idea of bringing children up by letting them express themselves however they please, and with no punishment of any kind?

A.—The Bible upholds child training. Fresh up a child in the way he should go; and when he is old, he will not depart from it. Proverbs 22:6. This includes correction. "Correct thy son, and he shall give thee rest; yea, he shall give delight unto thy soul." Proverbs 29:17. It also includes reproof. He is not to be left in himself. "The rod and reproof give wisdom; but a child left to himself bringeth his mother to shame." Proverbs 29:15. Read Proverbs 23:13, 14: "Withhold correction from the child; for if thou beatest him with the rod, he shall not die. Thou shalt beat him with the rod, and shalt deliver his soul from hell." (See Proverbs 19:18; 13:24; Colossians 3:20, 21; 2 Timothy 3:2.)

Your Home By Frances Ainsworth

Have you ever been through a bakery? Last week I was taken on a tour through one of the country's new, large, modern bakeries—and I was simply amazed at the many precautions taken to assure positive sanitation and freshness of the bread, rolls, and other things that they turn out in just innumerable quantities.

Did you know that bread wrapped in waxed paper is scarcely touched by human hands between baking operations and delivery to you? I was really fascinated as I watched this process. As each loaf of bread comes from the oven it is automatically wrapped in a waxed paper that is colorless and tasteless and, of course, absolutely sanitary. As it is wrapped, it passes through an electrically heated machine that melts the wax temporarily—automatically sealing the ends. The baker explained to me that this heat sealing creates a perfect protective wrap—a vacuum-like enclosure that safeguards the freshness and actually seals in the flavor of your loaf.

And it's so easy to keep bread fresh after the loaf has been opened! I've found that by carefully re-closing the waxed paper wrapping, my bread stays moist and fresh much longer. I can save several slices of bread every week.

And... with the newspapers and telling us of the starving people of Europe—and the need to send grains and food to them—Isn't this an easy way to help?

If all the millions and millions of American housewives would take this simple precaution—millions and millions of loaves of bread would be saved for those who need it so badly in Europe!

Tropical Disease
Amalsals is a tropical disease produced by a microscopically small parasite, composed of only one cell, which when swallowed attacks the lining of the large intestine of man, producing small and large ulcers with consequent diarrhea and dysentery. Once the illness is recognized and a correct diagnosis is made, treatment with specific drugs may be instituted, doctors say.

From where I sit... by Joe Marsh

Sam and Lud, War and Peace

Like everybody else, folks in our town talk about the best way of preserving peace. Some believe one thing, some another. But when it comes to Lud Denny and Sam Heckney—each has a self-invented plan.

Talking things over at Bill Webster's, Sam and Lud got so worked up arguing against each other's plan, they almost came to blows. Now each one thinks the other is a public enemy—for not agreeing with his plan!

Seems to me there's the problem in a nutshell! No plan in the world can lead to peace—till folks respect each other's views; allow for differences of taste; and learn to live with opposite opinions.

From where I sit, real peace begins with people—neighbor living tolerantly beside neighbor—regardless of who votes how, or who drinks beer or cider, or who wears city clothes or overalls. Peace starts with tolerance!

When we read of the many fatalities in auto accidents, most of them caused by liquor, we wonder why radio audiences laugh as they did on Saturday night when one contestant announced that he would take his money, earned in a quiz contest, and go out and get gloriously drunk. It's high time that we, as citizens, awaken to the reality of it all. The number of home accidents occur, the more we notice them, of course.

Early Morning Blaze Causes \$25,000 Damage

**Korth's Poultry Farm Levelled
With Estimated \$14,000 Loss;
Adjoining Buildings Saved**

**Was Foremost Battery
Broiler Plant in the
State of Michigan**

A fire of undetermined origin early Saturday morning completely destroyed the main building of Korth's Poultry farm, one mile southwest of the city, with an estimated \$25,000 damage, only partially covered by insurance. An adjoining building, containing 10,000 chicks, was saved by the prompt response of fire chief Charley Marshall and his aides.

The poultry farm, of which Lawrence Korth was proprietor, was one of the state's most modern battery broiler plants, and contained 25,000 chickens of various sizes when it was destroyed.

From a meager beginning back in 1910, with 500 chicks, Mr. Korth increased his business steadily until it reached the proportions of one of the best and most modern in the country. Forty-three intermediate batteries, each containing from 250-300 chickens were destroyed along with 86 finishing batteries, containing 125-150 chickens each. The plant also contained more than \$1,000 worth of sterile lamps which were used to kill air-borne bacteria, prevalent in the poultry business, a picking machine, capable of dressing 350 chickens per hour, two large oil-burning heaters, and about 30 tons of feed and mash, all of which were destroyed. Six thousand broilers were ready for market when the fire occurred.

The blaze was first discovered by Mrs. Ralph Klein, about 2:30 a. m. Saturday, as she was leaving the nearby Airport Inn, where she is employed. She immediately turned in the alarm.

A masterful fire-fighting feat was displayed by Chief Marshall when he brought the flames under control, saving an adjoining building, only 20 feet away, which housed, besides the 10,000 two-week old chicks, a complete, well equipped rearing plant with oil heaters, etc., and containing also a large modern truck, used by Mr. Korth in conveying chicks and feed to plant and market.

The one-story structure, 70x100 feet will be replaced as fast as materials can be obtained said Mr. Korth. Work of cleaning up the debris was commenced early this week.

Share Courier With Neighbors

**Paper Shortage Is More
Acute Than During War**

With the continued scarcity of newsprint, less than enough Couriers are being printed each week. Our source of supply informs us that the paper situation is even more critical today than at any time during the war.

In an effort to supply all who formerly obtained their Courier from the stands, we suggest that those who are able to buy the few extras we have each week, share them with a neighbor or friend who has been unable to obtain one.

During the past month we have been forced to turn down many former readers because of the acute shortage. It is hoped that this condition will soon be alleviated and that we will again be able to serve you as in the past.

Along the Avenue

By The Editor

Another fellowship gathering at the Oddfellow hall, Monday night, served to better acquaint farmer and businessman, one with another, as the farmers played hosts to the storekeepers. As the guest of Fred Willis, who placed us in a choice seat, between Mr. Bridge and Mr. Withers, we had a distinct advantage at the sumptuous dinner. The former mayor presented us with his coffee, which he doesn't drink on Monday nights, and the president of our board of education kept us supplied with salad (wish we had the recipe). It was a swell affair, not soon to be forgotten.

Perch are beginning to bite in Lake Charlevoix. Nothing serious as yet. Only 16 baits were speared on the lake Sunday. The best guess we have on "the run" is that it will probably start in earnest in about two weeks. Keep a watch on this column for an indicator!

In reply to many inquiries regarding dogs running at large, we have tried, unsuccessfully, thus far, to find out WHO is responsible for keeping them in their proper places. We expect to have information more definite in the next issue of the Courier.

Mr. Yeager, speaker at the Farmer-Businessman dinner, is a forceful talker, who gives to his audience a clear, concise picture of farmer-business-industry relationship. His work is invaluable to the farmer of today.

A fellow stopped us on the street the other day to say he enjoyed our last column. And darned if it didn't sound sarcastic the way he emphasized "last"!

That very unusual voice of the local telephone operator fascinates us, we haven't learned as yet who belongs to it, but always she says thank you, in a very lovely tone, after receiving our request for numbers.

Band contributions continue to come in, and among the latest received is one from Miss Minnie E. Payton, who writes:

"Dear Mr. Steinhurst: Kindly change the address of my Courier to 4706 Valencia Dr. San Diego 5, Calif. Many thanks. The Courier keeps me from getting homesick. I read every part of it including want ads and lost and found, which for the time being takes me back to Charlevoix. Please add the \$1.00 enclosed to your fund for band uniforms."

Mrs. Symons, of 1643 Anita Ave., Grosse Pointe Woods, sends along her contribution, along with subscription renewals for herself and son and writes: "I am including contribution for the band uniform fund. Hope it is not too late. I was very glad to know you didn't have to push the peanut up Bridge Street."

(Ed's note: Naturally we are proud to have our subscribers take part in helping to outfit our band members. Mr. Bennett, Supt. of Schools and Mr. Bingham, chairman of band uniform fund, have expressed their appreciation for the contributions made by all of you. The Avenue editor will be glad to receive your contribution as long as you continue to send them. Thanks again!

Up at Nettleton and Petoskey, la the back yard of Ray Faulkner's home, 17 dogs were playing tag the other day. No Ray doesn't like dogs that walk.

The new Foster Cruiser, pictured above, as it appeared on its way to the main floor of the Chicago Boat Show. The boat became wedged in the aisle of the entrance as Jimmy Foster, extreme left, watched workmen (on opposite side) labor to free the cruiser. Other boys in the picture are unidentified.

The show, which closed Sunday night, enjoyed exceptionally large crowds. The modern cruiser was a favorite at the show as orders taken there indicate. According to Harry Foster, president of the Foster Boat Co., orders were taken for cruisers and rowboats to the full extent of their production this year.

Judge D. J. Healy Speaker at WCTU District Meeting

**Mrs. Gladys Funk
Presided at Affair
Held in Petoskey**

The district meeting of the WCTU was held at Petoskey on Tuesday with groups from East Jordan, Charlevoix and Kalkaska attending. Mrs. Gladys Funk, of Charlevoix, district president, was in charge of the meeting.

The program opened with devotions lead by Mrs. Blackwood, former Charlevoix resident, followed by presentation of an American flag to the union by Leonard Relief Corps No. 152.

Bryon Buck, president of the Petoskey Youth Temperance Council, and Mrs. Funk gave reports on the youth work being done in Petoskey and Charlevoix. Mrs. Susan Agoston, of Charlevoix, gave an interesting talk on "How to help the Indians" in which she said the problem should be a challenge to the union and other organizations. A report on the district work was read by Mrs. Petersen, of Kalkaska.

To close the afternoon session Mrs. Walter Buck gave a chalk drawing, "The Old Rugged Cross," at the same time singing the hymn.

A co-operative dinner was served at 6:30 with 35 members present.

The members convened to the high school auditorium for the evening meeting at which Judge D. J. Healy, of the juvenile division of the Wayne county Probate court, was guest speaker. In his talk, Judge Healy told of his work in the juvenile courts and told how the probate courts attempt to aid the children brought before them and not condemn or punish. The Rev. C. D. Mommson presided.

A movie, "That Boy Joe" closed the meeting. Those from the Charlevoix Union who attended the meeting were Mrs. Agoston, Mrs. Lucy Mallet, Mrs. Ethel Ryder, Mrs. Hazel Blake, Mrs. Fern Todd, Mrs. Sally Crain and Mrs. Nuckle.

Voters Urged to Check Registration

**New Act of Legislature
Must Be Complied With**

A recent act of the Michigan state legislature requires that by May 29, 1946, every city and township must register its voters under the permanent registration system.

This system was previously required only for cities over 5,000 population. Although Charlevoix's registration books are in compliance with this act, the system was installed here at a time when it was necessary for a city this size to do so, and a general re-registration of local voters was not required.

Registrations of most voters are in accordance with the new law, but there is still a small percentage of registrations which are not complete and must be completed before May 1. Voters who must complete their registrations will be notified by the city clerk's office, but anyone who is in doubt about his registration may inquire at that office.

Fred W. Bancroft, past president of the Kiwanis Club of Charlevoix, conferred with O. E. Peterson, secretary of Kiwanis International, when he visited Chicago last week.

Bancroft discussed Kiwanis objectives for 1946 during his meeting with Peterson.

Kiwanis International, Peterson said, now has more than 2,300 clubs and 157,000 members throughout the United States and Canada. Some 7,800 Kiwanians are in the armed service, he revealed.

Bancroft also met other members of the staff during his visit to the General Office of Kiwanis International.

Chief Ashdon Transferred To Wisconsin

**Will Assume Duties
As Officer in Charge
of Life Boat Station**

Chief Boatwain's mate Robert C. Ashdon, of the U. S. Coast Guard, has been named officer in charge of the life boat station at Plum Island (Washington Island), Wis., and left last week to assume his new duties. He returned from Detroit recently six weeks course in Aids to Navigation given at the Coast Guard school there. Prior to that he was second in command at the Charlevoix station.

Chief Ashdon has been in the regular Coast Guard since February 7, 1937, and recently re-enlisted for another six year "hitch." He was stationed on Beaver Island until 1940 when he was transferred to Norfolk, Va. He served two full years on sea duty, first on a troop transport in the Atlantic and later on an amphibious cargo ship in the Pacific in the early months of the war. He returned from overseas, May, 1943, and has since been stationed in Charlevoix except for short training programs in Chicago during the summer months. Last fall he was in command of the local station for several months. He received his chief's rating on January 16 of this year.

His wife, the former Shirley Partridge and two children will join him in Wisconsin in the near future. He is the son of Mr. and Mrs. Ray Ashdon, of this city.

Two films will be shown, "Red Poacher," and "Meet the Waterfowl."

President Bonnie Nickerson has made a special effort to bring this outstanding speaker to the club and also the timely films. Let's make it a full attendance, fellows! Refreshments afterward.

John L. Boss, representing the farmers, was toastmaster and introduced Jack Yeager, of Lansing, assistant executive secretary of the Michigan Farm Bureau, who spoke on the problems of the farmer and their relation to the people of the urban district. He stressed the need of teamwork in farm, labor and industry and stated that no group could succeed without assistance from the others.

Other numbers from the program included a duet by Nancy Totten and Maxine Lewis, several numbers by the Minor Chords, composed of Eddie Novotny, Bob Crain, Bill Poole and Tip Riley, and group singing.

The committee in charge of the event was Fred Willis, Leo Berg, Lavern McGinn, Leonard Babel, Clyde Warner, Harold Totten and Albert Carlson.

Port City Men Meet Tomorrow At Grand Haven

A meeting of port city officials on the east shore of Lake Michigan from St. Joseph to Petoskey has been called at Grand Haven on Thursday, April 11 for the purpose of discussing the drastic curtailment in the coast guard service due to too rapid demobilization in the service and lack of funds. The meeting is to call attention to the plight of the lake ports which have been left without adequate lifesaving protection.

Representing Charlevoix at the meeting will be J. M. Foster, William A. Cross, Sr., Chief William Woods of the local Coast Guard station and E. L. Steinhurst.

Periodical Publicizes Charlevoix

**W. C. Bellinger Writes
Story on Charlevoix
the Beautiful**

W. C. (Bill) Bellinger, secretary of Charlevoix Power Squadron and correspondent for "Lake and Yachting and Motorboating" gave Charlevoix-the-Beautiful another boost by elaborating on a feature article of the same title.

The periodical which is published monthly by Lakeshore Publications, Sheboygan, Wis., enjoys a wide circulation and is considered one of the better boating and yachting magazines.

In a two-page spread, with three beautiful scenes, Bellinger describes our summer playground in the first picture, with Don Clothier's Anna II, poking her bow on the shore of Lake Charlevoix.

In the second scene, the writer tells of numerous boats in the city-owned slips and pictures along with it the Gemini, owned by Craig Ketchum of Charlevoix, the Tecumseh, 62-ft. staysail schooner, owned by George Fox, also of Charlevoix. Both boats are frequently seen in Charlevoix harbor.

Before describing the illustration of our Lake Michigan bathing beach, Bellinger takes his readers on a sailing jaunt up the south shore of Lake Charlevoix, by the Loeb Farms into the South Arm past Sequanotn club, through the gap, to the Ironton ferry. The writer tells of all the interesting sights to be seen here, including Holy Island, now known as Isle of Pines, where King Strong held his religious reign.

The vivid description of Charlevoix is truly a masterpiece, and would well be worth the time of all to read the article. Mr. Bellinger can tell you how to get a copy of the magazine by calling him or contacting him personally.

"Bring Your Own Sugar" Promises to Be Slogan

"Bring your own sugar," promises to become a popular slogan on tourist literature for small establishments this summer, since current OPA regulations provide no sugar for boarding houses and summer resorts with fewer than 50 persons.

"These establishments are classified as Group One among institutional users and will have to operate under a system by which the vacationists will have to use their ration stamps to obtain sugar," said Henry A. Zech, Food Rationing officer.

"We are reminding vacationists who plan to spend a couple of weeks at some summer cottage or boarding house with fewer than 50 residents, that they had better take their sugar ration books along. We hope this early reminder will avoid a lot of confusion later, when Michigan should enjoy a boom tourist season now

that wartime travel restrictions have been removed," said Zech. "Restaurants and hotels (more than 50 persons) are classified as Group Three users and they receive sugar for their residents," he said. "If boarding houses with fewer than 50 tenants run a restaurant in connection with the resort then they may qualify as a Group Three user."

Mr. Zech said that in order to obtain the proper allotment for such a sugar allotment, the user would have to apply in person or in writing to the "Sugar Rationing Division, Office of Price Administration, 144 West Fort St., Detroit 26, Mich." This is the only place where such applications are distributed and processed. Applicants should supply as much information about their intended use of sugar and their establishment as possible in their letters, which should be mailed early.

Assignment: HOME

Charles Bergmann was discharged from the Navy at Great Lakes, Ill., on March 25 and has arrived here to make an indefinite stay with his parents, Mr. and Mrs. Fred Bergmann. Entering the service in August, 1943, he served in the Atlantic and Mediterranean for more than two years as a member of an armed guard crew on a merchant vessel. For the past five months he was in the Pacific aboard a sea plane tender.

George Higman, a sergeant with an MP battalion, was discharged from the army at Camp Atterbury, Ind., on April 1. Accompanied by his wife and sons who reside at Frankfort he arrived Sunday to visit his father, William Higman, and his sister, Miss Anne Higman, for several days. In the service since April, 1944, he went overseas in March, 1945, and was stationed in England, Scotland, Belgium, Germany and, most recently, Biarritz, France.

Hans Burns, who served with the Navy, was discharged recently and has joined his wife and two sons here. They are now residing at the Bird farm north of Charlevoix.

Chester Belfy, who served with the Navy in the Pacific, was discharged recently and has arrived

here to make an indefinite stay. He has returned to his former position aboard the motorship, Mary Margaret.

Don Tillotson, who was stationed at Jacksonville, Fla., with the naval air force, was discharged recently and is visiting his parents, Mr. and Mrs. Nelson Tillotson.

Tony Faculak, technician, 5th grade, with an armored unit in Europe, was discharged from the army at Camp Atterbury, Ind., on April 1, and has arrived to visit his parents, Mr. and Mrs. Charles Faculak.

Bath Towels

In buying bath towels, absorbency, softness and strength are the important considerations. The thicker and softer the pile, the greater is the absorbency. Colored towels, by the way, are somewhat less absorbent than white towels. For strength, the "ground" cloth—that part to which the absorbent "pile" loops of the towel are fastened—must be firmly woven. When buying, hold the towel up to a strong light. If tiny points of light show through—good. But if patches of light are disclosed, the ground cloth is poorly woven, and the towel will probably not stand up well in use.

Ellen Terry as George Bernard Shaw saw her, England's greatest dramatist describes her as a genius who needed fathering, but who married a genius three times her age who needed mothering. Pearsall Announces Candidacy for Sheriff

Petitions are being circulated to nominate Claude D. Pearsall on the Republican Ticket for Charlevoix County Sheriff. Mr. Pearsall is 52 years old and has lived in Charlevoix County all of his life. His many friends believe him to be the leading candidate for the office basing their judgment on his many years of Public Service as Township Supervisor, Deputy Sheriff, Justice of the Peace and other Wilson Township offices for something over 25 years. For many years he owned and operated a farm in Wilson Township and assisted his well known veterinarian father, Robert Pearsall. Since his father's death he has attempted to carry on the work and has never failed to answer the call of a farmer in need as his many friends will testify.

In announcing his candidacy Mr. Pearsall states that he is not criticizing the administration of Floyd Ikens, his life-long friend and the present incumbent, but, he does feel that, with living and social conditions changing so rapidly, a new administration in the Sheriff's office would make the department more efficient.

ROCK ELM
MRS. A. B. LAWTON
 As far as weather conditions are concerned, it would seem as though March and April had changed places.

Mr. and Mrs. Lawrence Jensen and Mrs. Whitfield made a business trip to Charlevoix Monday. Rock Elm Grange is holding bingo parties each Friday night in an effort to raise funds to put a basement under the hall, an improvement which has long been needed.

Mrs. Charles Donaldson, a former resident of this district, now of East Jordan, is reported in very poor health.

CLARK COMMUNITY
Mrs. Wm. A. Parsons

Mr. and Mrs. Eugene Best of Ellsworth and Mr. and Mrs. Gerald Berenzky and sons of East Jordan were callers at the William Jolliffe home Sunday.

Miss Betty Warner was an overnight guest of Miss Rheta Boss in Charlevoix last Thursday night.

A grass fire of unknown origin could have done considerable damage to the Leon Wilbur farm buildings had it not been for two fire trucks from Charlevoix and Conservation officers and neighbors working swiftly to extinguish the flames which spread over a

large area and threatened to spread to neighboring buildings. The Wilbur farm is unoccupied. Mr. and Mrs. Wm. Parsons and sons were Sunday dinner guests of Mr. and Mrs. Clyde Warner. Mr. and Mrs. Ed. Gregory were visitors at the Wm. Parsons home last Monday evening.

INWOOD
MRS. JOHN FRATRICK, Jr.

Mr. and Mrs. Guy Host and two children from Charlevoix moved to their farm home in Barnard recently.

Clubs Meeting Need for Infant Clothing

A low-cost layette brings tears of gratitude to the eyes of this rural mother. A district nurse explains its use and care.

"DRY LITTLE BOTTOMS CLUBS"

are being organized in hundreds of cities and towns to provide clean, warm infant clothing for thousands of babies in needy rural families. The idea originated with Mrs. L. J. Hewitt of Odessa, Texas. After giving a package of outgrown infant clothing to a family living in a tent on the outskirts of Odessa—a family with four small children and another baby expected soon—Mrs. Hewitt began to wonder how many other American babies today are facing almost pioneer conditions.

Mrs. Hewitt was shocked to learn that in remote mountain areas, for instance, many babies are born without a physician's aid. Mothers often must wrap the squalling youngster in a cleaned flour sack because they have never owned proper infant clothing—even diapers.

Mrs. Hewitt turned missionary. She organized her women friends into the first "Dry Little Bottoms Club"—membership fee, one dozen diapers. Together with other infant clothing, the diapers are sent to Save the Children Federation, which has distributed layettes in the mountain areas since 1942.

Counting on rapid extension of the club idea, the Federation hopes to obtain 25,000 layettes this year for use in poor rural areas of the U.S. and for shipment to needy mothers in France, Belgium, Holland, and Norway.

Federation layettes are simple and inexpensive, consisting of one dozen diapers, 10 infant garments, and a blanket, soap, washcloths, and towel. Each volunteer contributor selects her own pattern and sews or knits the items to her own taste. The Federation values a finished layette at \$17.50, although the material costs the contributor only a few dollars in cash. Layettes distributed in rural U.S. are either given free or "sold" through district nurses or welfare workers, usually for \$1 or \$2, to prevent the mothers thinking that they are dependent on charity.

Women who wish to organize a Dry Little Bottoms Club in their community can obtain directions from Mrs. Edith W. Voris, Save the Children Federation, 1 Madison Avenue, New York 10, N. Y.

Chicken Storage

Chickens should be dressed and chilled thoroughly to prevent discoloration and off-flavor from developing in storage. It is best to dress the chicken one day, store in a refrigerator overnight, and then wrap and take to the freezer locker the next day.

BIBLE QUESTIONS
 ANSWERED BY THE
VOICE OF PROPHECY
 INTERNATIONAL BIBLE BROADCASTERS

Question—What does the word "gospel" mean?

Answer—It is from "gōt" and "apēll" (Anglo-Saxon), meaning good message or good news.

Q.—Do not Hinduism and other religions have gospels too?

A.—According to the Scripture there is only one gospel because there is only one Saviour for all men of all ages. "Neither is there salvation in any other; for there is none other name under heaven given among men, whereby we must be saved." Acts 4:12. (Read also Galatians 1:6-9.)

Q.—Should we read the Old Testament?

A.—Most certainly. Our Saviour said: "Search the Scriptures; for in them ye think ye have eternal life: and they are they which testify of Me." John 5:39. When Christ made that statement the only Scriptures in existence were the Old Testament writings. Read also Luke 24:44-46. Here Christ taught the Scriptures written by Moses, the prophets, and David and others who wrote the Psalms, and said that they applied to Himself. It is always safe to follow our Pattern.

Q.—It seems I am such a great sinner that God cannot forgive me. Do you think there is hope for me?

A.—Anyone who truly repents will be forgiven. We read in Psalm 86:5: "For Thou, Lord, art good, and ready to forgive; and plenteous in mercy unto all them that call upon Thee." And, again, in 1 John 1:9: "If we confess our sins, He is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness." There is certainly hope for one who is concerned about his sins.

Q.—Please explain Revelation 2:10. Are we in those ten years of trouble now?

A.—Let us read the text: "Fear none of those things which thou shalt suffer: behold, the devil shall cast some of you into prison, that ye may be tried; and ye shall have tribulation ten days: but thou shalt be faithful unto death, and I will give thee a crown of life." This prophecy of the ten days for ten years, prophetic time—Numbers 14:34, applies during the period of persecution of the Christians under the Roman emperor Diocletian and lasted exactly ten years, A. D. 302-312.

Ed. Note: Address your questions to the BIBLE QUESTION COLUMN, The Voice of Prophecy, Box 55, Los Angeles 53, Calif. Bible questions of general interest will be answered in this column as space permits.

Girl Scout Notes

The benefit card party held recently at the City Hall for the Girl Scout Camp fund was well attended and the Girl Scouts wish to thank the Dickens club for sponsoring this benefit. The 30 dollars raised will be used for large expenditures connected with camping as each Girl Scout is to pay for her own food.

The two intermediate troops with their leaders plan to have a week's camping at the close of school. Any additional contributions to the fund will be gratefully appreciated as all leadership is entirely voluntary.

Mr. J. C. Marshall, manager of the City Sewage Disposal Plant conducted 19 Girl Scouts through the plant, explaining the details of the system.

Adults wishing to register with the newly organized Girl Scout Council are urged to pay their fee of fifty cents to the treasurer Mrs. John Nordrum. This is necessary so that the official approval of the constitution and by-laws may be ready for the scheduled meeting in May.

Training in Girl Scout camping for adult leaders in the Great Lakes Region will be held May 17 to 20 inclusive at Camp O'Thompson, Jackson Girl Scout Camp. The fee is eight dollars.

Anyone interested may contact Mrs. Horry W. Lodd.

Popular Wear

Dresses made of spun rayon are popular for school wear. When washed, they should be ironed when bone dry on a well-padded ironing board. The dress should be ironed on the wrong side first, then turned and pressed with a press cloth to prevent shiny edges on collar, cuffs and pleats.

Bituminous Coal Mines Make New Safety Record

HAVACO, W. VA. — Bituminous coal mines in the United States made a new all-time safety record in 1945 when the number of accidental deaths per million tons mined dropped approximately to 1.6—less than half the rate 20 years ago. The Bituminous Coal Institute points out that millions of dollars spent by the companies for new mechanical installations and improvements were an important factor in making this record possible.

Pictured above is a giant motor operating a huge fan which saved many lives when a recent mine explosion occurred here. This fan, exhausting 450,000 cubic feet of air per minute, through an extra air-shaft, recently installed, kept the air pure while 250 miners reached a special escape shaft and came up from the mine. Casualties were thus limited to those in the immediate vicinity of the explosion. Inspecting the life-saving machinery are Safety Engineer C. L. Wilson and Mine Inspector J. L. Gilley.

From where I sit... by Joe Marsh

Professor Zogi, The Magician Marvelous!

Professor Zogi, the magienn, came to our town Saturday and put on a performance for the benefit of the Orphanage.

It was quite a show! Among other things, the professor holds a pitcher in his hands, and asks folks what they'd have to drink. Ma Hoskins asks for buttermilk and the professor promptly pours her a rich, creamy glassful.

Then Zeb Collins asks for cider, and out of the same pitcher comes a mug of cider. Doc Hollister next calls for beer—and presto, from

the pitcher comes a sparkling glass of beer, white collar and all! "Just goes to show," says Doc, astonished, "that it takes a magician to satisfy all tastes."

From where I sit, the professor has a mighty good act... one that points a moral too. Tastes differ—but people can have a friendly, happy time enjoying the leverage that each prefers—and being tolerant of one another's preferences.

BANK CREDIT is the best FARM CREDIT

A Sermon

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

AMERICA has three big F's. They stand for farm, factory and finance. They cover the nation and make it what it is. As to stability, they are as dependent on each other as the legs of a stool. If one goes down, they all topple. And here is a wonder of all time: Why are these three classes auspicious of each other? Why do they so consistently work against each other?

When is the agricultural industry prosperous? The answer is plain to any observing farmer: Farmers have a quick market for all they produce, at good prices, only when factory workers are very largely employed at good wages. Laborers constitute a big class and they work hard. When they have good jobs they eat well, cover their tables with the best of what farmers sell.

Christian HERE is where the principle preaching starts: Since farm prosperity depends on good wages at factories, it is in every farmer's interest to work for the healthy welfare of labor. Why then does the political Farm Bloc concern itself so avidly with class legislation instead of working for the thing that always helps the farmer—namely, labor's sound advancement?

This is definitely a Christian teaching. The illustrious Paul, who wrote most of the New Testament, said "Do not take account of your own interests, but the interests of others as well." More-

over the rule is not confined to the farm for its application. It is just as righteous and just as practical for the use of working men who want to improve their living standards. Thus:

Brilliant WHEN do laborers Strategy enjoy steady work at high wages? Answer: Labor prospers when men of wealth are putting out their money, expanding old businesses and building new ones. Of course it is for their own gain but it pays the workers. Why don't labor's leaders do their best to make investments attractive? Such strategy is the only way to higher and higher wages.

Returns to employers respond to the same rule. Factory owners sell 80% of all they make to laborers and farmers. These men wear good clothes, drive good cars, and modernize their homes when they can afford it. Any financier, able to see which side of his bread is buttered, knows where profits come from. They come from prosperous farmers and well paid workers.

If the three big F's would look out for one another; if employers never exploited labor; if farmers did not envy capitalists; if workers never used intimidation, prosperity would certainly follow. It would be for us all. The code that Jesus upheld in the Sermon on the Mount, 2,000 years ago is still good. Communism, envy, greed and violence can't live in the climate with applied Christianity.

Murder By Starvation

Reminiscent of the brooding horror of an Edgar Allan Poe shocker is the true story of a Victorian socialite who methodically beat, tortured and starved her 11-year-old son. Read "MURDER BY STARVATION", by Peter Leavis, in The American Weekly with this Sunday's (April 10) issue of The Detroit Sunday Times.

Soft Corn

Michigan farmers may lose what soft corn they have left in the crib unless they take further precautions now. Alvin Johnson, specialist in farm crops at Michigan State college, gives this warning in view of the unseasonably warm weather.

Of course, most farmers have already fed or sold much of their crop. But a few days of warm weather may tempt them to feed what will spoil any soft corn left. If you can't feed it all before warm weather, at least move it so that air can circulate through the corn better. As you move it, sort out the soft or moldy ears, loose husks and other trash that slow down the movement of air between the ears.

Sort shelled corn from chaff by scooping with a col scoop rather than a grain scoop... and if you can, use an air blast to blow out husks and silk. After sorting put the good corn in a well-ventilated crib and use it for feeding as soon as possible.

Lawn Seed

What kind of seed should you use on your lawn? James Tyson, specialist in soil science at Michigan State college, says that the seed depends upon the kind of lawn and soil conditions. In general, though, use Kentucky blue grass for open, sunny lawn on good soil; use chewing fescue or creeping red fescue for shady or sunny lawns if the soil is sandy; and use chewing fescue and rough stalked blue grass for shady lawns with good fertile soils and good moisture.

Rolled Oats Muffins

How about a different kind of muffin... one that doesn't use wheat? Mrs. Vivian P. MacFawn, specialist in foods and nutrition at Michigan State college, has this recipe for rolled oats muffins that will help take the edge off our wheat-saving menus.

The muffin ingredients included: one cup of cooked rolled oats, half a cup of water or milk, one beaten egg, two tablespoons of melted fat, one and a half cups of sifted flour, half a tablespoon of sugar and three teaspoons of baking powder.

Now to make the muffins, mix the cooked rolled oats with water or milk... whichever you use... and the beaten egg and melted fat. Sift the dry ingredients together and add them to the wet mixture, stirring until just mixed. Fill the greased muffin pans about two-thirds full and bake in a moderately hot oven from 25 to 30 minutes.

Chenille Spreads

Colored chenille spreads should never be washed with white cottons even if they are color-fast and it's most important that machine or tub be well washed first. This is because white cotton lint will cling to the velvety tufts and give a dull look to the color.

Sweet Fruit

Persimmons are used in making puddings, cakes and sweet spreads. This fruit is one of the sweetest grown in this country. In sugar count it is second only to the date, since it is nearly one-third sugar.

BEAVER ISLAND
Mrs. Ellen Plachner, Reporter

The Mary Margaret made the first trip of the season on March 30th but as it is so early and some of our fishermen seem very willing to carry the freight, Capt. Allers will take the boats to Sturgeon Bay for necessary repairs, and he hopes to be back in plenty time to accommodate any who wish to bring cars over.

The last wee of March has been very nice so far as the weather is concerned.

We have many robins and other birds making music and the frogs make great music by night.

Henry Allen arrived Saturday to spend the week-end with his family.

Gus Mielko left Friday on business, but he spent Saturday in Kalamazoo with Mrs. Mielko's mother, Mrs. Mary V. Allers, whose 88th birthday was March 30th.

Mr. Mielko will spend Sunday in South Haven with his daughter, Mrs. Les. Soergel and family.

Joe E. Gallagher brought his boat over Wednesday.

Arthur Miller Jr. arrived Wednesday on Mike Cull's fish boat.

Emmett McCann came Thursday with Roland McCann's boat.

Leo Gallagher, who has recently been discharged from the army, arrived Saturday.

Dr. G. Gibbons spent part of last week on the Island with his family, returning Thursday to Charlevoix to his dental work.

Jewell Gillespie left Friday to bring the freighter White Swan to carry lumber away.

A SOLDIER'S DREAM

We went to fight a battle
Far across the sea
So our home town and our friends
Forever would be free.

We often thought about the friends
That were waiting for us back home,
While we were fighting Japs
Across the raging foam.

We'd think about the restaurant on the corner
Where that gang of ours would meet
Just next to the park
Down on the old Main street.

And now at last the war was over
And we were heading home,
We thought about Mom and Dad
And of all the friends we'd phone.

But, alas our castles tumbled
For our friends had all left town
And even the old meeting place on the corner
We find it had burned down.

We asked, Where is Bill and John?
Paul and Harry too
We find that they've gone to the city
For here there's no work to do.

And even where the old restaurant stood
We find a park there too
Now, I think to myself,
Is this what I fought for?

Is this what they all died to keep free,
No place to work, no place to eat?
Just a place to plant a tree.

SPORTS AFIELD
By Ted Kesting

Our pioneers have left us records, but not a reliable count, of the millions of buffalo and antelope that grazed our western plains a century ago. It is probable that these bygone herds are matched in numbers by the wild caribou that roam the northern portion of this continent today.

The eminent naturalist, Ernest Thompson Seton, made a journey into the Barren Grounds or northern Canada in 1907 and made a careful survey of the caribou, including an estimate of their numbers. His estimate was based on written experience of a number of northern explorers and Canadian government officials, on the average number of caribou killed annually by Indians and Eskimos, and on other pertinent factors. Seton arrived at the conclusion that the caribou of northern Canada east of the Mackenzie River numbered over 30 million, and that they might be double that!

Those observations did not take into consideration the Alaska-Yukon herds, nor those of southern Canada, nor the mountain caribou of British Columbia and Alberta, nor the many small bands that do not join the large migrations. Indeed the aggregate of the caribou on the North American continent may number twice 30 million.

Col. Townsend Whelan, gun authority and veteran outdoorsman, points out that this vast caribou population will soon present a serious problem in terms of sport, food supply and conservation. They no longer are protected by vast distances in the far north. Within a year or two it will be easy to reach them by airplane where before this it was

a matter of several months' wilderness journey at least. We do not want the caribou to go the way of our buffalo.

It is generally supposed that the caribou migrate south to the shelter of the woods in the winter, and north to the windswept Barren Grounds in summer for relief from mosquitoes, but this is by no means certain. Lichens are the preferred food of the northern caribou, and lichens grow very slowly, and the caribou may eat them off entirely in a certain district and next year migrate elsewhere.

Caribou are great wanderers and one to two hundred miles is nothing to them. They are particularly gregarious, solitary caribou being the exception. They are the only members of the deer family the does of which commonly bear antlers—usually spikes 12 to 18 inches long with few or no points. Caribou are very keen of scent,

but their eyesight is not remarkable, and they often pay little attention to noise.

Caribou are erratic and restless to such an extent that they often are declared to be stupid. Particularly they are subject to short piques or rushes. In the north they are annoyed by the botfly or warble fly which deposits the eggs on their hair. The larvae hatch, bore through the skin, finally working out and producing perforations of such extent that the hides of animals killed in July and August are worthless. These flies cause the caribou much uneasiness. When they buzz around it, the animal will rush off for a quarter mile or more to escape the slow-flying insects. This action, in the course of many centuries, may have led to the habit of the characteristic sudden rushes or panics.

It's a neat trick

but we can't do it

ADVENTUROUS little boys risk their hides on hazards like this every day. But most grown-ups shy away from risks—especially if they have a responsibility to other folks. Here at Michigan Bell, we have a vital 24-hour-a-day responsibility to millions of Michigan people. We have to keep our feet solidly on the ground.

This rule applies to every phase of our business, including the company's earnings. Good telephone service depends on adequate earnings, and we must avoid any risks that might jeopardize them.

Here is why. Thousands of thrifty people have their savings invested in Bell System securities. Their money makes good telephone service possible. In fact, Michigan Bell's 5-year \$150,000,000 expansion program will be financed by these and other investors. And that program will provide more and better telephone service for you.

So you see, our earnings are important all around. And telephone rates—such a small part of your monthly budget—must be maintained at a level which will keep our earnings adequate. Otherwise, investors would put their money into some other business, and the future quality and extent of your telephone service would suffer.

We believe our customers want good telephone service, even if it costs a trifle more than inferior service.

Technical improvements in the past brought rates for good service down and have kept them down in the face of rising costs. As rapidly as future improvements will permit, we expect and want our rates to come down still further. For, Michigan Bell wants rates no higher—and no lower—than necessary to insure good telephone service.

Members of the group include June Mosier, Barbara Todd, Jane Kuhler, Nancy Kipke, LaAnn Anderson, Phyllis Trimble, Janet Bulow, Ruth Joyce, and Sharon Butler, sopranos and Sue Webster, Sally Miller, Patsy Hamilton, Marjorie Brown and Sally Swinton, altos.

Driverless Auto Plunges Into Round Lake

A 1936 Chevrolet, owned by Crut Crandall, went in Round Lake off the Municipal dock on Saturday afternoon. The car, parked on the roadway from Bridge St. to the dock, broke away from the curb and went down the hill, taking out posts and hitting oil drums on the dock before going into the water.

The lumber boat, the White Swan, using its large crane, hoisted the car from 20 feet of water to the dock Monday morning.

"Happy Easter" Across the Sea

The Easter sunrise this year will bring the most joyous promise of all Easter seasons: peace. And while millions will be spending their first Easter at home in years, there are still many whose thoughts will be turning homeward on Easter Sunday across thousands of miles of ocean. To them, Easter this year will come in the form of remem-brances from home, cheerful messages of friendship or affection, with titles like "Happy Easter Across the Sea" and "Thinking of You At Easter." And to make certain these Easter messages arrive on time, the War Department has urged that overseas Easter cards be mailed early—so that those GI's, wherever they are, will know that back home someone's thoughts are with them on Easter Day.

"Those Dog Gone Dogs"

(Editor's Note: The following article is typical of the many complaints we receive almost daily, at this time of year. In articles which will follow, dealing with dogs and law enforcement in general, we will describe the attitude of our law enforcement officials and others responsible for preserving the peace and unity here.)

Let it be clearly understood that the writer likes and is a friend to all dogs which have sense enough to co-operate. But even dogs, like saints and criminals have their place. We always like to have a place for everything and have everything in its place. This includes dogs of all sizes, ages, tempers et al.

Even reasonable and fair dog owners agree that there is a place for dogs. It is not the place where "sonny" sleeps, much as "sonny" may disagree. Neither is it running over flower and vegetable gardens and lawns, leaving their "FRAGRANCE"???, attractive to ever more dogs and disgusting to the victims of dog trespassing.

In short, Mr. Editor, the time is not overdue for some one or ones of proper authority to speak and enforce what they say, to take happy action. This would naturally fall to the responsibility and duty of the City Dads.

Every school day, morning and noon, dogs of all sizes, colors, descriptions, temperaments and breeds follow their little masters to school, then proceed to over-run our lawns, gardens and flower gardens, with dog-like consequences.

City Dads, get busy pronto, with a suitable dog ordinance and see that it is enforced, that the dogs and people may continue to live, but in their proper places, and subject to necessary controls and restrictions.

Bonnie Sutton Valedictorian

Miss Beth Meggison Is Honored as Salutatorian

Miss Bonnie Sutton, daughter of Mr. and Mrs. Albert W. Sutton, leads the class of 1946 as valedictorian with a point rating of 4 of a possible average of four points. This indicates a semester average of an A in every high school course from grade nine through grade twelve. One term of work was carried at Lansing Eastern where the same excellent standard of work was maintained. Miss Sutton has always demonstrated considerable interest in other activities related to a high school. Participation in Junior and Senior plays, class offices, and on many committees have given Miss Sutton an opportunity to show a well-rounded perspective in other school contacts.

Miss Beth Meggison, daughter of Mr. and Mrs. Clarence B. Meggison, will be Salutatorian of her class with the fine rating of 3.56 of a possible four points.

Miss Meggison has shown versatility in her high school career. Two years of I-H Club work, participation in the Junior and Senior plays, aid on the school paper, membership in the school band for several years, and much work on class committees give a hint of her all around interest.

Others in the class whose marks enable them to be among the first ten are Joan Heise, Donna Henry, Maxine Lewis, Vincent Oluchi, Marie Sipple, Elaine Taylor, Nancy Totton, and Geraldine Ver Snyder.

Appointments In City Offices, Committees Made By Erber

Chief Of Police Appointment Causes Lengthy Discussion

Karl J. Erber, who took his seat as the new mayor of Charlevoix last Monday night, had a full evening's business before him. Two new councilmen, Harold Dutcher and Kenneth McFadden, replaced Dr. Neileston and Karl Erber for their first session.

After the regular and special business was disposed of by the mayor and council, the mayor offered appointments to city offices for approval of the council, as follows:

Heise for chief of police, Marshall, fire chief; Leitch, city engineer and city assessor; Allard, street commissioner; Howard, harbor-master; Anne, city attorney; and Dr. Neileston, health officer.

The approval of all appointments came as a group, rather than individually, and much discussion was necessary before a second voting in a tie vote was taken. The first voting in a tie vote was against the appointments as set forth by City Clerk, Ray Hamilton.

Appointment of the Chief of Police was, apparently, the point of discussion. After discussing the merits of this appointment, a second vote was taken, in which Councilman Hunter and Goss decided to go along with the Mayor's appointment, while McFadden held fast to his original decision as against such an appointment.

JOINS POLICE DEPARTMENT

Robert Maxfield has joined the Charlevoix police force. Chief of Police Clarence Heise, announced this week.

The ten months prior to his discharge were spent in New Guinea and the Philippines. Before entering the service Mr. Maxfield was employed at the Barrington Aiding Machine company in Detroit for 7 1/2 years.

His wife, the former Grace Hel-ding, and children, resided here while he was in the army.

Port City Representatives Meet at Grand Haven

At a meeting of the emergency committee of Western Michigan port cities, held last Thursday at Grand Haven, J. M. Foster, Wil-lis Cross and Irving Steinhardt represented Charlevoix.

A large representation of all port cities, including Holland, Grand Haven, Pentwater, Muskegon, Whitehall, Grand Rapids and Charlevoix was present to discuss the serious coast guard situation now facing these cities because of the shortage of funds and manpower.

Commodore Hirschfield and aides of the 9th Coast Guard district, of Cleveland, as well as other Coast Guard representatives were present to discuss the situation and to aid in drafting a resolution which will be sent to all congressmen of the districts.

Portmaster J. M. Foster told the delegation that Charlevoix must have a Coast Guard station and said "I just can't imagine Charlevoix without one." "To me," he said, "it is as necessary as the air we breathe or the rising and setting of the sun."

He said commercial fishermen as well as pleasure craft owners depended heavily upon the Coast

AAA NEWS

The farmer who believes that he can sell his crops, and along with them the minerals they took from the soil, without thought about replacing the lost minerals deprives himself of the added income which comes from crops grown on rich mineral soil. Nature fixed the mineral content of the soil ages ago and every pound taken off the land in crops is gone from the soil forever. Only by replacing the minerals by using fertilizer and lime can the continued production of crops of high quality and economical production yields be kept up. Man builds a house, he does not expect it to stand forever without some attention. The roof must be kept up, the side walls painted or the elements will eventually destroy the house. A man's farm, too, needs attention, erosion must be kept at a minimum so his soil will not wash or blow away. Mineral content of the soil must be kept up. The soil must be kept humus rich and in good tilth. Otherwise the farmer's income will drop as his crop yields go down. In 1911 farmers cooperating in the AAA program applied 1,349,256 tons of phosphate to their pasture lands and 23,828,309 tons of

lime to their pastures and cropland. By so much more the strength of the nation and its people have gained. It takes so much gasoline to do so much work with power equipment. Can man himself, marvelous creature that he is, be expected to do as much work on a poor diet as he could on a balanced diet of food grown on good rich soil? So, too, must the soil be fed if it is to do its best.

The International spot-light is focused on food - food for the hungry millions in Europe and Asia. Upon the American farmers rests the principal hope of these people, who otherwise are doomed to slow death by starvation. The AAA program is designed to assist the farmer in continued abundant food production in the global war against famine.

Now...no wheat used
in beer or ale

And wheat alone can solve the
problem of feeding the world's hungry

Actually wheat has never been a large item in the brewing process—only $\frac{1}{10,000}$ of the entire U. S. wheat crop was used in 1945.

In accordance with United States Government policy, the brewing industry has used no wheat whatever since March 1, 1946.

OTHER MATERIALS CUT 30%

The other grains used have been reduced by 30%—that is, to 70% of the 1945 amount.

Wheat alone can solve the problem of feeding the hungry. The grains to which the industry is now restricted, are of a variety and grade not normally consumed by the people of the world as food.

LESS BEER AND ALE

Altogether, the brewing industry is using 30%

less materials than in 1945. This results in a proportionately lower production. But since the current demand for beer and ale is about 25% greater than a year ago, the real shortage is nearer 50%.

Consequently, your dealer will not be able to supply you with all the beer and ale you would like. We know you will understand the reason for this.

Your attention is earnestly directed to the recommendations of President Truman's Famine Emergency Committee, which are summarized in the box below.

This statement tells in clear, simple terms what each of us individually can do to help during the emergency.

What the President's Famine Emergency Committee
asks us all to do

1. Save and share wheat and fat products . . . Go light on all foods that take wheat, fats and oils—sue breads, macaroni, cakes, cookies, pastries and deep-fried foods. Use drippings for pan-frying. Save salad oil—use boiled dressings.
2. Buy and serve more plentiful foods . . . Balance diets with the more plentiful foods, such as potatoes, fresh fruits and vegetables.
3. Waste NO food . . . Dress up today's leftovers for tomorrow. Make every crust count with nutria toast, crumb-toppings, bread puddings and stuffings. Take no more than you can eat. Clean your plate. Turn in unusable fat salvages promptly.

Fashion Frock of the Week

SPRING TOPPER

Make it brief! Make it snappy! A three-quarter length coat is tops for spring!

Softly rounded shoulders... a set-in belt that gathers in a microscopic waistline... and then gently rounded hips. That's the plot of the prize-winning short coat story. The deep-cut dolman sleeves of this smart Fashion Frock of the Week are decorative as well as functional, for they bear the season's style signature and provide comfortable room for a suit beneath it. A flange seam outlines the deep yoke that rounds the shoulders and highlights the coat front. And deep tucks above the set-in belt round out the top to give that important bulky look.

Pick a belted shortie for the smartest all-day long breeze breaker to top your well-rounded wardrobe.

Lenten Food Supply Adequate

Good supplies of fresh fruits and vegetables, plenty of eggs, fair stocks of macaroni and spaghetti and abundant poultry supplies are in prospect for Lent, according to reports from 140 field-laying offices of the nation's leading food distributors.

Fresh fish is generally reported as the major casualty of the season, although Charlevoix stores have adequate supplies.

"There will be enough eggs available during the next eight weeks to satisfy the dietary needs of the nation, with sufficient stocks to take care of the traditional Easter morning egg hunt," it was reported. The fresh fruit and vegetable situation for the next two months is more promising than a year ago although apples and onions will continue to be scarce items.

Pointers, cabbage and spinach will be in good supply throughout the early spring season. And a good quantity of cauliflower, tomatoes and beets is in prospect.

The citrus crop is reported adequate with a large supply of oranges coming to market from California and Florida. A larger strawberry crop is also expected from Louisiana, North Carolina and Tennessee anticipating good yields from their increased plantings.

Watch the advertisements each week of Dutcher & Johnson Super Market, Kroger Grocery & Baking Co., and the A. & P. Tea Co. for fresh supplies of the items mentioned above. They will take care of your needs.

Watch Fat

When you get fat smoking in the skillet turn off the gas. Smoking indicates that the fat is beginning to break down chemically, and will soon develop a disagreeable flavor so that it cannot be re-used for cooking. If the worst happens, however, and the fat is ruined, all is not lost. Deposit the discolored brown mess in your used fat container and turn it over to the meat dealer for four cents per pound. Because of its salvage value, it can still work for you.

Looking Ahead

IN THE MIST of a forest there was a shrewd mouse-trap manufacturer, who turned out a dependable item. Son Joe worked long hours making steel springs by hand. Mother kept the books and wrote the letters. Dad did the assembly work and finishing. There were no sales problems. Customers already had beaten a path to his door—and formed a waiting line.

But there was beeping in the line. Deliveries were slow and service was bad. Finally one day, in a stack of third-class mail, Mom found an advertisement for spring-winding machines. It was very timely because Joe's workbench was the bottle neck. Nobody else could make springs and he was always rushed to keep up with Dad. So Dad bought Joe a spring-winding machine.

Prosperity TURNING out a Acquired better trap than ever, and a lot more per day, business was fine. Prosperity came. Dad was flush, declared Saturday afternoons off and raised pay all the way around. About the time the general good feeling was at its height, Joe married a cute little communistic viewpoint. Then it was that the rodent extermination industry started to undergo complete reorganization.

The little c.v. convinced Joe that he ought to have a half interest in the business, and there wasn't much Dad could do about it. After the 50-50 partnership was formed, the c.v. started telling Mom off right regularly, making snips about faked accounts, and gifts from buyers, to shock the F.T.C. Mom had to keep books with the c.v. looking over her shoulder, eating an apple.

Prosperity FINALLY the junior Destroyed partner made bold to demand a spot on the payroll for the c.v. at Mom's pay, with authority to watch Mom and keep her honest. That was the day the spring-winding machine broke down. Repairing it seemed quite useless to Dad, what with a shop full of headaches, padded payrolls, no profits, and all departments working at cross purposes. He'd just quit!

After Dad and Mom left, labor costs increased and Joe missed a few payments on his new spring-winding machine but the little c.v. devised a solution: Raise wages again and boost the price of traps. This brought an unpleasant reaction from the customers and the waiting line melted down to a third of its average length. Joe sensed trouble and ran after the customers but didn't catch many.

Early one morning a man came in a truck and took the spring-winding machine away, leaving the whole crew wondering where to look for a job. They say the machine was offered to Dad, cheap, but he was not interested. By this time, old crafty Dad was busy with research on an odorless electronic, destined, in due time, to put mouse-traps off the market entirely.

Kiwanis Notes

Our thanks to the farmers of the Charlevoix area for inviting us to their dinner for Charlevoix business men. A good dinner and a well-rounded program made a delightful evening. Gatherings such as this bring lasting understanding, cooperation and good will to our community.

Al Young, local industrial artist, gave us a visible demonstration of some of the points of his craft. We also learned that men engaged in aids to commerce and manufacturing, can, when need arises, amuse themselves and others with art in a lighter vein.

Due to the necessity of devoting their time to summer diversions, the ladies of the IOOF will not be serving us those delicious dinners that have been coming our way each Monday evening during the winter. We express our appreciation of the attention given us.

Next week, we meet at "The Shady Corner", Michigan and Dixon avenues, with Mr. and Mrs. Heering. It will be nice to hold our meetings at the home of one of our own members.

Arlo Wickersham has moved to his country home for the summer.

Fred Willis, "Bob" Sloan and Robert Bridge are back from their winter trips, and all look the better for the vacation.

City superintendent Angus Leitch and Robert Bridge, of our public affairs committee, will be in charge of our next meeting.

Fred Miller, of Portland, Oregon, and "Tommy" Hamlin were our guests.

Pig Pasture

An acre of good swine pasture will save enough grain and other feeds to produce 280 pounds of pork. At present pork prices this amounts to \$42.

Tests conducted by Michigan State college, reveal that an acre of lush pasture will carry 15 to 25 pigs, each of which will leave at least \$1 worth of manure. Add to this the increased growth rate due to improved health and less trouble from parasites that would be encountered in lot feeding. The result is quite a sizable figure for the value of an acre of good hog pasture.

pasture.

The time to plant oats and Canadian field peas is now. The ground should be prepared for sowing rape or rape and oats in the near future. If alfalfa, clover or alfalfa and bromegrass pastures or hay fields are available, pigs can be turned in without greatly reducing the yield of hay. Farmers should remember that shoats and older hogs should be turned when turned on pasture early in the spring.

Cow Testing

A number of farmers in Charlevoix County are very much interested in having a cow testing association. In fact, there are enough farmers interested so that it would be a full time job for a tester.

Locating a tester so far, however, has been impossible. If any farmer boy or returned veteran would be interested or if you know of any they should contact this office.

A ten-day course is required at Michigan State college and the next course would be in about three months. If they did not have transportation down and back I would see to it that they would have such transportation.

Planting Shade Trees
If you're planning more shade trees in your yard, better think about planting them now. Karl Dressel, specialist in forestry at Michigan State college, advises you to plant shade trees after the frost has left the ground and before active leaf growth begins. In planting shade trees, space

Mat Fisher versus Ed's Big Toe

Mat Fisher's our local weather man... and planning for the picnic of our town Improvement Club, Mat persuades us to postpone it until Tuesday—since it's going to rain for three days, starting Saturday the 8th.

But Ed Whorle claims he can feel rain in his big toe—and he says there isn't a drop in prospect for at least three days!

Well, it's bright and sunny on the 8th—and 9th—and 10th. But come the day of the picnic, it pours

rain like Jupiter Pluvius—and we hold it in Ma Hoskins' parlor, drinking beer and roasting hot dogs.

Of course, Ed razzes Mat no end. But nobody's sure. In fact, they like Mat just a little better, being an expert and being wrong. (And from where I sit, a stormy day indoors before a fire makes a hot dog and a glass of beer extra appetizing!)

About Bank Auto Loans

People ask, "Why is it to my advantage to finance my car with a Bank Auto Loan?" Here is how

our plan works; don't you agree it's the best way? You pick your car, find out the trade-in allowance you get from your dealer and the amount of cash you will need for the balance. Then simply add the cost of having your present car insurance policy changed to cover your

new car, (or getting new insurance) and arrange a low-cost loan with us for the total amount.

To see if you will save money (and we believe you will) compare the cost of other financing plans with a similar transaction here. And remember that with a Bank Auto Loan it is a local transaction all the way through. Figure it out for yourself—then decide.

SPORTS AFIELD

By Ted Kesting

Land need not be idle because it does not produce crops or timber. Many farmers have learned that making the most of every acre yields a valuable wildlife crop.

The fact that nearly 700,000 acres of marsh land on farms still needs soil conservation to put them to their most efficient use is disclosed by a nationwide study, based on the physical characteristics of the land. This study was carried out during the last

three years by the Soil Conservation Service to determine the nation's soil conservation needs. It is the first detailed study of farmland resources ever made on such a scale by any nation.

The land of the United States is divided into eight classes, on the basis of its varying capabilities for use and its soil and water conservation requirements. Marsh land, coming under Class 8, won't grow tilled crops, wood products or pasture. But farmers are finding that a good deal of such wet land is ideal for producing muskrats, opossums, skunks, and mink. Muskrats bring from \$1.75 to \$2.25 apiece now.

This is another example of how "common sense" farming methods are increasing wildlife populations. Farmers have to pay taxes on their land, so they may as well realize a return on all of it. The average sportsman shouldn't mind paying for the privilege of hunting on farmland where the farmer has taken pains to increase wildlife through conservation practices.

Help yourself to better rural line service

On most rural lines today, there are more telephones than before the war. That's because so many "essential" rural folks had telephones installed during the war when shortages of materials and manpower made it impossible to add enough new lines.

Just as fast as conditions permit, we intend to add more lines to take care of those who are waiting for telephones and to reduce the number

of telephones on many rural lines. While we're doing this, you and all your telephone neighbors will enjoy better service if everyone will share the line and consider the other fellow.

You can do your part by continuing to keep all calls short... avoid listening in or interrupting when the line is in use... hang up your receiver carefully. (One receiver off the hook can tie up a whole line.)

**BIBLE QUESTIONS
ANSWERED BY THE
VOICE OF PROPHECY
INTERNATIONAL BIBLE BROADCASTER**

Question—When did the apostles appoint Easter? Please give text.
Answer—The word "Easter" is found only once in the Bible—in Acts 12:4 (of the Authorized Version) where, all scholars agree, it should have been translated "Passover." (See Revised Version.) The word "Easter" is from the old pagan Saxon goddess, Eastor or Eastre, worshipped in the spring of the year.

Q.—How old must one be to be responsible before God?

A.—Old enough to know right and wrong. "Submit yourselves therefore to God. Resist the devil, and he will flee from you." James 4:7.

Q.—Wasn't it wrong for the Israelites to borrow gold from the Egyptians and not pay it back?

A.—In Exodus 3:22 the people were told by the Lord to ask or demand silver and gold of the Egyptians. The word rendered "borrow" is really "ask," and is so translated in most versions of the Bible. What they received was only a small payment for their past services, and the Lord inclined the hearts of the Egyptians to give liberally.

Q.—Does the "smoking flax" spoken of in Matthew 12:20 show that people smoked in Christ's day?

A.—No. Let us read the text: "A bruised reed shall He not break, and smoking flax shall He not quench, till He send forth judgment unto victory." This is a prophecy of the work of Christ. He came to help men. The reed might be burned, but He would not break it. He came to bind up the flax (wick of the oil lamp, might be consuming, yet He would not put out the spark. He would do all He could to help the weak.

Q.—Why are the four Gospels of Matthew, Mark, Luke, and John not exactly the same?

A.—If they were exactly the same, one would be enough. They are four separate witnesses to the truth, to give the Lord's life from every point of view. Jesus was to be commended to the four classes of men—the Jew, the Roman, the Greek, and the Christian. The four Gospels coincide in many things, yet each book records things peculiar to itself. Stroud says that Matthew has 42 peculiarities and 53 coincidences; Mark 7 peculiarities and 93 coincidences; Luke 59 peculiarities and 41 coincidences; John 32 peculiarities and 8 coincidences.

Islanders Present Comedy Drama

On Tuesday evening, April 9, a one-act comedy, "Those Husbands of Ours," was presented in the Parish Hall, Beaver Island, under the direction of Mrs. Fred Spalding. The audience was afforded much merriment since many local money were used in the script and the manner the husbands were "raked over the coals" by the wives resulted in many hearty laughs. Those taking part in the play were: Mrs. Spalding, Mrs. J. C. Hanley, Mrs. Henry Allen, Mrs. Rolland McLean, Mrs. Frank Nackerman, Mrs. David Pike and Mrs. Arthur Miller.

To add to the enjoyment of the evening, Fred Spalding, accompanied by Mrs. Russel Palmer, delighted the audience with several piano and violin selections. Margie Giffitt, with blackened face and gay attire, gave a humorous reading; Dorothy Lee McCann, accompanied by Vera May McDonough, sang three popular songs. Three vocal numbers by the "wives," accompanied by Mrs. Hanley, ended the program.

Misses Rosemary and Ellen Nackerman, dressed alike in pretty summer frocks, announced the program. Community singing ended the happy event. Proceeds from the entertainment went towards the fund for the new chapel.

Pearsall Announces Candidacy for Sheriff

Petitions are being circulated to nominate Claude D. Pearsall on the Republican Ticket for Charlevoix County Sheriff. Mr. Pearsall is 52 years old and has lived in Charlevoix County all of his life. His many friends believe him to be the leading candidate for the office having their judgment on his many years of Public Service as Township Supervisor, Deputy Sheriff, Justice of the Peace and other Wilson Township offices for something over 25 years. For many years he owned and operated a farm in Wilson Township and assisted his well known veterinarian father, Robert Pearsall. Since his father's death he has attempted to carry on the work and has never failed to answer the call of a farmer in need as his many friends will testify.

In announcing his candidacy Mr. Pearsall states that he is not criticizing the administration of Floyd Ikeus, his life-long friend and the present incumbent, but, he does feel that, with living and social conditions changing so rapidly, a new administration in the Sheriff's office, would make the department more efficient.

Health Officer Tells of Service

Dr. Albert F. Litzburger, health officer, reports that the mid which the District Health Department, serving the Counties of Antrim, Charlevoix, Emmet and Otsego, has received from the Children's Fund of Michigan for the past 15 consecutive years was withdrawn July 1, 1945. The direct aid granted to the health department during these years amounted to \$187,227.17.

One hundred ten children from these four counties had service at the Central Michigan Children's Clinic at Traverse City during the year, and 21 children were admitted to its child guidance service.

Dr. R. C. Max, Children's Fund dentist, resigned August 11, 1945. During the three and one-half months he was on duty, 306 children made 672 visits to the clinic. Four hundred seventy-five teeth were extracted and 1,051 fillings inserted. Dental service was resumed April 8, 1946, with Dr. R. H. Fisher in charge.

Four Pay Fines In Justice Court

Police Crack Down on Traffic Violators

Charlevoix police have cracked down on traffic violators during the past week and at least four persons paid a total of \$36.45 when they appeared before Judge Fowler here.

Only one summons, issued to A. L. Fitch, went unpaid. Mr. Fitch was ticketed by Officer Brady for speeding above the bridge, which was on Michigan avenue, but because the address was written as Bridge street, the ticket was voided and Judge Fowler found the driver not guilty.

Courier Sponsors Picture Event

"The best investment is in children," says Wm. J. Cameron. "You had better take a good look at them as they pass you on the street, for they are the ones who are going to make a new world for you, and you can catch some glimmer of the dawn in their fresh young faces."

That is a bit of philosophy in which the publisher of this newspaper firmly believes. And because we think our readers should "catch some glimmer of the dawn," we intend to help them do it. That is, of course, with the cooperation of the mothers and fathers of the children of this and surrounding communities.

Nationally Known Studio To Take Pictures
The only way we can give all our readers a good look at these future "world builders" is by publishing pictures of them in a feature series, titled "Citizens of Tomorrow."

To assure the latest and best reproduction picture—they must all be of uniform size and quality—we have made arrangements with the Woltz Studios, nationally known children's photographers, to take these special pictures for us.

Expert children's photographers for the studios, with all the necessary equipment for this specialized work, will be here Tuesday, May 14. The special studio will be set up in the Odd Fellows Hall and will be open from 1 p. m. to 8 daily.

There Will Be No Charge to Parents
There is no charge to the parents. There are absolutely no strings to this invitation. There is no age limit. It is bonafide in every sense of the word. Parents do not have to be subscribers, nor even readers of this newspaper to take advantage of this feature.

Neither are they obligated to purchase pictures after they are taken. Those who want some additional prints may obtain a limited number by arrangement with the studio representative when they select the pose they want printed in the paper. It is entirely up to them.

The More Pictures the Better
The Courier simply wants pictures of all the youngsters and the more the better. So mothers and fathers of the community in which this paper circulates should remember the day and not fail to bring their children to the photographer.

You will be mighty glad, afterwards, if you did, and very, very sorry if you fail to allow your children to participate in this event. The kiddies will have much fun and both Mother and Dad—and the youngsters, too—will be very proud to see their pictures in print later. Many will elp them out and preserve them until junior grows up.

Service Men's Children
This paper reaches many men in the armed forces all over the world. What a thrill it will be for a father, in some distant camp or thousands of miles overseas, to see a brand new picture of his child in the home town newspaper. What a "kick" he will get from showing it to his comrades. Service men's children are especially invited.

Have your children's pictures published free by the Courier.

Curtain Rises on Senior Play

Tomorrow evening, May 2, the seniors of Charlevoix high school will present their annual class play, "Let Me Out of Here," in the high school gym at 8:15.

Under the combined direction of Mr. Bennett and Mrs. Dean, members of the cast have been working day and night to prepare a polished performance. Under the leadership of Beth Meggison, the program committee has solicited the help of local merchants and is preparing a program that is sure to be an item for your good-time book. Elaine Taylor is in charge of ticket sales and reports that a "Standing Room Only" sign may be in order tomorrow night. The ushers have their formal duties off, and all senior activity points toward the opening curtain.

The high school band will open the show and the short delays between acts will be filled with specialty numbers by selected talent from the senior class.

A matinee performance will be given tomorrow afternoon for the amusement of the elementary school children, which will give the cast a chance for a dress rehearsal and an opportunity to discover any spots in the production which might need strengthening before opening night.

This show is a must for young and old!

William E. Gregory Celebrates 96th Birthday Anniversary

William E. Gregory, resident of northern Michigan for 79 years, will celebrate his 96th birthday anniversary on Saturday, May 4, at the home of his son and daughter-in-law, Mr. and Mrs. Clarence Gregory of Harbor Springs.

Born near Chatham, Ont., Can., Mr. Gregory came to Michigan at the age of 14. He was employed by the Michigan Central railway at Detroit for two years before coming by steamboat to Charlevoix, then known as Pine River. He was employed at the Elk Rapids Iron works and at Ironton and Mancelona when the company was moved to those communities.

In 1874 he married Ella Baker in a ceremony performed by Justice of the Peace William John McGeagh in his shingle mill on the stream now known as McGeagh's creek, three miles south of Charlevoix. They took up a homestead in Redmond township, Emmet county, and built their first home there from logs cleared from the land on which they settled.

They were among the first white settlers in the community now known as Cross Village.

The family moved to a farm in Hayes township about 1908. Following Mrs. Gregory's death in 1927, he continued to live on the farm until 1932, when he moved to Charlevoix. Since then he has resided here or in Harbor Springs. Last fall he made a visit to his daughter's home in Detroit but returned to Harbor Springs for the winter.

Four children of a family of ten are still living. They are Clarence L., of Harbor Springs; William E., of Charlevoix; Mrs. Irene Crites and Mrs. Pearl Sparre, of Detroit. He also has 17 grandchildren and 26 Great-grandchildren.

Legion Auxiliary Prepares for Poppy Day

Mrs. Lillian Ulrich, Poppy Chairman of Leslie T. Shapton Unit 226 of the American Legion Auxiliary, today made plans and preparations for observance of Poppy Day.

Amid the desolation of the battlefield in the first world war, said Mrs. Ulrich, "the poppies were the one touch of nature's beauty that survived. The little red flowers grew along the trenches and shell holes, and over the raw earth of the battle graves. In the minds of the men fighting there, the poppies became associated with their dead comrades. "Disabled veterans of both wars now make the poppy to be worn in memory of the dead of both wars. Poppy Day contributions aid the disabled of both wars, their families, and the families of the dead. Millions of Americans will wear the veteran-made poppies of the American Legion Auxiliary this year in silent tribute to those who lie beneath the crosses in Flanders Fields and in the American war cemeteries throughout the world."

BALANCE ON HAND

Effective with the date of April 27th, 1946 the Charlevoix Service Organization dissolved.

Formed for the purpose of coordinating Charlevoix's part in the war effort, the need for this type of organization no longer exists.

The Charlevoix Service Organization, known locally as the C. S. O., came into existence April 27th, 1942 with the meeting of spokesmen from 35 organizations in Charlevoix.

The original committee consisted of Ralph Hamilton, Chairman and the following members of the committee: Fr. John W. Collins, Rev. H. J. Pulsipher, Dale Bradley, Mrs. P. R. Ross, Mrs. Charles Bellinger, Mrs. Harry Walstead, Fr. John W. Collins enlisted in the armed forces and was replaced by Fr. Aloysius Ulanowicz, Rev. H. J. Pulsipher received a pastorate in Detroit and was replaced by Stewart Coleman, Dale Bradley, who left town, was replaced by William I. Supernaw who in turn was replaced by E. J. Edwards when Mr. Supernaw joined the service.

There remains in the C. S. O. Fund the amount of \$569.34 of which \$100 is earmarked as a memorial fund. The balance should be spent to help defray the expenses of a homecoming.

On Tuesday evening, April 23rd at the City Hall, the representatives of the American Legion, The V. F. W. the Blue Star Mothers, American Legion Auxiliary, and V. F. W. Auxiliary met for this purpose.

At the last meeting of the C. S. O. committee it was decided to purchase a hospital bed from the funds. This bed to be available to the public of Charlevoix.

Ralph S. Hamilton, Chairman.

Cholera Virus

A millionth part of a cubic centimeter of hog cholera virus will kill a hog, and there are only about 15 drops of liquid in a cubic centimeter. The deadliness of the virus is the reason the disease is so highly contagious.

Usually considered a disease that affects only old persons, cholera kills more children between five and 19 than do typhoid, paratyphoid, scarlet fever, malaria, infantile paralysis and diphtheria combined, according to the April issue of Science Illustrated, new science magazine.

Maintaining a U. S. O. Center. Sales of more than \$125,000 in War Bonds from a booth on the main street.

Sending the local paper to every boy and girl in the Armed Service from both Charlevoix and Beaver Island.

Maintaining a U. S. O. scrapbook service.

Sending Christmas greetings each Christmas to all local youth in the Service.

Operating a window display where more than 500 pictures of those serving were placed.

Giving to each boy and girl from Charlevoix a Certificate of Recognition for their efforts on the fighting fronts. This required 591 notifications to the boy or girl who would receive it, 591 letters to the next of kin, who were to keep it until the owner returned.

Movies were given at the local Coast Guard Station approximately one per month.

Subscriptions to the popular magazines were taken for the Coast Guard group.

Hospital boxes were sent to those hospitalized in the United States, when information reached the organization. A special overseas Christmas edition of the Charlevoix Courier was mailed by first-class mail last Christmas. Maces and flowers were given to the families of those killed in action.

Transportation was given to more than 150 boys and in many instances board and lodging. This was given when a boy or girl from Charlevoix County could not reach their home through no fault of their own, or where transportation was not available immediately, such as Beaver Island. Two dances were given under the auspices of the C. S. O. for boys and girls returning on furlough.

Every Charlevoix County boy leaving the local induction station was given a small gift in the name of the people of Charlevoix.

In completing its service to Charlevoix and to those who served with the military, the C. S. O. wishes to publicly thank the following for their unstinting efforts in behalf of Charlevoix's part in the conflict, now ended.

To FRANCES MARTIN for her work in the operation of the mailing list and the sending of Christmas greetings and Service Awards. Throughout the time from Pearl Harbor until V-J Day, every waking moment of the day, those in the service came first. The public as well as the C. S. O. owes her a deep debt of gratitude.

To FR. JOHN W. COLLINS, under whose efforts the U. S. O. Center came into existence.

To FR. ALOYSIUS ULANOWICZ for his personal inscribing of each Service Award.

To ANNE HIGMAN for her help in maintaining the Honor Roll.

To THE CENTRAL DRUG STORE who for two years gave their complete display window for photographs.

To GEORGE HAGGARD for his unselfish help in conducting two War Fund drives.

To the CHARLEVOIX HAND for its help whenever called upon.

To THE LOCAL DRAFT BOARD AND CITY COUNCIL for its wholehearted cooperation during the course of the war.

To the many persons who, when called upon were ready and willing to help in any manner necessary.

To the citizens of Charlevoix, and to the summer residents whose contributions to this worthy cause amounted to more than \$1,500.00.

In closing it is possible to say that at no time during the course of the war, was the C. S. O. without ample funds to carry on any activity. To those who were in the Armed Services this is ample proof that Charlevoix tried its best in every manner possible to support its boys and girls. In many cases military restrictions would not allow more to be done.

There remains to be done before the closing of this chapter in the history of Charlevoix.

Charlevoix MUST plan a suitable memorial for those who gave their lives for us.

Striking changes in American food habits have been developed during the period of World War II. Some of these are making an important contribution to national health.

One of the most important of these changes, states the National Dairy Council, is that of increased milk drinking. Per capita consumption of fluid milk and cream averaged 340 pounds in milk equivalent during the prewar period. According to preliminary government estimates that had risen to 442 pounds in 1945. In other words the average American formerly consumed the milk and cream from four ten-gallon cans each year and now requires the product from 5.2 ten-gallon cans, or an increase of 50 percent.

DO YOU WANT ANOTHER 3%
TAX PUT ON YOUR PAY CHECK?

Do You Want a Government Bureau to Decide What
Medical Care You Need When You Are Sick?

UNDER a so-called National Health Act of 1945 introduced in Congress by Senators Wagner, Murray and Representative Dingell, proposal is made to take away your right to select, without hindrance, the doctor you want to treat you. Instead, the Act offers the services of whatever government doctor isn't busy—and makes you pay for his advice by taking a new 3% from your paycheck. If you don't use the government doctor you still have to pay at least 3% of your wages for his support and for the cost of administering the plan.

THE TOTAL YEARLY COST OF THIS WAGNER-MURRAY-DINGELL BILL IS ESTIMATED AT \$4,000,000,000.00.

Right now, without any four thousand million dollar Act, your family doctor is available 24 hours a day to treat you. He is well trained . . . He knows you personally. And, if you don't like what he prescribes, you can get a different doctor! If you want to continue to choose your own doctor without red tape . . . If you want the best health care that medical science and personal service can give you—urge your Congressman to vote against the Wagner-Murray-Dingell Bill.

From where I sit... by Joe Marsh

Willie Lives in
an "Almost" Home

Willie Wells is one of many G.I.'s stationed overseas to keep the Peace. Not to forget them, let me describe a snapshot that he sent.

It's the inside of a house where Willie's quartered . . . except the boys have fixed it up as much as possible to look like a typical American home. They've hung up pictures of their families, cultivated a stray puppy for a house pet.

And the snapshot shows Willie and his buddies sitting by their hearth, drinking friendly American beer and reading the home-

town paper. "Almost like being back in Clover Corners," says the caption.

From where I sit, that "almost" packs a lot of meaning. Thousands of our boys are still overseas, trying to make their quarters homelike, even to the pet dog and the friendly glass of beer. Let's not forget to write them often—remind them that home is waiting—and it's not an "almost" home either.

BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY INTERNATIONAL BIBLE BROADCASTERS

Question—Is China mentioned in the Bible?

Answer—Not as "China" but it is thought by some that the "land of Sinim" in Isaiah 49:12 refers to China. "Behold, these shall come from far: east, to, these from the north and from the west; and these from the land of Sinim."

Q.—What is the best way to learn how to be saved?

A.—Study the Scriptures, which contain all knowledge necessary to salvation. 2 Timothy 3:15: "And that from a child thou hast known the Holy Scriptures, which are able to make thee wise unto salvation through faith which is in Christ Jesus." (See John 5:39.)

Q.—I know Christ was divine, but was He really a man too?

A.—He was. "And the Word was made flesh, and dwelt among us, (and we beheld His glory, the glory as of the only begotten of the Father,) full of grace and truth." John 1:14. "And being found in fashion as a man, He humbled Himself, and became obedient unto death, even the death of the cross." Philippians 2:8. Read also Hebrews 2:14, 16, 17.

Q.—Don't you think this devil mentioned in the Bible is just a bad thought?

A.—How bad would thoughts have to be to drive two thousand hogs to suicide at one time? (Mark 5:1-16.) In Matthew 25:41 we read of "firo prepared for the devil and his angels." In Luke 4:5 it is said that the devil took Jesus up into a high mountain. James 2:19 tell us that the devils believe in God. All these texts indicate personality.

Q.—Is the Holy Spirit divine, or just the good in society?

A.—The Holy Spirit is the third name with the Father and the Son in Matthew 28:19: "Baptizing them in the name of the Father, and of the Son, and of the Holy Ghost." ("Ghost" is the old English word for spirit.) The Holy Spirit is not the spirit of society, but the Spirit of God and of Christ (Romans 8:9) and proceeds from the Father in the name of Christ (John 15:26; 14:26). He has creative power (Psalm 104:30); power to raise the dead (Romans 8:11).

Success or Failure?

With the reappointment by the mayor and sanction by a majority of the council, we find, for instance, the same head of our police department as we have had in the past several years.

How will this appointment affect Charlevoix as a resort city?

All anyone can look upon, for any man's services, is his record of accomplishment. Law and order have run rampant in our city because of the lack of law enforcement.

Summer residents have been enjoined into the fantastic belief that they could come to our city and be unmolested. One own citizens have as great a right to be protected.

When a police force does not function, we usually blame the head of that department.

If, as the majority of councilmen admit, our police department is lax, then something should be done about it. If the police chief cannot administer his duties properly and is still retained, then the fault must rest with the mayor who appointed him and the council who sanctioned it.

With a new police committee and a newly elected alderman as chairman of that committee, it remains to be seen whether that particular appointment will be successful.

Personally we cannot comprehend why a city like Charlevoix does condone such laxity as allowing a veritable "Indianapolis Speedway" on our main thoroughfare when recently one person was killed and several injured in at least three separate accidents, all of which, reputedly, were caused from speeding.

Then we recall, at the height of our summer business last year, how the mayor and council were called into special session to answer for the inefficiency of the police force.

After a delegation of summer residents, comprising members of the bar, Judge Rubiner and a half dozen rubbis, had visited us, demanding that the newspaper do something about the laxity in law enforcement, we were also called upon by local merchants who demanded we do nothing to hurt our town for summer business.

Where did we stand in the matter?

We were squarely in the "middle" and seriously, too!

We have suggested ways and means as we saw them, but our idea fell on deaf ears.

We suggested help from the state police. That, too, fell on deaf ears.

We suggested a planning commission to find and help correct these laxities and irregularities. That idea wasn't even considered.

But, this summer, when our visitors again arrive, and we are again faced with even more serious enforcement problems, it will mean the success or failure of our city as a summer resort, in how well we do keep order.

Hundreds of summer residents left our city under cover of darkness after the beach riot, of which we are all familiar.

Will it occur again this year?

The 1946 summer season is upon us now and as we plan to take care of the biggest crowds in Charlevoix history, the city dads watch and billy wait for a miracle to occur with this police department of ours.

We say again—Look at the Record!

Easter Every Sunday

The resurrection of Jesus Christ is real and not imaginary. The recorded words of men and women who lived near to him have remained through the centuries as the best evidence of reality. When you read your bible you will find the record of Jesus Christ in whom God had given a better understanding of his laws and to whom God had given the power to demonstrate his saving grace and greatness.

If Jesus Christ had not been crucified, there could have been more years of recorded demonstrations of the duties of man to man and of the dependence upon the laws of God.

Every Sunday can be Resurrection Sunday. We can think of wonderful beneficial results if everyone would determine to make every Sunday Resurrection Sunday. Resurrect many things that man has continued to crucify. If we resurrect on each Sunday, surely goodness and mercy will live through the other days of the week.

Resurrect the laws of God: The laws of God are the laws of the Creator of the universe and incidentally the laws of the creator of this little world of ours, of which our city is a part.

Resurrection of Faith: Faith in God and his marvelous creations of exactness. Remembrance that this little old world has been speeding and spinning through its orbit of the universe for centuries, never faltering, never failing. The earth worn forcing its way through the soil. The birds returning each year with song and nest building. In all these demonstrations of stability, man seems to be the most unstable. So it doesn't seem too remote to us that elected officials need that guidance as well as others.

Resurrection of Honesty: In this year of 1946 we will be thinking of honesty in public office, because it is election year. Many women and men will offer their services as leaders by election. We should select those for whom we can honestly wave a palm leaf. Can any person be elected to public office and not accept the help of both honest and dishonest persons? Honest people must start now to demand honest service, diligently done, and not accept perpetual beguilement.

Honesty in respect to your family, your neighbors, your business, your church, your state and your country. When all men and women have resurrected old fashioned honesty, the temple of civilization will be founded upon a rock. Most people are willing to accept a lot of honesty and when everyone gives a lot of honesty our social, economic and political problems will be clarified. Problems of ordinances and dog laws, for instance, will take care of themselves.

Resurrection of Loyalty: When we have resurrected our loyalty to the man of Galilee, it will be easy to come with true loyalty to our children, our parents and our friends. If we are found in church each Sunday or with a group of believers in any place our loyalty will be resurrected, our faith will be preserved and we will discover that we have received more than we have given.

Just A Reminder!

Research on Weed Killing
When scientists of the department of horticulture at Michigan State college found spraying weeds with 2, 4-D also killed off seed of some crops planted soon after the spraying, it looked as if they had run into a bad obstacle to the wide use of that weed-killer.

At first, these scientists were stupefied. Their rosy hopes for 2, 4-D began to fade. Then they got the idea maybe they could turn that seed-killing effect against the weeds after all. If the 2, 4-D sprayed on weeds killed sensitive seed of some crop plants, maybe it would kill sensitive weed seed in the soil, too.

They found that how long the killing effect of the 2, 4-D stays in the soil depends on how moist the soil is. In very dry soil, the chemical keeps its power to kill sensitive seeds for a year or even a year-and-a-half. But the killing power of 2, 4-D doesn't last in moist soil.

On that fact hinges the plan of attack against weeds, the men of the department of horticulture at the college have worked out. They figure weed seeds can be killed in the surface soil of fields during the winter by applying small quantities of 2, 4-D in the fall, leaving the soil ready for planting in the spring. It will then be com-

paratively free from weeds and also free from the killing chemical. They also think 2, 4-D may prove effective in killing weed seeds in barnyard manure. All the kinks have not been ironed out yet, but work is still in progress. But they do think the new findings may prove the stepping-stone to better weed killing.

Chick Feeding

Mash should be fed to baby chicks at regular intervals throughout the day, suggests J. M. Moore, extension poultry specialist at Michigan State college. The hoppers should not be filled more than half-full, however. This will help prevent chicks from "bloating" the feed out on the floor. Feed in a scribe and every effort should be made to prevent waste.

Provide eight feet of hopper space for each one hundred chicks until four weeks old. As chicks grow older more feeding space is needed. Provide one gallon-size water fountain for each 75 chicks. Keep granite grit or gravel before chicks when grain is being fed. Do not feed oyster shells or other calcium products until the pullets are ten to 12 weeks of age.

Save Food

Today and every day when we sit down to eat, let's not forget that there are many folks in other countries, Europe especially, who won't be having enough. In fact, these people are starving. More face starvation if something isn't done about it. How can we help?

In the first place, if you don't think it's too late and if it fits in-

to your program, you should sow a few extra acres of cereal grain. . . that is, if you're a farmer. It is needed to help in this critical situation. Plant plenty of good pasture too, for it will save grain otherwise needed for livestock feed.

And then all of us can save on wheat and wheat products as much as possible. Don't throw away any leftover bread, but instead use it for toast, puddings and other dishes. President Truman's Farmine committee has asked us to reduce consumption of wheat products by 40 percent. Let's try and do that because if we save that much and ship it over there, it will tide these people over until another harvest.

Fats are another important food item. We have been asked to save 20 percent on the use of fats. We should try to use less lard and use frying fats over and over again as much as possible. And let's not forget to take those waste fats to our grocer or butcher.

We can plant a good garden and take good care of it so that there will be lots of good fruits and vegetables to eat from it every day.

Let's not forget what we can do to help the folks who are starving in Europe. Save on wheat, wheat products, fats and oils and grow a garden this year.

Pine Seedlings Supply Depleted

No more orders for pine seedlings for farm reforestation are being accepted by the conservation department's forestry division.

Lackless late purchasers are being advised that the stock of white pine and jack pine seedlings remain, but no more labor is available in the vicinity of Higgins Lake pine nursery to care for additional orders, though the hourly rate is the highest the state has offered in years.

Sixteen hundred orders, double the previous record total, have been accepted thus far for 3,786,000 seedlings. The last of these orders must be filled by May 15, when growing conditions usually make further lifting impracticable.

At the Hardwood nursery near Wolverine the demand for stock has been much lighter, and farmers still may buy six varieties of hardwood seedlings for erosion control and wildlife plantings. Orders for American elm, red maple, mountain ash, juneberry, elderberry and red osier dogwood will be accepted until May 3. As with the pine stock, hardwoods are sold in large quantities for reforestation exclusively, and none may be used for ornamental plantings.

Next Tuesday, May 14, is the big day for the picture taking of your youngsters! The Charlevoix Courier is having pictures taken of all children who are brought by their parents or other guardian to the Odd Fellow hall between 1 p. m. and 8 p. m. absolutely free of charge. The Woltz studio of Des Moines, Iowa, nationally known children's photographers, will be in charge of the photography. The Charlevoix Courier wants a picture of your child to print in its forthcoming feature "Citizens of Tomorrow," a series of photographic studies of local children. The more we get the better the feature will be, so the cooperation of mothers and fathers is urged.

It often seems to parents that children are little one minute and are grown up the next, so fast does a child's growing stage pass. Here is a splendid opportunity to catch a likeness of your child or children at this present stage for the pleasure you will get out of it in future years and for the pleasure you will enjoy in seeing it in print. You will want to clip it from this, your home town newspaper, and preserve it for the youngster when he or she grows up.

There is absolutely no charge or obligation for taking the pictures. Parents don't even have to be a subscriber to the Courier, not even a reader. You don't have to purchase pictures either, though you may obtain a limited number of additional prints by arranging direct with the studio if you want them. That is entirely up to you! There is no age limit.

That children are looking forward to the fun, since our previous announcement of this coming event, is shown in numerous instances. One child's mother was uncertain about the date and they had a slight discussion which ended with the child saying firmly, "Well, I'm going up to the Courier and see about it."

New Belvedere Manager Here

Scott L. Wilson and
Family Recent Arrivals

Scott L. Wilson has been named manager of the Belvedere hotel and, accompanied by Mrs. Wilson and son, Scott Curtis, has arrived to make preparations for the 1946 season. Mr. Wilson succeeds Rae Ann Granger, who was associated with the hotel for many years.

Mr. Wilson, a native of Jacksonville, Ill., was discharged from the Navy recently after serving more than 3 1/2 years with the supply corps. His last assignment was at Washington, D. C.

Prior to the war, he was manager of the Coronado hotel at Maplewood, N. H. For several seasons, Mr. Wilson was associated with L. G. Davis at the Wagonwheel hotel near Petoskey.

Achievement Exhibit Held at High School

The Industrial Arts and Home Economics departments of the Charlevoix high school will hold an exhibit Tuesday, May 14, from 6:30 to 9:30 p. m. The exhibit will be held in the school gymnasium.

Many interesting and useful articles have been completed by the students. They are anxious to have their parents and all others interested in school affairs to see what has been accomplished.

The Industrial Arts boys wish to thank Walker Miles, Gregory Shadko, Bill Bellinger, Carl Kohler, Kit Carson and the Foster Boat company for aiding them in getting materials to work with during the past year.

Mrs. Clarence Heise Women's Guild Hostess

The Women's Guild of the Congregational church met at the home of Mrs. Clarence Heise on Wednesday afternoon for their regular May meeting. Mrs. Allen Campbell led the devotion. Mrs. R. J. Nowland, Sr., gave an interesting lesson on "Uprooted Americans." At the close of the business session which followed, refreshments were served by the hostess. Twenty members were present.

The annual Northern Michigan band festival will be held at Traverse City on Friday, May 10. The Charlevoix band, under direction of Fred Frank, will attend. The program will start at 12:40 in the gym. Parade through the main street will begin at 3:15 and the mass band concert will be held at 8 p. m.

Frank Left and Dave Irons jumped the gun on the "Clean-up Week" by doing a real clean-up job on the Chatterbox Cafe. A new paint job throughout, and many small improvements makes the place look like the well known "Bund Box." And with a new gas stove on its way, they'll really be ready for the summer season.

Traffic at the Charlevoix Municipal Airport is on the increase with two large planes landing there in the past two weeks. A 14-passenger Lockheed Lodestar, the largest plane to land at the local field, has been in twice from Detroit with officials from the Fruehoff Trailer company aboard. The other, a Beechcraft, from Toledo, was also in with several businessmen aboard.

Mother Frog displayed in the Belding Real Estate window, on Bridge street, has an increase. During the past week we noticed two tiny froglets, situated on either side of Mrs. Frog, poised for the jump!

Mrs. Todd, our very efficient office clerk, informs this department that 70 NEW Courier subscribers are now getting the Courier. All have subscribed in the past 30 days. We have a limited number left.

Coach Coleman's track and field team will enter the annual Class C meet here Saturday with their eye on the championship for the tenth straight year. He has some fine material there and it looks as they'll get their wish. Why not stop by at the South Side Athletic field at 10 a. m. and again at 1 p. m. on Saturday and see for yourself.

In the mail this morning came a pleasant note from Mrs. D. J. Eckinger. She writes in part: "We enjoy the Courier so much, and it is so improved. Keep sending it. Thanks!" Mrs. Eckinger now resides near her daughter at 7197 Bristol Road, Swartz Creek, Mich.

The E. L. Kramers, new owners of the Beach hotel, are making extensive improvements to the structure this week to better serve their large clientele this summer season.

Displayed in the Staley hardware window recently was a fine "catch" of brook trout, brought in opening day by "Pete" Zeitler, returned veteran. Where Pete caught them remains a secret. The 15 over-average trout made a beautiful picture on display and well bet they, too, made a very sumptuous dinner for some lucky persons.

Did you know: That Rudy Korth, former Charlevoix business man and at present proprietor of Korth's Turkey Farm and Hatchery, is the author of the much-used phrase: "Charlevoix - the Beautiful?"

Candidates and prisoners have one thing in common. They both run the risk of having what they say used against them.

This time emphasis will be placed on food for children but all kinds of canned food will be welcomed. The goal for this "food for children" campaign to be carried on in all the Catholic parishes of the country, is 20,000,000 cans, the same goal which was so successfully surpassed in the campaign last fall. The foodstuffs collected then had an approximate value of \$7,000,000.00.

Reports from all over the world confirm the fact that Europe and the Far East, emerging from a cold and hungry winter, look forward to the very real possibility of mass starvation before harvest time. Some say that Europe faces its worst famine in more than three centuries.

While this campaign has been on for six months after the last one for canned foods, it must be realized that the needs of the children of the war-stricken countries have reached such proportions that they must be met NOW in order to avert widespread starvation and death. It is an appeal made during the month of May from the mothers and their starving children in the war-stricken countries to the mothers and children here in America. It is an appeal that cannot go unanswered.

St. Mary's school hall has been designated as the collection center for all donations of canned foods from the members of St. Mary's and St. Francis parishes and from their friends. The packing and shipping will be in charge of St. Mary's Altar Society and the Holy Name Society.

Overseas distribution of the food will be taken care of by the Bishop's committee but it will be made to all those in need, regardless of race, color or creed. Whatever money donations are received will be sent to New York for wholesale purchase of canned food near the shipping centers thus saving money for food, money that would otherwise have to be spent on freight charges from inland collection centers to the shipping points.

Local Airport Gets Approval

Men and women who served their country in all corners of the world, may now enroll in a local flying school, according to Joseph A. McPhillips, instructor and owner of the flying service which bears his name.

The school, which will be conducted by Mr. McPhillips at the Charlevoix municipal airport, has been approved by the Veterans Administration and the State Dept. of Aeronautics.

The courses, open to all ex-servicemen under education clauses of the GI bill of rights, offer private, commercial, instrument and instructor pilot ratings and include ground and aerial instruction. Dr. Eugene B. Elliott, superintendent of public instruction, has approved the curriculum and said it would be standard for all Michigan flying schools approved by the board.

The amount of training to which the veteran is eligible is determined by the amount of educational tuition, at the rate of \$500 a year, to which he is entitled. Those taking fulltime courses are eligible for subsistence benefits and special arrangements are being made to accommodate working veterans who will train in their spare time.

The program includes standard civil aeronautics authority courses and the only costs to veterans are for a required accident insurance policy and a physical examination. Necessary texts and literature are furnished by the school.

A new 1946 Aeronca plane is now in service and will be used in the training program.

Other training planes are now on order and another instructor is expected soon to assist in the training program. A record enrollment is anticipated.

Mr. McPhillips will be glad to explain enrollment for all veterans who may be interested in any of the several courses being offered at the school.

"The training program," said Mr. McPhillips, "is free to all veterans who qualify."

Alumni to Meet at City Hall

Plans of Homecoming
Will Be Discussed

Alumni president, David Hamilton said today that a meeting of all graduates of Charlevoix high school since 1895 will be held at the community room of the city hall May 20.

The purpose of the meeting is to lay plans for the homecoming and general meeting to take place early this summer, preferably the first few days in July, and to make the annual report of the president and secretary-treasurer.

Up to this time over 400 graduates have been contacted, membership cards and individual class lists have been sent out. Of these less than 200 have responded, but these few addresses led to more and soon every graduate will have received a card and their class list.

If any Alumni, or any one knowing of an Alumni who has not yet received the membership card, please contact David Hamilton, 104 W. Hurlbut, or phone 434.

Only a few of the class lists are not completed, names of graduates of the following years will be appreciated: 1895 to 1913, 1915 to 1920, and 1930.

Any Alumni interested in this association is asked to be present at the meeting.

BAND REHEARSAL

First rehearsal of the Charlevoix City band will be held next Monday night. Former director, Max Smith, of Petoskey, will be present.

Musicians are invited to attend these Monday night rehearsals, according to Dr. D. C. Nettleton.

Forty Hours Devotion at St. Mary's

The annual Forty Hours' devotion at St. Mary's church is scheduled for May 12 to May 14. The services, on each of the three days, will consist in day-long exposition of the Blessed Sacrament. Evening services, consisting of a sermon by a visiting priest and Benediction, will end each day's devotion.

It is expected that Fathers John W. Collins and Edward P. Neubecker, former pastors of St. Mary's, will be present for at least one of the evening services. Priests from Gaylord, Cheboygan, Traverse City and Manistee parishes will also assist.

This practice of three days of continual prayer before the Blessed Sacrament dates back officially to May, 1537. It started "in order to appease the anger of God provoked by the offenses of Christians and to bring to naught the efforts of the Turks who were pressing forward to the destruction of Christendom. It consisted of a round of prayers and supplications by the faithful, relieving each other in relays for forty hours."

St. Charles Borromeo (1564-1631) speaks as if this practice of praying for forty hours was of very ancient date; he distinctly refers it to the forty hours our Lord's Body remained in the tomb, seeing that this was a period of watching, suspense and ardent prayer on the part of His disciples.

Resign Infirmary Positions

Mr. and Mrs. Amy Webster have resigned as superintendent and matron respectively at the Charlevoix county farm and infirmary near East Jordan and have returned to their home at 1028 May street. They had held the positions for six years.

They will be succeeded by Mr. and Mrs. Harvey McPherson, of East Jordan.

ATTEND CONVENTION

The Michigan Rural Teachers Convention was held at Bay City Friday evening. Roy G. Bennett, superintendent of the Charlevoix schools, and Leo Close, Charlevoix county school commissioner, attended the meeting.

The Charlevoix city council has authorized the installation of 110 parking meters to be in operation here for the purpose of alleviating congestion on Bridge street during the summer months. The meters are of the penny-nickle variety, a penny for 12 minutes and a nickel for an hour of parking.

Mayor Karl J. Erber emphasized that the meters were not for the purpose of producing revenue, but to regulate parking. About 105 will be placed between the post-office and the bridge. Others will be held in reserve, possibly for replacements.

Cost of the meters is payable out of the revenue. Installation by the Duncan Meter company, of Chicago, is on a six months trial basis, 75 per cent of the revenue going to the company to apply on purchase price if they are retained and 25 per cent to be kept by the city. If meters are not kept, the company agreed to take them out, and the city will retain the one quarter gross revenue.

Operation of the meters is contemplated for the summer season only, from June 1 to September 15, under the present arrangement.

Miss Marilyn J. Withers, daughter of Mr. and Mrs. Harold Withers, became the bride of John D. Swanson, son of Mrs. Lena Swanson, at a ceremony performed at 4:30 Saturday afternoon, at the Congregational church, Northport. The Rev. G. R. Parker, pastor of the church, read the double ring service.

The bride chose a powder blue gingham suit and navy accessories for her wedding. She wore a corsage of red roses.

Miss Joan Heise, her only attendant, wore a light green suit with black and white accessories and a corsage of deep pink roses.

Don Muggison assisted the bridegroom as best man.

Following a wedding trip thru Wisconsin and Minnesota, the couple will make their home in Charlevoix where Mr. Swanson is associated with a contracting business.

Both are graduates of the Charlevoix high school. The bride attended Ferris Institute and for the past year has been employed at the Chicago Title and Trust Co., Chicago, Ill. IONA POLICE HIT ERRANT DRIVERS

Ionia—A motor traffic enforcement campaign put into effect here last week by the city police department as a permanent policy resulted Thursday in tickets to more than 22 motorists. Police Chief Henry Robinson said more arrests will be made "until word get about that we mean business."

The campaign got under way upon Robinson's appointment as chief and has full backing of the city council. The drive is directed principally at reckless drivers, speeders and other traffic law violators.

Chief Robinson stressed the drive is "not any crossroads speed trap proposition. All we want is cooperation and safe driving. As soon as we get that from everybody, no one will find us hard to get along with."

To help put teeth into the new enforcement program, the city's two justices of the peace have revived the "dollar-a-mile" fine plan for speeders in the wartime period. This is bringing fines of one dollar per mile to motorists for every mile they are found driving above the speed limit.

**Good Trees
and Good Taverns**

About the finest stand of timber in our county is on Asa Fullmore's farm. Asa says it's due to "regulation"—checking on trees that don't come up to standard, and trimming them off to give the other trees a chance for healthy livelihood.

He was explaining it to us in Andy Botkin's Garden Tavern, and Andy nodded approvingly.

"The same goes for any industry," says Andy. "Like the brewers who give us tavern keepers beer to sell. If they find the place isn't up to standard—clean and courteous

and wholesome—they start giving warning. Then, if the warning isn't heeded, they start trimming!"

From where I sit, self-regulation within the brewing industry has done as much to give us pleasant, wholesome places to enjoy a moderate glass of beer, as Asa Fullmore's forestry has done to keep his white pines tall and healthy. It's nature's own protection—and the best there is!

Smouldering Fires

With the resignation from the police department last Thursday of Robert Maxfield, further complications enter the Charlevoix police set-up.

On the job only a few weeks, the officer, a returned veteran, was doing a marvelous job of policing in our city—until he made the mistake of "talking about the chief."

At Monday night's council meeting, preceding his resignation, Officer Maxfield, who was delegated by the AMVETS to set in on council sessions, was asked by the mayor whether he had received any instructions from the chief when he became a member of the local force. Reluctantly Officer Maxfield said: "I received no instruction whatever from the chief. We have had some instruction from the state police who visited this area."

While the chief did not touch upon this part of the discussion whatsoever, we believe the above statement by the officer caused his resignation.

It all began when Chief Heise called the officer to his office on Wednesday, following the publication of the Courier, and with an issue of the Courier before him, turned to the editorial page, and asked Officer Maxfield: "Did you have anything to do about that?" When Maxfield answered negatively, he then said he had heard that the officer had been talking to the Courier editor about him.

The chief groped for words to explain that he knew what transpires in the force 24 hours a day, intimating that he has people at work watching his policemen.

The conversation ended in this manner:
"Mr. Maxfield: 'Well, chief, what do you want me to do, resign?'"
Chief Heise: "No-o-o, you don't have to—BUT you wouldn't want to get fired, would you?" And then the chief added: "You know, I'm like an elephant, I never forget!"

That, Ladies and Gentlemen, is the climax. Officer Maxfield resigned, because, he said: "I cannot work for a man like that."

(The above transcript was taken from Mr. Maxfield, in the Courier office in the presence of Chief Heise, and another witness.

Maxfield's record as a policeman was extraordinary for its short duration.

From our own experience we have found the chief very uncooperative. For instance, some two or three weeks ago we called the chief on routine business, regarding the dog situation. We had numerous complaints, and the chief admitted he did too.

"Last year," we told the chief, "you warned the dog-owners to keep their dogs within the law—what are you going to do about it this year?"

"There's nothing I can do," he said. "We've got to quit kidding the people!"

The chief is a man of few words and fewer deeds as his nearly 14 years as head of the police department shows.

The next time we called the chief was after a serious accident on Bridge street (in fact three accidents). We asked "Have you any 'dope' on the accidents last night?"

"What accidents?" the chief asked us!

Just for the record, Chief, we will give you what we have been able to dig up on the dog law, in case you ever need to use it:

Act 339 pp 5246, Sec. 2: "It shall be unlawful for any owner to allow any dog to stray beyond his premises unless under reasonable control of some person," and pp 5247, Sec. 3: "Every dog shall at all times between sunset and sunrise of the following day be confined upon the premises of its owner or custodian, except when said dog is otherwise under reasonable control of some person."

And further on pp 5262, "it shall be the duty of every police officer on complaint, to kill any dog or dogs which are found running at large and unaccompanied by owner or keeper."

We can't stop accidents and deaths, caused by accidents just because we have ordinances and laws, but we CAN restrict them and control them by the only known means—LAW ENFORCEMENT!

By the same reasoning, we don't want to, necessarily, kill a dog, because it roams the streets—BUT WE CAN RESTRICT THEM by proper warning and law enforcement which must come through the owner.

Neither dog ordinances nor speeding laws have had proper law enforcement in the city of Charlevoix.

Charlevoix - the - Beautiful?

Each week the Courier Mail Bag is heavy with letters from readers, who express their views regarding Charlevoix, its citizens and its civic affairs. Space does not permit the publication of all of them, but the following one is typical of many:

May 4th, 1946

Dear Mr. Steinhurst:

I like your progressive editorials and look forward with great interest to what the next issues will bring forth for the good of Charlevoix the Beautiful. An editor's comment, when judiciously placed, can be and generally is an important contribution to the improvement and betterment of conditions that need miring. Such comment helps to keep alive those issues that are pertinent to the community's welfare and progress, and adds zest to the day's living.

I subscribe to several of the Northern Michigan newspapers and I consider the Charlevoix Courier the "finest" sheet in the entire Northland. You are making it that way through your timely editorials in behalf of community interests, and the manner in which news items and other matters of general interest are presented. Perhaps your ideas on matters of State and National problems would amplify a larger interest of your subscribers. Why not express yourself on some of these current problems? There are plenty of them; viz.: OPA, the tactics of John L. Lewis and the attitude and ever growing tendencies of the labor unions. Where are we headed as a democracy, from your point of view? I'd like to know and so would a lot of people like me who would doubtless read your opinions with great interest, even though as myself, they can make some pretty shrewd guesses of their own.

In the meantime, and for the general good of Charlevoix the Beautiful, here are several "WHY NOTS" that I pass on to you for their reflection and comment as you enro to give them:

WHY NOT?

1. A large Neon sign strung across Bridge Street at approximately half way between the bridge and the foot of the South Hill, the same bearing the words "Welcome to Charlevoix the Beautiful."

2. A sizeable, well painted road sign to be placed just beyond the city limits on each of the several principal highways entering the city. The sign to announce the arrival of the tourist at the Garden Spot of the Northland - Charlevoix the Beautiful.

3. A campaign to get all business houses to paint-up (No. 1 am not in the paint business anymore) all store fronts and thus add a little more attractive appearance to Bridge Street.

4. A large flag pole at the old Mineva restaurant site. American flag and a flag "Charlevoix the Beautiful" flying beneath.

5. An aquarium to contain all of the specie of fish as found and caught in the surrounding waters. Erected at some convenient, easily accessible spot. A point of real interest to old and young and particularly attractive to the sportsman visitor and his family.

6. A Mid-summer Festival, one to three days of festivity typical of the playground of the Northland. Perhaps the main event to be a "Fish Feast" and the crowning of a "Mermaid Queen," etc., etc. Deck out "The Ole Town" and give everyone a good time and something to talk and write back home about, and thus something to promote and advertise the popularity of Charlevoix.

7. Change the name of Petoskey Avenue to Charlevoix Blvd., or Northern Highway, or other suitable name. What's the big idea in advertising so prominently the pathway to Petoskey and the good merchants of that city?

8. Run a "Cordial Welcome Proclamation" signed by the Mayor of Charlevoix, addressed to all Charlevoix visitors. The same to be well worded and briefly put and printed prominently in each issue of the Courier throughout the months of June, July and August.

9. Have an expert photographer take fifteen or twenty typical views showing the real beauty of Charlevoix and print one or more such views with a "reader" in each issue of the Courier throughout the summer.

10. Open a visitors column in the Courier where all such are invited to air their views and comment and suggestions for the improvement and the betterment of Charlevoix the Beautiful as a summer resort.

WHY NOT?

Yours cordially,

Charles H. Hampton.

Petoskey, Michigan

LEGION AUXILIARY SETS POPPY DATE

There is a story behind every one of the little red poppies which the citizens of Charlevoix will wear in honor of the war dead.

Each poppy is different and has its own story, explained Lydia McGhan, first vice-president of Leslie T. Shapton Post 226, unit of the American Legion Auxiliary, which is completing preparations for observance of Poppy day here.

"I hope everyone who puts on a poppy on Poppy Day will look closely at the little flower and think of the men who make the poppies, what they have been through and what they are still enduring because of their war service. Then it will be understood that the poppy is not just a machine-made tag, but a carefully shaped symbol of remembrance made by the disabled in honor of their departed comrades," Mrs. McGhan said.

Poppies will be sold locally May 18 - 25.

Veterans Institute at High School

Needs Only Approval of State Department

Charlevoix high school instructors are working on a program to give as complete veteran training as can be made available with our facilities and the Government Veteran Training program. Mr. Novak is spending much time in assisting Mr. Bennett with the organizing and making contacts with veterans who are interested.

Under Public Law 346, 78th Congress, Servicemen's Readjustment Act of 1944 (G. I. Bill), as amended by Public Law 268, 79th Congress, a veteran other than one dishonorably discharged may learn any one of many trades and occupations in his own community. While in training, he will receive from the employer the standard scale of wages for a beginner or learner in the occupation and, in addition, will receive a subsistence allowance (\$65 per month for single men and \$90 per month for married men or men with dependents). When the sum of his subsistence allowance plus his wages on the job exceeds the standard wage for a trained worker or journeyman in that particular occupation, the amount of his subsistence allowance will be reduced so that at no time will his wages exceed the standard wage of the trained worker or journeyman in the case of apprenticeship.

At the present time, there are three distinct programs immediately available, that is, as soon as the State Dept. of Public Instruction approves a Veterans' Institute here. These programs are as follows:

1. On-the-Job program, in which the veteran works on the job as an apprentice and takes additional related work as classroom instruction. This related work requires four or five hours a week.

2. A course in flying, made possible at the McPhillips Flying Service, and available to any World War II veteran. In this course, a private or commercial license, or as much training as is desired, will be given with all expenses paid by the government.

3. A program composed of a wide range of subjects which will be given at the school. Vocational or trade training can be obtained for high school or college credit. Of these three courses, the first two are immediately available. The last one it is hoped to have under way by Sept. 1.

If you are interested, call Mr. Novak, Mr. Bingham, or Mr. Bennett.

Mr. Novak can be reached by phone between 11:15 and 12:40 daily.

PARKING METER ZONES. Parking meter zones shall mean portions of streets described and established by the Common Council as zones within which the parking of vehicles shall be controlled, regulated, and inspected with the aid of timing devices or meters, herein referred to as parking meters or meters.

SEC. 2. The following portions of streets are hereby established as parking meter zones:

That part of Bridge Street lying between the State Highway Bridge and Antrim Street, and those parts of Antrim Street, Clinton Street, Mason Street and Park Avenue lying between Bridge Street and State Street.

SEC. 3. The City Superintendent is hereby authorized and directed to install meters in all parking meter zones hereby established or hereinafter established by the Common Council, the purpose of, and in such numbers and at such places as in his judgment may be necessary to the regulation, control and inspection of the parking of vehicles therein, including the reservation of loading zones for commercial vehicles.

SEC. 4. Parking meters installed in parking meter zones shall be installed upon the curb immediately adjacent to the individual parking spaces hereinafter described, and each parking meter shall be so constructed and adjusted as to show when properly operated a signal that the space adjacent to which it is installed is or is not legally in use.

SEC. 5. The City Superintendent shall have lines or markings painted upon the curb or street adjacent to each parking meter, designating the parking space for which said meter is to be used, and each vehicle parked adjacent to any parking meter shall park within said lines or markings. It shall be unlawful to park any vehicle across any such line or marking, or to park a vehicle in such a position that it shall not be entirely within the space designated by such lines or markings.

SEC. 6. It shall be unlawful for any person to cause, allow, permit or suffer any vehicle registered in his name or operated or controlled by him to be upon any street within a parking meter zone in any space adjacent to which a parking meter is installed, for more than 70 consecutive minutes, or any time during which the meter is showing a signal indicating that such space is illegally in use—other than such time as is necessary to operate the meter to show legal parking—between the hours of eight o'clock a. m. and six o'clock p. m. of any day except Sundays, legal holidays and Saturdays, and between the hours of eight o'clock a. m. and nine o'clock p. m. on Saturdays.

SEC. 7. Payments of the aforesaid amounts for the above periods shall be made for parking in the areas set forth hereinabove.

SEC. 8. It shall be unlawful to deposit or cause to be deposited in any parking meter any slug, device, or metallic substitute for a one cent or a five cent coin of the United States.

SEC. 9. It shall be unlawful for any unauthorized person to open, or for any person to deface, injure, tamper with, or willfully break, destroy, or impair the usefulness of any parking meter installed pursuant to this ordinance, or to hitch any animals thereto.

SEC. 10. It shall be the duty of the Chief of Police under the direction of the City Council to keep account of all violations of this ordinance.

(a) He shall cause to be kept an account of and report the number of each parking meter which indicates that the vehicle occupying the parking space adjacent to such parking meter is or has been parked in violation of any of the provisions of this ordinance, the date and hour of such violation, the make and the state license number of such vehicle, and any other facts a knowledge of which is necessary to a thorough understanding of the circumstances attending such violation.

(b) Any police officer of the City of Charlevoix witnessing such violation shall attach to such vehicle a notice stating that it has been parked in violation of this ordinance, and instructing the owner or operator to report to the City Treasurer in regard to such violation. The owner or operator may, within twenty-four (24) hours after the time when such notice was attached to such vehicle, pay the City Treasurer or her duly authorized deputy in full satisfaction of such violation, the sum of One Dollar (\$1.00).

SEC. 11. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine not exceeding One Hundred Dollars or by imprisonment in the County Jail of the County of Charlevoix for a period not exceeding three (3) months, or by both such fine and imprisonment.

SEC. 12. The amount of the coins required to be deposited in parking meters as provided herein is hereby levied and assessed as a fee to provide for the proper regulation, control, and inspection of traffic upon the public streets, and to cover the cost of supervising, regulating, and inspecting the parking of vehicles in the parking meter zones provided for herein, the cost of placing and maintaining lines or markings designating parking spaces in parking meter zones, and the cost of the purchase, supervision, protection, inspection, installation, operation, maintenance, control, and use of the parking meters installed hereunder, and the special fund in which such fees shall be placed be devoted exclusively to those purposes.

SEC. 13. It shall be the duty of the Chief of Police to designate some person or persons to make regular collections of the money deposited in said parking meters, and delivering the money to the City Treasurer, and it shall also be the duty of the City Treasurer to count the money and place it in a special fund to be known as the "Parking Meter Fund," which fund shall be used exclusively for the purposes specified in Sec. 12. Such person or persons making such collections shall be bonded in the sum of One Thousand Dollars to insure the faithful performance of his or their duties.

SEC. 14. This ordinance shall be deemed to be in addition and supplementary to, and not in conflict with, nor a repeal of existing ordinances of this city, but shall be an additional provision for the regulation of traffic and parking in the parking meter zones provided for herein.

SEC. 15. If any section, part of section, sentence, clause, or phrase of this ordinance shall be held to be unconstitutional or invalid, the remaining provisions hereof shall nevertheless remain in full force and effect.

SEC. 16. All ordinances or parts of ordinances or resolutions in conflict with the provisions of this ordinance are hereby repealed.

SEC. 17. Regulations under this ordinance may be suspended or put into effect by resolution of the Common Council of the City of Charlevoix and publication thereof for two weeks in a newspaper published and circulated in said city.

SEC. 18. This ordinance shall take effect and be in force on and after June 1, 1946.

TUG GOES AGROUND

The tug, Idu, owned by Jake White, Sr., was pulled off the beach at St. Helena island in the Straits of Mackinaw Sunday by the ice crusher, Mackinaw, and towed to St. Ignace for repairs. The tug, which left here Tuesday to lift nets in the west end of the island and went aground. Reported by a passing freighter, the Mackinaw island coast guard and the ice crusher from Charlevoix stood by until weather conditions permitted small boats to go ashore with lines from the Mackinaw. BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY

INTERNATIONAL BIBLE BROADCASTERS

Question—How many verses are there in the Bible, and how long does it take to read the Bible through?

Answer—I have never counted them, but one authority says there are 31,173 verses. It takes about sixty hours to read the Bible at average speed.

Q.—Why is the devil as often pictured as red?

A.—Possibly because the "great red dragon" described in Revelation 12:3 represents "that old serpent, called the Devil, and Satan, which deceiveth the whole world." Verse 9.

Q.—Did not Joshua's long day (Joshua 10) break the continuity of the week?

A.—No. The day did not and still cannot. (See Leviticus 23:32.) The number of days, not the elapsing of time, makes the week. "The sun... hasted not to go down about a whole day." Joshua 10:13.

Q.—What is the "third heaven" mentioned in 2 Corinthians 12:2-4?

A.—According to that passage, it is Paradise; and Paradise is where God's throne is (Revelation 2:7; 22:1, 2), or heaven. Matthew 6:9 says, "Our Father which art in heaven." (1) The atmospheric heaven of heavens about the earth; (2) the starry heavens; (3) the heaven of God's throne.

Q.—I can't understand how Christ could be both God and man.

A.—Nor can anyone else, but the Bible teaches it. Like creation, we cannot comprehend it, but we believe it on the evidence presented in God's Word. As the apostle says, "And without controversy great is the mystery of godliness: God was manifest in the flesh, justified in the Spirit, seen of angels, preached unto the Gentiles, believed on in the world, received up into glory." 1 Timothy 3:16.

Q.—Does 1 John 5:13 teach that we have eternal life now?

A.—It says: "These things have I written unto you that believe on the name of the Son of God; that ye may know that ye have eternal life, and that ye may believe on the name of the Son of God." (See also verses 11 and 12.) We accept Christ by faith, and we have eternal life in Him. (John 1:4.) Many confound eternal life with immortality which we receive at the resurrection. "For this corruptible must put on incorruption, and this mortal must put on immortality." 1 Corinthians 15:53.

Ed. Note: Address your questions to the BIBLE QUESTION COLUMN, The Voice of Prophecy, Box 55, Los Angeles 53, Calif. Bible questions of general interest will be answered in this column as space permits.

Stinking Water River
The name Stinking Water was given by the Indians and early settlers to a Wyoming river because of the odor from the mineral springs to be found along its banks in certain sections. In 1901 the name was changed officially to Shoshone river by the state legislature.

PCA Extends Plane Service to Pellston

Chicago and Detroit Flights to Pellston Will Begin Today

The large airport at Pellston in Emmet county 36 miles north of Charlevoix on US-31 will become the Northern Michigan terminal for flights of Pennsylvania Airlines after today, May 1, it has been announced in a news release quoting C. Bedell Monro, PCA president.

Chicago and Detroit flights north daily are to stop at Pellston for the time being until service is extended to Saalt Ste. Marie, the announcement said.

PCA's initial schedules call for a daily round trip schedule from Chicago to Pellston and another round trip flight from Detroit to Pellston. Service to Saalt Ste. Marie proper will be delayed pending the availability of airport facilities.

The first Capitaliner will leave Chicago daily at 6:35 a. m. (CST), Grand Rapids at 8:15 and Traverse City at 9:10 (by connecting schedule) arriving at the Pellston airport at 10:25 a. m.

The Detroit flight starts at 7:50 a. m., from Flint at 8:25, from Tri-Cities (Saginaw-Bay City-Midland) at 8:51, Traverse City at 9:55, arriving in Pellston at 10:25 a. m.

On the return flight this plane will leave Pellston at 1:07 p. m., Traverse City 1:48, Tri-Cities 2:40, Flint 3:04, arriving in Detroit at 3:34 p. m. The return Chicago flight will leave Traverse City at 2 p. m., Grand Rapids at 3:07, arriving in Chicago at 3:17 p. m. (CST). Connecting schedules at Chicago and Detroit will permit many opportunities for travel over the rest of the PCA system.

Northern Michigan air routes were suspended after Pearl Harbor.

Girl Scout Notes

The forthcoming camping trip being planned for the two local Intermediate Troops of Girl Scouts, was the chief point of discussion at the May meeting of the Girl Scout Council, held last Thursday evening.

More than 30 scouts, with their leaders, will attend a week's troop camp at the Olds Wood Lodge, a short distance from the shores of Lake Charlevoix. A project of this size takes a great deal of planning, and the Council at their meeting, Thursday, got off to a good start. The Scouts will leave Charlevoix Sunday afternoon, May 26, to stay one week, and have many exciting plans made for their activities while there. Other business disposed of at Thursday's meeting was the appointing of committees as follows:

Camp committee—Leaders of Troops 1 and 2 and Troop Committee members of Troop 1.
Finance—Mrs. John Nordrum.
Program—Mrs. Charles Duerr.
Public Relations—Mrs. John K. Reed.

Mayor pro tem Hooker sure is a natural as he occupies the mayor's chair in the council room.

Johnny Boris arrived Monday afternoon in company with Paul Miller of Grand Rapids to visit our fair city. Coming in on a AT-6, little Johnny (who we all know on the Phillips Morris program) was pleased with his visit here. Johnny is an air student at Grand Rapids and is about ready for his solo license. He promised to return to Charlevoix soon.

Mrs. Anna Woods, who has been a Courier subscriber for the past 40 years, calls us to say: "Keep up the good work. We have the best paper it has ever been."

From Gene Bridge comes a nice card, which states: "You have been told before how well it is to get the Courier from fellows away from home, but I just want to say it again. It's really well, and thanks a million. Good luck to you!" Gene's address is now 16175555 Sqd. U, Sheppard Field, Texas.

Chiefs of Police in nearly every city in the state are curbing the dog and chicken menace in their respective communities. Here's the way Chief of Police Kenneth Lane does it in Enst Jordan: "Notice to owners of dogs and chickens are given thru the local press! During the gardening season, he requests that all persons owning dogs or chickens or other pets be kept under control and on the premises of their owners. And he means business!"

A certain wife has been so wrought up over her editorial policy that she has resorted to profanity over the phone. It's so unbecoming a lady—especially a church member. We'll have to take it up with the pastor!

Folks are demanding Truman show more leadership. They're getting tired of listening to the "Missouri Waltz," and want more of the "Show Me" stuff.

The huge sign "Charlevoix Terminal Co." which was fastened to the peak of the building had to be removed when five broke out there last Tuesday. With a pickaxe in one hand, high on a ladder, one of our city scum-eaters could be seen knocking "L" out of Charlevoix!

Catch of the fishing season was made last week when Peter Henley, son of Mr. and Mrs. Walter Henley, brought in a 10 lb. Rain-bow trout. Pete hauled the big fellow from Bear Creek after a long, hard battle.

On page 11 of "Lakeland Yachting," the editor describes Charlevoix's fine harbor in contrast to those harbors of Wisconsin. Capt. Joseph Howard, harbormaster, is especially lauded for his good work. In part the editor writes: "Contrast the facilities of other harbors with that of Charlevoix, where the crew of the 'Gratuity,' owned by Rurik K. Anderson, had a two-day house party there while the host was snug in her berth, there, under the watchful eye of Charlevoix's harbormaster."

Chief of Police Clarence Heise has a real champion in the person of John Knight! Mr. Knight went to bat for the chief the other day, but was called out on strike before he had a chance to swing!

In a recent issue of the Courier an invitation was extended to prospective kindergartners and their mothers to visit the kindergarten room and register before school closes on May 24. It should be a rare treat to both mother and child to visit what we think is the nicest room in the school with its fish pond, fireplace, play house, little tables and chairs and all the toys that make a place to fascinate to a child. Better take that youngster there some afternoon soon. Mrs. McRee will welcome the visit.

We'd just like to say thanks for the many telephone calls to our office and home, also for the letters and personal visits. It is most gratifying to have such widespread approval of our policy.

Excess GI Benefits for Flight Training

Flight training under the GI Bill of Rights, available to World War II veterans, requires an increased use of eligibility benefits. For every \$2.10 normally used in tuition charges the veteran uses up on "day" of his number of months' educational entitlements under the act. Tuition charges for flying instruction are several times greater than those for other instruction due to the expensive equipment involved. Nevertheless it is conservatively estimated that several thousand Michigan veterans and a great number of Charlevoix county residents will avail themselves of this opportunity to learn to fly in one of four programs, private license pilot, commercial pilot, instructor instrument rating course.

McPhillips Flying School, located at the Charlevoix Municipal Airport, has been approved and Mr. McPhillips will be glad to explain all particulars to anyone interested.

Houstons Buy Smith Property

Mr. and Mrs. George B. Houston, of Detroit, have purchased the George Smith property at 311 and 313 Michigan avenue from the Smith estate and have arrived to take possession.

The popular summer boarding and rooming houses were operated for many years by the late Mr. and Mrs. George W. Smith. The new owners plan to continue to operate the places in the same manner as in the past.

Mr. Houston was a supervisor at the Hudson Motor Car Co., Detroit, for the past 21 years. Mrs. Houston formerly taught P. E. and institution management, and was dormitory manager at Colorado State college, Fort Collins, Colo., prior to her marriage to Mr. Houston in December, 1944.

Mrs. Clare Stanley Is Bridal Shower Hostess

Miss Hilba Brady, whose marriage to Elmer Gibson was an event of Saturday, May 11, was guest of honor at a surprise bridal shower given at the home of Mrs. Clare Stanley Wednesday evening. Tallyho was played during the evening with prizes being awarded to Mrs. Homer Brady and Mrs. Gibson. Late in the evening refreshments were served by the hostess. The honored guest received many lovely gifts.

CSO Offers Prize For Best Suggestion of Fitting Memorial

Several months ago the Charlevoix Service Organization offered a \$25 Victory Bond to the person who offered the best suggestion for a War Memorial for those who gave their lives for Charlevoix in World War II.

To date there have been no communications or suggestions, hence a new rule has been added to the above. "There must be at least fifty individuals compete or the contest will not be bonafide."

Suggestions have been made that a living memorial should be maintained, such as a park; to others, a bronze tablet or statue, or pillar; still others suggested a new hospital, or Children's Recreation Center.

This contest is to invite suggestions from the public at large, so that many ideas may be integrated and a fitting memorial thereby selected for the majority.

A committee consisting of the Charlevoix Service Organization, Board of Commerce and City Council will pass on the ideas.

Entrants in the contest will be guided by the aide of the community, and their ideas should conform to a memorial that will be within the reach of its citizens.

There are no restrictions as to the number of entries. However, they must originate from a citizen of this community by birth or adoption, and the suggestions of those who have been in the service, or are now in the service are especially solicited.

Suggestions for the name of a Memorial will be judged for originality, and an explanation in 50 words or less on "Why I Selected this Suggestion."

All entries must be postmarked on or before May 30, 1946.

All entries become the property of the judging committee.

Submission of an entry in the contest shall constitute an agreement on the part of the contestant to abide by these contest rules and regulations. It shall be further understood by the contestant that the decision of the committee is final and that neither the CSO, Board of Commerce, or City Council shall undertake to engage in any dispute regarding the decision.

All entries must be addressed to Charlevoix Service Organization, Charlevoix, Michigan.

Police Commissioner McFadden Charges Chief With Inefficiency

Publisher Threatened By Playboy

By D. V. ENGLISH

John Knight, former wealthy resident and playboy deluxe, began a campaign of his own last Thursday at high noon when he called the publisher on the phone to "lay the law down" about the Courier editorial policy.

At his Dixon avenue residence, the Courier publisher had just been seated at luncheon when the phone rang. At the other end, a voice said, incoherently, "this is John Knight—Lisben Ivy, is that you, Ivy? (the two had never met) The publisher, thinking it was a prank, answered in the affirmative. The voice continued: "I'm a friend of Clarence Heise and no D--- '2'"; so and so is going to run this town." (Other remarks here are censored)!

Laying all jokes aside, the publisher invited the speaker to repeat the words in his presence. A few minutes later John Knight arrived in person, with also several automobiles following his loaded with men who, evidently, heard his boisterous phone conversation and went along "to see the show."

The show was of short duration. After receiving a severe shaken up for his outburst on the entrance to the Dixon avenue residence, where he was met by the publisher, he was hustled inside where he continued to mumble in monosyllables on the subject "my view on this matter of newspaper publishing."

His stay there was cut short when a call to the Sheriff's dept. brought both the Sheriff and the Chief of Police (the chief drove the city police car) to the scene. Mr. Knight left in custody of the sheriff and was taken to the prosecutor's office for questioning.

No charge was made by the publisher, pending further investigation, in an effort to learn the source of this flare-up.

The phone call and resultant piece, it is believed, is the result of a small group of individuals, who are sympathetic to the Heise cause.

Pvt. Russell Lewis Writes Interesting News Letter

Mrs. Lola Lewis received the following communication from her son, Pvt. Russell Lewis, who is now serving at Fontainebleau, France, 40 miles southeast of Paris:

"I just returned from Luxembourg. A convoy of 14 trucks left here last Wednesday, and when we got to Reims, France, we split up, some going to Holland and the rest of us to Luxembourg. We took some pre-fabricated huts to some of the military cemeteries to be used as barracks for the guards who are stationed there. We ate dinner in Reims and from there went to the city of Luxembourg, where we spent the night. Next morning we went to the cemetery and unloaded. After dinner we went to Metz, France, where we tried to get a couple of trucks fixed, but we couldn't, so we stayed there that night. The next morning we left for Reims, where we ate dinner with the rest of the convoy, which had returned from Holland the night before. We spent the night at Reims and came on back to camp next morning.

"I picked up a few pictures here and there along the way, whenever I could, and am enclosing them. Those of the big cathedral are from Reims. I was all through it, and it is surely a beautiful place. It is all hand carved from marble, and if you could see it, you would understand why it took two centuries to build it. They are still repairing damages done to it in 1917-18. It wasn't hurt much in this war, although the large window above the middle arch was broken. The windows are really beautiful when you are inside looking out. They cost a hundred thousand dollars, and it takes 10 years to put one in.

"The country is really beautiful. The fields are starting to get green where the crops are coming up. There are no fences between the fields over here, except those pastures with livestock. So it is just a big patchwork of fields with various crops. The land is very changeable, giving way from plains to gently rolling hills to small mountain ranges, and to hills to plains again, all in a space of from 75 to 125 miles. The people of Luxembourg are a mixture of German and French, and along the western border, German with Dutch. They are a very neat and tidy people. They also seem more honest than

the French. We can at least leave our trucks parked on the street for a few minutes and expect our load to be intact when we get back. That is more than we expect in France.

"I saw General Patton's grave. He is buried just like a common GI, flanked on one side by a Pfc. and on the other three sides by unknown soldiers. If you could send me the name of the cemetery where Bob Kelly is buried (or any of the rest of the fellows from home), I would appreciate it. We run convoys to all of the military cemeteries.

"We have been getting ready for a big inspection of the trucks which comes off tomorrow. I've worked hard trying to get my truck cleaned up. Boy, does it run good now! I had it overhauled, painted and greased, etc., plus the little things I've done on it for the sake of more comfort and safety. I had 'Michigan Kid' painted on the hood, but the major made me take it off. He said it was unmilitary."

From where I sit... by Joe Marsh

The Truth About That Explosion

For weeks Homer Bentley has tried to uproot that big stump in his hayfield... with team and tractor. Finally he succeeds—breaks a score of windows round about, and frightens the neighbors half to death!

"All I used," apologizes Homer, "was a couple of small sticks of dynamite, like you should."

"That was no two small sticks of dynamite," Judge Cunningham says severely—and it finally comes out that Homer got so cussed mad at that everlasting stump, he'd plant-

ed a charge of TNT beneath its roots.

Reminds you of all the excuses human beings use to cover up bad judgment. Like the "two-beer alibi." When somebody gets into trouble, and blames it on "a couple of beers," you can be mighty sure they are covering up the truth.

From where I sit, a moderate beverage like beer is a better way of keeping out of trouble than getting into it.

Egypt's Garden
Nine miles below Cairo the Nile divides into the two main branches of its delta. This area is referred to as "the Garden of Egypt" and is a maze of small streams and canals which pierce rich farm land. The Nile enters the Mediterranean on the west at Rosetta, and on the east at Damietta. Both of these towns were commercially important until the opening of the Suez canal and the development of Alexandria.

"The Heart of Man"
By NORMAN WHITE
There's a lot of love in the human heart
If we just dig down a bit;
It's the masterpiece of the mighty hand
And He gave His best to do it—
There's a lot of good in the most of men
Just underneath the skin,
And much would show that we never knew,
Could we only look within.
We sometimes tire of the road so rough,
And the hill that seems so steep;
And we sometimes feel that hope is gone
As we sit alone and weep.
And then, when our faith is burning low,
And we lose our trust in men,
True friends appear with a word of cheer,
And the sun comes out again!
So I claim that the heart of man,
Is about what it ought to be;
For it's made of goodness, through and through
Could we look inside and see;
God made all things and He made them well,
On the true and perfect plan,
But He did His best in the greatest test
When he made the heart of man!
(The above poem was sent, by the author, to his father, Fred White. Norman is a soldier at Camp Lee, Virginia.)

One time there were two farmers

One day Jake stopped over at Bill's farm. "Got a great plan to save money this winter," he said. "I'm mixin' a little sawdust with the feed. Hoss don't notice the difference."
Around Christmas they met again. "Say," Jake grinned, "you oughta try my system. Got the nag eatin' half sawdust an' half grain now. It's a lot cheaper."
Bill wasn't so sure. "B'lieve I'll stick to oats."

Along about spring plowing time Jake came over to Bill's place, looking kind of glum.
"What's wrong?" asked Bill. "Isn't your money-savin' idea workin'?"
"Oh, it worked fine," Jake said. "Had him trained so he was eatin' nothin' but sawdust. Only this mornin' the ornery cuss fell down an' wasn't able to get up. How 'bout lettin' me hire your hoss for my plowin'?"

McPhillips Flying Service

Charlevoix Airport Phone 133 Charlevoix, Mich.

There's a big "plowing" job ahead if Michigan Bell is to expand and improve telephone service and supply it to all who are waiting. It can't be done on sawdust.

Here is why. Thousands of thrifty people have their savings invested in Bell System securities. Their money makes good telephone service possible. In fact, Michigan Bell's 5-year \$150,000,000 expansion and improvement program will be financed largely by these and other investors. And that program will provide more and better telephone service for you.

So you see, our earnings are important all around. And telephone rates—such a small part of your monthly budget—must be maintained at a level which will keep our earnings adequate. Otherwise, investors would not put their money into the telephone business, and the future quality and extent of your telephone service would suffer.

We believe our customers want good telephone service, even if it costs a trifle more than inferior service.

Technical improvements over the years have brought rates for good service down and have kept them down in the face of rising costs. But if the recent rapid rise in costs continues, rate increases may become necessary. In any event, Michigan Bell wants rates no higher—and no lower—than necessary to insure good telephone service.

Brady - Gibson Nuptials Saturday Morning Event

Miss M. Hilda Brady, daughter of the late Mr. and Mrs. H. R. Brady, became the bride of Elmer W. Gibson, son of Mr. and Mrs. William Gibson, at a nuptial Mass said at the St. Mary's church at 9 o'clock Saturday morning by the Rev. A. V. Ulanowicz in the presence of more than a hundred guests.

The bride chose an afternoon dress of powder blue crepe and white accessories for her wedding. Her corsage was of yellow rosebuds.

Mrs. Homer Brady, sister-in-law of the bride, was her only attendant. She wore a bud green dress with white accessories and a corsage of pink roses.

Mr. Brady, brother of the bride, assisted the bridegroom as best man.

Following the service a wedding breakfast was served at the Parkside Dining Room. Places for forty guests were laid at tables decorated with white accessories. A reception for friends was held at the home of Mr. and Mrs. Homer Brady on Saturday afternoon and evening. The refreshment table was

centered with a large wedding cake and decorated with spring flowers and white tapers.

The bride is a graduate of the Charlevoix high school and the Davenport Business College, Grand Rapids. For the past four years she has been a member of the book-keeping staff at the St. Joseph's Hospital, Flint. The bridegroom attended the Charlevoix high school and was discharged from the service in January, 1946, after serving three years in the army, 28 months of which were spent in the southwest Pacific.

The couple will make their home in Charlevoix.

Those from out of town who attended the wedding were Mr. and Mrs. Fred Morehouse, Miss Katherine Haggerty and Miss Mary Margaret Orlovski, of Flint; Miss Florence Gibson, of Detroit; Mr. and Mrs. Bernard Hayes, of Owosso; Mrs. Clifford Colley and daughter, Betty, of Petoskey; Mr. and Mrs. Herbert Glidden, of Roscommon.

"COOK 'EM ANY WAY, MICHIGAN BEANS ARE FINER" SEVEN DOLLAR BEANS

THE PRESENT DEMAND FOR MICHIGAN BEANS IS GREATER THAN EVER BEFORE!

To encourage greater bean production to supply domestic needs and to send to famine areas, the U. S. Department of Agriculture has announced that the 1946 market price for Navy—Cranberry and Yelloweye beans will be supported at \$7.00 per CWT. to the growers, hand picked basis. This is an increase of 90 cents over the 1945 price.

Michigan leads the nation in bean production. Last year's short crop is sending buyers elsewhere for beans. Keep Michigan out in front. Protect your future market by filling the present demand. Plant beans and put beans on the table.

Two Cubs, Jerry Left and Leo Allard, received the highest award attainable by a Cub. Cubbing in this community has filled a definite need for youngsters from the ages of nine, 10 and 11 years and for the past season, under the capable direction of George LaBlance as Cub Master, and the Den Mothers of the six local dens: Mrs. Robert Miles, Mrs. Ralph Hamilton, Mrs. Russell Curtis, Mrs. Albert Smith, Mrs. Lawrence Swanson and Mrs. Carl Towles, have provided an attractive character-influencing program of leisure time activities for the youngsters of Charlevoix. A Tribute To Mother

I was sitting there and wondering
What was best for me to do.
I will think of my dear Mother,
It is all that I can do.

Her thoughts were always for the rest,
For everyone she did her best.
Forgot her own most urgent need
For others she would always plead.

It was Mother's hand that blest us
When no other hand was near,
She gave us words of comfort
And dropped for us a tear.

In the present, past or future
Ever shall be just the same,
Mother's love is always o'er us;
In every age it will remain.

When the evening sun was setting
Not a cloud was there in sight,
But the angels hovered o'er us
When Mother took her flight.

Is this to be another year without a summer, like 1816? Or will he like 1916 come a snow storm soon which may be followed by warmer weather.

Farmers are advised to put less corn into their still barrels in order that there may be more to send to hungry people abroad while allowing brewers and distillers corn to fill their barrels with a fluid that the people of every land would be better off without. Corn fed to hogs produces meat which is needed in every land for food, while the product of the breweries and distillers possess no food value whatever.

You're welcome

A veteran dropped in at our bank the other day and said, "I need advice. I'd like to talk with you about a problem that's been on my mind."

We told him he had come to the right place. He talked about half a dozen things. We listened. And because banking is our business, we could answer his questions that had a financial side: his rights under the G.I. bill,

the value of a plot of ground he wanted to buy; and the local opportunities for a business he was thinking of starting. When he left, he smiled and thanked us. "Don't thank us," we told him. "We're here not only to lend money, but also to help in every way we can." He and his fellow-veterans are always welcome here. If we can do something for you, come on in.

RENT CONTROL

Say you're paying \$40 a month rent. Do you want it to go up to \$60 a month? That's what happened in the inflation after the LAST war. Rents shot up 50 per cent—and more. That's why the Government has set OPA ceilings on rents. If you have any question about YOUR rent ceiling... ask your landlord or your OPA Rent Control Office.

**If Only Everyday
Was Skip Day**

Wednesday, May 3, the seniors, Bertha McDonough, Catherine Schmidt, Barbara Nackerman, Katherine Rickgers, Mary Margaret LaFreniere and Mary Margaret Martin and Laurence Malloy, of Beaver Island took a well-deserved skip day. The former students of St. James High School, Vera McDonough, Erwin Belfy, Robert Malloy and Bussy LaFreniere accompanied the graduates.

Fred Korthase and Bussy LaFreniere used their cars as transportation.

At 11 o'clock the happy group started up the East side of the Island. Their first stop was at Nomads where they all tried their hand at fishing. Laurence Malloy, seeing better prospects on the other side of the stream tried jumping across it, but to the sorrow of all he landed in the mud. Then, they all proceeded to Lake Genesee where a fire was made for roasting weinera. Before moving on several pictures were taken of the group.

Their next stop was at the lighthouse and then on down to the new fire tower where many of the gang climbed to the top but because of some ailment the rest stuck to the ground.

After leaving the fire tower Mary Margaret LaFreniere insisted on going to see Tony Wogan and Huddy Left were busy loading lumber but stopped to give them all a hearty welcome. There was a little Shetland pony at the camp and Catherine Schmidt tried riding it but because it wouldn't go she thought her 70 pounds was too much for it.

The jolly gang picked flowers and then started for home. They ended their lovely day by going to a show and dance at the Shamrock.

An Ordinance relating to traffic and regulating use of public streets in the City of Charlevoix; defining and establishing parking meter zones and regulating and controlling and providing for inspection of the three parking of vehicles therein by the use of parking meters; prescribing limits of time for parking in parking meter zones; and providing for enforcement of this ordinance and imposing penalties for the violation thereof.

THE CITY OF CHARLEVOIX ORDAINS:

Sec. 1. DEFINITIONS: Whenever in this ordinance the following terms are used, they shall have the meanings respectively ascribed to them in this section:

STREET. Every way set apart for public travel except alleyways, bridle paths and foot paths.

ROADWAY. That portion of a street between the regularly established curb lines.

SIDEWALK. That portion of a street between the curb lines and the adjacent property lines.

VEHICLE. A conveyance propelled by motor-power.

PARKING METER ZONES. Parking meter zones shall mean portions of streets described and established by the Common Council as zones within which the parking of vehicles shall be controlled, regulated, and inspected with the aid of timing devices or meters, herein referred to as parking meters or meters.

SEC. 2. The following portions of streets are hereby established as parking meter zones:

That part of Bridge Street lying between the State Highway Bridge and Antrim Street, and those parts of Antrim Street, Clinton Street, Mason Street and Park Avenue lying between Bridge Street and State Street.

SEC. 3. The City Superintendent is hereby authorized and directed to install meters in all parking meter zones hereby established or hereinafter established by the Common Council, the purpose of, and in such numbers and at such places as in his judgment may be necessary to the regulation, control and inspection of the parking of vehicles therein, including the reservation of loading zones for commercial vehicles.

SEC. 4. Parking meters installed in parking meter zones shall be installed upon the curb immediately adjacent to the individual parking spaces hereinafter described, and each parking meter shall be so constructed and adjusted as to show when properly operated a signal that the space adjacent to which it is installed is or is not legally in use.

SEC. 5. The City Superintendent shall have lines or markings painted upon the curb or street adjacent to each parking meter, designating the parking space for which said meter is to be used, and each vehicle parked adjacent to any parking meter shall park within said lines or markings. It shall be unlawful to park any vehicle across any such line or marking, or to park a vehicle in such a position that it shall not be entirely within the space designated by such lines or markings.

SEC. 6. It shall be unlawful for any person to cause, allow, permit or suffer any vehicle registered in his name or operated or controlled by him to be upon any street within a parking meter zone in any space adjacent to which a parking meter is installed, for more than 60 consecutive minutes, or any time during which the meter is showing a signal indicating that such space is illegally in use—other than such time as is necessary to operate the meter to show legal parking—between the hours of eight o'clock a. m. and six o'clock p. m. of any day except Sundays, legal holidays and Saturdays, and between the hours of eight o'clock a. m. and nine o'clock p. m. on Saturdays.

SEC. 7. Parking meters when installed and properly operated, shall be so adjusted as to show legal parking during a period of twelve minutes upon and after the deposit therein of a United States one cent coin, twenty-four minutes upon and after the deposit therein of two United States one cent coins, thirty-six minutes upon and after the deposit therein of three United States one cent coins, forty-eight minutes upon and after the deposit therein of four United States one cent coins, sixty minutes upon and after the deposit therein of five United States one cent coins or one United States five cent coin. Payments of the aforesaid amounts for the above periods shall be made for parking in the areas set forth hereinabove.

SEC. 8. It shall be unlawful to deposit or cause to be deposited in any parking meter any slug, device, or metallic substitute for a one cent or a five cent coin of the United States.

SEC. 9. It shall be unlawful for any unauthorized person to open, or for any person to deface, injure, tamper with, or willfully break, destroy, or impair the usefulness of any parking meter installed pursuant to this ordinance, or to hitch any animals thereto.

SEC. 10. It shall be the duty of the Chief of Police under the direction of the City Council to keep account of all violations of this ordinance.

(a) He shall cause to be kept an account of and report the number of each parking meter which indicates that the vehicle occupying the parking space adjacent to such parking meter is or has been parked in violation of any of the provisions of this ordinance, the date and hour of such violation, the make and the state license number of such vehicle, and any other facts a knowledge of which is necessary to a thorough understanding of the circumstances attending such violation.

(b) Any police officer of the City of Charlevoix witnessing such violation shall attach to such vehicle a notice stating that it has been parked in violation of this ordinance, and instructing the owner or operator to report to the City Treasurer in regard to such violation. The owner or operator may, within twenty-four (24) hours after the time when such notice was attached to such vehicle, pay the City Treasurer or her duly authorized deputy in full satisfaction of such violation, the sum of One Dollar (\$1.00).

SEC. 11. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine not exceeding One Hundred Dollars or by imprisonment in the County Jail of the County of Charlevoix for a period not exceeding three (3) months, or by both such fine and imprisonment.

SEC. 12. The amount of the coins required to be deposited in parking meters as provided herein is hereby levied and assessed as a fee to provide for the proper regulation, control, and inspection of traffic upon the public streets, and to cover the cost of supervising, regulating, and inspecting the parking of vehicles in the parking meter zones provided for herein, the cost of placing and maintaining lines or markings designating parking spaces in parking meter zones, and the cost of the purchase, supervision, protection, inspection, installation, operation, maintenance, control, and use of the parking meters installed hereunder, and the special fund in which such fees shall be placed be devoted exclusively to those purposes.

SEC. 13. It shall be the duty of the Chief of Police to designate some person or persons to make regular collections of the money deposited in said parking meters, and delivering the money to the City Treasurer, and it shall also be the duty of the City Treasurer to count the money and place it in a special fund to be known as the "Parking Meter Fund," which fund shall be used exclusively for the purposes specified in Sec. 12. Such person or persons making such collections shall be bonded in the sum of One Thousand Dollars to insure the faithful performance of his or their duties.

SEC. 14. This ordinance shall be deemed to be in addition and supplementary to, and not in conflict with, nor a repeal of existing ordinances of this city, but shall be an additional provision for the regulation of traffic and parking in the parking meter zones provided for herein.

SEC. 15. If any section, part of section, sentence, clause, or phrase of this ordinance shall be held to be unconstitutional or invalid, the remaining provisions hereof shall nevertheless remain in full force and effect.

SEC. 16. All ordinances or parts of ordinances or resolutions in conflict with the provisions of this ordinance are hereby repealed.

SEC. 17. Regulations under this ordinance may be suspended or put into effect by resolution of the Common Council of the City of Charlevoix and publication thereof for two weeks in a newspaper published and circulated in said city.

SEC. 18. This ordinance shall take effect and be in force on and after June 1, 1946.

Adopted by the Common Council of the City of Charlevoix in regular session assembled this 2nd day of May, 1946.

The S. S. South American will be in the harbor with a Youth Cruise on board Friday, May 24, from 8 until 10 p. m. Harbormaster Joe Howard reminds us. Let's give this cruise, the first of the season, a hearty welcome and show them we're glad to have them as our guests.

Our most sincere congratulations to the graduating class of the Charlevoix high school. These 35 boys and girls deserve the best. A special "pat on the back" to ex-servicemen Gene Bergmann, Bill Steffens and Pie Martin and service men Bob Bartlett, who have come by that sheep-skin the hard way, by first putting in more than 2 1/2 years in the army, before returning to high school. They should be a fine example to other returning servicemen.

A traffic sign we have seen recently reads "Slow Down Before You Become a Statistic." With auto deaths continually on the increase, that warning has more teeth than a buzz-saw.

One of our colleagues tells us that there is as much horse sense as ever, but sometimes when we think of the OPA we believe the horses have it all.

With the increased production to toweling material we will soon be able to buy towels again for the whole damp family.

Courier to Conduct County Election Poll

Voters Will Select Choice of Candidates

The Charlevoix Courier, together with the Boyne Citizen, this week announce a county-wide election poll to be conducted by the Courier. The Boyne Citizen is aiding this newspaper in the poll.

Readers will be asked to select candidates of their choice for county offices and mark an X opposite each name so selected in a poll ballot which will appear in this newspaper next week, together with full instructions.

The purpose of the poll is to get the consensus of readers throughout the county, the results of which will appear in this newspaper at a later date.

Charlevoix County is among the few counties in this section of the state where heavy opposition appears for county officers. Entered in the race for sheriff are four candidates which will furnish readers with a fine choice for the poll for that office.

Watch for the complete ballot in next week's issue of this newspaper and be sure to mark your choice and mail or take it to the Charlevoix Courier.

The Boyne Citizen will aid in the poll in the northeast section of the county while the Courier will conduct a poll elsewhere in the county.

4-H'ers To Have County Camp Site

Authorization has just been received by the County Extension Office for use of the Church of God camp as a 4-H camp site. Charlevoix county has long needed a camp as an incentive to the promotion of 4-H club work. The Farm Bureau women of the county are greatly interested in 4-H club work and it was through their efforts that the camp site was secured. Although plans for the camp are not complete, the dates have been set as July 9-12. Details of the educational and recreational program will be announced later. The camp is ideally located two miles south of Charlevoix and its facilities are adequate for a fine 4-H camp. The camp has dormitories to accommodate approximately 40 girls and 40 boys. All 4-H club members who participated in the winter program and who enroll this summer are entitled to attend. The cost of the camp has not been definitely determined but it is expected to be between two and three dollars. Watch this paper for further announcements, coupons for reservation, program, etc.

Start your 4-H summer club now. For details consult your County Agricultural Agent or Karl C. Esterling, District Club Agent, Boyne City, Michigan.

Washing Scarves
One secret for washing big printed scarves which double for bath, apron, blouse, is speed. Cut the time the scarf is in water to a minimum, keep the water lukewarm, roll in a towel for fast drying. In a pinch such scarves, like hankies, need not be ironed if spread flat to dry against a radiator, the wall or bathtub.

OPA to Enforce Price Control

A meeting of price panel members of the Petoskey Price Control Board was held last week at the board office. Ralph Dean requested the meeting to re-emphasize the need for renewed vigor in application of the Price Control regulations.

Mr. Dean pointed out that the Michigan District was filing comparatively fewer price-panel settlements than any other District in the Third Region. This was true, he said, despite the fact that Michigan comprised one of the largest OPA Districts in the entire country.

Mr. Peterson, price control chairman, urged the price panel members to bear in mind that the price control act is "still the law of the land and so long as it is, the panel members were duty-bound to pass judgment on ceiling violators with as much rigidity in the future as they have in the past."

"It would be manifestly unfair," he said, "to those who have made settlements through the panels, if we relax our attitude toward the cases coming up for hearing, now. In fact, we should approach these cases with a stern outlook judging from our recent record, which indicates that we have been somewhat reluctant to apply the inhibitor-traitor's claim."

Mr. Peterson further urged all consumers to check ceiling prices more carefully than ever before. He pointed out that the price panels were in a large measure dependent upon buyers' complaint to the price control law and thereby hold prices down.

IRA NOWLAND

Funeral services for Ira Nowland, 79, who died at the home of his son, Ben E. Nowland, in Petoskey, on Wednesday, were held at the Peters Funeral home there on Saturday. Interment was in the Brookside cemetery, Charlevoix.

He is survived by his son, Ben, and three grand-daughters.

Feed Costs More

Whether the farmer realizes it or not, some of the feed that is going into his livestock jumped in price from 17 to 25 percent recently. N. L. Smith, farm management specialist at Michigan State college, says that happened when the government offered a 30-cent a bushel bonus for wheat and corn. Grain, of course, is needed in the emergency famine program, and the offer was made to bring it off the farms.

The farmer, using these grains to feed livestock, however, will have to compete with that price to continue his program. If he has the feed it is not an "out of the pocket" cost, Smith says, but it must be considered in the feed cost.

Since Michigan is a feed-deficient state, many have to buy their grains. If they do not have feed available, they are going to be competing with the government program to get feed to continue feeding operations.

The farm management specialist recommends that a well organized farm business should not be disrupted by present uncertainties. "Some adjustments may have to be made," he commented. "Breeding herds and flocks should be carefully culled and maintained. Use available feed for the high producers—it will do the most good there. Don't forget that good pasture and good hay will ease the drain on grain supplies in many cases," Smith stated.

He advised those raising crops for cash to strive for higher yields. This will mean more grain for needs this fall and winter and higher profits at the same time.

Food Famine

Peace has brought anything but plenty. Instead it's brought us a world of starving people . . . and placed in great deal of the burden of providing food on the shoulders of the American people.

The United States as a country, and we hope every American as an individual, has promised to do everything possible to help feed the starving millions in war-torn Europe and Asia. To do this the Emergency Food Program, has been set up.

You don't have to make donations, you don't have to make depriving sacrifices, but you can do a lot by following the main points of the feed program.

Essential for everyone is that you don't overeat nor waste. No one is being asked to go without, just eat no more than you need.

But as a farmer you can do more than this. Plan to raise all you can during 1946 at guaranteed prices . . . and market your excess grain now. If you market your wheat now, you get a 30 cent a bushel bonus.

By selling your extra wheat now under this payment plan, you needn't be worried about losing money because of prices going up. While getting some security for yourself, you'll be providing extra wheat to ease the food situation in Europe until they can make use of their own harvest.

Mastitis

The most serious enemy of the dairy industry . . . the most costly disease that dairymen contend with . . . is mastitis. Russell E. Horwood, specialist in dairy at Michigan State college, points out that a recent survey showed that 26.2 percent of all milking cows are infected and that these infected cows produce 22 percent less milk and 24 percent less fat than normal cows.

Fatless Salad Dressing

It's time for spring greens, and since fats are at a premium, it's time for a fat-saving salad dressing so get your pencil. Mrs. Vivian P. McFawn, extension specialist in foods and nutrition at Michigan State college, suggests a dressing . . . requiring only one tablespoon of fat . . . to spice up your greens. Write down the ingredients and try it on your next batch of greens.

These are the ingredients for the dressing: One or two eggs, three tablespoons of vinegar, a third of a cup of milk, one tablespoon of table fat or drippings, a half teaspoon of salt, a half teaspoon of sugar, a half teaspoon of mustard, an eighth of a teaspoon of celery seed and a dash of paprika.

Now, beat the eggs and vinegar

until you have a smooth mixture, then add the milk and table fat. Add the seasoning and cook the mixture over hot water. Stir constantly until it's about as thick as heavy cream, then pour it into a container.

Dehorning Cows

Dehorning dairy cows no longer needs to be a painful ordeal, according to veterinary authorities. A method has been devised for injecting a local anesthetic into the nerves that supply the horns. The horns can then be removed with no more pain than when the dentist extracts an infected tooth.

Thad Phipps and the Garden Party

Thad Phipps' wife finally got him to the Ladies' Flower Club Lawn Festival and Garden Party.

At first Thad was mighty uncomfortable in his Sunday best, making polite conversation with the ladies, nibbling on watercress sandwiches. Until Milly Hartzell comes up with a tray of ice-cold beer in frosty glasses.

"I suppose," says Milly slyly, "you'll think beer's a sissy drink." "Sissy drink!" says Thad emphatically. "Just because it's mild and moderate doesn't make it sissy! Beer's a man's drink!"

And then Thad sees that half the ladies there are sipping beer, as well as those who've chosen lemonade and cider, and he mutters: "I reckon it's a ladies' drink, too."

From where I sit, more and more people are realizing, like Thad, that beer doesn't belong to any special group or occasion—it's a wholesome American beverage that belongs wherever folks enjoy good taste and moderation.

Do you know the answers?

A QUIZ BASED ON THE ANNUAL REPORT JUST ISSUED BY THE STANDARD OIL COMPANY (INDIANA)

Most of you may know little about us except that nearly everywhere you ordinarily drive your car you can roll up to a Standard Oil pump and say "Fill 'er up!" But, because what we do affects your life in so many other ways, we'd like to take you behind the scenes to see some of the things we've been doing of late. We think it might prove more interesting to do it in the form of a quiz—which won't be any great brain-twister, as the answers are directly below the questions.

1. In how much of the United States does Standard Oil (Indiana) operate?

Like most of the rest of you, Mr. & Mrs. Mid-America, we were "born and raised" in these north-central states. From them we have spread out either directly or through subsidiary companies until now we market in 40 of the 48 states. We market in 15 of these states under the Standard Oil name.

2. How does Standard of Indiana compare in size with other oil companies?

There are larger oil companies and smaller ones, but it's generally known, of course, that ours is one of the largest. To bring you high grade petroleum products, wherever and whenever you want them, takes almost limitless facilities and equipment, and the skill and experience of many people. America needs big business as well as small, so long as competition is fair. We think ours has been fair. It must have been, for there are many more small competing companies in our territory, doing very nicely, than there were earlier in our history.

3. Just how large is Standard of Indiana's business?

In terms of crude oil and refined products sold in 1945, it totaled 215,000,000 barrels. Transportation of this made a lot of business for pipe line men, railway men and truckers. And it provided the stock in trade for 27,765 small businessmen, the independent operators of service stations handling our products. Similarly, our payments, in connection with crude oil produced and purchased, were a source of income to thousands of land owners and independent oil producers.

4. Is Standard of Indiana active in the discovery of new oil fields?

Our search is never-ending. We have drilled wells in 19 different states. Last year, our drilling was carried on in such varied places as West Texas, the Gulf Coast, and Northwest Colorado. To those dis-

tant areas, we also extended our pipeline to bring the crude oil to our refineries. Such operations are necessary if we are to continue to deliver gasoline in Sault Ste. Marie, Kokomo, and thousands of other towns and cities. If we hadn't operated on a big, efficient, and economical scale, you wouldn't have been able to buy that gallon of gasoline for about the price of a pack of cigarettes.

5. What was the income of Standard Oil (Indiana), and what was done with it?

In 1945, we received for crude oil, products, etc., \$627,626,612. Out of each dollar, the owners of the business—the stockholders—received only 37 cents. It took 57 cents of each Standard Oil (Indiana) dollar to pay for materials, transportation, and operating costs; 19.2 cents were paid to employees (including employee benefits); 15.5 cents went for taxes, depreciation and other costs; and 4.4 cents were retained for development of the business.

6. Why was more money retained in the business than was paid out in dividends?

Because we must spend about \$150,000,000, this year if possible, to make improvements we couldn't make during the war and to build new equipment needed to keep pace with technological progress. Such expenditures give the public better products and service, support the jobs of employees, and make investments in our business more secure.

7. How many people own Standard Oil (Indiana)?

97,166 stockholders own our \$819,650,938 of net assets. No individual among them owns as much as 1 per cent of the stock. The largest stockholder is not a person, but an institution for the public welfare, and it owns between 4 and 5 per cent. Among the stockholders are 684 charities, churches, educational institutions, etc.; 10,296 other corporations, insurance companies, protective organizations, etc.; and 39,631 women.

8. How many people are in the employ of Standard Oil (Indiana) and how do they get along together?

There are 36,332 men and women employed in the various departments and subsidiaries of the company. Long-established plans for vacations with pay, sickness and disability compensation, and old-age retirement have helped stabilize our relations with employees. We have striven for and believe we have achieved good relations and mutual understanding with our employees, both non-union and union. We have entered into contracts with 108 separate union organizations.

9. What is Standard of Indiana doing in research?

Our research expenditures last year were \$3,700,000. New research laboratories, now under construction near the refinery at Whiting, Indiana, will enable us to double our present research staff there to number some 420 scientists and 800 assistants and technicians. The primary aim of this research is to give you constantly more and better products; however, our researchers will follow up their more promising discoveries wherever they may lead.

10. And what makes "the wheels go 'round"?

We continue in business to make money. The stockholders, who invest their savings in our tools and equipment, are entitled to a reasonable return. So are the employees, who do the work. We make money for many of you when we supply you energy-packed products for profitable use at little cost. The hope of profit has resulted in the production in America of more of the good things of life—for more people—than any other nation has produced at any time in history.

Our hope of benefit, for all concerned, causes us to seek new ways to serve you, to build new research laboratories, to improve our properties in your communities, and to keep in mind always that we must treat you—our customers—the way you want to be treated.

Consummate Sale Fountain City House

The Fountain City House, northern Michigan's oldest resort hotel, located on River street, has been sold to Charles Levitt and Jack Glick, of Detroit, Mr. and Mrs. Harold Bedford, former owners, announced this week.

The hotel, which has 45 rooms, a dining room, kitchen and lobby was established in 1867 by Richard Couper, and has remained in the family since then. In 1905 it was sold to Mr. and Mrs. Harrison Bedford, son-in-law and daughter of Mr. Couper. Mrs. Bedford continued to operate the hotel until 1932 when she sold it to her son and daughter-in-law, Mr. and Mrs. Harold Bedford.

The new owners plan to redecorate the hotel and add many improvements. The dining room will be open this season for the first time in several years.

Disease Research

One of the more important research jobs being attacked by veterinary scientists is the further investigation of equine encephalomyelitis. This disease, attacking horses, belongs to the same general group as diseases as poliomyelitis and St. Louis encephalitis in man, and has been recognized as a virus infection since 1930. One well-established fact now is that mosquitoes can transmit the disease to horses and to other warm-blooded animals, including birds.

POLICE WARNING!

CHECK YOUR DRIVING—CHECK YOUR CAR—CHECK ACCIDENTS

DON'T YOU DARE DRIVE AGAIN UNTIL YOU READ THIS SIGN!

Police officers of the United States and Canada, under the sponsorship of the International Association of Chiefs of Police, begin their Traffic Safety Check on May 15, to curb the rapidly mounting toll of traffic fatalities and injuries. In 1945 28,500 persons lost their lives and 1,000,000 were injured in motor accidents. The police believe these figures can be lowered if all drivers will drive safely in safe cars.

He borrowed his way out of debt

Once there was a man who earned enough money to live as comfortably

as his neighbors. Yet he kept going further into debt. Every week his money burned a hole in his pocket and before the next pay day he owed everyone.

He was headed for trouble until one day he decided to do something about it. He talked with his banker who agreed to grant him a personal loan to cover his

debts. On his part, the man agreed to come to the bank first thing every pay day and make a payment on the loan. He also agreed to live within what was left and not go any further into debt.

Before long the loan was paid, but he still continued to call at the bank every pay day and make a deposit in an account of his own. Now he knows the systematic method of sound management.

STUDY IN AMERICAN STRENGTH

"Three American airmen, Edward Mallory Vogel, Tennessee; Izzie Goldberg, the Bronx, N. Y.; and Edwin J. Sipowski, Waukegan, Ill.; killed in a take-off in San Juan Harbor, were buried side by side, with a protestant chaplain, a Roman Catholic priest and a rabbi officiating. The flag for which they fought flew over them."—News Item.

A chaplain, a priest and a rabbi—
Protestant—Catholic—Jew
Three Yanks in three simple cases—
Three colors, red, white and blue...

A hush on a tropic island
As notes from a bugle fall—
Three rituals slowly chanted—
Three faiths in a common call!

A lad from the Bronx; another
Who joined up in Tennessee;
A third one from far Waukegan—
A typical bunch, those three!
A crash in a naval airplane...
A rush to its crumpled side...
And near by Old Glory marking
The reason the trio died.

They answered a call to duty
From church and from synagogue
From hillside and teeming city...
Three names in a naval log!
Each raised in his separate concepts—
Each having his form to pray—
But all for a faith triumphant
When rituals fade away!

A prayer in Latin phrases—
And one with more ancient lore
A Protestant simple service—
All one on a distant shore!
"Qui tollis peccata mundi"...
And "Enter ye unto rest"
A blessing from ancient Moses...
For three who had met the test!

This is the story mighty
Making our sinews strong:
Boys from the many altars
Warring on one great wrong!
This is the nation's power,
This is its soul of mail:
Land where each narrow bigot
Knows that he can't prevail!

Thinclads Win Class C Trophy

Coleman's Crack Team Prove "Best" at Cadillac

By DAVID HAMILTON
In a downpour of rain last Saturday, Coleman's Thinclads came through to win the Northern Michigan Class C Regional Track and Field meet trophy at the Lincoln athletic field in Cadillac.

During the steady rain and wind in the morning the field events were slow and CWS failed to take a first. The track events were better and most of all of the Charlevoix team qualified to run in the finals slated for the afternoon.

When the finals began, Jackson, star of the Leelanau school for boys, was dazed by the capability of the local lads and had to be content with a weak second in the events which he expected to take without a struggle.

Don Zettler, dubbed the "gawky Goose from Charlevoix" by a few of the spectators, started the mile run in 11th place, but proved his worth by passing all the way up to the third slot in the third lap and finished a fine first, a good 15 yards ahead of Howard Struthers, another CWS star.

Dick Joliffe, a freshman, was the lad who downed Jackson, a senior, in the 220 and his brother, Bill, added another star for the quarter-mile run.

Captain Bernie Ward lovingly carried the trophy home, after being warned by Mr. Coleman as to the handling.

Summaries:

Shotput, B. Ward, 2nd with a put of 41 ft. 5 in.

Broad jump, F. Martin 5th.
High jump, F. Martin and R. Carey tied for 2nd.

Storing Foods Properly

When storing food in the refrigerator remove paper wrapping from all except frozen food, say home economists, explaining that paper acts as insulation and hinders the cold from getting at the food. Instead, use covered containers for all refrigerated food except uncooked meat, and cover that lightly with waxed paper.

Couple United Sunday In Pompous Ceremony

Miss Esther Marie Harwood, daughter of Mr. and Mrs. Lester P. Harwood, became the bride of Robert B. Livingston, son of Mr. and Mrs. A. L. Livingston, of this city, at a ceremony performed at 4 o'clock Sunday afternoon at the Congregational church. The Rev. W. D. Wood read the service before a background of white snapdragons, palms and lighted candles. Miss Gwendolen Miller, at the organ, accompanied Mrs. Carroll Felder who sang "I Love You Truly" and "O Promise Me." She also played the traditional wedding marches.

The bride, given in marriage by her father, chose a white satin gown fashioned with a surplice bodice, trimmed with silver and white beads, long sleeves and a long train. Her veil was finger-length and she carried a shower bouquet of white rosebuds and forget-me-nots.

Miss Clara Speigl, maid of honor, wore an Albee blue taffeta dress, made with a sweetheart neckline, short sleeves and full skirt, trimmed with pink bows. She carried a bouquet of pink roses.

Archie L. Livingston, Jr., assisted his brother as best man. Ormiston Bergeon and Harold Chew acted as the groomsmen.

Clare Harwood, brother of the bride, dressed in a white linen suit, was train bearer.

Mrs. Harwood chose a navy crepe dress with navy and white accessories for her daughter's wedding. Mrs. Livingston, mother of the bridegroom, wore a gold dress with matching accessories. Both wore corsages of white carnations.

Mrs. Albert Harwood and Mrs. Carrie Livingston, grandmothers of the couple, were also present. Mrs. Harwood wore a navy ensemble with matching accessories. Mrs. Livingston was attired in a gray suit with navy accessories. Both wore corsages of white carnations.

A reception for the wedding party and thirty guests was held

in the church dining room following the ceremony. The refreshment table, which was decorated with white snapdragons and white tapers, was centered with a three-tiered wedding cake topped with a white dove.

The couple left on a wedding trip through eastern Michigan after which they will make their home in Charlevoix.

Both are graduates of the Charlevoix high school. The bride has been on the staff of the Charlevoix hospital as a nurse's aide. The bridegroom attended the Davenport Business college, Grand Rapids. He was discharged from the army in June, 1945, after serving more than three and one half

"True friends visit us in prosperity only when invited, but in adversity they come without invitation."—Theophrastus.

Jack Hartzell, who handled the umpiring duties Sunday at the South side athletic field, looked like big time. His decisions looked good to the crowd 'cause he calls 'em as he sees 'em!

When fire broke out at the Hallett Hotel last Tuesday night, causing an estimated \$1,000 damage, real hardship was the loss of Mrs. Tanner's wardrobe which is not replaceable. Mr. and Mrs. Tanner, formerly of Plymouth, Mich., are new owners of the Hallett.

As a merchandiser, Harry Craig of the Argo Milling Co., and former supt. of Charlevoix schools, is second to none. Taking proper care of his large clientele is a pleasure to him as he conducts his unique service system and management ability.

The Kroger Grocery and Baking Co. has installed a "Medical and Tonic" dept. in their local establishment recently. If today's shopping problems give you a headache, just drop by the aspirin dept. and relieve it!

Dear Mr. Editor: "It seems if we want anything done in this town, you seem to come closer to having it done than city officials. In regard to BB guns used in the city limits, I know there is an ordinance which prohibits it, but they still are used. Been reported, but nothing comes of it! Certain boys are shooting at birds and other animals, also children are in danger of being hit, as they shoot everywhere. Could you write an article PLEASE in your paper in regard to this? Success to you in your clean-up! We need it."

At Sunday's baseball game, we saw Ken Seibert, Frank Ostrum, Ben Brown, C. M. Bice, Mike Juergens, Cy Powers, Rolfe Lewis, Elmer Doerr and Allen Campbell throw a "load-skin" in the collection. Nice work, fellas, the team needs that kind of support!

One of the bright spots of Spring, the English hawthorn in bloom, will soon be in evidence. Three of these unusual trees may be seen around town, located at 302 Michigan, 213 Antrim and 406 Dixon, besides several on the Chicago Club grounds, which are enjoyed each year by all who see them as much as the owners themselves. Little, however, seems to be known of these flowering trees. In doing a little research we find that "the English hawthorn is related to the apple tree as well as to the plum and peach trees. The common hawthorn is a native of Europe as far north as Sweden and of North Africa, Western Asia and Siberia. It has been naturalized in North America and Australia. It likes a dry soil and clay and the latter makes the blossoms pink. It grows to a height of 4 to 5 feet or 12 to 15 feet, and in exceptional cases, as high as 20 to 30 feet. It has been a favorite hedge in England as far back as the time of the Roman occupation. The wood is white with a yellowish tinge and is very hard. It is valuable for the manufacture of cogs in mill wheels, mallets, handles for hammer and engraving. Legend has it that the staff of Joseph Arimathea was of hawthorn. . . . The fruit of the tree is called the haw and has been eaten as food in times of scarcity. Pennants in Europe often make a fermented drink from them." (Many thanks to Miss Florence Milner, librarian, for the above information.)

Striking out the first five batters to face him in last Sunday's Petoskey-Charlevoix baseball tilt, Chick Gallagher proved himself a top-rating hurler. Only exercise his team-mates got was running bases while winning from their opponents 12-6.

Mrs. John Mason called to inform us that Rudy Korth was not the originator of the phrase "Charlevoix-the Beautiful." Says Mrs. Mason: "My father, Mr. Nicholls, coined that phrase when I was a very young girl." Mrs. Mason is, probably, more than three score and ten years young.

Letter to Saint Peter

Inscribed on a chapel wall of an American Military cemetery in England.

Let them in, Peter, they are very tired.
Give them the couches where the angels sleep.
Let them wake whole again to new dawns fired
With sun, not war. And may their peace be deep;
Remember where their broken bodies lie.
And give them things they like, let them make noise
God knows how young they were to have to die!
Give swing bands, not gold harps, to these our boys.
Let them love, Peter, they have had no time.
Girls sweet as meadow wind with flowering hair.
They should have trees and bird songs, hills to climb.
The taste of summer in a ripened pear. Tell them
How they are missed. Say not to fear;
It's going to be all right with us down here.

1892 Charlevoix Sentinel Discloses Rare News Items

We are indebted to Mrs. Arthur Weststaff for a copy of the Charlevoix Sentinel, dated April 13, 1892, which was found in the walls of the former Smith residence at 228 Antrim street, while the house was being remodeled recently. The paper, which was established in 1869, was published by the late Willard Smith. Mrs. Weststaff plans to present it to the library so that everyone may have access to it.

The weekly had some outstanding features, among them advertisements on the front page. Half the page was taken up with an adv. by Mason & Berdan for "Capes and Jackets, a full and complete line, from \$1.50 to \$15.00." Also "Everything new in draperies, fringes, upholstery and chenille spreads, carpets and rugs in elegant designs."

Carpenter, Bartholomew and Co. also had a front page adv. for "Shoes! Shoes! Shoes! We are at the front, our stock of merchandise is also in good shape and will be found as 'Good as the Best' and as 'Cheap as the Cheapest.'"

F. G. Hines and Co., popular druggists, and Calkins and Way, druggists, were listed on page 1.

The remainder of the page was filled with local items which included some choice items such as: "the cigar factory moved to its new quarters yesterday; the freight house at the railroad station is about enclosed; every mechanic and laborer in Charlevoix is busy; Dr. Crouter has disposed of his buggy and bought a new one of the double turn gear sort, of Baker and Son; Charles Arnold has bought a lot on Dixon ave. and has the lumber on the grounds for a house; Frank Brown got a lay-off a few days last week. The Wilbur delivery horse ran away and smashed things, including Frank's head."

Jake Weyburn has sold out his See SENTINEL, Page 8.

Charlevoix Wins From Petoskey

In the opening game of the season here Sunday, the local baseball team defeated Petoskey by the score of 12-6. Lack of practice was evident in both clubs.

"Chick" Gallagher looked impressive when he fanned 14 batters in 7 1-3 innings. He struck out the first five batters to face him. After tiring in the eighth, Henley replaced him, fanning two Petoskey batters in 1 2-3 innings.

Weinrich, starting hurler for Petoskey, was driven from the box before the third inning was over. His support also wobbled.

The local club showed fine ball playing and with more practice should keep in the win column.

First Annual Alumni Meet

President, Secretary Give First Report

The first annual spring meeting of the Alumni Association was held on Monday 20th at the City Hall. The reports of the President and Secretary were given.

The Secretary's report disclosed the fact that receipts totaling \$39.00 were received and expenses amounted to \$49.89.

The President's report disclosed the following:

"The class of 1945 laid plans for the Charlevoix Alumni Association, at a banquet held May 23rd 1945.

The tentative executive officers were elected and were to form plans for a permanent organization.

Those elected were: President, David Hamilton; Vice-President, Ronald J. Ahlfalter; Secretary, Treasurer, J. Anne Campbell.

Class lists were compiled by copying the class lists from the yearly issues of the Charlevoix Courier. Telephone calls and letters answering the "write-ups" the Courier supplied many of the missing years. The complete lists now contain all those graduating in the years of 1910-1912 through 1914 and 1916 through 1919 and 1921 through 1924 and 1926 through 1946.

Of the 32 class lists obtained, containing 1052 members, 413 have been sent a form letter and their class list and membership card.

Health Dept. Stresses Sanitation As Resort Season Opens Here

Plans for protecting the health of Michigan's vacation visitors get under way this month as city, county, district and state health departments begin the roadside and resort sanitation program which will touch each of Michigan's 83 counties and some 9,000 miles of highways. In Charlevoix, sanitation will be observed by the critical eye of William V. Ross, who arrived recently as sanitarian here.

Water supplies will be inspected and samples tested, sewage disposal methods checked, camps and resorts inspected, food and milk supplies and handling facilities checked, swimming places, approved and polluted lakes and streams posted with warning signs.

The purpose of all this work, says John M. Hepler, director of the Bureau of Engineering of the Michigan Department of Health, is to make sure that all sanitary facilities of rural and resort areas, which normally serve a sparse population, are prepared to meet the needs of millions of summer visitors.

Mr. Hepler sent a notice to all local health departments in Michigan this week, advising that they resume the testing of roadside water supplies which had been discontinued in most counties during the war. He urged the engineers to start inspecting wells immediately so that all roadside water supplies can be posted before the heavy tourist travel begins. The majority of the wells tested are in filling stations and roadside parks; the aim of the project is to test any well which might attract tourists.

A health department sanitarian first inspects the well to see if it is built in such a way as to avoid pollution either from surface water or from nearby septic tanks or outdoor toilets. He also takes a sample of the water to be tested.

Potato Fertilization

It must not be forgotten that the potato is a heavy feeder and requires an abundance of quickly available plant food. High yields are possible only by a combination of practices such as plowing under a large growth of succulent leguminous green-manuring crops, the addition of stable manure, and the liberal application of properly balanced commercial fertilizer.

merical fertilizer.

The best position for placing the fertilizer, is in bands 2 inches from either side of the seed piece and slightly below the seed level. Placing the fertilizer so that part of it contacts the seed tends to result in a poor stand. Broadcast applications are also less effective.

Analysis of the fertilizer is important. Usually, a 3-12-12 gives the best results on loam, sandy loam and sand soils, while a 2-16-8 is preferable for silt loam soils. A higher proportion of potash in relation to the other two elements

has not been effective in boosting yields further, but tends to delay maturity and results in potatoes of poor keeping quality. If the above-mentioned grades of fertilizer cannot be obtained, select one as similar as possible. Applying more than 600 pounds per acre has not proved profitable unless irrigation to supply needed moisture is available.

Goop

Another war-time discovery has been found useful on the farm. "Goop", a magnesium dust, incorporated with a combination of asphalt and tar and used in incendiary bombs, is the latest of a long list of war products which may prove of agricultural value. The burning of orchard brush has always been a problem to the orchardist. When trees are trimmed, much of the cut-away brush is green and does not burn well. Some incentive is needed.

Minard Farley of the Michigan Apple Commission got the idea and talked it over with Dr. H. B. Tukey, head of the department of horticulture and Richard C. Johnson of the department of forestry at Michigan State college. A government agency was contacted, and three drums of "goop" were sent to the college for experimental purposes.

The consistency of the product is like that of heavy clay, and it was difficult to ignite. After once started, the burning substance was thrown on the brush with shovels. It did an excellent job of keeping the fire going at a high temperature.

The idea of using the product to heat orchards during low temperature nights is being considered for further exploration into the value of "goop" to the orchardist.

Pastures: Farmers will find good pastures a big boon to their livestock program this summer and fall. Grain

feed shortages will reveal the need for good pasture management practices.

Planting of emergency pastures is highly recommended. The practice of seeding sufficient forage crops to meet the needs of the livestock even in the driest of years is good. It will help maintain fertility of the land, for if not needed for pasture, the grass may be plowed under for green manure.

Sudan grass is the leading crop for the much-needed July and August pasture. Experiments by Michigan State college and results obtained throughout the state show it grows well in hot, dry weather and yields well. Relished by all livestock, it is particularly a great producer of milk. About one-third to one-half acre per animal unit, seeded in the latter part of May, will supply forage from early June until frost, the county agent states.

Alfalfa with bromegrass is an excellent source of pasture in late July, August and September. To insure good fall pasture, rye should be seeded in August or early September at a rate of about one acre for each animal unit.

Plentiful Protein

Three excellent protein foods, fish, eggs and poultry, are plentiful. They deserve special emphasis in home meal planning in order to relieve supplies of the foods needed for famine shipments overseas, according to Vivian McPaw, extension nutrition specialist of Michigan State college. Fish stocks, particularly frozen fish, are at an all-time high. The seasonal peak of egg production is at hand. Markets in most parts of the country have abundant chicken and turkey supplies.

35% more meat wanted! This means thousands of new jobs!

Jobs on the hoof! Raising more meat means more jobs!

Jobs in packing plants!—As demand for meat zooms!

Jobs in stores! More demand means more workers needed.

Making Postwar Jobs—Out of Meat!

HOW many jobs will there be as this country returns to peacetime production? Will there be enough jobs for veterans, for former war workers?

No one can say, exactly. But this much we know: Many industries along our routes offer amazing possibilities for jobs in the immediate future—thousands of new jobs that have never existed before! These jobs are going to grow out of the gigantic demand for goods and services that exists in this country—and from production that will satisfy that demand.

Consider the meat-packing industry. Meat suffered the greatest shortage and was missed more than any other food during the war. Moreover, meat has become a greater item in our diets—both

military and civilian. And new knowledge of the health-giving qualities of meat has made meat more in demand than ever.

Right now, leaders in the meat-packing industry are readying production facilities to take care of a tremendous increase in domestic consumption. They confidently expect a rise in demand of as much as 35%! This will make meat a 4-billion-dollar enterprise, ranking with steel and automobiles in the number of people employed.

It will mean myriads of new jobs on the country's 3,000,000 ranches and farms growing meat, in the 4,000 packing plants, and on the sales staffs serving these plants. It will mean more jobs in the country's 400,000 retail outlets selling meat—and it will mean new jobs in the factories and

the service trades that supply or serve people connected with raising, packing, and distributing meat!

Meat-packing is only one of many industries along the Chesapeake and Ohio, the Nickel Plate, and the Pere Marquette, that are going ahead with all possible speed, now that Victory has been won.

Communication

"A 'shot at random' and I hope it hits something. Dogs everywhere! This town is literally 'going to the dogs.'"

"A well known summer resident said: 'I never saw so many detestable dogs. Why doesn't the city do something about it? I told her why. Do you know, Fellow Citizen, that a dog is more important in this town than you are? A man can buy a license that will permit his dog to run anywhere, on anyone's property and destroy anything he wishes and the owners have no come-back. You can't buy a license for yourself like that.'"

"City officials say there is an ordinance on record that prohibits a dog from running on anyone else's property unless he is on a leash and with his master. Why isn't that law enforced?"

"Last spring a notice was in the paper that all dogs found running loose would be shot. I wonder if the gun jammed? Anyway, the dogs are still to evidence—killing chickens, pet cats and rabbits, destroying shrubbery and gardens all summer, sprinkling milk bottles and porch pillows, and even biting children—but, of course, they don't count. Even the roses in Charlevoix don't smell like roses any more!"

BOWLING RESULTS

Ralph Klein, E. I. Steinhurst entered in doubles events at East Jordan recreation, won 2nd place with 101 pins over-average, losing 1st place by only 12 pins.

Final games will be rolled tonight.

Feature game of the evening was rolled by the Hartzell-Shockley team when their pinfall for the last game of the series totalled 438.

Emergency Hospital Plan One Year Old

Just one year ago this week the first World War II veteran was hospitalized by the Office of Veterans' Affairs under its Emergency Hospitalization plan which operates in connection with local veteran counseling centers.

Since that time 1,008 veterans have received this service. Those veterans were not eligible for federal hospitalization, or such entitlement had not been established, or the Veterans Administration Facility had no beds for them. This represents a total cost of \$77,702.81 actually paid or in process of being paid.

Eight Charlevoix County veterans received this state assistance through the Office of Veterans' Affairs, which office was created by the legislature. One of the responsibilities of the Office of Veterans' Affairs under the act is to "provide such services to veterans as not otherwise offered by federal agencies."

The cost for hospitalization, prosthetic devices, blood plasma, medical expense, nurses, ambulance service and x-rays for these veterans from Charlevoix County already paid is \$348.85 and the estimated cost of cases in process is \$500 or more. These amounts represent a considerable tax saving to the county as well as an earned and much needed service to the veterans.

Four hundred and fifty-two additional hospital cases are being processed, involving an estimated \$67,800. In addition to hospital admissions as shown above, 141 cases were processed and channeled to other local, state and federal agencies for assistance, or were rejected by the Office of Veterans' Affairs as not being eligible for emergency care under its program, according to Gilbert M. Lindsay, Veterans' Counselor, of Hays City.

Former Local Teacher Retires

Mrs. Mason Rose, former resident, now living in Sarasota, Fla., is retiring from the teaching profession. Mrs. Rose taught history in the Charlevoix high school for several years and left here more than 20 years ago to make her home in Florida, where she continued to teach. Following her retirement, she will make her home in California. She is the daughter-in-law of Mr. and Mrs. S. M. Rose of this city.

Mrs. Rose was guest of honor recently at a large picnic given by faculty of Sarasota high school at Myakka River State park. A gift of silver was presented to her from the group.

Venetian Boat Parade Date Set

July 28, has been set as the tentative date for the event which is sponsored by the two groups.

Larger cash prizes for the best decorated boats are also being planned.

Commodore Clarence Wood, of the Marine Club, plans to meet with his club and the Board of Commerce to tie in the near future and appoint committees or the event.

From Bustles...

TO BOBBED HAIR...

To Bobby Sox

Big things have happened in women's fashions since 1904... and since 1918. Yes, and the big changes have taken place in the telephone system since bustles were "the rage."

• In 1904, Michigan Bell had only 65,000 telephones. Total cost of buildings, equipment, wires, telephones, etc., was only 10 million investment dollars.

• By 1918 there were 260,000 telephones; the cost had risen to 38 million dollars.

• Beginning in 1945 there were 1,122,000 Michigan Bell telephones, and the cost stood at 242 million investment dollars.

You see, to add more telephones, and continually improve service, we must invest more money for central offices and switchboards, more for wire and cable—more for everything it takes to provide service.

Right now, 125,000 families want service that we can't supply. We already have started work on a 5-year \$120,000,000 program to enable us to fill waiting orders... to care for future growth... to resume extension of rural service... to put into use new technical improvements... and to give you the service you want in the future.

Rates charged for telephone service do not supply sufficient money for expansion. Such investment dollars must come from the savings of thrifty Americans willing to buy Bell Service securities. And—in order to attract

their money—earnings must be sufficient to assure reasonable dividends, now and in the future. If not, those folks will place their money elsewhere.

Too long a continuation of a rate of earnings substantially below that of other industries would weaken our ability to raise the money required to meet expected telephone needs. So the future quality of your telephone service depends on telephone rates sufficient to produce earnings attractive to investors.

Michigan Bell customers want good service. The telephone bill is so small an item in their regular expenditures that customers want really good service even though it might cost a trifle more than they would need to pay for inferior service.

BIBLE QUESTIONS
 ANSWERED BY THE
VOICE OF PROPHECY
 INTERNATIONAL BIBLE BROADCASTERS

Question—Where did the devil come from?
 Answer—He came from heaven. Jesus said: "I beheld Satan as lightning fall from heaven." Luke 10:18. (See also Revelation 12:9.)
 Q.—I have been told that a day stands for a year in the Bible. That isn't so, is it?
 A.—Only in symbolic prophecy, where beasts represent nations (Daniel 7), and waters represent multitudes of people (Revelation 17:15), also in the seventy weeks of Daniel 9, do days stand for years. (See also Numbers 14:34; Ezekiel 4:6.)
 Q.—What about men like Abraham who lived before Christ's day and never heard the gospel?
 A.—But Abraham had gospel preaching. Galatians 3:8: "And the Scripture, foreseeing that God would justify the heathen through faith, preached before the gospel unto Abraham, saying, In thee shall all nations be blessed."
 Q.—What was the physical condition of God's prophets while in vision?
 A.—(1) Eyes were open. Numbers 21:3, 4, 15, 16. (2) No breath—they did not breathe. Daniel 10:16, 17. (3) Unconscious of what transpired around them. 2 Corinthians 12:2, 4.
 Q.—How can one tell a false prophet?
 A.—Some unmistakable signs of false prophets are: (1) Their predictions sometimes fail. Deuteronomy 18:22. (2) They perform miracles to deceive people. Revelation 13:13, 14. (3) Teach holiness without obedience to God's law. Numbers 16:1-5—compare Numbers 15:38-40. (4) Teach men to commit sin. Jeremiah 7:8-11; 23:14. (5) Pervert the gospel of Christ. Galatians 1:6, 7. (6) Reject divinity of Christ. 1 John 4:1-3. (7) Their fruits are evil. Matthew 7:15-23; Jeremiah 23:14.

Q.—Are angels real? We can't see them.
 A.—Air is real, but we can't see it. Water is the form of vapor is real, but we can't see it. (As clouds or steam we see it, and as liquid or ice we both see and feel it.) According to the Bible, angels have appeared visibly to men. "Do not forgetful to entertain strangers: for thereby some have entertained angels unawares." Hebrews 13:2. Read Genesis 18 and 19, where both Abraham and Lot entertained angels who appeared as travelers in need of hospitality. In John 20:12 we read of two angels at the tomb of Christ.

SPORTS
AFIELD
 By Ted Kesting

Regardless of personal opinions, or individual leanings, the popularity and use of airplanes will grow. There have been numerous expressions both for and against the use of aircraft for hunting and fishing transportation. Those who are "for" the use of the airplane feel that it is a means of more people finding their way to the outdoors-offener. Those who are "against" this use of airplane believe that it will place in the hands of a few a dangerous and unjust power to exploit the virgin wilderness. This is a subject which will affect all sportsmen, at least indirectly. We will have to be aware of the facts in order to exercise our privilege of vigilance.

Major Dave Harbour, of the Army Air Corps, heads the "for" group. He was a flyer for the Army before we went to war, and he has been a hunter and fisherman almost since the day he learned to walk. Here are his thoughts on the subject:

All men who have the love of fishing or the hunt deeply imbedded in their hearts are as closely akin as any other group of men. That kinship lies in the love of the hunt or the feel of a fighting fish on the end of a rod. It also lies in doing things the fair or sporting way—fair and sporting not only in relation to their quarry but to each other as well. It is this fact that he believes is overlooked when brother sportsman censor each other on the subject of using the airplane for hunting and fishing transportation.

There can be no doubt that the airplane will enable more to hunt and fish offener. CAA predicts that there will be close to a million private planes owned by Americans before 1955. It has been proven all over the world that the answer to conservation and the insurance of adequate game and fish populations lies in an intelligent and well-rounded program involving careful vigilance over food and cover environment, wildlife refuges, restocking, conservation supervision, and the promulgation of necessary seasonal hunting and fishing laws. . . rather than in limiting numbers of guns or rods.

How the man transports himself to his duck blind or trout stream is immaterial. It is what he does after he gets there which proves whether he is worthy of belonging to the family.

However, the isolated and beautiful sections of wilderness which we have purposefully preserved as sanctuaries should remain that way. The sportsman pilot should be as quick to subscribe to fitting legislation along this line as anyone else. Fair and just national and state laws setting forth cer-

tain lakes or other sections on which aircraft may not be landed is certain and proper.
 We must progress cautiously, but we cannot afford to be backward in refusing to acknowledge the inevitable advancement of the airplane into the field of outdoor sports.

Coatta, son of Mr. and Mrs. Frank Coatta, Jr., of this city, at 11:45 Saturday morning, May 18. The Rev. Fr. Raymo celebrated the Nuptial Mass at an altar decorated with baskets of spring flowers.

For her wedding, the bride chose a gown of white net over taffeta fashioned with a sweetheart neckline, long sleeves which came to points over the wrists and a full skirt. Her fingertip length veil was held by a floral head-band. She carried a bridal bouquet of white carnations.

Miss Patricia Eckhart, of Indianapolis, Ind., was her only attendant. She wore a dress of light blue satin fashioned like the bride's gown and a shoulder-length veil of blue net. She carried a bouquet of pink and white carnations.

Frank Gengle, of Charlevoix, assisted the bridegroom as best man.

Mrs. Nuckles was attired in a poudre blue crepe dress and blue and white accessories for her daughter's wedding. Mrs. Coatta, mother of the bridegroom, wore an orchid suit with pink accessories. Both had corsages of pink and white carnations.

It is planned to have an Alumni banquet on July 28th at a place designated later, as soon as can be found to what extent those graduates wish to form an Alumni Association and have a Homecoming date for the former graduates of Charlevoix.

Postal reply cards will be mailed to those whose addresses can be obtained and also postals will be left at the Charlevoix County State Bank for local graduates so that the planning committee can make arrangements as to the number who desire to attend. The banquet will be held between 4:00 and 5:00 p. m. so that all those who attend may also enjoy the Venetian Boat Parade which is scheduled for that evening.

Please remember you are eligible to attend this banquet and take part in the formation of this permanent organization. Speak Vows In Double Wedding

In a double ceremony performed at the parsonage of the Church of God at high noon on Saturday, Shirley Beecher became the bride of Edward Thorpe and Nellie Colubert, of Boyne City, became the bride of Andrew Johnson, of this city. The Rev. W. D. Wood officiated. Miss Agnes Thorpe, of this city, and Ned Thorpe, of Lansing, sister and uncle respectively of Mr. Thorpe, attended both couples.

Miss Beecher is the daughter of Mr. and Mrs. Joseph Beecher and Mr. Thorpe is the son of Mrs. William Thorpe. Miss Colubert is the daughter of Mr. and Mrs. Theodore Colubert, of Boyne City, and Mr. Johnson is the son of Mrs. John Wells, of Charlevoix.

Miss Beecher chose a light blue suit with white accents and white accessories for her wedding. Her flowers were a corsage of pink rosebuds and lilies of the valley.

Miss Colubert was attired in an afternoon dress of blue lace with white accessories and a corsage of white carnations.

Miss Thorpe wore a fuchsia dress with white accessories and a white carnation corsage.

Following the ceremony a reception for the wedding parties was held at the home of Mr. and Mrs. Beecher. The refreshment table was centered with a large wedding cake and decorated with spring flowers.

The couples left on a wedding trip in the upper peninsula after which they will make their respective homes in Charlevoix.

Mr. Johnson served in Europe with the army and received his discharge last winter.

Marine Band To Resume Concerts

The Charlevoix Marine Band, which has been idle during the war years, was reorganized at a meeting held Monday night. About 20 members were present, both old and new.

The band is under the able leadership of Max Smith, one of northern Michigan's finest, who at one time was affiliated with the Charlevoix school system. At a business meeting the following officers were elected: Pres., Harry Ochs; vice Pres., Joe Bellinger; retained veterans; Sec., Pat Moran; Treas., Al Nivvotny.

The band is looking for new members to join the organization. Summer concerts will be resumed sometime in the near future, at the City Park.

Al Young and Herb Weissinger, local artists and designers, have offered their efforts in connection with the "G. I. Open House," to be held July 6 at the City Park.

At a recent meeting it was decided that although most of the refreshment would be purchased for the buffet lunch to be served the public would be asked to contribute potatoes, sugar, cakes.

Approximately four bushels of potatoes will be needed and about five pounds of sugar. With regard to the home made cakes, it was suggested that these be loaf cakes.

As citizens of the community, we have always come, through when it was necessary to meet any emergency during the war. Let's make this "Open House" a real welcome for the returned veteran and contribute in the form of the three articles mentioned above.

Please notify Mrs. Aogua Fochtman, phone No. 600, what you wish to give.

Will Leave For West Indies In September

The Rev. and Mrs. Charles Struthers and two sons, Frederick and John, are expected to arrive from Lansdale, Pa., Wednesday evening for a week's visit. This will be their last visit to their homes before they leave in September for missionary work for the Church of God at Kingston, Jamaica, West Indies.

The couple, the first to go to the foreign field from Charlevoix, have been "adopted" by the local Church of God, the Rev. W. D. Wood, pastor of the church, has announced. While in the field, they will be sponsored and financed by the people of the Charlevoix church.

Rev. Struthers will speak at the regular services at the Church of God on Sunday, June 9, at 11 a. m. and 8 p. m. At the 8 o'clock service on Wednesday, June 12, a special meeting has been planned in their behalf after which the congregation and friends will gather at the lunch room at the high school for a social hour.

Both will teach at Kingston. They will also have their own church near Kingston, one of 70 of their denomination on the island.

Boyne City Trims Charlevoix In Ball Game Sunday

Last Sunday afternoon at the South Side Athletic Field, the Boyne City Independent baseball team trounced the Charlevoix Independent team by a score of 8 to 4. In a game that would make a real baseball fan burst, the Boyne men resorted to the ancient custom of calling their own outs. In the ninth, both "Chick" Gallagher and "Ame" John were called out for not touching the bag. But then the umpire calls "en" as he (2) sees "en."

"Jack" Lusk, the clown of the team, added a bit of laughter to the game, when in the fifth, after being hit by a pitched ball, he danced his way to first. The next pitch, he stole second and an error by 2nd baseman Tarcott, he started for 3rd. After playing his way through shortstop and 2nd baseman to third, he was given the run because of interference by infielders. Crossing home, Bill Azger, could be called the "Lippy Durocher" of Charlevoix. The pitch rane steaming down the groove, and his just behind the plate. The ump called strike and Ted came as near to anger as any man on the team.

In the 7th inning, the third man to bat was Manager Bruce Henley. He sent one down the third base line and the umpire called foul. Then as Bruce was preparing for the next pitch, the referee on 3rd said foul, and 3rd baseman Moore tossed to 1st putting Bruce out, without a chance to run.

All in all, the game was exciting as ball games go. The battery was one of the best in the town. Amos John and Archie Wshageskie handled their position very well.

Charlevoix is determined to take the next win at Pellston this Sunday, June 9.

The score by innings:

Inning	Charlevoix	Boyne City
1	0	1
2	0	1
3	0	1

Hayes Sailor Injured In Navy Accident

William Kane, 19, seaman first class, was seriously injured aboard ship Friday, his parents, Mr. and Mrs. Otto Kane, of Hayes township, were notified in a telegram from the Navy Department on Saturday. He was removed from the ship, the aircraft carrier, Wasp, to St. Albans, New York, for treatment.

No details were given of the accident in which he received severe head injuries. His parents left Sunday morning for the east coast.

He has been in the service since January 15, 1945, and after completing boot training at the USNTP, Great Lakes, Ill., was assigned to the Wasp.

Charlevoix's First English War Bride Arrived Sunday

Charlevoix's only English bride, tall, attractive Mrs. George Sneath, then, the former Mrs. Blaker, of Hlitchin, Hertfordshire, Eng., arrived here Sunday to join her husband, S/Sgt. George Sneath, who is spending a furlough with his parents, Mr. and Mrs. Lee Sneath. She arrived in New York early last week and after two days in the city made the trip alone to Grand Rapids where she was met by Sgt. Sneath.

The couple met in England where Sgt. Sneath was stationed with the Air Force. He was transferred to Germany in August, 1945, and returned to England for their wedding on October 15, 1945. He was injured in an accident in Germany a few months later and was returned to this country for treatment early in May. He is now stationed at Percy Jones Hospital, Battle Creek.

Mrs. Sneath, who arrived only Sunday, had acquired few impressions of life in this country. She said she was very thrilled at the sight of the Statue of Liberty as their ship plied its way up the Hudson river early in the morning. She saw little of New York except for the trip from the ship to the train.

She was impressed, however, with the friendliness of the American people. She said one could ride for three days on a train in England and make no friends. But from New York to Grand Rapids, she said, she told her history at least 20 times to all sorts of people from college professors to just plain people.

Afraid she might have trouble with the American monetary system, she, at first, gave a \$10 bill for everything she purchased but was soon told by the officials aboard ship that that was no way to do things. Everyone wasn't as honest as she.

She asked about food and wearing apparel which could be sent to England and was surprised at the variety of articles available. All food and clothing are still scarce.

Dairymen Form County Co-Op Association

Dairymen of Antrim and Charlevoix counties organized the Antrim-Charlevoix Artificial Insemination Association at a meeting at the Bentley school Monday evening. Temporary directors were elected to carry on the preliminary work. Permanent directors and officers will be elected by the complete membership when the organization is ready to function.

Artificial insemination of dairy cattle is here to stay in the opinion of dairy experts. Since the inauguration of this program at New Jersey Agricultural College in 1937, changes and improvements have been effected so that artificial insemination now can be profitably used for dairy production improvement. The program has now been developed to the extent that it is practical for farmer owned and controlled co-operative artificial breeding associations to serve all the farmers who keep dairy cattle in a given neighborhood.

In the Antrim-Charlevoix association the predominating breeds of dairy cattle are guernsey, holstein and jersey. The services of proven sires of these breeds will be available to the members of the association.

Temporary directors of the association are John Weiland, C. Vander Ark, Harold M. Totten, Vern McGowan, and Paul Doctor who is secretary-treasurer. Farmers who wish to become members of the association can obtain further information and application blanks from any of the directors or from the county agricultural agent at Boyne City.

NOTICE

Board of Review Boosts Valuation

Total assessed valuation of the city of Charlevoix is nearly half a million dollars more than a year ago, according to figures released following the recent adjournment of the board of review.

The valuation this year totals \$2,865,125 compared to \$2,382,490 a year ago and marks the first time since 1934 that the municipality has met the equalized valuation set by the Charlevoix county board of supervisors.

There will be no change in the 15 mill municipal tax which instead of yielding \$35,737 as last year, will produce \$42,977 under the new valuation.

MOTHER OF MRS. RAY HAMILTON DIES THURSDAY

Mrs. Christina Rohland, 72, of Newaygo, died at the Charlevoix Hospital on Thursday following an extended illness. Mrs. Rohland had been visiting her daughter, Mrs. Ray Hamilton, for several weeks prior to entering the hospital.

Spare-Goss Wedding Ceremony Held In Detroit Thursday

Miss Geraldine LaVerne Spare, daughter of Mr. and Mrs. Charles J. Spare, of Detroit, became the bride of Robert E. Goss, of Pontiac, son of Mr. and Mrs. W. E. Goss, of this city, at a candle-light ceremony in the Wesley Chapel of the Metropolitan Methodist church, Detroit, at 5 o'clock Thursday afternoon. The Rev. Russell L. Hubbard read the service in the presence of a hundred guests before an altar decorated with spring flowers.

For her wedding the bride chose a light blue marquisette gown fashioned with a sweetheart neckline and short sleeves. With this she wore a white picture hat, white accessories and a corsage of pink and white rosebuds.

Mrs. Edith Porter, of Detroit, as matron of honor, wore a gown of old rose crepe with white accessories and a corsage of yellow roses. Shelby Goss, of Charlevoix, assisted his brother as best man.

Mrs. Spare chose a dress of sheer black with white embroidery for her daughter's wedding. She wore white accessories and a corsage of pink and white carnations.

Mrs. Goss, mother of the bridegroom, wore an aqua suit with white accessories and a corsage of yellow roses.

A reception for the wedding party and 50 guests was held at the home of the bride's parents at 885 Gladstone ave. from eight until ten o'clock. The refreshment table was decorated with white flowers and lighted white tapers. The large wedding cake was topped by a miniature bridal couple, a family heirloom.

The bride is a graduate of the Northwestern high school and Wayne University and is at present physical education instructor at the Foch Intermediate school Detroit. The bridegroom, a graduate of the Charlevoix high school, served with the U. S. Marine Corps in the Pacific and is now employed by the Michigan Bell Telephone company, Pontiac.

Following a short wedding trip the couple will make their home at Apt. 3, 1780 Seward ave., Pontiac, Mich.

Saddles

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

CASPER, Wyo., boasts a saddle maker who has been at the business for 40 years in that city. Not long ago I visited his shop as a prospective customer, the Harding College stable being in need of saddles. He was no better able to supply us than shops nearer home but he gave me some facts I had not learned while shopping for saddles in other cities.

A good saddle is built on a wooden frame called a tree, much as a shoe is built on a wooden last, except that the tree is built into the saddle and becomes a permanent part of it. Saddle trees are made by men of a highly specialized craft. Trees have to be shaped right, no bulkier and no heavier than strength and design require. Men able to do such things with wood are scarce.

Building DURING the war gliders Uncle Sam needed a lot of saddle-trees men in the construction of gliders. The government employed most of them at about \$160 a week," the saddler declared. Good saddles, not being made any more, might have skyrocketed in price but the Office of Price Administration fixed a ceiling to stop it. Stocks of new saddles soon were bought up by users.

Now the glider business is slack. Wonders have been done with gliders and they are not being forgotten, but fewer are being built. Unemployed saddle-tree men would like to start building saddle trees again—there's quite

a demand. Living costs have built up, however, and they think they ought to have \$120 a week. That's \$6,000 a year and 25% under their defense-plant scale of pay.

A Fair SADDLE manufacturer, Figure it's the one in Casper, in return for his most competent work, and then sold the total product at ceiling prices, it would pay about three-fourths of the wages of the man who made the trees." Obviously it is out of balance. Craftsman manufacturers, dealers and users are all waiting for ceilings to lift.

"If today I engaged a good tree builder," said the Wyoming saddler, "paid him \$120 a week in return for his most competent work, and then sold the total product at ceiling prices, it would pay about three-fourths of the wages of the man who made the trees." Obviously it is out of balance. Craftsman manufacturers, dealers and users are all waiting for ceilings to lift.

The saddle business is small and many small business men are another for sales that are tied up by O.P.A. Plants, employing less than 1,000 men, provide jobs for 75% of industrial workers. Carried too far, this price policy can bring panic and poverty. Liquidating some war-year bureaus would help balance the national budget and help clear the way for new and much needed production.

BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY INTERNATIONAL BIBLE BROADCASTER

Question—How many different words are there in the Bible?

Answer—In the Authorized, or King James Version, there are said to be about seven thousand different words.

Q.—What does "Mizpah" mean? A.—It means watch-tower, and is the name of the place where Lohan said to Jacob: "The Lord watch between me and thee, when we are absent one from another." Genesis 31:49.

Q.—Since Adam and Eve had only two children, and both of them were boys, where did the human race come from?

A.—The Holy Bible says that Adam "begat sons and daughters" (Genesis 5:4), and that Eve was "the mother of all living." Genesis 3:20.

Q.—I hear people talk about "doctrine." What is doctrine? A.—"Doctrine" means teaching—that which is taught. When Jesus was on trial, the high priest asked Him of His doctrine. (John 18:19. See also 1 Timothy 1:3; 2 Timothy 3:16.)

Q.—Someone said the red, white, and blue of the flag came from the Bible. Is that true?

A.—The three colors were prominent in the tabernacle of Israel. (See Exodus 26.) Its curtains were blue, purple (a combination of red and blue), scarlet (red), and fine twined linen (evidently white). Before the ark stood the table of shewbread with its cloth of scarlet, blue, and white.

Q.—What is the hope of the wicked in Proverbs 11:7?

A.—The wicked hope for good without accepting the conditions on which God has promised it, and they will be disappointed. God reproves false prophets for encouraging such false hopes. "Because with lies ye have... strengthened the hands of the wicked, that he should not return from his wicked way, by promising him life." Ezekiel 13:22.

Q.—How soon will God forgive me if I repent?

A.—It is recorded in the Scriptures that when the prophet Nathan pointed out David's great sin, "David said unto Nathan, I have sinned against the Lord. And Nathan said, unto David, The Lord also hath put away thy sin; thou shalt not die." 2 Samuel 12:13. As soon as he truly repented, he was forgiven. In 2 Chronicles 7:14 we read: "If My people... then will I... forgive their sin." No time lag is recorded between repentance and forgiveness.

ROCK ELM MRS. A. B. LAWTON

Cherry orchard spraying started this week in the Porter and Jensen orchards. Here is hoping that the crop will at least meet the cost of production.

Closing ceremonies for the East Jordan schools started with the baccalaureate service the 26th and closed with the commencement exercises the 29th.

June, the month of roses, has started out rather chilly, which makes one wonder what corner summer is hiding around. The weather so far has not been very favorable for crop production.

Mrs. Jensen made a brief call on Mrs. Lawton Friday.

For the first time in over three years, Mrs. Lawton has been having a touch of the flu, but is now well on the way to recovery.

Sterilizes Can

Insuring contamination-free milk, an ultraviolet lamp can reduce the bacteria count in washed milk cans 98 per cent in one minute, tests show. Spraying invisible bactericidal rays, the new lamp is bent U-shape to obtain maximum radiation of all exposed areas in the can and consumes less electricity than a 25-watt electric light bulb.

Talk...Talk...Talk

Every day, words flow in an endless stream from the mouths of

all of us. Occasionally, someone chooses a few significant phrases that put a final period to all talk that has gone before.

One day, in another city, a stranger in a barbershop was sounding off. "The trouble with my bank is..." and he started a tirade about a service charge on his checking account, and a blast against

banks in general. When he was finished, a voice from a lathered face in the next chair came to life. "Glad to know how you feel about that; come over to the bank someday and I'll be glad to straighten it out."

So, if you have a question about any banking service, instead of just complaining to the world at large, talk to your banker who can and will do something about it.

OWEN J. "PAT" CLEARY

Voting by absentee ballot while in service doesn't make a man a reg- istered voter, Owen J. "Pat" Cleary, the veterans' candidate for Lieutenant Governor on the Re- publican ticket, warned veterans.

Cleary said that many of the ex-servicemen believed that the forms filled out in the absentee bal- lot constituted registration.

"These men find themselves un- able to vote when they go to the polls on election day, and every- one should be taken to make sure that the veteran is able to exercise his right of franchise in the coming election," Cleary said.

"Each veteran should be urged to register in his community before May 29 when registration offices close," he added.

Cleary also cited the need of informing the ex-servicemen of his voting rights. The veteran who is discharged during the 20-day period prior to elections, during which time registration is closed, may vote by going to the polls in uniform, regardless of the fact that he may have never registered or voted. This is providing he has not already been in the state on ter- minal leave. Many persons in charge of the booths on election day are unaware of this fact them- selves, pointed out Cleary, and as a result during the recent Detroit mayoralty elections, servicemen recently discharged were some- times prevented from voting.

The veteran who has established residence in Michigan while still in service, although he was in- duced from another state, may register if that residence was estab- lished at least six months be- fore election day, even though the veteran may not have been actually discharged and residing in the state for the six month period. However, he must at least have spent some furlough time here. A veteran who has returned to Michigan and who already resided here may vote by presenting him- self at the precinct in which he resided prior to entering the ser- vice if he was already registered.

"It is necessary in the interest of good government that we do not deprive the veteran of the right to vote," Cleary said. "We can do this," he added, "by informing the veteran of his rights and in- structing the people in charge of the booths as to their duties."

Brown Knows State

There is probably no man in Michigan who is known by more folks than Vernon J. Brown, the present lieutenant-governor. He knows people and how to get along with people—whether they live on the farm or in the city.

At the age of 30 he left the farm to work as a clerk in the office of the Auditor General. Later he was appointed secretary to the superintendent of the Industrial School for Boys, and its chief accountant. After five years with the school he resigned to enter the grocery business in Lansing. He was soon after elected to the Lansing council.

Before he moved to Lansing he had served both as township clerk and as supervisor. As a Lansing alderman he also served as a member of the Ingham board of supervisors.

In 1918 Brown was elected Ingham county clerk, an office he held for two terms. He then bought the Ingham County News, the county seat weekly, and under his management the paper became one of the best known weeklies in the state. He was honored by being elected president of the Michigan Press association.

Elected to the state legislature in 1928, Brown served 10 years without interruption. His service in the legislature was followed by election as Auditor General. Twice re-elected Auditor General, he was then elected Lieutenant-Governor.

During this long career in state government, Brown has visited every section of the state. He has inspected every state institution. He has acquainted himself with the operations of every state agency. He has met with representatives of every branch of business and the professions. He has spoken before hundreds of state associations, and local groups in every part of the state.

The slogan of Brown's supporters is "Brown Knows Michigan." Brown is married and now lives on the farm where he was born. He and his wife have five children, four of whom are married and have families. Two of the sons are veterans of World War I and five grandchildren served in World War II. Two of the grandsons are still in service—one with the air forces in China and the other with the U. S. marines.

RAINBOW TROUT TRAVEL FAR

From the mouth of the Whitney "A" drain outlet of the Au Gres river to the mouth of Saugenee river at Southampton, Ontario, is just 110 miles straight across Lake Huron, but a tagged rainbow trout that made a leisurely two-year trip of it grew 12.4 inches and 3 pounds and 4 ounces along the way.

When this particular trout was tagged March 25, 1944, at Gully pond it weighed only 2 1/4 ounces and was 7.6 inches long, according to records of the conservation department's Institute for Fisheries research. The Canadian who caught it and returned the tag reported it measured 20 inches, weighed 3 pounds 6 1/4 ounces. Its recapture confirms earlier records of both the roving habits and fast growth of rainbows. Previous recoveries of rainbow trout tagged at Gully pond have been made at Long Point, Bundoau and Kingsville, all on the Ontario side of Lake Erie, and in St. Clair river.

War Bride

(Continued from page one)

She thinks Charlevoix is a very beautiful place. She likes everything and everyone so far. She met all her husband's relatives at a family gathering at the farm home of his brother, Bud Smentien, on Sunday. She's sure there were "hundreds and hundreds" of people present but it was just "family."

Asked if she was afraid to make the long trip alone, she said she was really scared and was afraid she wouldn't have the nerve to do it again. But now that she's here, she says, everything is alright.

Oh yes, she was a bit surprised at the fact that all Americans didn't chew gum all the time. Seems she got the impression from the "flims."

So when you see a tall, (6 ft. 7 in.) blonde-eyed girl with grown hair and an attractive smile speaking with a definite British accent, that will be Mrs. George Smentien. She should do much to further Anglo-American relationships.

A Woodland Experience

While walking through the woods Sunday afternoon, June 2, we happened to run onto an odd little creature under a small dead tree lying across our path.

It looked as if there was no life but I was very quiet and careful. I slipped my hand under the little fellow's chin, petted him very

gently and was proceeding to pick him up when the little spotted fawn says "ba" and was gone, M. E. Jones

Postmaster "Joe" Foster has been busy the past several evenings back of his Dixon avenue cottage, maintaining "watch" over his remaining 23 chickens. Joe had twice that many until a hawk found it out and destroyed half of them. Placing a well set trap, Joe caught the killer, but has only one leg to show for it. The postmaster, still maintaining his vigilance, is hoping the animal will return.

Politicians are becoming numerous again. They're a class of Americans that go around hoping for the best, but fearing the worst.

COMMUNICATION.

Northport, Mich.

I have noticed in the Record-Eagle items of people complaining about loose dogs disturbing lawns and gardens. Well, it seems as though the people don't know there is a law prohibiting such nuisance. As the law reads, a person can shoot any dog with or without license not on a leash (not tied up) on his land or anyone else's land.

In Lapeer county they don't tolerate such a nuisance. Different persons have been fined for allowing dogs to run at large. One certain person was fined \$25.00 for allowing dogs at large.

Also, the drunks there are fined from \$25.00 to \$100.00. Anyway the drunks are not often found on the streets of Lapeer. They go home or stay out of sight.

Ross Edgerton
P. S.—The above law is not just a county law, but a state law.

Fox-Gallagher Nuptials Take Place at Pontiac

Before an altar banked with white flowers and palms, Miss Mary C. Fox, daughter of Mr. and Mrs. Edward M. Fox, of Pontiac, became the bride of Francis M. Gallagher, of Fraser, son of Charles P. Gallagher, of St. James at 10 o'clock Saturday morning.

June 1, The Rev. Joseph B. Howard celebrated the nuptial mass in the presence of two hundred guests at the St. Vincent dePaul church, Pontiac. The side altars of the church were decorated with blue iris and ferns.

Given in marriage by her father, the bride chose a gown of imported net fashioned with shirred bodice, sweetheart neckline framed by a gathered ruffle edged in silver stitching and long sleeves with ruffles over the wrists. The back of the gown was buttoned to the waist and ruffled to the floor. Her fingertip veil of imported illusion fell from a jeweled tiara. She carried a white prayer book decorated with gardenias and white rosebuds and a shower of lilies of the valley.

Mrs. Paul O'Connor was matron of honor and Mrs. Gordon Frain, sister of the bride, Miss Marion Rick, Miss Margaret Lynne, all of Pontiac, and Miss Katherine Partney, of Cleveland, were bridesmaids. All were attired in identical gowns of heavily blue net made with short puffed sleeves, sweetheart neckline and lace inserts in the bodice and full skirt. They wore halos of blue maline and clusters of white flowers. The matron of honor carried a bouquet of blue and white garden flowers centered with Wedgewood iris. The bridesmaids carried Colonial bouquets of spring flowers.

Jack Gallagher, of Manistee, assisted his brother as best man and Gordon Frain, Edward Fox, Jr., and Richard Fox, of Pontiac, brothers of the bride, and Edward Gallagher, of Fraser, brother of the bridegroom, completed the wedding party as ushers.

Mrs. Fox was attired in a bluish pink dress with black accessories and a corsage of sweet peas and daisies for her daughter's wedding. Mrs. Gus Havel, sister of the bridegroom, wore a green and white striped jersey dress with brown accessories and a corsage of daisies and sweet peas.

A wedding breakfast was served at the Hotel Waldron for the wedding party and their families. A reception followed at the home of the bride's parents at 1074 Myrtle street. The banquet style

Claude Pearsall, of East Jordan and Boyne City, who is 52 years of age, has been deputy sheriff for 10 years and is at present supervisor of Wilson township.

Glenn Rose, present Charlevoix City policeman, has had 11 years of police and law enforcement training, was a former deputy sheriff and is 44 years old.

Dwaine Hosler, veteran of World War II, resides in Boyne City. He is 22 years old.

BIBLE QUESTIONS
ANSWERED BY THE
VOICE OF PROPHECY
INTERNATIONAL BIBLE BROADCASTER

Question—Was Jesus the only one who fasted forty days? (Matthew 4:2.)

Answer—Moses and Elijah also went without food for forty days. (Exodus 34:28; 1 Kings 19:8.)

Q.—Are not angels our good thoughts?

A.—According to the Bible, angels are real beings. In Genesis 19:3 it is written: "And he [Lot] made them a feast, . . . and they did eat." (See also Genesis 18:8.) No more thought, however good, could eat food.

Q.—Does it make any difference what a man believes so long as he is sincere?

A.—The apostle Paul urges sound doctrine. "Holding fast the faithful word as he hath been taught, that he may be able by sound doctrine both to exhort and to convince the gainsayers." Titus 1:9. Joshua thought it made a great difference as to which God Israel worshipped. Joshua 24:14, 15.

Q.—Who is the "great red dragon" in the Bible? (Revelation 12:3.)

A.—Primarily, Satan. "And the great dragon was cast out, that old serpent, called the Devil, and Satan, which deceiveth the whole world: he was cast out into the earth, and his angels were cast out with him." Revelation 12:9.

Q.—What is the new covenant? I hear it mentioned, but without explanation.

A.—Here it is in Hebrews 8:8, 10: "Behold, the days come, saith the Lord, when I will make a new covenant with the house of Israel and with the house of Judah: . . . For this is the covenant that I will make with the house of Israel after those days, saith the Lord: I will put my laws into their mind, and write them in their hearts: and I will be to them a God, and they shall be to Me a people."

Q.—God would have to make me over new before I could live differently. What can I do?

A.—That's just what God does—He uses creative power which transforms the believer. "For we are His workmanship, created in Christ Jesus unto good works, which God hath before ordained that we should walk in them." Ephesians 2:10. David prayed: "Create in me a clean heart, O God: and renew a right spirit within me." Psalm 51:10. See also 2 Corinthians 5:17; Ephesians 4:24.

A picture of you
and your telephone

NO, NO, NOT THAT! We certainly do not suggest that you include your telephone's photo in the family album. But you may welcome a picture of your telephone service—and how we plan to make it bigger and better. So here goes.

Right now we are working at top-speed on a 5-year \$150,000,000 expansion and improvement program. Our first objective is to supply service to the thousands of families who are still waiting for telephones. But this program is intended to do much more than that. It will enable us to care for future growth and give everyone the kind of service wanted when and where it is wanted.

And Michigan Bell's earnings are in the picture, too, for good telephone service depends on adequate earnings. Thousands of thrifty people have their savings invested in Bell System securities. Their money makes good service possible. In fact, Michigan Bell's \$150,000,000 post-war program will be financed largely by these and other investors. And that program will provide more and better telephone service for you.

So you see, telephone rates—such a small part of your monthly budget—must be maintained at a level which will keep our earnings adequate. Otherwise, investors would not put their money into the telephone business, and the future quality and extent of your telephone service would suffer.

We believe our customers want good telephone service, even if it costs a trifle more than inferior service.

Technical improvements over the years have brought rates for good service down and have kept them down in the face of rising costs. But if the recent rapid rise in costs continues, rate increases may become necessary. In any event, Michigan Bell wants rates no higher—and no lower—than necessary to insure good telephone service.

Did you know that man has been nourished on bread since prehistoric days? Excavators found cakes of baked dough in caves of the Stone Age—a far cry from the crusty, golden loaf wrapped in waxed paper which we enjoy today—but it was bread just the same. And Egyptians are known to have baked bread from light flour 5,000 years ago in the form of small rolls, about the size and shape of buns we now buy.

Today, with the government urging us to save precious wheat for shipment to the starving European nations, we are learning of many new kinds of bread—all of which require less flour—or use a wheat-substitute. I enjoy baking a loaf of my own bread once in a while—and the other day in support of UNRRA's plea to use wheat-substitutes, I baked a loaf made of oatmeal. It was delicious, and my family enjoyed it a great deal!

And to keep my home-made bread fresh and tasty—I followed the example of my baker. I wrapped my loaf in several layers of waxed-paper folding it tightly at the corners, and tied it with a string. It's really amazing how much fresher bread will stay if wrapped carefully. And by taking this precaution to protect the freshness of bread—and all other foods—we can save money for ourselves—and release food for the millions of people who are actually starving in Europe!

By The Editor

Centering the display case in our main-office is a gorgeous bouquet of peonies and "squires," the gift of William Prevost of the Boulder farms. A vote of thanks to you, Mr. Prevost, from the entire Courier staff.

Down but not out is Rudy Korth, that genial gentleman of Charlevoix township, who suffered a recent heart attack which sent him to bed. Hurry up, Rudy, and get well!

Garth Cate, director of Travel and Trade, Scripps-Howard newspaper, and William Palmer, secretary-manager of West Michigan Tourist Association were pleasant callers here Monday enroute to the Soo. Mr. Cate, making his first trip to Charlevoix, was highly impressed with our natural beauty. "Lake Charlevoix is truly the most beautiful lake I have ever seen," he said. Mr. Palmer spoke highly of Charlevoix as a resort city.

"Stew" Coleman, Board of Commerce director, never misses a chance to tell Charlevoix to the world. When he received a request this week to send pamphlets and circulars to the Michigan State Tourist Council in Chicago, he sent them also a huge advertising window display, depicting Charlevoix's beauty as a resort city.

World has been receiving that Mr. and Mrs. Chas. H. Lamphar, former local residents, have opened a shoe repair shop at 1660 South Division, Grand Rapids. The Lamphars have resided in Detroit since leaving Charlevoix.

They turned to night Sunday morning when darkness blanketed the city during a near cloud burst which descended upon this community, in company with a wind storm which at times reached a peak of 50 m. p. h. Damage from the wind was reported throughout the city as trees and branches were felled, closing roads temporarily and covering crosswalks. At least one tree, at Michigan and Dixon, was struck by lightning. It was reported today.

Mary J. Bettis Miller writes: "I wish to extend my sincere thanks to you for sending me the 'Courier' while I was in service. It surely was a morale booster. As soon as I have a permanent address as a civilian, I will renew the subscription."

It's a sad state of affairs we're in. The rewards go to the strikers, the others raise their prices, and the public shoulders the bill.

Mr. and Mrs. Pearl Johnson, and the latter's mother, Mrs. Clara Taylor of Cutler City, Ore., are visiting here for the summer. "We sure enjoy the Michigan weather," said Mrs. Johnson, "and have we ever enjoyed the 'Courier'." Of course, Mrs. Johnson renewed her subscription!

The only thing wrong with a vacation is that the boss tells us when to go, and the wife tells us where.

Miss Barry, new traffic manager of the Michigan Central Air Lines, loves Charlevoix. Proof: She walks and talks about our town taking in beauty in all its splendor! This is the nation's playground, Miss Barry.

Hitting the nail squarely on the head, one writer says that "the real reason a dollar will not do as much as it once did, is that people will not do as much for a dollar as they once did."

Mrs. Wilson, wife of Helvete's manager, Scott L. Wilson, handed us a copy of her home town newspaper this week. As we expected it does feature on page one, a picture of a hard-riding, ropeslinging cowboy from the cattle country. The paper comes from Thermopolis, Hot Springs County, Wyoming.

The Edna Mae beauty shop, of Ellsworth, this season has again acquired the services of Miss Floy Burnette as manager. Miss Burnette has many Charlevoix friends who will be pleased to hear of her appointment. She was a former beauty operator here.

Adelbert J. Usher

"30"

Adelbert J. Usher, 70, editor and publisher of the Charlevoix Courier for 35 years, died at his home early Saturday morning after an illness of six months.

Mr. Usher was born at Danville, Mich., on March 8, 1876. He entered the printing trade at the age of 17 on the Gratiot county Herald at Ithaca. He was employed as printer on Saginaw, Manistee and Petoskey newspapers, coming to Charlevoix in October, 1907, as a partner with the late Glenn M. DuBois in publishing of the Charlevoix Courier. Mr. Usher was editor and publisher of the Courier for 35 years until his retirement in November, 1942.

He was affiliated with the Charlevoix Masonic lodge, and served on the board of the Charlevoix Hospital for eleven years.

He is survived by his wife, the former Ella M. DuBois, whom he married on March 12, 1907, at Ithaca; three sons, Harold W. and Clare D., of Grand Rapids and Kenneth A., of Petoskey; two daughters, Mrs. James Anderson, of Lansing and Mrs. David Dick, of Tecumseh; a sister, Mrs. W. A. VanWegen, of Ypsilanti, thirteen grandchildren and one great-grandson.

Funeral services were held at the See Funeral Home at 2 o'clock Monday afternoon with the Rev. A. B. Claypoole officiating. Interment was in the Brookside cemetery.

"Dick" O'Neill Employed at Brown Motors, Inc. 21 Years

The tire repairing and vulcanizing department at Brown Motors, Inc. is in charge of Dick O'Neill, (old Dick as the boys call him), who started with that organization nearly 21 years ago.

Dick worked only a year as a mechanic's helper, then worked into the tire and battery department until the first world war broke out, when the tire work went "boom."

Realizing the demand for vulcanized tires, O'Neill learned the trade first by the "step-down" method. When the Goodyear Tire Co. developed the "step-up" method, nearly 18 years ago, he enrolled in the Akron, Ohio school of the tire company to learn the latest methods. When he returned to Brown Motors, Inc., he found not only a stack of tires to vulcanize and repair, but also rubber overalls, waders, rubber pants, swimming suits, caps, etc. Believing in "promises," "Old Dick" very often had to work nights to have the work out on time. He never let his customers down.

Maintaining a high degree of efficiency, he soon became known throughout the north and, looking over his job sheets he points with pride to a total of 5,673 tires vulcanized during the first world war. His customers came from Mackinaw City, Harbor Springs, Cheboygan, Petoskey, Alpena, Millersburg, Johannesburg, Boyne City, East Jordan, Central Lake, Bellinre and Elk Rapids. He also had customers from Traverse City, Grand Rapids and Cadillac, besides, of course, his local Charlevoix trade.

In the tire and vulcanizing business, old timers will well remember Dick O'Neill connected with an old-time slogan: "It can't be done, but he did it!"

AUXILIARY MEETS

The American Legion Auxiliary met at the Legion Hall for their regular business session. Mrs. Charles Henika, of Petoskey, district president, spoke to the group on the Auxiliary work and on the next district meeting to be held in Petoskey on July 14.

Mrs. Al Ulrich, chairman of the poppy sales, gave a report on Poppy Day.

A social hour followed with refreshments served by Mrs. Martin Pedersen and Mrs. Harry Walstad.

Only 19 Contest Letters Received

After the receipt of only 19 letters and cards when the rules of the C. S. O. Memorial Contest considered that 50 expressions or suggestions were considered as the minimum necessary to consider the contest bonafide, it has been decided to consider the contest closed and the letters will be held in the records of the Charlevoix Service Organization until some future date when some organization or representative group decides to erect or establish some memorial.

The CSO desires to thank those people who so kindly sent in suggestions and to state that when the community decides that there must be a Memorial for those who gave their all for us, that their expressions will be duly recorded.

Shopping Lists Now Available

A substantial supply of Anti-inflation Shopping Lists has just been received from the Michigan District Offices of Price Administration. They are available at your local Price Control Board.

These lists are being distributed for the customer's protection against paying over ceiling prices. The lists are so devised that you may write the item, the brand, size or weight, price paid, and the ceiling price, thus permitting you to see if you paid no more than ceiling price.

If there is any discrepancy, report it to the Local Price Control Board, and it will investigate the complaint. The complainant's name will not be used, if so requested.

Price control is for the people and by the people. Get your lists from the Local Price Control Board, fill them out, send them in to your board, and help yourself and the Nation toward security.

Miss Susan Miller Wed to Clair Webster, Wednesday

Miss Susan Elizabeth Miller, daughter of Mr. and Mrs. Harold Winnes Miller, became the bride of Clair Stockman Webster Jr., son of Mr. and Mrs. Clair Stockman Webster Sr., in an impressive ceremony performed at the First Congregational church at 4 o'clock Wednesday afternoon.

The Rev. G. Russell Parker, of Northport, read the double ring ceremony before a background of bridal wreath flanked by large baskets of white sunflowers in the presence of 200 guests. Miss Gwenloren Miller, at the organ, played a program of traditional wedding music and the wedding marches.

Given in marriage by her father, the bride was attired in a street length gown of pale blue crepe fashioned with cap sleeves and a shirred bodice and white accessories. Her shoulder length veil of blue net was held by a band of lilies of the valley and she carried a bouquet of white roses and lilies of the valley.

Miss Sally Miller, sister of the bride, was her only attendant. She wore a dress of pale pink crepe with matching accessories and a band of sweetpeas in her hair. She carried a bouquet of pastel sweetpeas.

Richard Fochtman, cousin of the bridegroom, was best man. Robert and William Fochtman, also cousins of the bridegroom, Joseph Rediger and James Foster acted as groomsmen.

Miss Miller chose a navy dress with navy and white accessories for her daughter's wedding. Her corsage was of yellow and white roses and blue bachelor buttons.

Mrs. Webster, mother of the bridegroom, wore a black faille suit dress with white accessories and a corsage of rose carnations.

Following the ceremony a reception for 75 guests was held at the home of the bride's parents. The refreshment table, which held the tiered wedding cake and the groom's cake, was decorated with white tapers and lilies of the valley. Miss Helen Jean Hammond, Miss Anne Campbell, Miss Suzanne Webster and Mrs. James Foster assisted.

The couple left on a wedding trip to Milwaukee and Chicago. For going-away the bride wore a black crepe suit with white coat and accessories and a corsage of red carnations. The couple will make their home at Oyster Bay for the summer.

Both are graduates of the Charlevoix high school. The bride attended the Chicago Art Institute for the past two years. The bridegroom was discharged from the service in May after serving in the Navy for 2½ years. He plans to enter Michigan State College in the fall.

Those from out of town who attended the wedding were Mr. and Mrs. Hugh Miller and Mrs. William Watt, of Royal Oak, Mrs. Norman Iverson and son, Peter, and daughter, Miss Margot Iverson, of Birmingham, Mrs. Frank Brogan, of Elyria, O., Miss Esther Dutton, of Loraine, O., Mr. and Mrs. Richard Faldock, of Midland, and Mrs. Corn Miller, of Petoskey.

Poppy Proceeds Help the Needy

Proceeds from the two million Memorial Poppies sold last month by the American Legion and Auxiliary throughout Michigan will go, in part, to help buy food, clothing and shelter for the needy children of World War I and II veterans. Records show that last year 23,376 such children in Michigan were given aid by the Legion and Auxiliary at a total cost of nearly \$50,000.

One of the outstanding features of the statewide child welfare program is the American Legion Children's Bilet at Otter Lake where in fine quarters and amid beautiful surroundings thousands of orphaned and unfortunate youngsters have been cared for during the past 25 years. Founded in 1921 the Bilet now houses approximately 100 children per month, ranging in age from a few months to 12 years. The March, 1946, report showed a population of 96 including 72 who were children of World War II veterans.

To help carry out this wide-spread child welfare program the Legion maintains a full time case worker who last year handled cases involving 1,315 children.

Every Legion post and Auxiliary unit in the state takes part in the program and all possible aid is given to every needy child.

BAPTIST VACATION BIBLE SCHOOL COMES TO CLOSE

After two weeks of faithful and effective cooperation on the part of the parents, teachers and pupils, the Baptist Daily Vacation Bible School came to a successful close Friday evening with the "Commencement" program in the auditorium. The auditorium was well filled with interested parents and friends. The program, by the children, as always, was interesting and inspiring. The children in their characteristic way, kept the audience interested every moment of the time and exhibited the careful and painstaking work of the officers and teachers during the ten days. The offering was very good.

An enrollment of over 50 was registered. Twenty-one of the pupils had a perfect attendance.

The faculty consisted of Mrs. Norton, superintendent, Mrs. Clayton, Mrs. Elzinga, Mrs. Walstad, Suzanne Miles, Nora Elzinga, Mrs. Miles, Patsy Davis, Bonnie Peace and Mrs. Colbantz. The Pastor gave the devotional talks and helped in many other ways.

Many were the expressions of surprise on the part of the parents and others at the amount accomplished in so short a time.

Farewell Services Honor Struthers

Nearly 100 friends and relatives were present at the church of God Wednesday evening, when special farewell services were held for Rev. and Mrs. Charles Struthers, who will leave in September to become missionaries in Jamaica.

Mrs. John Funk, mother of Mrs. Struthers, presented Pictorial colored hymns, "He leadeth me" and "Beautiful garden of prayer" which were led by Rev. Struthers and accompanied by Mrs. Struthers on the piano accompaniment. The hymns "The rock that is higher than I" and "Higher Ground" were also sung.

The Rev. W. D. Wood, pastor of the church, led in prayer and gave them the scripture of Acts

11:23 exhorting them that with purpose of heart they would cleave unto the Lord. Mrs. Robert Dickie paid tribute to Mrs. Struthers on her consecration and faithful life to Christ. Delors Richardson paid tribute to Rev. Struthers on how he wished her to remember him in prayer. Mrs. Ethel Kyder read for them from Isaiah 41-10 "Fear thou not for I am with thee." Miss Helen Hamilton dedicated a hymn to the couple.

Mrs. Funk paid tribute to her daughter, telling how, when she was five days old, her parents dedicated her to the Lord. When she was eight years of age she was converted and the Lord called her to service. For three years in succession she never missed in Sunday School; she was helpful in securing the first piano for the local Church of God; helped in Young People's work; assisted in improvement in the parsonage; helped to place the bell, which

calls folks to worship, in the church in memory of her father, the late William C. Palmer. She graduated from the Charlevoix high school at the age of 16; attended Western State College two years on a scholarship; taught school at Marion Center for a year; married Rev. Struthers on June 3, 1942; attended Anderson College, Ind., one year. After going to Lansdale, Pa., she continued her college work with correspondence courses and a half year at West Chester, Pa., State College near Philadelphia. The last 4½ months from July until November, 1945, she attended Western State and received her degree of Bachelor of Arts.

Rev. Struthers graduated from the local high school at the age of 18 years; entered Anderson Theological college and was saved under Dr. Stewart's preaching. He was consecrated to missionary work in a service by Byron Chew, a Church of God missionary, home on furlough. His time was spent in preparation to save God from then on. He took three years in College of Osteopathy to assist him in missionary work. He completed his B. A. and Theological degrees and was called to minister the Lansdale congregation and will complete his fourth year there by the time he leaves for Jamaica. He supported himself in college after the first year and has proved himself to be a good pastor. His parents, Mr. and Mrs. John Struthers, are to be commended for standing behind their children and urging them to become leaders in a great work.

Under the church board at Anderson, Ill., they are being sent to Jamaica as instructors in the church school. Rev. Struthers will be pastor of a congregation at Kingston, Jamaica, also.

The Church of God presented them with a gift of \$200 which Mrs. Struthers' mother, Mrs. Funk matched, making \$400 in all. Another friend presented a \$50 Travelers' cheque. The local church has adopted them as their own missionaries and will pay, through the board, \$1200 a year to support them in the field.

A social hour at the high school lunch room followed with a short program and refreshments which featured a large cake, a gift from Rev. Struthers' sister, Mrs. Beatrice Richardson.

A group picture was taken of the Struthers family.

Girl Scouts Enjoy Pine Point Outing

Thirty Girl Scouts and their leaders returned home Saturday night from a happy week spent at the Oldswood lodge, now owned by Gar Wood Jr., on Lake Charlevoix near Pine Point. Because Girl Scouting aims to aid in the development of the girl as an individual and a member

of a group, the year's activities closed with a week of camping for all intermediate Girl Scouts. The purpose of having a camp was to stimulate real enjoyment and appreciation of the out-of-doors; to develop resourcefulness, initiative, and self-reliance; to contribute to her physical and mental well-being; to provide a happy and adventurous experience with activities especially related to the environment and to help her grow in her ability to be an accepted and adjusted member of a group.

To this end the program included: nature hikes and exhibits, picnics, parties, heading, games, and a camp newspaper. Merits were awarded for outstanding good qualities of behavior. The Scouts were responsible for keeping their own rooms in good order, so there was a daily inspection of housekeeping.

The work of the camp was done by the Kaper system. Each day a certain group of girls took care of a certain job. The "keepers" were supervised by Mrs. J. K. Reed; "firebugs" by Mrs. Harry W. Ladd and Mrs. Versyl Seymour; "watchbirds" by the nurse on duty; "cooks" by Mrs. Albert Edwards and the "twenties" by the helping mother.

Mrs. Ralph Hamilton spent two days instructing the girls in weaving head rings, bracelets and belts and in banding tiny felt moccasins. She was assisted by Mrs. Lawrence Swanson.

Mrs. A. W. Goddard was the official guest whose task it is to make a detailed report covering all phases of the camp. This report must be sent to National Headquarters so that the Char-

levoix Girl Scout Camp may have official recognition.

Temporary plans for camping were begun in early April when permission to use the Oldswood Lodge were thought probable. Minimum standards, having been established by Girl Scouts Inc., it was up to the leaders in charge to see that these were followed in detail. Mrs. Harry W. Ladd, assisted by Mrs. J. K. Reed devoted many hours to the organization necessary for this successful cooperative camp. A benefit card party was given by the Dickens Club in April to raise money for the big expenditures of camp. A substantial donation was given by the local chapter of the Order of the Eastern Star. The cost of camping to each camper was four dollars. The only paid adult in any capacity was the cook. All other assistance was volunteer.

Scouts who finished the second class requirements while at camp were: Dorothy Alters, Barbara Bice, Marilyn Bulow, Sara Coleman, Donna Everts, Joan Matthews, Colleen Reed, Leona Scott, Carolyn Smith, Virginia Smith, Freda Taylor and Patricia Webster. They will henceforth be called Second class Scouts and will concentrate on earning the ten badges which will entitle them to First Class rank.

Other Scouts attending were: Deborah Bergeson, Shirley Clement, Carol Cross, Joyce Datcher, Velma May, Dona McFarland, Mona McFarland, Helen Moore, Gleneen Pemberton, Joan Pischner, Barbara Roff, Marion Carol

Seymour, Leola Scott, Jean Swanson, Nancy Swanson and Virginia Taylor.

Others present were Paul Alters, James Ladd, and Brian Seymour.

Nurses who supervised the health for one day each were: Mrs. Jerry Scudler, Mrs. D. C. Nettleton, Mrs. Robert Weststaff, Mrs. Caroline Sessions and Mrs. Gregory Shadko.

Mrs. Albert Edwards was the camp cook and was assisted by the following mothers: Mrs. George Roff, Mrs. John Cross, Mrs. Leslie Everts, Mrs. William Suprenant, Mrs. Leroy Alters and Mrs. Luga Smith.

Assisting in the preparation of the camp site other than the Scouts, who cleaned the lodge were J. K. Reed, Ed Swanson, Lawrence Swanson, Leslie Everts, Guy Scott, C. M. Bice, Robert Miles and Harry W. Ladd.

Special treats were provided by C. M. Jurgens, Mrs. Gregory Shadko, Mrs. A. W. Goddard, Mrs. C. M. Bice, Mrs. Leroy Alters, Mrs. John Cross and Mrs. Ralph Hamilton.

Maxbauer's Creamery delivered milk and drinking water to the camp daily.

Mrs. James Woodward arrived Monday from Detroit to spend three weeks with her parents, Mr. and Mrs. Harold Pearl.

Games party sponsored by American Legion at Legion Hall every Tuesday beginning June 25 at 8:30 P. M. Chicken, 20 games \$1.00.

Killing Poison Ivy

Dr. F. L. Wynd, Michigan State college plant scientist, has come up with the interesting observation that no one is absolutely immune to poison ivy, poison oak and poison sumac.

You may have wondered about this many times as some hardy

souls never seem to be affected, while you or your friends break out in a rash at the slightest contact with this poison ivy.

According to Dr. Wynd and other plant scientists, continued or heavy exposure will eventually cause skin eruption and suffering to those who have avoided it for years.

So the smart thing to do, they say, is to get rid of the pesky growth. This has formerly pre-

sented a major problem in itself to those easily affected by the ivy. But digging the plant up by the roots is no longer necessary with the advent of the new miracle weed killers, such as 2, 4-D and ammonium sulfamate (a MO num aul FAM etc.).

Both of these chemicals are very effective when used as a spray on the leaves of the plant.

You will find it best to use these sprays when the poison ivy is in full leaf. The best time of year is between the first of June and the 15th of July.

The scientists say you will get the best results if you use the spray when the soil is moist but not wet. Early morning or late afternoon, when the air is cool and moist, is the most opportune time to apply the spray.

And don't forget that it nearly always takes more than one treatment to kill the weed. Poison ivy has a habit of playing possum. So even though you've given it treatments at intervals of two to eight weeks . . . you'll need to watch it for at least a year to be sure it is really dead.

Farm Safety Tip
Our farm safety tip for this week comes from Fred W. Roth, extension specialist in agricultural engineering at Michigan State college.

Mr. Roth cautions you not to let your barn burn this summer for lack of safety measures. Be-

certain your hay is cured enough so that it will keep without heating and spontaneously burning. A hot or damp area on the top surface of the mow indicates danger.

You should heed these danger signals and make tests to determine the temperature in the mow. If the temperature goes above 160 degrees Fahrenheit, the hay is liable to burn and must be cooled or moved.

The greatest danger from spontaneous combustion is during that two to six weeks period after you store the hay. Frequent inspections should be made all during this time.

You can get further information on this subject from your county agricultural agent.

Plans for Home Remodeling

Many families in rural areas in Michigan plan to remodel their homes when material becomes available. Some have done considerable work already, and those who have achieved the most success are those who put their ideas on paper before they started. Miss Julia Pond, Michigan State college extension specialist in home management, offers some advice to those who have remodeling ideas.

Many cannot afford to hire an architect and the remodeling jobs are not large enough to justify an expenditure for such professional advice. But Michigan State college homemaking specialists and county home demonstration agents can be of great assistance. They are helping many women plan the installation of a modern bathroom in an unmodern home.

Also, they are helping make plans that organize the work of the kitchen for the housewife.

Families planning to remodel need to make two sets of rough plans. First is the house as it now exists. The second should be a plan of the house after the remodeling is completed. Perhaps they don't plan to do all the remodeling now . . . but the plan should be made now. That will prevent mistakes that someday may have to be corrected when future plans are carried out.

If the ideas are put on paper before actual construction is started it will be easier for the carpenter to do a good job. Everyone will have a chance to study and criticize the plan before actual hammer and saw work is underway.

Too many times people think first of the old pantry in planning a modern bathroom. But a little sketching usually shows that the pantry is seldom the most desirable location. Here is where a little previous planning will bring about great satisfaction—and a lack of planning will result in daily unhappiness.

Your plans need not be elaborate, just simple and accurate. Make them according to scale. Miss Pond assures you it will be time well spent. Just get it on paper before you start.

BEAVER ISLAND

Mrs. Ellen Pischner, Reporter

A baby boy was born to Mr. and Mrs. Clarence Palmer. Mrs. J. H. Gallagher is spending a few days in Charlevoix. Mrs. Mary Martin, who has been in poor health for some time, was taken to Petoskey Thursday for examination. Rose Green returned Wednesday from a few days visit in Charlevoix. Capt. E. Dudley is visiting with his family at the home of Hugh Connahan.

Mrs. Giles McGinn is visiting at the home of her parents, Mr. and Mrs. J. H. Gallagher. Mrs. Wilbur Martin left Monday for Chicago for a visit and to attend the wedding of a nephew. Robert Martin arrived Monday. Mr. and Mrs. Herbert McCaulley returned to Detroit Tuesday, called home by the illness of their daughter. They hope to return later to spend the summer on the island. James H. Gallagher accompanied his daughter and children, Mrs. J. Coppens, to Charlevoix Monday, where her husband will

meet them and take them to Michigan City, where has found a house for them. Mr. Coppens is in the Coast Guard Station. Mrs. J. D. O'Donnell returned Saturday from Charlevoix. Mrs. Gus Mielke returned Saturday from South Haven. She brought with her, her daughter, Mrs. Les Suergel and three boys for a visit.

"Chub" Wilnot, who returned recently from Greenland, arrived Wednesday to spend his furlough with his family.

Saturday morning a big plane from Grand Rapids flew in with several passengers. About 10 a. m., three of them, Louis C. Baker, his son, Robert L. Baker and Clifford Warden, all of Grandville, Mich., hired a boat to go fishing in the bay. No one seems to know how it happened, but the boat turned over and all three were in the water. Ward Bennett, who lives near the Coast Guard Station, seeing that some one was in distress, jumped in his boat and hurried out to give help to the Coast Guards, of which at present there are only two, and they are on duty 24 hours a day. Mr. Bennett, fortunately knowing what to do in case someone should be in the water too long, built a good fire and made beds ready, which proved to be what was needed, as one of the men, Louis Baker, was in a bad way. Mrs. Bennett proceeded to make hot coffee while Ward Bennett helped Coast Guards give first aid to Mr. Baker.

Dr. Russell Palmer was called and after he had made two trips, Mr. Baker was pronounced ready for the trip home, and they all left on the plane.

Red Cross Speaker Stresses Water Safety

Duane Bryan, new Field Representative of this northern territory, spoke to the Charlevoix County Red Cross Board at the John Porter cottage, June 4. Mr. Bryan stressed the necessity of Water Safety in this district. Mr. Bryan's home is in Alpena so he has first hand knowledge of the type of help that is needed from the Red Cross in this district.

The board are sending Mrs. Helen Rothenberger, Junior Red Cross Chairman, and Mrs. Ethelyn Edwards, member of the board of directors, to the twenty-first National Convention at Philadelphia, June 18 to 21. The National Convention is usually important this year, in that it will be the first one held since 1942. It will provide the occasion for planning the future of the Red Cross. The field director, Mr. Bryan, told the board that the small chapters, such as Charlevoix County, were becoming more important every minute.

A veteran says his girl returned his picture with a brief note, "We're through." It was a photo finish.

Why all the stress on a safe driving week, and then drive like mad the other 51.

A young girl in England recently collapsed after an embrace with her sailor friend. A sailor, of course, is nothing more than a wolf in sheep's clothing.

Pickets paraded before two Chicago taverns last week because they employed burlesque. Women's place, they say, is in front of, not back of, the bar.

Navy Offers Opportunities

"The Navy is offering greater opportunities than ever before," in an announcement made by chief torpedoman, in charge of recruiting in western and northern Michigan. The Navy is in urgent need of men in all branches for replacements. Men who have been discharged from the army, navy, marine corps or the coast guard can be enlisted in the Navy for 2, 3, 4 or 6 years with the assurance that the present benefits given a serviceman will continue through his enlistment. High school graduates are urged to contact the Navy recruiting offices at the postoffice in Muskegon or Traverse City, and the Naval Armory in East Grand Rapids, on any day of the week except Sundays.

Applicants between the ages of 17 and 21 must bring their parent (father if living, otherwise mother or person having their custody, in case of divorce) with them when they come to enlist. All applicants must show certificate of birth.

Popular Canned Vegetables
Tomatoes and sweet corn are the two most popular canned vegetables, production figures show.

Thank You!

I sincerely wish to thank the voters for their vote at the primary, June 18.

Better Rural Telephone Service

for More People

Is on the Way

MICHIGAN BELL's big 5-year program of extending and improving rural telephone service is gaining momentum daily.

In recent months we have added over 2,000 miles of wire in rural areas . . . installed telephones for many waiting applicants . . . and reduced the number of parties per line on more than 1,000 overcrowded lines . . . and, wherever we could, we have replaced crank-

type telephones with more modern equipment.

Our further liberalized rural construction plan* will enable additional thousands of rural folks to get telephone service without payment of any line construction charge.

Altogether, this big program will cost \$13,500,000. Our purpose is to assure better rural telephone service at the lowest possible cost to more Michigan people than ever.

*If you live within 1/2 mile of a Michigan Bell telephone line and don't have a telephone, we will extend the line to your place without construction charge. The plan also provides no line construction charge for two or more applicants if the new line extension to serve them averages no more than 1/2 mile per applicant. . . . Monthly payments of 45 cents (spread over 5 years) for each 1/10 mile in excess of the 1/2 mile allowance, with total cost prorated among those served by the new line.

Skillagalee Lightkeeper Rescued
After Drifting on Lake Three Days

Daniel A. Backus, of Harbor Springs, lightkeeper at the Ile aux Galets (Skillagalee) light-house near the Straits of Mackinac, was rescued by the Charlevoix Coast Guard picket boat at noon Thursday after being lost on Lake Michigan for more than three days. He had been on leave to the mainland and was returning to duty early Monday from Cross Village in a 26-ft. motor launch when the motor failed. He started drifting in the fog that enveloped Lake Michigan last week and was found early Thursday morning by the SS Halloway which reported his position to the local lifeboat station.

When picked up by J. C. McDonald and Klaus Anderson in the picket boat, Backus was tired and hungry but otherwise suffered no ill effects from his adventure.

As the light-house had no direct contact with the local station and since the men at the light thought he was remaining at Cross Village until the fog lifted, Backus' plight was not reported until 5 p. m. on Wednesday. All steamers were notified to be on the look-out for him and the Halloway found him southwest of Beaver Island, between the island and Little Traverse Bay about 15 miles from Charlevoix.

Cherry Fruit Flies

Two species of cherry fruit flies infest Michigan cherries—namely, the earlier-maturing dark-bodied species and the slightly later white-banded fruit fly. Both species affect cherries along the entire western coastline and are undoubtedly in other parts of the state as well.

The date for completion of the first spray in Charlevoix County is June 26, 1946. It is, furthermore, recommended that the second spray be applied two weeks after the first spray, in case a period of two weeks elapses between the emergence of the fly and picking time. Additional sprays may be required if poison is washed off by heavy rains. All other fruit trees except peach, interplanted or in close proximity to the cherry trees should likewise be sprayed along with the cherry trees.

Directions for Spraying

Sour-canning cherries which are to be thoroughly washed should receive a spray containing 2 pounds lead arsenate in 100 gallons of spray.

For sour cherries the spray may consist of lime-sulphur, 2½ gallons in 100 gallons of spray plus the above amount of lead arsenate, if lime-sulphur is the fungicide being used. If you are using Bordeaux or proprietary copper fungicides add the 2 pounds of lead arsenate to 100 gallons of spray.

Sweet cherries may be protected by adding the 2 pounds of lead arsenate to a spray consisting of 1½ lb. 25-percent proprietary copper compound or 2 lbs. 12½ percent proprietary copper compound plus 3 lbs. of dry wettable sulphur plus

3 lbs. lime in 100 gallons. (Lime-sulphur cannot be substituted for sulphur in this formula.) If lime-sulphur is the fungicide preferred, use 2 gallons plus 2 lbs. lead arsenate.

These sprays are recommended only for use on cherries that are to be thoroughly washed preliminary to canning or freezing.

Bangs Control

On September 6, 1945 the Bangs Law known as the Bonine Law went into effect. It prohibited the sale of dairy animals over 12 months of age unless such animal is accompanied with a certificate of record issued by the Commissioner of Agriculture upon the furnishing of a negative test for Brucellosis or Bangs Disease within 30 days prior to sale or 90 days if the entire herd was tested and found clean.

A State Bangs Study Committee was organized last year for the purpose of controlling Bangs Disease. On May 27 this committee took further steps in proposing this state-wide program. The following items are noted in their minutes and are presented here for your consideration.

1. A new state testing laboratory is needed and will be requested.
2. Quarantine officers can be hired anytime they are available.
3. Is the State obligated to retest accredited counties after three years?
4. Better identification of animals in the work is to be developed.

5. The clause in the suggested program regarding indemnity is deleted for now because cattle prices are high and most counties on the waiting list prefer Plan 3.
6. Accredited herd rules will be changed to require one clean test every six months.
7. The "certified vaccinated herd" will take care of herd owners with clean cattle who wish to use calfhood vaccination.

8. The amendment to the Bonine Law, allowing movement of cattle within or out of accredited areas and from accredited herds, was approved.

9. The recommended program after July 1st will be printed and released to County Agents, Farm Organization Leaders, Veterinarians, Vocational Teachers, and for general publicity.

Every farmer should consider these items and if there is any discussion or opposition to any of the suggestions I would appreciate it very much if you would either come in or drop me a line to register your comment.

Care For Iris

Your iris are probably blooming in all their glory at the moment, but it won't be long before they drop their petals for another year. When they do that, C. E. Wildon, specialist in horticulture at Michigan State college, says its time to give your iris some care.

After iris have bloomed, they should be divided and moved. Remember when moving them from one spot to another, that bearded iris and bulbous types require good drainage. Japanese types require good drainage, but they also need plenty of moisture. Siberian iris can stand getting their feet wet.

When moving the iris, rhizomes of bearded iris should be planted in heavy soils level with soil surface. In sandy soils cover them to a depth of one inch. Remove the dead leaves after the flowers have bloomed but don't cut back green, healthy foliage.

To control iris borer, don't start that long winter's nap next fall until you've cleaned up and

burned all old leaves and debris. If you find borers in the rhizomes, cover them with about one inch of soil, apply calcium cyanide, and cover with an additional layer of soil. Remove all coverings after they've been on about 24 hours.

Wall Treatment

Stop and think a minute before buying wall paper strictly from its eye appeal. Mary Schell, specialist in textiles, clothing and related arts at Michigan State college, says that frequently you'll get a different effect than you expected once the paper's on the wall... simply because it wasn't keyed to the woodwork.

Where the wood is very dark, particularly if the frames are not too well designed, you probably don't want to show it up with a very light wall paper. Avoid blues or cold grays if you have yellow or oak woodwork... and try yellow, peach or beige instead. A painted yellow woodwork gives nice contrast for a blue paper with some yellow areas in it. If you have your eye on gray or yellow papers, you'll find they give their best effect with white woodwork.

"Why did my
neighbor get
a telephone
before me?"

That's a perfectly reasonable question, and we want everyone to know the order in which we are installing telephones today. For we still follow a priorities schedule established by the Government.

Telephones essential to Government, public health and welfare come first.
Next, business customers moving to new locations within the same area.
Then, new business service for returned veterans.
All other new or additional business service follows.
And, after that, temporary residence service in cases of illness or disability.
Next in line are folks who move to a new residence within the same area.
Residence service essential to military production, reconversion, employment, and food production follow.
Then, residence service for returned veterans and the wives of service men.
And, finally, all other applications for main residence service.

Remember this: within each of these groups, as facilities become available, those who have waited longest get their telephones first.

We'd like to fill every order on our books right now. But material shortages and strikes in many industries have dashed our hope of ending all waiting lists in Michigan by late fall. We now hope to get enough materials so that most of the orders for service received before January 1, 1946, will be filled by the end of the year. In areas where sufficient facilities become available, we expect to fill many orders received this year, but it may be late in 1947 before we can return to a "ready-to-serve" basis everywhere.

We shall spare no effort to fill each order just as soon as we can.

PICKLE NEWS

By H. E. Brumma, District Mgr., H. J. Heinz Co., Charlevoix.

The planting of contract pickles is now virtually completed and many fields are up. Growers should make frequent inspection of the field and be on the look out for the striped or spotted beetle. It is not only a destructive insect itself but also a carrier of the bacterial wilt disease and an important agent in spreading mosaic. The injury to plants as a result of being infected with these diseases may often be more serious than the direct damage caused by the feeding of the beetles on the leaves and stems of the young cucumber plants.

The beetles are especially destructive to the seedlings, attacking them as soon as they appear above ground and in some cases injure the shoot even before it is through the surface of the soil. They eat holes in the leaves and stems, frequently girdling the latter. When the beetles are abundant and growing conditions for the plant unfavorable, many of the seedlings may be killed and others so badly damaged as to make replanting necessary. Another source of damage from this pest arises from the feeding of the grub or larval stage on the roots and base of the stem.

The aim of control measures is to prevent seedling injury by the beetles and also ward off wilt infection. The critical period of attack extends from the time the plants are through the ground until they begin to form runners or vines. Specially prepared dusts are available from farm and seed supply houses or an effective dust can be prepared by thoroughly mixing one pound of calcium arsenate with 19 pounds of finely ground gypsum. This can be applied with a shaker can or a loose woven bag. In case of extreme infection consult your field man.

Due to recent heavy rains many fields have washed to some extent and replanting entirely or in part may be necessary.

Traffic Accidents Show Increase

During March, 27 more persons were killed in traffic accidents than during the same month last year, 112 compared with 85, an increase of 32%. On the same comparative basis, injuries increased 592 or 30%, and total reported accidents increased 2,307 or 41%.

This made the seventh consecutive month since V-J Day that traffic deaths in Michigan have exceeded the toll of the same month during the previous year.

All of the March fatality increase occurred in rural areas. Rural trunkline deaths were up 23 or 153% and county road deaths were up 6 or 30%. Urban deaths were down 10 or 18%.

Total reported urban accidents and injuries were up 39% and 23%, respectively, despite the reduction in urban deaths during March.

Cumulative traffic deaths for the first three months of this year were up 90 or 42% over the same period last year, 306 compared with 216.

All of the cumulative fatality increase, except three, occurred in rural areas. Deaths on the rural trunkline system increased 73 or 209%; rural county road deaths increased 12 or 28%; and urban deaths increased 3 or 2%.

Absorb Moisture

Nuts in a baked mixture tend to absorb moisture and make the food dry. So when you use a large proportion of nuts, place them first in boiling water for a few minutes. Then drain and add them in the usual way.

Use Brush on Hair
Try using a stiff nail brush all around the edge of the hairline when you are actually washing your hair. Powder and cosmetics tend to go over the hairline above the forehead, and rubbing against coat collar may make the hair at the back of the neck get extra dirty. What appears to be excessive dandruff in these areas is caused by the accumulation of extra soil.

Tips on Slips
To get a slip that really fits, consider not only the size, but also the cut. A bias-cut slip usually fits a slender figure well. But a straight-cut slip is better suited to a stout person with large hips. Straight-cut slips stay down better over the knees when you sit, too, and are not so likely to hang unevenly and "tear under" at the back.

Big Ninth Inning Wins For Local '9'

Trailing by two runs in the ninth inning, the Charlevoix "9" came through with flying colors to defeat Harbor Springs, Sunday, by the score of 7-6.

With one away in the final inning, A. John took first base after being hit by a pitched ball, stole second and scored when P. Smith singled to center; Gallagher was given a base on balls; Supernaw then doubled scoring Smith and sending Gallagher to third. In an attempt to catch Gallagher off third, Sommers, Harbor catcher, threw wild allowing Gallagher to score the winning tally.

Charlevoix scored one run in the first inning when Henley singled, took second on a wild pitch and was advanced to third on a fielders' choice. He scored a moment later on an infield out, shortstop to first.

Another run was scored by Gallagher in the fourth; T. Ager and Gallagher accounted for two more runs in the fifth, and scored no more until the big ninth.

Harbor Springs took the lead by scoring twice in the first inning. The visitors scored again in the second, marked two more in the third and were held to five counters until the eighth when a double by Smith and two errors by the Charlevoix infield, accounted for their last run.

"Chick" Gallagher had a field day when he walked twice, drove out a singing single and scored three runs.

Final score, Charlevoix 7, Harbor Springs, 6.

Mr. and Mrs. Clyde Hinkley of Kalamazoo, made a trip to the Island Saturday, returning to Charlevoix the same day.

Archie LaFraniere, daughter Thelma and her little girl, all of Detroit, are visiting on the Island. Our good friend George Stephenson left Thursday for a few days on the mainland. We hope he will not be away too long, so we can have some "Beaver Dams" for the Courier.

The window peeper who was seen peeping in a window one night this week, will be surprised to know he was recognized and by only a minute missed being shot. It will not be healthy for he or any other to try this again, as he will find someone ready for him.

Mr. and Mrs. James O'Donnell are having a foundation laid under their house.

Mr. and Mrs. Emil Pischner and children are visiting at the home of Mrs. Pischner's parents, Mr. and Mrs. F. Gillespie.

Displayed at Wool Bros. hardware during the past week, was an 18 1/2-lb. muskellunge, measuring 36 inches in length. The fine specimen was hauled out of the troll of Clarence Wand last Friday evening while fishing in Lake Charlevoix.

Jerry Scudder, former Courier publisher, trolling at Foster dock, landed a 3 1/2-lb. Steelhead about 9:30 Monday morning. Can you remember the spot, Jerry?

Wilbers' Men's Store has had a real face-lifting recently as the exterior facing Bridge street will attest. In addition to a beautiful awning, the new owners have also painted the front in bright summer colors. Incidentally, inside can be found the finest nationally advertised brands of men's wear obtainable.

Ed Sandlie, who has replaced Les Taylor as manager of the New Palace theatre here, hails from Petoskey, and will assume his new duties pronto.

Visitors who registered at the Bunker Cabin recently include Dr. Janice Chemen and family, of Winnipeg, Canada; Mr. and Mrs. H. P. Hood, Hollywood, Fla.; Mr. and Mrs. P. E. Borr, Miami, Fla.; Mr. and Mrs. E. N. Babi, Redding, Calif.; Mr. and Mrs. I. Magdson, Albuquerque, N. M.; Mr. and Mrs. K. F. Klus, Cleveland, Ohio, and Mr. and Mrs. R. N. Baker, Abington, Penna.

The Airport Restaurant, featuring curb service, is a fine addition to Charlevoix's business services. We predict this unique roadside service will do a record business. The sandwich shop is managed by Mrs. Elmer Doerr, who employs several girls to aid the traveler in having his order brought direct to his auto. Idea originated with Prop. Elmer Doerr, of the Airport Inn.

Bert Beaudin, master farmer, and owner-operator of Beaudin's Standard service on Bridge street, is busy nurturing tomato plants (12 of them) located in a plot on the front lawn of his home. The "farm", reputedly, is the smallest in Charlevoix. Total soil under cultivation approximates 1/200 of an acre.

An Unborn American's Prayer

Protect my right, God given,
to earn and sweat and save.
Smooth my pathway if you will,
but do not erase those heights
which I must climb alone—unaided—
before I've gained the right to rest
content in God's own good grace.

Save for me those freedoms enshrined
upon my nation's scrolls.

A sacred trust bequeathed to you
From those who've gone before.

Enlarge upon them if you will—
But do not I pray you bind them down
into fetters upon my soul.
